

## Future Generations Evaluation (includes Equalities and Sustainability Impact Assessments)

<b>Name of the Officer</b> completing the evaluation Hazel Clatworthy  <b>Phone no:</b> 01633 644843 <b>E-mail:</b> hazelclatworthy@monmouthshire.gov.uk	<b>Please give a brief description of the aims of the proposal</b>  Install electric vehicle charging point in Welsh Street Car Park, Chepstow
<b>Name of Service</b>	<b>Date Future Generations Evaluation form completed</b>

***NB. Key strategies and documents that may help you identify your contribution to the wellbeing goals and sustainable development principles include: Single Integrated Plan, Continuance Agreement, Improvement Plan, Local Development Plan, People Strategy, Asset Management Plan, Green Infrastructure SPG, Welsh Language Standards, etc***

**1. Does your proposal deliver any of the well-being goals below?** Please explain the impact (positive and negative) you expect, together with suggestions of how to mitigate negative impacts or better contribute to the goal.

Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
<b>A prosperous Wales</b> Efficient use of resources, skilled, educated people, generates wealth, provides jobs	At present there are little or no charging points in the county, meaning electric vehicle (EV) users bypass Monmouthshire. Encouraging electric vehicle users into the town could bring a boost to the local economy.	
<b>A resilient Wales</b> Maintain and enhance biodiversity and ecosystems that support resilience and	No impact	

<b>Well Being Goal</b>	<b>Does the proposal contribute to this goal? Describe the positive and negative impacts.</b>	<b>What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?</b>
can adapt to change (e.g. climate change)		
<b>A healthier Wales</b> People's physical and mental wellbeing is maximized and health impacts are understood	EVs have zero emissions, so they do not contribute to local air pollution and the associated health and respiratory problems.	
<b>A Wales of cohesive communities</b> Communities are attractive, viable, safe and well connected	Supplying infrastructure for charging EVs means that EVs become a viable transport option for people working or visiting Chepstow.	
<b>A globally responsible Wales</b> Taking account of impact on global well-being when considering local social, economic and environmental wellbeing	EVs have zero direct emissions. How they are charged has an impact on global pollution – ideally they would be charged from renewable energy sources, but that is beyond the scope of this proposal.	
<b>A Wales of vibrant culture and thriving Welsh language</b> Culture, heritage and Welsh language are promoted and protected. People are encouraged to do sport, art and recreation	EV users will be encouraged into our town centres to enjoy local visitor attractions.	Ensure that signage for the EV charging space is bilingual.
<b>A more equal Wales</b> People can fulfil their potential no matter what their background or circumstances	Only impact is that one short stay free car parking space will no longer be available.	

## 2. How has your proposal embedded and prioritised the sustainable governance principles in its development?

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p><b>Long Term</b></p> <p>Balancing short term need with long term and planning for the future</p>	<p>The number of electric vehicles in the UK is increasing all the time and is going to continue growing (some countries have made commitments to ban petrol and diesel cars and move over to electric cars). Putting infrastructure in place now makes us ready for that increase in future demand.</p>	<p>The type of installation used in other car parks (e.g. token, card payment etc) can be adapted as necessary based on the learning from the installation in Chepstow.</p>
 <p><b>Collaboration</b></p> <p>Working together with other partners to deliver objectives</p>	<p>The installation is being delivered in partnership with a local community interest company, Gwent Energy, who has experience of EV installations. Local businesses are also potentially involved in selling tokens.</p>	
 <p><b>Involvement</b></p> <p>Involving those with an interest and seeking their views</p>	<p>Several meetings have taken place with people interested in EVs, including local EV drivers, representatives from local environmental groups and others. These have demonstrated that there is demand for local town centre based EV charging facilities (as well as rapid chargers on the motorway or dual carriageway network).</p>	<p>Monitoring usage of the charging point and gathering feedback from users will help to inform future installations.</p>
 <p><b>Prevention</b></p> <p>Putting resources into preventing problems occurring or getting worse</p>	<p>This proposal will help increase the number of people using EVs locally, meaning that we are ready and have experience of how systems work before the demand for more EV points increases.</p>	

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p>Considering impact on all wellbeing goals together and on other bodies</p>	<p>We will remain in touch with Welsh Government to gauge progress towards a more strategic network of EV charging points on the motorway and trunk road network, that would complement our proposals for town centre charging.</p>	

**3. Are your proposals going to affect any people or groups of people with protected characteristics?** Please explain the impact, the evidence you have used and any action you are taking below. For more detailed information on the protected characteristics, the Equality Act 2010 and the Welsh Language Standards that apply to Monmouthshire Council please follow this link:<http://hub/corporatedocs/Equalities/Forms/AllItems.aspx> or contact Alan Burkitt on 01633 644010 or [alanburkitt@monmouthshire.gov.uk](mailto:alanburkitt@monmouthshire.gov.uk)

Protected Characteristics	Describe any positive impacts your proposal has on the protected characteristic	Describe any negative impacts your proposal has on the protected characteristic	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
Age		There will be one less short stay free parking space available.	
Disability		There will be one less short stay free parking space available.	
Gender reassignment	No impact		
Marriage or civil partnership	No impact		

<b>Protected Characteristics</b>	<b>Describe any positive impacts your proposal has on the protected characteristic</b>	<b>Describe any negative impacts your proposal has on the protected characteristic</b>	<b>What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?</b>
Pregnancy or maternity	No impact		
Race	No impact		
Religion or Belief	No impact		
Sex	No impact		
Sexual Orientation	No impact		
Welsh Language	No impact		

- 4. Council has agreed the need to consider the impact its decisions has on important responsibilities of Corporate Parenting and safeguarding. Are your proposals going to affect either of these responsibilities?** For more information please see the guidance <http://hub/corporatedocs/Democratic%20Services/Safeguarding%20Guidance.docx> and for more on Monmouthshire's Corporate Parenting Strategy see <http://hub/corporatedocs/SitePages/Corporate%20Parenting%20Strategy.aspx>

	<b>Describe any positive impacts your proposal has on safeguarding and corporate parenting</b>	<b>Describe any negative impacts your proposal has on safeguarding and corporate parenting</b>	<b>What will you do/ have you done to mitigate any negative impacts or better contribute to positive impacts?</b>
Safeguarding	No impact	No impact	
Corporate Parenting	No impact	No impact	

- 5. What evidence and data has informed the development of your proposal?**

Gwent Energy have knowledge and experience based on previous experience of installing EV charging points to inform this project. They are also up to date with the latest data and information about demand for EVs and the various technologies that are available.

This project has been informed by input from a number of individuals and community groups who are keen to see the roll out of EVs in Monmouthshire.

**6. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?**

This installation will encourage EV users into Chepstow town centre, and the learning from this can be rolled out to other car parks and will ensure they are fit for purpose as the anticipated demand for EV charging points increases. EVs are beneficial to the local environment since they do not produce any pollution. There will be the loss of one short term free parking space.

**7. ACTIONS: As a result of completing this form are there any further actions you will be undertaking? Please detail them below, if applicable.**

What are you going to do	When are you going to do it?	Who is responsible	Progress
Ensure signage is bilingual	During installation	Gwent Energy	

**8. MONITORING: The impacts of this proposal will need to be monitored and reviewed. Please specify the date at which you will evaluate the impact, and where you will report the results of the review.**

The impacts of this proposal will be evaluated on:	May 2017
--	----------

9. **VERSION CONTROL:** The Future Generations Evaluation should be used at the earliest stages of decision making, and then honed and refined throughout the decision making process. It is important to keep a record of this process so that we can demonstrate how we have considered and built in sustainable development wherever possible.

Version No.	Decision making stage	Date considered	Brief description of any amendments made following consideration
1	<i>e.g. budget mandate, DMT, SLT, Scrutiny, Cabinetetc</i>		<i>This will demonstrate how we have considered and built in sustainable development throughout the evolution of a proposal.</i>
