An inclusive evaluation of day support services (My Day My Life) will ensure all groups of all ages are effectively consulted with to ensure that the direction of service for the future is based as far as possible on what people want and need. The project brief will specify the need to ensure the equality, diversity and inclusion needs of stakeholders are identified and taken in to account when formulating recommendations for the future.

<p>Socio-economic Duty and Social Justice</p>	<p><i>Under the Welsh Language measure of 2011, we need to be considering Welsh Language in signage, documentation, posters, language skills etc. and also the requirement to promote the language</i> This site present a strong opportunity to increase the provision of sufficient good quality housing for people’s needs. The Local Housing Market Assessment carried out in 2020 highlighted a growing disparity in the affordability of housing, as well as an increasing demand for the provision of affordable housing across the county. This estimated a shortfall of 468 affordable homes per year between 2020,2025, with the majority to be provided as Social Rented accommodation (68%), followed by Low Cost Home Ownership (25%) and Intermediate Rent (7%). As of September 2022, there were 2,220 households with a recognized housing need registered on the housing waiting list. Affordable housing is a cross-cutting theme that will help deliver many of the wellbeing goals of the Future Generations Act, including a more equal Wales, a Wales of cohesive communities, a prosperous Wales and a healthier Wales.</p>	<p><i>None identified</i></p>	<p><i>. 8. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?

Positive Impact

The proposal will release a building that is significantly under-utilised and allow it to be developed into a positive asset for the community providing increased employment and workforce potential and affordable housing to support to support a thriving community.

Changing the use of the building should not adversely affect people with learning disabilities as the service model for day support has been developing over a number of years to move away from a fixed base to the use of a range of different community based opportunities. The wider review of the service will continue to explore ways that the service can be developed to respond to individual needs and ensure that everyone has a chance to express their wishes and feelings.

Negative Impacts

Releasing Tudor Street will be affect people with learning disabilities some of whom have been attached to the building and the traditional model of day serve delivery over many year,

It is possible that the evaluation may create anxiety and uncertainty for individuals using the service, their families and the staff team due to its signaling of potential change.

There are a number of individuals with very complex needs, if the majority of the consultees signal a further move to building less/community based services this could negatively impact those who have complex needs who may feel (or their families may feel) need a buildings based service to be or feel safe. It will be important to mitigate this risk through effective engagement with this group.
