

## Appendix 6 - Capital Budget Revisions – Grants and contributions

The Council has been notified of and received significant capital grants and contributions during 2022/23 which would not have formed part of the original capital budget approved by Council at the beginning of the year.

Under the Council's financial procedures any amendment to the capital budget that is funded wholly from grant or external contributions is required to be approved by Cabinet.

The below outlines the amendments to the capital budget that are required to be approved, either resulting from where new grants and contributions have been notified, or, where amendments to existing budgeted levels of grant or contributions are required.
