- 1. Are your proposals going to affect any people or groups of people with protected characteristics?** Please explain the impact, the evidence you have used and any action you are taking below.

Protected Characteristics	Describe any positive impacts your proposal has on the protected characteristic	Describe any negative impacts your proposal has on the protected characteristic	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
Age	<p>The Proposal aims to have a positive impact on people of all ages, particularly through increasing opportunities for the younger population to both live and work within Monmouthshire to assist in ensuring a balanced demography whilst also supporting the needs of the older population socially, economically and by ensuring an appropriate housing mix to meet different needs. This would benefit younger people but not to the detriment of older age groups.</p>	<p>Opportunities to deliver on these objectives, in particular delivering affordable homes and job opportunities, are limited in the upper Wye catchment due to the need for the Spatial Strategy to respond to the environmental constraint of water quality in the River Wye, for which no deliverable strategic solution has yet been identified.</p>	<p>The Proposal seeks to provide a more balanced demographic profile for Monmouthshire. This will inform the RLDP Preferred Strategy which will set out the Plan's growth and spatial strategy for Monmouthshire up to 2033. The recent Covid-19 pandemic has demonstrated the importance of sustainable communities and a balanced demography to support the older age groups.</p> <p>Consideration will be given to how currently stalled sites in Monmouth and the Upper Wye catchment could come forward in the future should a water quality solution be identified and implemented.</p> <p>Placemaking will be embedded throughout the Plan, with masterplanning and design policies ensuring that quality places are created that are safe, accessible and pleasant for all.</p>

Protected Characteristics	Describe any positive impacts your proposal has on the protected characteristic	Describe any negative impacts your proposal has on the protected characteristic	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
Disability	<p>The Proposal recognises the need to ensure the provision of a wide-ranging choice of homes including meeting affordable and accessible housing needs as far as possible. It also recognises the importance of the health and well-being of people and aims to create attractive, safe and accessible places to live, work and visit. The recent Covid-19 pandemic has emphasised the importance of place-making and Green Infrastructure for the provision of open spaces in close proximity to homes for physical and mental wellbeing.</p>	<p>Opportunities to deliver on these objectives, in particular delivering a wide-ranging choice of homes including affordable and accessible homes and job opportunities, are limited in the upper Wye catchment due to the need for the Spatial Strategy to respond to the environmental constraint of water quality in the River Wye, for which no deliverable strategic solution has yet been identified.</p>	<p>The Proposal aims to support the well-being of current and future generations that are more inclusive, cohesive, prosperous and vibrant. Sex	<p>One of the challenges facing the County is the imbalance between male and female earnings, although this situation is improving. The Proposal aims to provide economic growth and employment provision, which could indirectly impact on wage equality and therefore access to housing and quality of life.</p>	<p>The jobs in the foundation economy are disproportionately occupied by females. This sector is vital to support our communities, as are jobs in tourism. Neither sectors are generally well-paid, although they often offer flexible working conditions that can assist work-life balance. Wage levels are not within the remit of planning policy and policies to try to seek only high paid jobs could be to the detriment of this vital economic sector.</p> <p>Opportunities to deliver on these objectives, including delivering job opportunities, are limited in the upper Wye catchment due to the need for the Spatial Strategy to respond to the environmental constraint of water quality in the River Wye, for which no deliverable strategic solution has yet been identified.</p>	<p>The Proposal aims to support economic growth and prosperity. 2. The Socio-economic Duty and Social Justice

The Socio-economic Duty requires public bodies to have due regard to the need to reduce inequalities of outcome which result from socio-economic disadvantage when taking key decisions This duty aligns with our commitment as an authority to Social Justice.

	Describe any positive impacts your proposal has in respect of people suffering socio economic disadvantage	Describe any negative impacts your proposal has in respect of people suffering socio economic disadvantage.	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
<p>Socio-economic Duty and Social Justice</p>	<p>The Social Justice strategy focuses on three main areas: tackling loneliness and isolation; tackling poverty and promoting equitable economic prosperity; and giving children the best start in life. The Proposal seeks to tackle house price unaffordability, which currently prevents some of our communities accessing suitable housing within the County, by maximising affordable housing delivery on new housing allocations, reflecting the Administration’s manifesto commitment to deliver 50% affordable homes on new housing sites. This is likely to benefit younger people in particular, which in turn will make our ageing communities more socially sustainable. Good quality and affordable housing is important in achieving poverty reduction and equitable prosperity, and supporting the best start in life. Good spatial planning helps to build cohesive communities. The provision of affordable housing combined with policy interventions in relation to the requirement of a mix of market housing will increase opportunities for those in poverty to access</p>	<p>People in poverty or on low incomes might not be able to access digital opportunities to work from home and/or are more likely to be employed in roles that cannot work from home.</p> <p>Opportunities to deliver on the evidence-based objectives, in particular delivering affordable homes and job opportunities, are limited in the upper Wye catchment due to the need for the Spatial Strategy to respond to the environmental constraint of water quality in the River Wye, for which no deliverable strategic solution has yet been identified.</p>	<p>Future stages of the RLDP (Preferred Strategy and Deposit) will set out the planning policy framework to assist in addressing these key issues. The Preferred Strategy will set out our commitment to maximise the provision of affordable homes on new housing allocations and to deliver zero carbon ready new homes.</p> <p>We will consider the need for planning policies in the Deposit Plan to control the housing mix of the market housing on development sites, to ensure it helps create mixed communities and supports the retention of younger people who can afford an open market home were there sufficient supply of 2 and 3 bedroom homes.</p> <p>We will consider the need for small affordable housing schemes in rural settlements similar to the current LDP’s 60/40 sites in the Deposit RLDP.</p> <p>We will consider a range of policies in the</p>

	<p>safe, secure and suitable housing. Requiring new homes to be zero carbon ready will improve energy efficiency for new build properties which will reduce the cost of living. The provision of suitable employment land, planning policy tools to support business and the use of other (non-planning) tools to stimulate economic activity will increase employment opportunities within the County. In accordance with the WFGA, the RLDP also seeks to prevent future problems and will therefore continue to avoid new development in flood risk areas and will seek zero carbon ready development to help address the climate emergency and also tackle issues such as fuel poverty.</p>		<p>Deposit RLDP around the climate change theme to minimise the carbon footprint of new development, and therefore mitigate negative impacts associated with the proposed growth.</p> <p>A policy requirement for broadband infrastructure provision will maximise opportunities for all to access the technology to work from home where possible, reducing commuting and associated costs.</p>

3. Policy making and the Welsh language.

<p>How does your proposal impact on the following aspects of the Council's Welsh Language Standards:</p>	<p>Describe the positive impacts of this proposal</p>	<p>Describe the negative impacts of this proposal</p>	<p>What has been/will be done to mitigate any negative impacts or better contribute to positive impacts</p>
<p>Policy Making</p> <p>Effects on the use of the Welsh language,</p> <p>Promoting Welsh language</p> <p>Treating the Welsh language no less favourably</p>	<p>The Welsh language is a material planning consideration and is included within the RLDP Objective relating to Culture, Heritage and Welsh Language to ensure there is no negative impact. Any level of growth for the County relies on in-migration, some of which, whether English or Welsh or other nationality, will choose Welsh Medium education for their children. Also in-migration to Monmouthshire comes from other areas in Wales (including rural Welsh speaking areas e.g. Pembrokeshire, Ceredigion, Gwynedd, Ynys Môn, Denbighshire). This is in the main due to the significantly increased employment opportunities offered in Cardiff, Newport and in adjacent areas of England e.g. Bristol, Gloucester etc. Monmouthshire with its border location and transport links is accessible to all of these areas. This in-migration, together with the ambition to retain and attract younger families, will expose more children to Welsh curriculum education in all schools, increasing the number of Welsh speakers in the County. Future stages of the RLDP process (Preferred Strategy and Deposit) will be</p>	<p>Any level of growth for the County relies on in-migration, being a border County a proportion of this is likely to be from England.</p>	<p>The Proposal aims to support culture and the Welsh language.</p> <p>We will liaise with the Local Education Authority to understand if the proposed growth necessitates additional Welsh medium school provision.</p> <p>There are already significant plans and proposals in place in terms of expanding Welsh Medium education in Monmouthshire. This is due to a number of factors:</p> <ul style="list-style-type: none"> - the increased popularity of the Welsh Language. - the opportunity for children to be become bilingual - the increased employment opportunities that this affords them in Wales.

Operational Recruitment & Training of workforce	An expansion of the provision of Welsh Medium education in the County will increase the opportunities for Welsh speakers to apply for vacancies within the Council thus increasing the Council's Welsh speaking capacity.	None of the current Planning Policy Team are fluent Welsh speakers, however, there are robust systems in place to deal with phone calls and correspondence without delaying the provision of the service. Service delivery Use of Welsh language in service delivery Promoting use of the language	All statutory documentation on the RLDP and associated consultation along with notices, social media and general correspondence will be bilingual. A document will be in English only if it comes from an external source that is not subject to compliance with the Welsh Language (Wales) Measure 2011. Emails/letters etc will make it clear that correspondence in Welsh is welcome and will not lead to a delay in response or a lesser standard of service . When requests are made for people to be added to the RLDP consultation database we will record language choice and communicate accordingly.	None of the Planning Policy team are Welsh speakers, however, there are robust systems in place to deal with phone calls and correspondence without delaying the provision of the service.	The Welsh language is a material planning consideration and is included within the RLDP Objective relating to Culture, Heritage and Welsh Language to ensure there is no negative impact. Future stages of the RLDP process will be subject to a Welsh Language Impact Assessment (WLIA) as part of the wider Integrated Sustainability Appraisal Reports (ISAR). We will review this further if any additional assessment is required as we go through the RLDP process.

4. Does your proposal deliver any of the well-being goals below? Please explain the impact (positive and negative) you expect, together with suggestions of how to mitigate negative impacts or better contribute to the goal. There's no need to put something in every box if it is not relevant!

Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
<p>A prosperous Wales Efficient use of resources, skilled, educated people, generates wealth, provides jobs</p>	<p>Positive: The Proposal identifies the preferred level of growth over the RLDP period and broad spatial distribution of this growth. As well as housing growth, the Proposal aims to provide economic growth and employment provision in both urban and rural areas.</p> <p>Negative: Careful site selection is required to minimise loss of best and most versatile agricultural land and mineral resource.</p>	<p>The Proposal has been assessed against the RLDP Objectives relating to economic growth/employment and retail centres, which have been set in order to address the identified issues relating to creating a prosperous Wales.</p>
<p>A resilient Wales Maintain and enhance biodiversity and ecosystems that support resilience and can adapt to change (e.g. climate change)</p>	<p>Positive: The Proposal has been assessed against the RLDP Objectives including the impact of development on the natural environment in already constrained areas. It is, however, recognised that developments could improve connectivity through opportunities to create new linkages. The limited supply of brownfield land within the County is a recognised issue. The Proposal has been assessed against a climate change objective which recognises that we are in a climate emergency. The RLDP will set out a commitment to deliver zero carbon ready new homes. Resilience of new development to aspects of climate change can be achieved via the design and location of new developments. All developments can provide opportunities to minimise carbon by providing opportunities for renewable energy generation, seeking to reduce commuting,</p>	<p>The Proposal has been assessed against the RLDP Objectives relating to Green Infrastructure, Biodiversity and Landscape, Flood Risk, Minerals and Waste, Land and Natural Resources which have been set in order to address the identified issues relating to creating a resilient Wales.</p> <p>There are water quality issues in the River Usk and River Wye SACs. There is a legal and national policy requirement to maintain and enhance ecology. This is reflected in the Proposal which avoids new allocations in the River Wye catchment area given the inability to deliver a strategic solution to phosphate mitigation in the Monmouth WWTW at this time.</p>

Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
	<p>supporting use of ultra-low emission vehicles and public transport, and the provision of quality Green Infrastructure.</p> <p>There are phosphate water quality issues in the River Usk and River Wye SACs. There is a legal and national policy requirement to maintain and enhance ecology. This is reflected in the Proposal which avoids new allocations in the Upper Wye catchment area given the inability to deliver a strategic solution to phosphate mitigation in the Monmouth WWTW at this time.</p> <p>The recent pandemic has emphasised the need to enable such responses in delivering sustainable and resilient communities. It has also emphasised the importance of placemaking and Green Infrastructure for the provision of open spaces in close proximity to homes for physical and mental wellbeing.</p> <p>Negative: Higher levels of growth would likely result in further pressure on the natural environment. New developments could nevertheless improve Green Infrastructure and ecological connectivity through opportunities to create new linkages. The value and importance of having access to locally accessible open/green spaces to assist in recreation and health and well-being has been heightened during the recent pandemic.</p> <p>The environmental benefit of avoiding new site allocations in the upper Wye catchment is countered</p>	

Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
	by the impact this has on achieving the social, economic and cultural objectives. However, without a deliverable strategic solution to water quality issues in the upper Wye catchment, this environmental constraint needs to take priority.	
<p>A healthier Wales People's physical and mental wellbeing is maximized and health impacts are understood</p>	<p>Positive: The Proposal identifies the preferred level of growth over the RLDP period and broad spatial distribution of this growth (including avoiding new allocations in the River Wye catchment due to phosphate water quality issues). It is recognised that any developments will be encouraged to support healthier lifestyles and provide sufficient open space. The RLDP will encourage Active Travel and will reflect the Integrated Network Maps. The recent Covid-19 pandemic has emphasised the vulnerability of those in our communities with underlying health conditions, as well as the importance of placemaking and Green Infrastructure for the provision of open spaces in close proximity to homes for physical and mental wellbeing.</p> <p>The need for affordable housing, both in terms of purchase/rent and living costs, is being exacerbated by the current cost of living crisis. The Proposal seeks to maximise affordable housing delivery and provide net-zero ready homes.</p> <p>Negative: Higher levels of growth have the potential to increase commuting which could affect areas with air quality problems, however, the RLDP seeks to provide for jobs within the County. Moreover, the recent pandemic has demonstrated that a significant</p>	<p>The Proposal has been assessed against the RLDP Objectives including Health and Well-being in order to address the identified issues relating to creating a healthier Wales. <p>A Wales of cohesive communities Communities are attractive, viable, safe and well connected</p>	<p>Positive: The Proposal identifies the preferred level of growth over the RLDP period and broad spatial distribution of this growth (including avoiding new allocations in the River Wye catchment due to phosphate water quality issues), and considers the balance of housing, employment and infrastructure in both urban and rural areas. <p>A globally responsible Wales Taking account of impact on global well-being when considering local social, economic and environmental wellbeing</p>	<p>Positive: The Proposal identifies the preferred level of growth over the RLDP period and broad spatial distribution of this growth (including avoiding new allocations in the River Wye catchment due to water quality issues). It has been assessed against the RLDP Objectives including the impact of options on climate change. The climate change objective recognises that we are in a climate emergency and has committed to strive to limit the increase in global temperatures to 1.5°C. The RLDP will set out a commitment to deliver net zero carbon ready new homes reflecting our commitment to respond to the climate emergency. In addition, the recent pandemic</p>	<p>The Proposal has been assessed against the RLDP Objectives including climate change which has been set in order to address the identified issues relating to creating a globally responsible Wales. Climate change considerations will inform the RLDP's planning policy framework which will include policies, proposals and land use allocations.</p> <p>Section 6 of the Environment Act already requires biodiversity enhancement, which will help address the nature emergency.</p>

Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
	<p>has demonstrated that a significant proportion of our communities can work from home which is likely to continue over the longer term. The RLDP seeks to reduce the commuting ratio and to enable home-working, reflective of recent trends. The RLDP will also include a specific policies relating to climate change.</p> <p>The Proposal has been drafted in tandem with the Motions for Rivers and the Ocean, also being presented to this Council meeting.</p> <p>Negative: None.</p>	
<p>A Wales of vibrant culture and thriving Welsh language Culture, heritage and Welsh language are promoted and protected. People are encouraged to do sport, art and recreation</p>	<p>Positive: The Proposal identifies the preferred level of growth over the RLDP period and broad spatial distribution of this growth (including avoiding new allocations in the River Wye catchment due to phosphate water quality issues). Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
	<p>economic growth in both urban and rural areas will assist in balancing the demography across the County and in addressing the County's affordability challenges. The Proposal aims to readdress the higher proportion of older age groups and lower proportion of young adults compared to the Welsh average. One of the key objectives of the RLDP is to deliver much needed affordable housing, having a safe secure and suitable home gives people the best start in life.</p> <p>Negative: None.</p>	<p>and resilience, as well as the higher level of homelessness. The Proposal seeks to take action to enable younger people who are currently priced-out of the County an opportunity to remain living here by striving to maximise affordable housing delivery to help tackle this. 8. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?

Positive -

The Proposal will inform the RLDP revised Preferred Strategy which will set out the level of growth for housing/employment and the spatial distribution of this growth across the County to address the core issues of delivering much needed affordable homes, responding to the climate and nature emergency by delivering zero carbon ready new homes for our communities, and ensuring our communities are socially and economically sustainable by attracting and retaining younger people to rebalance our ageing demographic. This is a positive impact for social justice.

The revised Preferred Strategy will be the subject of further engagement/consultation and political reporting as the RLDP is progressed.

Negative –

People in poverty or on low incomes might not be able to access digital opportunities to work from home and/or are more likely to be employed in roles that cannot work from home.

Opportunities to deliver on the evidence-based objectives, in particular delivering affordable homes and job opportunities, are limited in the upper Wye catchment due to the need for the Spatial Strategy to respond to the environmental constraint of water quality in the River Wye, for which no deliverable strategic solution has yet been identified.

There are no negative implications for corporate parenting or safeguarding.

9. ACTIONS: As a result of completing this form are there any further actions you will be undertaking? Please detail them below, if applicable.

What are you going to do	When are you going to do it?	Who is responsible

particular affordable housing, demographic balance and the climate and nature emergency.		Planning Policy Team
Seek Council's endorsement of the proposed way of progressing the Replacement Local Development Plan (RLDP), ensuring that the RLDP delivers on the Council's objectives and addresses key local issues, in particular affordable housing, demographic balance and the climate and nature emergency.	Council 27 th September 2022. If Council endorses the proposed way of progressing the RLDP, a revised Preferred Strategy based on this strategy option will be reported to Council in December 2022 for endorsement to be issued for statutory consultation/engagement in December 2022 - January 2023. A Revised Delivery Agreement, which will amend the project timetable for Plan preparation, will be reported to the same Council meeting for agreement and endorsement to submit to the Welsh Government for Ministerial approval.
