The event had been a success, with no congestion. The new venue shows lots of potential. Figures were being finalised but it was confirmed that Section 106 Funds had not been used.

There had been significantly less bikers than previous years, mainly due to clashing with the Distinguished Gentlemen Ride event. Town Team are looking at dates for next year to avoid the same happening.

The new route had proved successful, and they would look to put on a shuttle bus for next year's event.

There had been some negative comments on social media, but there had been a great deal of positivity, and the majority were happy with the event. The main focus was the valid concerns of those who had attended.

Upcoming Events

Winter Market – maybe indoors weather permitting, in the Store 21. It was confirmed that Aldi or Lidl would not be moving into this space.

The Head of Operation attended to address traffic issues, and referred to the Capita B4245 Traffic and Transportation Review Road Safety Report. He advised that the Paul Keeble, Group Engineer, would be best placed to respond, but was unable to attend the meeting.

We were advised there is a second report due to be issued and it was advisable to consider both reports together.

MAGCP expressed frustrations regarding speed watch equipment, and thoughts that police were being obstructive. Councillor Dymock agreed to write to the PCC on behalf of MAGCP.

7. Magor Station Update

We welcomed Paul Turner and Christian Schmidt who provided an update on Magor Station.

We were informed that a small number of residents were concerned with car parking but the group were aiming to change culture and mindset. A study will be undertaken to mitigate problems.

GRIP 3 was progressing, and a recent publicity event had seen a good turn out with speakers, Sophie Howe, Paul Matthews and Kellie Beirne. People had seemed impressed. It was hoped that Network Rail will complete their GRIP 3 work by March 2019. GRIP 4 is detail and design stage, 6,7 and 8 will be construction and delivery.

Transport for Wales is working on a South Wales main line study, and are aware of Magor Station and assume it will happen.

The station will be DDA compliant.

In terms of prevention of funding, it is a competitive bidding system, but there is a lot of political support.

The Committee will remain updated.
