Vhat benchmarks and/or criteria will you use to determine whether the decision has been successfully implemented?
Vhat benchmarks and/or criteria will you use to determine whether the decision has been successfully implemented? Think about what you will use to assess whether the decision has had a positive or negative effect:
hink about what you will use to assess whether the decision has had a positive or negative effect:
hink about what you will use to assess whether the decision has had a positive or negative effect: las there been an increase/decrease in the number of users
hink about what you will use to assess whether the decision has had a positive or negative effect: las there been an increase/decrease in the number of users las the level of service to the customer changed and how will you know
hink about what you will use to assess whether the decision has had a positive or negative effect: las there been an increase/decrease in the number of users
hink about what you will use to assess whether the decision has had a positive or negative effect: las there been an increase/decrease in the number of users las the level of service to the customer changed and how will you know f decision is to restructure departments, has there been any effect on the team (e.g. increase in sick leave)
Think about what you will use to assess whether the decision has had a positive or negative effect: Has there been an increase/decrease in the number of users Has the level of service to the customer changed and how will you know If decision is to restructure departments, has there been any effect on the team (e.g. increase in sick leave) The play area has been assessed for its play value, measured against the appropriate standards
Think about what you will use to assess whether the decision has had a positive or negative effect: Has there been an increase/decrease in the number of users Has the level of service to the customer changed and how will you know If decision is to restructure departments, has there been any effect on the team (e.g. increase in sick leave) The play area has been assessed for its play value, measured against the appropriate standards Positive feedback is received from children & families that use the play area
hink about what you will use to assess whether the decision has had a positive or negative effect: las there been an increase/decrease in the number of users las the level of service to the customer changed and how will you know decision is to restructure departments, has there been any effect on the team (e.g. increase in sick leave) The play area has been assessed for its play value, measured against the appropriate standards Positive feedback is received from children & families that use the play area The condition and safety of the play receives regular on-site inspections for safety and compliance with appropriate standards
hink about what you will use to assess whether the decision has had a positive or negative effect: las there been an increase/decrease in the number of users las the level of service to the customer changed and how will you know f decision is to restructure departments, has there been any effect on the team (e.g. increase in sick leave) The play area has been assessed for its play value, measured against the appropriate standards Positive feedback is received from children & families that use the play area The condition and safety of the play receives regular on-site inspections for safety and compliance with appropriate standards Direct feedback will be obtained from the families and children that use the play area
hink about what you will use to assess whether the decision has had a positive or negative effect: las there been an increase/decrease in the number of users las the level of service to the customer changed and how will you know decision is to restructure departments, has there been any effect on the team (e.g. increase in sick leave) The play area has been assessed for its play value, measured against the appropriate standards Positive feedback is received from children & families that use the play area The condition and safety of the play receives regular on-site inspections for safety and compliance with appropriate standards

What is the estimate cost of implementing this decision or, if the decision is designed to save money, what is the proposed saving that the decision will achieve?

Give an overview of the planned costs associated with the project, which should already be included in the report, so that once the evaluation is completed there is a quick overview of whether it was delivered on budget or if the desired level of savings was achieved.

The total budget cost is indeterminate at this stage, as this depends upon funding availability and further planned improvements.

The initial amount of S106 funding is £3,749 – the total amount of funding throughout the duration of the project is £33,741
