Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
	There are a range of measures that are addressing social justice and equality of opportunity	
<p>A globally responsible Wales Taking account of impact on global well-being when considering local social, economic and environmental wellbeing</p>	The objective with the greatest impact on this national goal is maximising the benefits of the natural and built environment for the well-being of current and future generations. This is best illustrated by reductions in CO ₂ emissions from programmes such as hydrogen cars and the solar farm have global as well as local benefits.	As above

2. How has your proposal embedded and prioritised the sustainable governance principles in its development?

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p>Balancing short term need with long term and planning for the future</p> <p>Long Term</p>	<p>This timescale for this plan is medium term as it's aligned with the political cycle. The Objectives themselves are broader and take a much more long-term perspective supported by shorter-term objectives. The plan also seeks to embed design principles and ways of working that are focused on the long term.</p>	<p>Individual proposals in this document are indicative at this stage. New programmes will be expected to produce a future generations evaluation when they are brought to Cabinet or council for a decision.</p>
 <p>Working together with other partners to deliver objectives</p> <p>Collaboration</p>	<p>One of the key sources of evidence for this plan is the Public Service Board well-being assessment. The objectives are clearly aligned with the objectives shared by our public service partners in Monmouthshire and this plan acts as the council's response to achieving those collaborative objectives. Many of the individual actions will be developed with partners.</p>	<p>As above</p>
 <p>Involving those with an interest and seeking their views</p> <p>Involvement</p>	<p>The plan has been developed from an extensive evidence base including widespread consultation with residents of the county. In particular the Our Monmouthshire community engagement work carried out during 2016 (over 1400 people engaged with). A further source of evidence is the feedback received by county councilors about the issues of greatest importance to residents that were obtained during the 2017 election campaign. These are shown on pages 10 – 11 of the plan</p>	<p>As above</p>

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p>Putting resources into preventing problems occurring or getting worse</p> <p>Prevention</p>	<p>The aim of each of the objectives is about taking action now in order to prevent problems in the future. For example, implementing a model of early support and intervention for children and families and promoting active lifestyles. We are also develop community capacity and volunteering now in order to prevent an overdependence on institutional care in the future with an ageing population.</p>	<p>As above</p>
 <p>Considering impact on all wellbeing goals together and on other bodies</p> <p>Integration</p>	<p>The objectives are all integrated, and each one can have positive and potentially negative impacts on another. It is important that as individual proposals are developed we seek to balance competing impacts, for example environmental schemes and more strategic use of section 106 funding can help mitigate the impact of new developments in the built environment on the natural environment. Page 35 of the plan contains a table which highlights which of the objectives impacts on each of the 7 national well-being goals. The Council will work together with other partners to help deliver many aspects of the Objectives.</p>	<p>As above</p>
