SUBJECT:	2020/21 REVENUE & CAPITAL OUTTURN STATEMENT
MEETING:	Adults Select Committee
DATE:	22nd June 2021
DIVISION/WARDS AFFECTED:	ALL

1. PURPOSE:

- 1.1 The purpose of this report is to provide Select Committee Members with information on the revenue and capital outturn position of the Authority based on capital slippage and reserve usage & deferment.
- 1.2 The financial information appropriate to this Select Committee is outlined in **Appendix 6**, with the remainder of this report following the format presented to Cabinet on the 9th June 2021.
- 1.3 This report is to be considered by Select Committees as part of their responsibility to,
 - assess whether effective budget monitoring is taking place,
 - monitor the extent to which budgets are spent in accordance with agreed budget and policy framework,
 - challenge the reasonableness of projected over or underspends, and
 - monitor the achievement of predicted efficiency gains or progress in relation to savings proposals.
- 1.4 To provide an update on the financial impact of the Covid-19 pandemic on the Council.

2. CABINET RECOMMENDATIONS:

- 2.1 That Cabinet recognises a balanced net revenue budget position at outturn after accounting for transfers to earmarked reserves that represents a significant improvement of £5.15m from the overall deficit reported at month 9, primarily as a result of:
 - Receipt of £5.29m of Welsh Government Covid-19 hardship funding since month 9 to compensate the Council to support its enhanced costs of service delivery and loss of income as a direct result of Covid-19 impact;
 - Receipt of significant unbudgeted Welsh Government grants that were communicated to and received by the Authority late in the financial year and that have offset core budget funding;
 - Underspends across many service areas as a result of the pandemic and where services have been reduced or stopped, travel requirements have reduced, office and buildings have remained closed and substantial staff vacancies have remained unfilled.

- 2.2 That Members acknowledge the extent that the Welsh Government Covid-19 Hardship Fund has covered all Covid-19 related additional costs directly incurred during the financial year of £11.25m together with compensation for loss of income of £8.38m.
- 2.3 That Members note the 85% delivery of the service specific budgeted mandated savings as detailed in **Appendix 2** and as agreed by full Council previously and the implicit remedial action/savings included in the financial outturn to compensate for circa 15% savings (£734k) reported as delayed or unachievable by service managers.
- 2.4 That Members endorse the strategy applied to replenish earmarked reserves as noted within the report to support future financial challenges and ensure financial resilience during a period of significant uncertainty as we continue to recover from the pandemic and as the delivery of our services change in light of a severely altered socio-economic landscape, and as wider policy commitments, both locally and nationally begin to take shape.
- 2.5 In taking the approach set out above, Cabinet recognises the extraordinary nature of the 2020/21 financial year and accepts that there remains significant recurring service pressures and risks in 2021/22 and over the medium term.
- 2.6 Cabinet notes the unprecedented improvement in Schools reserve balances of £3.85m as contained in **Appendix 1** that has resulted in 15 of the 17 schools entering the year in deficit returning to a surplus balance. This reflects the significant levels of grant support from Welsh Government that was notified late in the financial year primarily relating to Schools Revenue Maintenance Grant and Recruit, Recover and Raise Standards.
- 2.7 That Cabinet endorses the requirement for schools carrying significant surplus balances that are above levels guided by Welsh Government to provide investment plans setting out how they intend to spend their significant surplus balances, whilst also appreciating that the inherent structural budget deficits that have led to 17 schools being in deficit at the start of the year remain and require resolution irrespective of additional funding received.
- 2.8 That Members consider the capital outturn spend of £19.0m, introducing an underspend of £3.18m primarily due to underspending of the capitalisation directive budget and specific grant related schemes and that this subsequently releases £1.08m of capital receipts back to reserve for future capital investment.
- 2.9 That Members note the slippage requests of £49.92m as listed in **Appendix 5** along with the related presumptions made around financing consequences as detailed in **Appendix 1**, and accept that officers will make a further assessment of the justification for scheme slippage and make recommendations back to Cabinet for final approval as part of the month 2 financial monitoring for 2021/22.

3. **KEY ISSUES:**

- 3.1 Since entering 2020 the Council had faced significant and unprecedented challenges, notably the flood response and recovery resulting from Storms Ciara and Dennis in February 2020 and the subsequent Covid-19 pandemic and the impact of the lockdown restrictions that were put into effect on 23rd March 2020.

3.2 In parallel to this the Council had faced a hugely challenging budget round which saw a significant set of service pressures needing to be considered and accommodated within the budget, notably:

- Pressures within Children’s Services relating to a continued increase in the number of looked after children (LAC) cases carrying over from 2019/20 and after the budget was approved.
- The 2.75% pay award being much higher than the original 1% budget assumption built into the budget and where it had been expected that Welsh Government funding would be forthcoming.
- Pressures remaining within the Passenger Transport Unit (PTU) and that continue to be worked on as part of the PTU review and where implementation has been impacted by the pandemic.
- Pressures in waste & recycling as a result of delays in the rollout of waste reconfiguration and changes.
- Income pressures relating to Civil parking enforcement where savings targets cannot be met.
- A shortfall against additional commercial income targets as a consequence of the impact of Covid-19 and the current level of market and economic uncertainty.
- As result of the late receipt of the final settlement from Welsh Government and the disappointment of there being no funding floor introduced, the remaining efficiency savings that were left to be identified during the financial year.

3.3 All of the above pressures continue to draw significantly on the Council’s resources, both in terms of capacity and finances and continues to place an unprecedented strain on the Council. That all said, by month 9, the previously reported non-Covid-19 related over spend had moved into a forecast £142k saving. This largely resulted from the action taken during the financial year in curtailing non-essential expenditure, through cost reductions recognising the significant and continued financial pressure on the Authority as a result of the pandemic and through Covid-19 enforced reductions in normal service delivery.

3.4 Outturn position

Table 1: Overall Revenue outturn position

	Overall Outturn	Overall Variance to Month 9	Variance due Hardship funding	Variance due to other factors

- 3.5 Since the month 9 forecast the Council has benefited from a further £5.29m of Welsh Government Covid-19 hardship funding to compensate the Council to support its enhanced costs of service delivery and loss of income as a direct result of Covid-19 impact.
- 3.6 Further to this a number of Welsh Government funding announcements were made late in the financial year that have resulted in additional specific revenue grant awards related to the continuing Covid-19 impact and also awards specific to service area pressures. These grant awards have had a direct impact in improving the revenue outturn position by offsetting core funding requirements.
- 3.7 During the financial year the continued impact of the pandemic has significantly altered the Authorities normal course of service delivery and additional savings have been realised where services have been reduced or stopped, travel requirements have reduced, office and buildings have remained closed and substantial staff vacancies have remained unfilled.
- 3.8 The analysis outlined in **Table 2** below reconciles the movement in the outturn position since the month 9 forecast was reported to Cabinet.

3.10 The 2020/21 budget was set based on the requirement for £10.3m of mandated savings to be achieved, with some £4.9m of these to be made directly by service areas. Given the challenging operating environment that services have performed under during 2020/21 it is pleasing to note their performance in achieving 85% of budgeted savings. This increases to 93% when taking into account savings attributable to increasing financing streams.

3.11 There has been a delay in the implementation of £250k of budget savings proposals as a direct result of staff resources being diverted to respond to the pandemic. A further £484k of savings are now deemed unachievable with £384k of these as a direct result of the pandemic.

3.12 A full list of the progress against savings mandates can be found at **Appendix 2** to this report.

3.13 The 2020/21 budget included the use of a Capitalisation direction of £2.09m where one-off costs are eligible to be capitalised under the guidance issued by the Welsh Government in respect of the flexible use of capital receipts. Given the reduced service activity during the year only £1.01m of the budgeted use was utilised resulting in £1.08m remaining in the capital receipts reserve for future use.

Those costs capitalised are listed and **Appendix 4** to this report and in summary relate to:

- Sharing back-office and administrative services with one or more other council or public sector body;
- Funding the cost of service reconfiguration, restructuring or rationalisation (staff or non-staff), where this leads to ongoing efficiency savings or service transformation;
- Driving a digital approach to the delivery of more efficient public services and how the public interacts with constituent authorities where possible;
- Integrating public facing services across two or more public sector bodies to generate savings or to transform service delivery.

3.14 Covid-19 Impact

- 3.15 The financial challenges facing the Council and resulting from the Covid-19 pandemic were hugely significant during 2020/21 and will continue to be over the medium term as the economy recovers and demands on local services transform in line with the social changes that the pandemic has brought about.
- 3.16 The Council continues to incur significant costs in its response effort and this will continue as it transitions towards recovery. Furthermore and resulting from the restrictions that UK Government and Welsh Government have had to put in place to contain the spread of the virus we are suffering significant shortfalls in our income levels. Some of these will return more quickly than others as services are able to be safely turned back on.
- 3.17 We are grateful to Welsh Government for the emergency hardship funding that has been provided to Welsh Councils to cover the costs and income losses to date and alongside this, the Covid-19 specific grant funding notified in the latter stages of the financial year. The extent of this support is outlined in **Table 4** below.

Table 4: Direct Grant funding received to aid in Covid-19 pressures

	£000s
Welsh Government Covid19 Hardship Fund - Additional costs incurred	11,254
Welsh Government Covid19 Hardship Fund - Compensation for loss of service income	8,382
Council Tax Income Collection shortfalls	1,059
Council Tax Reduction Scheme - to assist with increased demand	348
Digital Transformation funding	658
Savings unachieved funding	658
Business Grants - administration costs	347
Total	22,706

- 3.18 As the financial year progressed the Council was given clearer commitments of the proposed Welsh Government support and significantly the announcement made of further funding for local authorities in August 2020 to supplement funding that had already been provided to assist with meeting income losses and additional costs brought about by the pandemic. A further announcement of funding to cover the first six months of the 2021/22 financial year is welcomed and continues to recognise the unprecedented impact on the Council in managing the response to the pandemic.
- 3.19 In working with all parts of the Welsh Public Sector the Welsh Government provided significant one-off support to all areas through numerous funds which have been administered by the Council during the year. This has ranged from support to local businesses via Business Support Grants, payments made to care workers and specific Freelancer and Start up grants. The extent of the support administered during the financial year is detailed in **Table 5** below:

Table 5: Welsh Government support funds administered in year

Support fund	£000s
Business Support Grants	39,468
Care Workers £500 Payments	1,367
Covid-19 Freelancer Grant	440
Covid-19 Start Up Grant	143
Total	41,418

3.20 It is inevitable that the Council will face significant financial challenges as we move into the recovery phase of the pandemic as demands on services change in light of a severely altered socio-economic landscape. Alongside this there will continue to be risks associated with Welsh Government support funding being reduced or stopped. It is therefore important that the Council looks to replenish earmarked reserves to strengthen ongoing financial resilience.

3.21 **Recommended use of 2020/21 Revenue surplus**

3.22 Irrespective of the ongoing Covid-19 pandemic the Authority is already dealing with underlying service pressures which have resulted in £10.3m of pressures being accommodated within the 2021/22 budget, primarily consisting of:

- Pay and pension-related spending pressures in our schooling system;
- The increasing demand placed on children's social care services, adult social care and our children with additional learning needs budgets;
- Significant service pressures within the passenger transport unit and within recycling and waste and that look to ensure that the Council supports and sustains key service delivery;
- Investment that ensures that homeless people are provided adequate support, advice and accommodation in their time of need;
- An ongoing commitment to recognise and value the contribution made by the workforce and ensuring that local government staff are paid no less than the minimum wage set by the Living Wage Foundation, extending to the apprenticeship roles within the Council.

3.23 The ongoing Covid-19 pandemic presents its own additional financial challenges and uncertainty both in terms of additional cost and significant loss of income across services. Some of these impacts are difficult to model and will potentially only manifest themselves once a degree of normality returns to service delivery as enforced restrictions diminish.

3.24 It is inevitable that service delivery and operating models will look significantly different as we move out of the emergency phase of the pandemic, for example:

- New services have been created, some services have been stopped, staff redeployed and new working practices are in place, many of these changes may need to continue beyond this phase of the crisis;

- The pandemic has brought about Welsh Government policy change, significantly in the area of Homelessness;
- Supply chains continue to be radically altered;
- The impact of continuing social distancing on service operations;
- The financial impact on the most vulnerable members of the County and the ongoing and additional support this may require;
- There has been an increased focus on digital solutions to the issues faced, some of these may replace traditional methods of service delivery;
- The prominence of agile working and the shift in culture and its impact on future office space requirements

3.25 There remains uncertainty around the continued Welsh Government emergency hardship funding to Local authorities as a result of the Covid-19 impact, in terms of the full consequential funding continuing to be passed through and whether there will be further funding announced by UK Government which will allow Welsh Government to make further commitments beyond 30th September 2021.

3.26 It is also important to recognise that the economy will likely be in recession and UK and global economies have been hit hard by the pandemic which will considerably impact future public spending and Local Government settlements.

3.27 Given all of these uncertainties it remains difficult to identify the timing and quantum of investment required into the Council's key corporate priorities moving forward and also in responding to the wider national policy agenda commitments, notably but not exclusively:

- The Climate emergency declaration and commitment to deliver a low carbon economy
- Support for mental health provision
- Homeless support and provision
- Food policy agenda

3.28 In considering all of the above and in apportioning the outturn position the future financial stability of the Council was considered, alongside the potential additional unknown costs that could occur in dealing with post Covid-19 recovery, whilst also giving financial resilience to service areas to deal with service pressures and the wider policy commitments that will shape future service delivery. In this regard the revenue surplus is proposed to be allocated to the following reserves:

4 SCHOOLS BALANCES

- 4.1 In a similar manner to the general revenue activities of the Council, Schools have also benefitted from Welsh Government hardship funding to compensate for additional general Covid costs incurred (e.g. PPE, staff cover due to self-isolation, enhanced cleaning) and income lost totalling circa £1.24m and this is included within the figures outlined in **Table 4** above.
- 4.2 In terms of the overall movement in school balances, 2020/21 has been an unprecedented year. Schools have received several specific Welsh Government grants totalling £1.77m to further support them and their pupils and these have predominately displaced core budgets in 2020/21 or been committed for use in 2021/22 in line with the grant terms. Furthermore, due largely to the sustained periods of enforced closure during the financial year spending on budgets areas such as staff cover, premises, supplies & services and examination fees, were significantly curtailed and produced savings totalling £2.08m.
- 4.3 These factors mean that the overall level of the school reserves has increased by £3.85m as at the 31st March 2021, taking schools collectively out of a net deficit of £435k to an overall surplus of £3.42m. The movements in individual school balances are outlined in **Appendix 4** to this report. As a result of this 15 of the 17 schools entering the year in deficit have returned to a surplus balance.
- 4.4 The Authority requires schools carrying significant surplus balances that are above levels guided by Welsh Government (£50k for a Primary, £100k for a Secondary) to provide investment plans setting out how they intend to spend the significant surplus balances being held. It is also clear that the inherent structural budget deficits that have led to a

situation of 17 schools being in deficit at the start of the year remain and require resolution irrespective of additional funding received.

- 4.5 In particular and in specific relation to Chepstow Comprehensive, when the windfall Welsh Government grants are disregarded, it masks a significant in-year budget deficit that has been brought about significantly due to the curtailing of any staff redundancies during the pandemic and that were pivotal to their recovery plans. This leaves the school in a comparably weaker position than they would have been in if they had executed their recovery plans as intended, and where they do not now have the level of surplus balances that the other three comprehensive schools now have to strategically invest over the medium term.

5 CAPITAL OUTTURN

- 5.1 The capital expenditure outturn detailed in **Appendix 1** shows a net underspend of £3.18m against budget which can largely be attributed to specific grant funded schemes which have not progressed during the year (£1.92m) due to a combination of late notification of the grant awards, a lack of resources available to complete eligible works and a shortage of appropriate schemes that fit within the grant criteria stipulated. This under spend does not release any capital financing for future use as the grant actually paid matches the overall expenditure.
- 5.2 Alongside this there has been reduced usage of the Capitalisation Directive budget by £1.08m following clarification of the revenue outturn position. This subsequently releases capital receipts back to the capital receipts reserve to utilise for future capital investment.
- 5.3 Capital financing variances primarily follow the reasons for the above expenditure variances with grants showing a variance of £1.7m and capital receipts £1.08m, as the related expenditure was not incurred. There is a variance within unsupported borrowing and leasing where it was more cost-effective to the Authority to finance vehicle purchases from borrowing instead of leasing as initially budgeted.
- 5.4 Capital slippage totals £49.92m and is shown in detail in **Appendix 5** to this report. The vast majority of the slippage requested is due to the delays encountered relating to the impact of Covid-19 and was very much outside of the control of the Authority with two schemes (Asset Investment Fund and Abergavenny 3-19 School) accounting for two thirds of the total slippage.
- 5.5 Members are asked to note the slippage requests of £49.92m as listed in **Appendix 5** along with the related presumptions made around financing consequences as detailed in **Appendix 1**. A further assessment of the justification for scheme slippage will be undertaken and recommendations made back to Cabinet for final approval as part of the month 2 financial monitoring for 2021/22.
- 5.6 **Useable Capital Receipts Available**

- 5.7 In the table below, the effect of the changes to the forecast capital receipts on the useable capital receipts balances available to meet future capital commitments is shown. This is also compared to the balances forecast within the 2020/24 MTFP capital budget proposals.

- 5.8 Capital receipts used to support the capitalisation direction were £1.08m less than budgeted for 2020/21, however this was offset by an overall delay in generating some receipts into 2021/22 and beyond and therefore results in a slightly reduced balance of receipts compared to the original budget.
- 5.9 Forecast receipts to be generated in future years have increased since the 2020/21 budget was set and this is demonstrated in the expected overall increase in receipt balances after affording additional capitalisation direction approved as part of 2021/22 budget setting.

6 OPTIONS APPRAISAL

- 6.1 This report provides an update on the current financial situation and the challenges facing the Council now and over the medium term. It has been prepared at a time of great uncertainty as the Council still transitions from the emergency response phase of the Covid-19 pandemic towards a period of recovery.
- 6.2 The outturn that has been prepared for consideration is predicated on assumptions that have been independently assessed by budget holders and subsequently reviewed as part of the budget monitoring process. These assumptions don't look to represent a policy position that Cabinet is looking to take on when services are re-opening. Rather they represent a reasoned assessment of the impact on services in year based on known information, anticipated future changes and estimates.
- 6.3 By far the greatest uncertainty that existed during the year was the level of Welsh Government hardship funding to be received to offset additional costs incurred in responding to the Covid-19 emergency response and the significant income losses that have resulted where services have ceased as a result of the enforced lockdown

restrictions in place. This risk diminished during the year as a result of Welsh Government announcements of significant funding to support Councils in Wales and this support currently extends to the 30th September 2021.

7 EVALUATION CRITERIA

- 7.1 The uncertainty around Welsh Government funding of additional costs and losses of income brought about by the response to and the impact of the pandemic has diminished during the year. However, this continues to represent a risk moving into 2021/22 that will only be mitigated by monthly and quarterly submissions to Welsh Government being agreed. And furthermore and beyond those impacts resulting from Covid-19 there exists a number of significant cost pressures that need to be managed regardless.
- 7.2 The Council has traditionally maintained formal reporting to Cabinet at month 2 (period 1), month 7 (period 2) and outturn, with more frequent budget monitoring information being undertaken at a departmental level and reported to management and the Strategic Leadership Team. Only where circumstances necessitate it is more frequent formal reporting to Cabinet required.
- 7.3 As a result of the significant financial challenges facing the Council there has been a more frequent reporting of the in-year revenue and capital outturn forecast. Formal reporting has taken place at months 2, 5, 7, 9 and outturn.
- 7.4 The update of the Medium Term Financial Plan (MTFP) and the development of the budget proposals for 2021/22 and the medium term were challenging. Circa £10.3m of pressures were accommodated in the budget and provides a huge challenge to services to bear down on cost to mitigate these.
- 7.5 There is also further uncertainty given that the UK Government has only undertaken a one-year Comprehensive Spending Review which consequently does not enable Welsh Government to provide any additional certainty around indicative budget settlements for Welsh local authorities in future years.

8 REASONS:

- 8.1 To ensure that the gravity of the financial challenges facing the Council are understood and that reasonable actions are being taken to safeguard the ongoing financial sustainability of the Council.
- 8.2 To provide a timely update on the current financial circumstances and challenges resulting from the Covid-19 pandemic and that will in turn lead to the Council needing to plan and plot a revised course to ensure it remains financially sustainable into the future.

9 RESOURCE IMPLICATIONS:

- 9.1 The resource implications of the revenue and capital outturn are contained in this report and the attached appendices. The overall surplus on the revenue budget has enabled a

strategy of reserve replenishment which ensures a degree on financial resilience as we move into a further period of significant financial and economic uncertainty.

- 9.2 The financial challenges facing the Council and resulting from the Covid-19 pandemic will be significant over the next 4 years of the MTFP. Not just for this Council but all councils across Wales and the UK. The Council is having to incur significant costs in its response effort and this will continue as it transitions towards recovery. Furthermore and resulting from the restrictions that UK Government and Welsh Government have had to put in place to contain the spread of the virus we are suffering significant shortfalls in our income levels. Some of these will return more quickly than others as services are able to be safely turned back on and this clearly represents a funding risk in the medium term.
- 9.3 The more immediate steps during the year were to curtail non-essential expenditure. Going forward more targeted and planned cost reductions will be challenging and the Council will as always look to minimise impact on service delivery. Though this cannot be guaranteed and is expected if Welsh Government funding falls short of expectations.
- 9.4 The Council continues to work on the basis that it will be fully funded by Welsh Government. However, there is clearly a risk that this will not happen and beyond this there are significant non-Covid-19 pressures being managed. Options to mitigate these risks are limited with recourse to draw on the Council Fund, specific earmarked reserves and useable capital receipts. Replenishment of these reserves as part of the outturn is therefore critical to the ongoing financial sustainability of the Council.

10 **EQUALITY AND FUTURE GENERATIONS EVALUATION (INCLUDES SOCIAL JUSTICE, SAFEGUARDING AND CORPORATE PARENTING):**

- 10.1 This report provides Members with information on the revenue and capital outturn position of the Authority and carries no decisions. There are therefore no equality of future generations' implications directly arising from this report.
- 10.2 Any such impacts will be fully considered subsequently when Council receives the budget recovery plan and revised budget proposals.

DIRECTORATE – DIVISION VARIANCE COMMENTS

SOCIAL CARE, HEALTH & SAFEGUARDING	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	1,630	1,448	1,707	1,308	811

SOCIAL CARE, HEALTH & SAFEGUARDING DIRECTOR'S COMMENTARY:

The directorate outturn for 2020/21 was an overspend of £811K, a £497K decrease since month 9, as a result of late Discharge to Reassess funding from Health of £553K. Of the over spend, £346K is as a result of the pressure from the additional 1.75% unfunded staff pay award and £242K unachievable 2% staff efficiency saving. The directorate budget was also assisted by the Social Care Workforce and Sustainability Grant from Welsh Government of £984K.

The Adult Services division finished the financial year with an underspend of £474K, an increase in underspend since M9 of £365K, largely due to funding received from Health via the Discharge to Reassess scheme. This area of the directorate has also benefitted in year from the Social Care Workforce and Sustainability (SCWS) grant of circa £1M and Intermediate Care Funding (ICF), with ICF having a planned termination date of 31st March 2022.

Children's Services has a predicted overspend of £1.353M, a £81K reduction since the reported M9 forecast. This element of the directorate received a significant injection as part of the 2020/21 budget allocation, however, this was based on CLA numbers at that time being 197. Since the budget for 2020/21 was set, the service had a further influx of children to 219 at the end of 2019/20, and at the close of the financial year CLA numbers stood at 213.

Public Protection continues to strive to remain within its budget, turning out an underspend of £67K, an increase in underspend since M9 of £50K, due to some reduced activity as a result of COVID 19.

ADULT SERVICES

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	24	156	180	(62)	(90)

Net effect of additional pay award, not achieving the 2% staff efficiency saving and additional spend in the care at home service, less reduced premise expenditure with day service closures as a result of COVID 19 plus Winter Pressures funding from Health.

Deficit / (Surplus) £'000s	1,575	1,459	1,460	1,433	1,353

£1M overspend in providing care and placements for our Looked After Children which closed at 213 at year end, £260K overspend in legal costs and the remaining overspend as a result of continued use of agency staffing which currently stands at 9 being employed plus the increased staff pay award.

CHILDREN & YOUNG PEOPLE DIRECTOR'S COMMENTARY:					
The Directorate's Outturn position is an over spend of £75k, which can be attributed to ALN. However, this has been partially offset by the surplus balance following the closure of Mounton House, which has been transferred to the central CYP budgets to support the wider education budgets.

Deficit / (Surplus) £'000s	5,950	5,113	4,617	3,829	(499)

ENTERPRISE DIRECTOR'S COMMENTARY:

The Enterprise and MonLife Directorate is forecasting an outturn position of £499k surplus at year end. This is an improved position since Month 9 and the details of these changes are provided within the next sections of this report.

The impact of COVID-19 has been significant across all of the services with both a loss of income and additional costs incurred to operate critical front line services during the pandemic. In addition to the direct impacts of the pandemic service areas identified pressures where budget savings have not been implemented or ongoing pressures continued to affect services.

Across all Services, all eligible additional costs and income losses have been claimed against any Welsh Government funding that has been made available. In addition, service areas have been successful in securing grant funding which has enabled us to passport core costs to grant funding activity. Since month 9 a number of service areas have been able to report a significantly improved position as WG has confirmed that costs or income losses can be covered by the support grants available due to COVID.

BUSINESS GROWTH & ENTERPRISE

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
-------------------------	----------------	----------------	----------------	----------------	----------------

Deficit / (Surplus) £'000s	46	29	(50)	(62)	34
----------------------------	----	----	------	------	----

Business Growth & Enterprise has underspent by £34k, this can be split down to the following :-

- Abergavenny Borough Theatre – Break-even.
- RDP & Youth Enterprise - £3k underspent due to offsetting core staff costs with grant funding.
- Communications - £10k underspent due to improved income.
- Community & Pship Development - £44k underspent, mainly due to staff savings as we have been able to passport core costs to grant funding.
- Enterprise Mgt & Strategic Projects - £90k overspent mainly due to unfunded pay award and over-accrual of public transport subsidy grant.

FACILITIES & FLEET MANAGEMENT

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	1,339	1,097	1,222	923	129

Facilities & Fleet Management has overspent by £129k.

- **Catering** - £103k underspent. The service was adversely affected by the pandemic but WG Covid income support has enabled the unit to recover lost meal income based on 19-20 performance, as a result 20-21 outturn has mirrored the 19-20 outturn producing an underspend against budget.
- **Building Cleaning** - £36k underspent. This is mainly due to an increase in internal income as the unit has picked up a number of contracts that have been brought back in-house.
- **Passenger Transport** - £24k overspend, due in the main :-

Private Hire & Service 65 - £5k overspent due to vehicle maintenance costs, receipt of Covid income support to cover lost hire income has improved the outturn from M9.

School Transport Operations - £96k overspent – due to a combination of historic staff pressure c/fwd from 19-20 and additional hours required to cover new Covid transport arrangements and additional staffing required to cover recent contract hand backs. The reduction from M9 relates to a number of factors; overtime payments were not as high as anticipated, agency staff were not required, furlough income included for February and March all of this is due to schools not going back until later than predicted.

Commissioning - £87k underspent due to staff vacancies, and a reduction in contract costs due to the school closures.

- **Fleet Maintenance** - £248k overspent, due to:-
 - Vehicle maintenance costs have increased over and above available budget, an element of this could be attributed to the requirement for additional vehicles due to Covid requirements.
 - Increased maintenance of our depots in Raglan and Caldicot.
 - A reduction in members of the Green Car scheme has hit savings (£6k).

The £793k positive swing from Month 9 can be mainly attributed to WG income support payments driving down service overspends in Passenger Transport and Catering.

NEIGHBOURHOOD SERVICES

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn

Neighbourhood services has overspent by £51k.

- **Highways & Street Lighting** - £63k underspent. Street Lighting has underspent by £103k, LED lamp replacement has generated savings from reduced output, in addition KWH rates were lower than budgeted, this has resulted in an underspend against our electricity budget. This has been offset by a net £40k overspend in Highways Operations as plant purchases that were to be reserve funded are to remain within the service.
- **Waste & Street Scene** - £114k overspent – This can be broken down into 2 main areas:-
 - **Waste Services** - £57k overspent – Main issues :-
 - Impact of Covid – Even though all the additional expenditure and the loss of external income has been covered off by the WG support grant covid still has impacted on the service in 20-21, this is because most of the planned interventions to help improve the budget deficit were stopped or delayed due to the pandemic.
 - Non-Covid related pressures – the volatility in the global recycling market continues to impact negatively on treatment and disposal costs for recycling and waste materials. In addition the abeyance of Usk CA site closure delayed service savings (£30k), there was also pressure caused by no budget increase for contracts and fuel inflation and the delayed roll out of polyprop bags. We have been fortunate that many of these pressures have been offset by the receipt of a number of WG Circular Economy grants and it has allowed us to passport core costs such as officer time against grant reducing service spend, this is the main reason for the improvement from Month 9.
 - **Grounds Maintenance** – £57k overspent – mainly due to additional expenditure incurred in meeting contractual obligations later in the year as a result of Grounds supporting waste collections during April and May.

PLANNING, HOUSING and Highways Dev & Flooding

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	1,011	1,067	993	1,245	(507)

Planning, Housing and Highways Dev & Flooding has underspent by £507k.

- **Planning & Building Control** - £102k underspent – this is due to a staff vacancy and savings against professional fees. The income shortfall has been covered off by the WG Covid support grant and is the reason for the improvement in outturn from Month 9.
- **Planning Policy** - £137k underspent - this is due to savings in professional and specialist fees costs due to delays in the LDP.
- **Housing** - £165k underspent - The majority of the underspend is found in our Shared Housing and Private Leasing schemes where net rental received from tenants has exceeded budgeted expectations, the final position on rent accounts cannot be calculated until financial year end so the extent of underspend was not known during the year and is the reason for the positive swing between reporting periods. In addition we have also been able to fund some staffing from grant funding. The increased expenditure relating to Welsh Government Covid related requirements to support homeless households and implement new Welsh Government homeless policy, has been funded by the WG Covid support grant so has not affected outturn position.
- **Car Parking, Highways Development & Flooding** - £103k underspent. Main areas:-

- Car Parks - £108k overspent – this is due to increased costs in car park rates, transport and supplies and services. All of the income shortfall reported at M9 has been covered off by the WG support grant and is the reason for the improvement between reporting periods.
- Highways Development & flooding - £211k underspent – mainly as a result of staff vacancies across the department where the decision was made to freeze vacant posts to help with recovery of car park overspend.

There has been a very large positive swing between outturn and Month 9, this is mainly due to the receipt of WG income support grant in Housing, Car Parks and Planning that has reduced service overspends.

(MONLIFE) Countryside & Culture

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	42	40	81	121	5

Countryside & Culture - £5k overspent- The service has been heavily impacted by Covid and flooding in 20-21. All income lost due to event cancellation has been covered by the WG Covid support grant, the small overspend relates to additional costs as a result of the flooding that could not be covered by grant.

(MONLIFE) Finance & Business Development

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	(118)	(150)	(106)	(43)	(139)

Finance & Business development- £139k underspent – Mainly due to staff savings from vacant posts throughout the service. All income losses have been covered by WG support grant and is the reason for the positive swing from Month 9.

(MONLIFE) Leisure, Youth & Outdoor Adventure

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	2,173	1,877	1,694	1,146	(72)

Leisure, Youth & Outdoor Adventure - £72k underspent.

The closure of our Leisure centres and Outdoor Adventure sites due to Covid has had an adverse impact on income generation in 20-21. Without the WG income support grant we would have been reporting a sizable overspend but the grant has allowed us to cover off any shortfall so our revenue outturn position is not affected. The £72k underspend is mainly due to staff vacancies across the department.

CHIEF EXECUTIVES UNIT	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	187	144	63	(4)	(140)
LEGAL & LAND CHARGES					
Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn

Deficit / (Surplus) £'000s	78	92	40	(27)	(109)
-----------------------------------	----	----	----	-------------	--------------

Legal - £93k underspend - this is mainly as a result of staff savings due to the employment lawyer post not being filled in 20-21 and a reduction in supplies and services.

Land charges – £16k underspend – this is mainly due to the small ‘boom’ in the house market as CV restrictions eased resulting in a considerable improvement in search income over the last 2 quarters, augmented by WG covid support that covered the initial period of the housing market being shut down.

The £82k improvement from M9 is due to the extent of staff and supplies savings in legal not being fully known at M9 and the pick up in search income in the last quarter in land charges.

GOVERNANCE, DEMOCRACY & SUPPORT

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	109	52	23	23	(32)

The **Community Hubs** sections is forecasting to overspend by £8k - this is due to over spends in Usk Post Office as this budget area is not being completely funded and therefore running at a loss and insufficient budget for Gilwern Library. This is offset in part by savings across some of the other hubs due to a decrease in spend on supplies and services.

The **Contact Centre** is reporting a £15k overspend, this is due to a proposed budget saving that can no longer be delivered and is now reflected as a pressure in the 21-22 budget model.

The **Corporate Section** is forecasting to overspend by £11k, this is due to an overspend relating to supplies and services and a copyright licencing fee.

The **Democratic Services Section** is forecasting to underspend by £86,000, this is due to savings in Elections where we have had savings from not having to undertake the annual canvass, grant windfalls relating to voting for 16/17 year olds and underspends in supplies and services mainly due to Members working from home. The extent of grant windfalls were not known at M9 and is the main reason for the improvement.

Policy and Partnerships is forecasting to overspend by £25k, this is mainly due to an increase in Welsh Language Translation costs.

RESOURCES	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	782	694	192	387	(867)

RESOURCES DIRECTOR'S COMMENTARY:

Whilst the COVID-19 pandemic has adversely impacted front line services the directorate has equally suffered significantly but in different ways. The outturn position has moved significantly and positively from that reported at month 9. This is principally as a consequence of the shortfalls in income as a consequence of the COVID-19 pandemic being fully covered from Welsh Government's COVID Hardship Fund. A significant pressure resulting from B&B claims for homeless people, and which didn't attract full subsidy from DWP, has also been funded by Welsh Government's COVID-19 Hardship Fund.

The outturn position has also benefitted from vacancy savings and notably where senior finance posts and property posts are not being filled. This is not a sustainable position and will not be a permanent

feature and is currently being addressed.

FINANCE

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	137	189	173	39	(755)

Finance - £237k underspent – This is due to staff savings from senior finance staff vacancies.

Audit - £52k underspent due to staff savings as we have funded collaboration costs through capital as part of capitalisation directive (£36k) and savings due to maternity leave (£14.5k).

Revenues - £374k underspend. This can be attributed to :-

- **Benefits** - £63k overspent. This reflects the net position against the Housing Benefit budget once all subsidies and grants have been taken into account. Certain projects, especially for drug and alcohol support, are not eligible for full subsidy and fall to the council to finance any shortfall.
- **Council Tax** - £59k overspend. This is mainly due to an over spend against salary costs as budget has been moved as part of the Resources restructure, this has been offset by underspends in finance above.

- **Charity Relief** - £477k underspend. This is due to 2 main reasons 1) We haven't used any funding set aside in 20-21 for Business Rate support (this is separate to the covid support grants) 2) We also received £347,000 funding from Welsh Government for the administration of the Business Support Grant process. The income is to cover additional staff and admin costs incurred but these are held within the relevant services department.

- **Debtors** - £19k underspend – this is due to a staff vacancy saving, due to the financial impact of covid19 the decision was made not to fill this post until April 2021.

Systems & Cashiers - £95k underspend – main reasons relate to software and system development savings and security carrier costs as activity is down due to Covid shutdown.

There is a large positive swing from month 9 of £796k – this is due to the receipt of Covid support payments driving down the over spend in housing benefits. In addition the extent of funding available from the Business Support grant was not known at M9.

INFORMATION, COMMUNICATION & TECHNOLOGY

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	40	(128)	(431)	(431)	(76)

The ICT section has underspent by £76k. This is due to savings within SRS that meant our annual cost was £55k below budgeted contribution and underspends in the Digital Programme Team of £17k.

The £355k negative swing from Month 9 is due to 1) we had anticipated moving staff costs from the DPO to capital as part of the capitalisation directive, due to the overall positive position of the authority this adjustment was not undertaken. 2) we had reported at M9 that we would be drawing back from SRS some MCC specific reserves – this has now not happened as we are anticipating these reserves will be needed in 21-22 to finance specific projects.

PEOPLE

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	(2)	6	(68)	(112)	(53)

- **People Services** - £32k overspend - this is due to system development costs of the new payroll system offset by staff savings as a result of posts only been filled part way through the year. It was reported at M9 that the system development costs would be moved to capital but it has been decided to leave these within the service and is the reason for the reduction in underspend between the reporting periods.

- **Organisational Development** - £63k underspend, this is mainly due to staff savings as we have transferred staff costs involved with service transformation to capital as part of the capitalisation directive.

- **Customer Relations** - £23k underspend due to a reduction in professional fees and staff secondment savings.

FUTURE MONMOUTHSHIRE

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	112	112	82	82	83

Future Monmouthshire - £83k overspend. £112k of Corporate Agency and travel savings have been built into the budget for 20-21 – currently these are deemed unachievable or are being achieved within directorate budgets and are thus contained in their respective forecasts. This has been offset by staff savings of £30k as we are covering secondment costs of a member of staff from WG.

COMMERCIAL & CORPORATE LANDLORD

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	495	515	437	808	(44)

Commercial & Corporate Landlord is forecasting a £44k underspend:-

- **Investment Properties** has underspent by £200k, this can be split into 3 areas:-

- **Investment Assets other** - £200k overspent, our MTFP for 20-21 included a £200k saving to reflect additional income from the purchase of more investment properties. No additional purchases were made in 20-21 (due to Covid) so the saving could not be achieved.
- **Newport Leisure Park** – On Budget. The pandemic has affected the leisure and retail sector greatly in 20-21, this has impacted on rental receipts at our Newport site as most of the units have been closed for the majority of the year. Officers have worked with tenants to recover owed rent where applicable, any rental shortfall due to lockdown restrictions has been fully funded by the WG Covid 19 Hardship fund, and this additional support has enabled us to report a break-even budget for 20-21.
- **Castlegate** – On Budget. Castlegate has seen in year savings of £165k relating to windfall loan repayments and reductions in consultant and insurance costs – this saving has been moved to reserves, this reserve is set up to provide a sinking fund to support the investment and protect MCC position against any negative impacts as set out in the investment plan. This movement to reserves brings the budget back to a break-even position.

- **Estates** - £22k underspent – this is mainly due to a shortfall in income of £100k as the creation of a development company has been delayed, offset by staff savings (£120k) as a result of vacant posts not being filled during the year.

- **Solar Farm & Sustainability**- £97k underspent – despite a drop in ROC unit prices due to a drop off in demand because of lockdown our renewables are still returning a surplus and we have generated enough income to exceed budget, in addition we have seen a small underspend in rates, maintenance and professional fees.

• A combined net underspend in **County Farms, Cemeteries, Markets & Industrial units** of £27k – this is mainly due to staff savings in Markets being offset by a reduction in rental income in County Farms due to the change in farm portfolio.

• **Property Services & Facilities Mgt** has underspent by £109k, made up as follows:-

- Property & Office Services underspent by £28k, this is mainly due to staff savings as vacant posts were not filled during the year, this has been offset by a reduction in capital income as we were unable to charge fees on projects delayed due to Covid.
- Corporate Building Maintenance has underspent by £52k, we were able to move elements of school maintenance costs to a WG grant – this has created an under spend that was not known at M9.
- Property Accommodation has underspent by £70k due to savings in maintenance and utilities costs as offices have been closed or in limited operation due to Covid19.
- Telephony underspent by £15k as contracted call charges came in below budget.

There has been a large positive swing of £852k from what was reported at Month 9, this can mainly be attributed to the receipt of WG Covid support grant driving down overspends in Investments and Estates.

Additional pension strain costs relating to redundancies. Strain costs relate to staff who retire before their normal pension age and where the employer is required to top up the pension fund to cover the shortfall in contributions. The majority of these costs would not have been known about at budget setting stage due to the uncertainty over the timing, value and individual pension implications of redundancies.

STRATEGIC INITIATIVES

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	1,300	0	(61)	(61)	(2,436)

The budgets held for incremental pay pressure (£420k pressure) and cross directorate efficiency savings (£359k saving) are to remain centrally and not be distributed to service budgets.

Alongside this and notified since month 9, receipt of significant specific Covid-19 grants from Welsh Government totalling £2.38m that have been taken corporately and to assist in future financial resilience.

INSURANCE

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	47	46	56	53	(43)

A slight over spend against the premium budget of £27k based on the results of the Insurance renewal and the increase in costs for the period Oct 2020 to April 2021 due to the worsening of claims experience. The flooding events led to a significant property claim at Monmouth LC and Covid19 has led to significant travel claims relating to cancelled school trips.

This is more than offset by savings in self-insured costs and professional fees based on claims activity during the year of £70k.

The forecast rate of return achievable following the Covid1-9 pandemic has reduced significantly from budgeted levels as the UK Government refines its economic response. To a lesser extent this has also impacted forecast returns on Property and combined funds which are propping up the current returns. The improvement since month 9 reflects the finalisation of returns in year on these combined funds which are often hard to estimate during the year given fluctuations in market adjustments.

Government deposits have largely returned 0% and have at times given a negative rate of return on deposits, especially when taking into account transaction fees.

Deficit / (Surplus) £'000s	(126)	(164)	(230)	(330)	(338)

In October 2019 the PWLB took the unprecedented step of increasing its borrowing margin across the board by 1% in reaction to increased levels of borrowing by Local Authorities to fund commercial investments. This resulted in PWLB borrowing being uneconomic when compared to short term borrowing sourced from other public bodies and consequently the Authority's approach has been modified resulting in lower borrowing costs in the short term. PWLB has since reversed this decision but longer term rates continue to remain unattractive in the near term until capital spending plans are firmed up. Rates remain low on inter local authority borrowing further reducing costs.

COUNCIL TAX BENEFIT SUPPORT

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	336	324	229	159	2

This budget has been under particular pressure, as a direct result of Covid 19. Since the beginning of the year caseload has increased rising from 5,721 at the start of April 2020 to 6,168 by the end of March 2021. This increase in cases resulted in a £350,000 overspend by year end. However the Welsh Government released specific funding to Local Authorities to help manage this pressure. Monmouthshire received £348,000 such funding, resulting in a small over spend at year end.

COUNCIL TAX

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	0	(305)	(385)	(368)	(407)

A council tax surplus has been anticipated throughout the year. Whilst the in year collection rate is down by 1.1% compared to the same time last year, the council tax base remained healthy. By the end of the year an additional 400 properties had been added to the tax base resulting in the surplus reported above.

2. SCHOOL BALANCES

- 2.1. A Board of Governors who are responsible for managing the school's finances directly governs each of the Authority's Schools. However, the Authority also holds a key responsibility for monitoring the overall financial performance of schools. Below is a table showing the outturn forecast Schools' balances position based on month 9 projections for each Educational Cluster.
- 2.2. The monitoring earlier in the year at month 2 included a surplus balance of £206,518 for Mounton House. As the school has now closed this balance has been transferred into central education budgets, of which, £107,000 has been used to support the placement costs for the 3 remaining MCC pupils and the remaining £100,000 has been used to offset the overspend in CYP.

Total	435	(3,853)	(3,418)	13 4	1 1

- 2.3. In terms of the overall movement in school balances, 2020/21 has been an unprecedented year. Schools have received several specific Welsh Government grants totalling £1.77m to further support them and their pupils and these have predominately displaced core budgets in 2020/21 or been committed for use in 2021/22 in line with the grant terms. Furthermore, due largely to the sustained periods of enforced closure during the financial year spending on budgets areas such as staff cover, premises, supplies & services and examination fees, were significantly curtailed and produced savings totalling £2.08m.
- 2.4. These factors mean that the overall level of the school reserves has increased by £3.85m as at the 31st March 2021, taking schools collectively out of a net deficit of £435k to an overall surplus of £3.42m. As a result of this 15 of the 17 schools entering the year in deficit have returned to a surplus balance.
- 2.5. The two main grants received from Welsh Government relate to a Schools Revenue Maintenance Grant and Recruit, Recover and Raise Standards. Schools carrying significant surplus balances that are above levels guided by Welsh Government (£50k for a Primary, £100k for a Secondary) will be asked to provide investment plans setting out how they intend to spend the significant surplus balances being held. It is also clear that the inherent structural budget deficits that have led to a situation of 17 schools being in deficit at the start of the year remain and require resolution irrespective of additional funding received.
- 2.6. In particular and in specific relation to Chepstow Comprehensive, when the windfall Welsh Government grants are disregarded, it masks a significant in-year budget deficit that has been brought about significantly due to the curtailing of any staff redundancies during the pandemic and

that were pivotal to their recovery plans. This leaves the school in a comparably weaker position than they would have been in if they had executed their recovery plans as intended, and where they do not now have the level of surplus balances that the other three comprehensive schools now have to strategically invest over the medium term.

2.7. The movement of individual schools forecast to be in deficit during the year and the final position is shown below:

** King Henry VIII Comprehensive School forecast balance at month 5 onwards included a Local Authority loan of £250,000 which was estimated to result in a surplus year-end balance. Given the current year end surplus, the school will not be taking the loan at this time.

- 2.8. All schools in a deficit budget have, or are in the process of agreeing recovery plans. These recovery plans will be confirmed with both the Local Education Authority and each School's Governing Body. Once finalised the schools with significant deficits will be monitored by the Cabinet member for Children and Young People and Resources on a termly basis.
- 2.9. Total schools balances have been exhibiting a fluctuating trend with some schools showing a continuing reduction in schools balances, which is of concern, and others a more balanced trend. However, as previously mentioned, due to the Covid-19 pandemic, several grants were awarded to schools at year end, which has resulted in a large increase in school balances for 2020-21.

3.2 The capital expenditure outturn for 2020/21 shows a saving of £3.18m against budget, however it is important to note that this does not fully represent released capital financing available for future use. The variances can be explained as follows:

- Reduced usage of the Capitalisation Directive budget by £1.08m following clarification of the revenue outturn position. This subsequently releases capital receipts back to the capital receipts reserve to utilise for future capital investment.
- Specific grant funding budgets of £1.92m that have not been able to be spent within the financial year primarily due to a combination of late notification of the grant awards, a lack of resources available to complete eligible works and a shortage of appropriate schemes that fit within the grant criteria stipulated. This under spend does not release any capital financing for future use as the grant actually paid matches the overall expenditure.

- Vehicle replacement has under spent by £172k due to clarification of vehicles requirements during the year. These purchases were originally budgeted to be funded by leasing but following an options appraisal it was more cost-effective to finance the majority of vehicles via borrowing. The under spend does not release any capital financing for future use.

3.3 The outbreak of the Covid-19 pandemic has caused significant disruption to the progress of budgeted capital schemes with slippage at outturn totalling £49.92m (£40.45m at month 9). The Covid-19 impact is affecting both internally and externally managed projects, with disruption to external supply chains, increased contract risk and potential inflationary cost pressures sitting alongside internal resourcing pressures.

3.4 The slippage is broken down as follows:

Scheme	Forecast Slippage Month 2 (000's)	Forecast Slippage Month 5 (000's)	Forecast Slippage Month 7 (000's)	Forecast Slippage Month 9 (000's)	Actual Slippage At Outturn

3.5 Useable Capital Receipts Available

3.6 In the table below, the effect of the changes to the forecast capital receipts on the useable capital receipts balances available to meet future capital commitments are illustrated. There is also a comparison to the balances forecast with the 2020/24 MTFP capital budget proposals.

	2020/21	2021/22	2022/23	2023/24	2024/25
	£000	£000	£000	£000	£000

Capital receipts used for financing	(31)	(3,341)	(684)	(684)	(684)
Capital receipts used to support capitalisation direction	(1,011)	(2,208)	(2,208)	(508)	(508)
Capital receipts Received or Forecast	7,212	10,475	1,300	100	100
Forecast Balance as at 31st March	9,210	14,136	12,544	11,452	10,360
Forecast Balance 2020/24 MTFP	9,904	10,245	10,791	10,136	10,136
Variance compared to 2020/24 MTFP	(694)	3,891	1,753	1,316	224

- 3.7 Capital receipts used to support the capitalisation direction were £1.08m less than budgeted for 2020/21, however this was offset by an overall delay in generating some receipts into 2021/22 and beyond and therefore results in a slightly reduced balance of receipts compared to the original budget.
- 3.8 Forecast receipts to be generated in future years have increased since the 2020/21 budget was set and this is demonstrated in the expected overall increase in receipt balances after affording additional capitalisation direction approved as part of 2021/22 budget setting.

DIRECTORATE – DIVISION VARIANCE COMMENTS

SOCIAL CARE, HEALTH & SAFEGUARDING	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	1,630	1,448	1,707	1,308	811

SOCIAL CARE, HEALTH & SAFEGUARDING DIRECTOR'S COMMENTARY:

The directorate outturn for 2020/21 was an overspend of £811K, a £497K decrease since month 9, as a result of late Discharge to Reassess funding from Health of £553K. Of the over spend, £346K is as a result of the pressure from the additional 1.75% unfunded staff pay award and £242K unachievable 2% staff efficiency saving. The directorate budget was also assisted by the Social Care Workforce and Sustainability Grant from Welsh Government of £984K.

The Adult Services division finished the financial year with an underspend of £474K, an increase in underspend since M9 of £365K, largely due to funding received from Health via the Discharge to Reassess scheme. This area of the directorate has also benefitted in year from the Social Care Workforce and Sustainability (SCWS) grant of circa £1M and Intermediate Care Funding (ICF), with ICF has a planned termination date of 31st March 2022.

Children's Services has a predicted overspend of £1.353M, a £81K reduction since the reported M9 forecast. This element of the directorate received a significant injection as part of the 2020/21 budget allocation, however, this was based on CLA numbers at that time being 197. Since the budget for 2020/21 was set, the service had a further influx of children to 219 at the end of 2019/20, and at the close of the financial year CLA numbers stood at 213.

Public Protection continues to strive to remain within its budget, turning out an underspend of £67K, an increase in underspend since M9 of £50K, due to some reduced activity as a result of COVID 19.

ADULT SERVICES

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	24	156	180	(62)	(90)

Net effect of additional pay award, not achieving the 2% staff efficiency saving and additional spend in the care at home service, less reduced premise expenditure with day service closures as a result of COVID 19 plus Winter Pressures funding from Health.

COMMUNITY CARE

Deficit / (Surplus) £'000s	5,950	5,113	4,617	3,829	(499)

ENTERPRISE DIRECTOR'S COMMENTARY:

The Enterprise and MonLife Directorate is forecasting an outturn position of £500k surplus at year end. This is an improved position since Month 9 and the details of these changes are provided within the next sections of this report.

The impact of COVID-19 has been significant across all of the services with both a loss of income and additional costs incurred to operate critical front line services during the pandemic. In addition to the direct impacts of the pandemic service areas identified pressures where budget savings have not been implemented or ongoing pressures continued to affect services.

Across all Services, all eligible additional costs and income losses have been claimed against any Welsh Government funding that has been made available. In addition, service areas have been successful in securing grant funding which has enabled us to passport core costs to grant funding activity. Since month 9 a number of service areas have been able to report a significantly improved position as WG has confirmed that costs or income losses can be covered by the support grants available due to COVID.

PLANNING, HOUSING and Highways Dev & Flooding

Outturn Forecast	Month 2	Month 5	Month 7	Month 9	Outturn
Deficit / (Surplus) £'000s	1,011	1,067	993	1,245	(507)

Housing and Highways Dev & Flooding has underspent by £507k.

- **Housing** - £165k underspent - The majority of the under spend is found in our Shared Housing and Private Leasing schemes where net rental received from tenants has exceeded budgeted expectations. The final position on rent accounts cannot be calculated until financial year end so the extent of underspend was not known during the year and is the reason for the positive swing between reporting periods. In addition we have also been able to fund some staffing from grant funding. The increased expenditure relating to Welsh Government Covid related requirements to

support homeless households and implement new Welsh Government homeless policy, has been funded by the WG Covid support grant so has not affected outturn position.

3 CAPITAL OUTTURN

3.1 The summary Capital outturn position is as follows:

3.2 The capital expenditure outturn for 2020/21 shows a saving of £3.18m against budget, however it is important to note that this does not fully represent released capital financing available for future use. The variances can be explained as follows:

- Reduced usage of the Capitalisation Directive budget by £1.08m following clarification of the revenue outturn position. This subsequently releases capital receipts back to the capital receipts reserve to utilise for future capital investment.
- Specific grant funding budgets of £1.92m that have not been able to be spent within the financial year primarily due to a combination of late notification of the grant awards, a lack of resources available to complete eligible works and a shortage of appropriate schemes that fit within the grant criteria stipulated. This under spend does not release any capital financing for future use as the grant actually paid matches the overall expenditure.
- Vehicle replacement has under spent by £172k due to clarification of vehicles requirements during the year. These purchases were originally budgeted to be funded by leasing but following an options appraisal it was more cost-effective to finance the majority of vehicles via borrowing. The under spend does not release any capital financing for future use.

3.3 The outbreak of the Covid-19 pandemic has caused significant disruption to the progress of budgeted capital schemes with slippage at outturn totalling £49.92m (£40.45m at month 9). The Covid-19 impact is affecting both internally and externally managed projects, with disruption to external supply chains, increased contract risk and potential inflationary cost pressures sitting alongside internal resourcing pressures.

3.4 The forecast slippage is broken down as follows:

Scheme	Forecast Slippage Month 2 (000's)	Forecast Slippage Month 5 (000's)	Forecast Slippage Month 7 (000's)	Forecast Slippage Month 9 (000's)	Actual Slippage At Outturn

3.5 Useable Capital Receipts Available

3.6 In the table below, the effect of the changes to the forecast capital receipts on the useable capital receipts balances available to meet future capital commitments are illustrated. There is also a comparison to the balances forecast within the 2020/24 MTFP capital budget proposals.

	2020/21	2021/22	2022/23	2023/24	2024/25
	£000	£000	£000	£000	£000
Balance as at 1st April	3,040	9,210	14,136	12,544	11,452
Capital receipts used for financing	(31)	(3,341)	(684)	(684)	(684)
Capital receipts used to support capitalisation direction	(1,011)	(2,208)	(2,208)	(508)	(508)
Capital receipts Received or Forecast	7,212	10,475	1,300	100	100
Forecast Balance as at 31st March	9,210	14,136	12,544	11,452	10,360
Forecast Balance 2020/24 MTFP	9,904	10,245	10,791	10,136	10,136
Variance compared to 2020/24 MTFP	(694)	3,891	1,753	1,316	224

3.7 Capital receipts used to support the capitalisation direction were £1.08m less than budgeted for 2020/21, however this was offset by an overall delay in generating some receipts into 2021/22 and beyond and therefore results in a slightly reduced balance of receipts compared to the original budget.

3.8 Forecast receipts to be generated in future years have increased since the 2020/21 budget was set and this is demonstrated in the expected overall increase in receipt balances after affording additional capitalisation direction approved as part of 2021/22 budget setting.

2. To appoint a Vice Chair

Councillor Brown was proposed by Councillor Woodhouse and seconded by Councillor Powell.

3. Declarations of interest

Tony Crowhurst declared a non-prejudicial interest as a citizen panel member for Monmouthshire Housing.

4. Public Open Forum

No members of the public were present.

5. Homelessness Transition Plan: Progress report on what are we doing to address homelessness

Ian Bakewell presented the report and answered the members' questions, with additional comments from Cath Fallon and Jane Oates.

Challenge:

The Housing Support provision includes numerous officers, each covering a large aspect of the problem. Housing is just one part of a huge social issue. There have been examples in this authority of working at a multi-agency level to think outside the box. I propose that this authority commissions an academic study to determine the best way to break into this intergenerational cycle.

Yes, we agree entirely about the cycle. These comments are timely: when we put forward the Housing action plan, it was part of our social justice strategy update in March. As part of that, we were looking at Phase 3 of our community support network, which we pivoted and developed as part of our response to the pandemic. The community support network is now taking us towards Phase 3, where our Community and Partnership Development team, that previously was working in our communities (volunteering etc.), are now working very closely with our Adult Social Care colleagues, particularly in the 'Changing Places, Changing Lives' work. This week, we started talking about looking at more proof of concept and research work, and working with the Welsh School of Social Care i.e. the multi-agency approach that has been suggested. We are considering how to break the cycle, take forward the work that we have as part of our Tackling Poverty And Inequality action plan, and how we align that with the flexible funding that supports our Children And Communities grant and Housing Support grant, and how we can work better with external colleagues and internally.

As a council, we don't seem to be supporting this team adequately, and are letting them down, as a result. Do we have a date for when the buying up of housing will start? Can MCC provide housing in its own right, rather than relying on developers or private landlords?

The suggestion to buy properties is being given serious consideration. There is interest from senior management, who have asked me to progress that to a proposal, which should be in the next few weeks. I would welcome the authority becoming a stockholder, but that is a decision for council as a whole. We are well-supported by our partners: housing associations have brought properties forward, Monmouthshire Housing in particular has acquired properties for the team, Melin has agreed to hand over accommodation to us directly. We still have the challenge of unique circumstances; one of the issues is affordability, which Welsh Government recognises, and about which we have regular discussions.

The end of the report mentions problems with the Covid Hardship Fund. What extra finance would be needed, were that fund to cease? How could that funding be obtained in the long-term?

That is supporting our B&B expenditure, management costs that are incurred (e.g. losing income from keeping bedrooms empty), the concierge service covering several properties, and incidentals like taxis and provision of meals. If Welsh Government were to withdraw that funding, we would have to make some difficult decisions in relation to those costs. Please be assured that we are lobbying Welsh Government on that – we met with them yesterday, so they do know the implications.

One-bed accommodation is hard to obtain in Monmouthshire. Could Welsh Government allow for better incentives for private landlords to purchase properties for rent in the homeless sector, if they took away the Stamp Duty costs, Capital Gains Tax, etc.?

We want to support landlords when it comes to potential disincentives. We will help to cover damage, for example. One of our options is a leasing option, which provides guaranteed income. We are always looking at how we can offer landlords better value for money. We offer an alternative, supporting landlords with the hassle of being a landlord. In terms of bespoke packages, we are trying to ask publicly for any landlord to come and speak to us: if something is of interest or concern, we are open to working with them in that regard. Having a dedicated member of staff, who can hopefully bring some private sector experience, will be an important step forward for us.

There is concern about young people in B&B accommodation perhaps not being near a town, and therefore feeling isolated e.g. at Raglan.

Raglan is an important resource for us, but we recognise its location. It's probably characteristic of our challenge. We want the homes we offer to be in the person's community.

What about Mental Health Housing Support workers from the Health authority? Could it be linked in with RSL providers and providing support in the private rented sector as well?

We can offer some reassurances that the Health Service is involved at the moment, off the back of the GDAS service and Substance Misuse Support that we've started benefitting from – that's been really important. The conversations have started: we are in regular contact with the community mental health team. There are still more conversations to be had. The property alone is not the answer to many people's support

needs; we need to bring in other agencies to provide wraparound support. The most interesting recent conversation was about Health establishing a team of 8 people to target rough sleepers. That project concentrated on Newport and is currently being reviewed. Our desire is to see that project have a wider remit than just rough sleeping.

Should the Covid Hardship Fund not be re-labelled as part of the Welsh Government policy to get people into permanent accommodation?

That pot of money is an emergency one, and the government probably didn't expect it to continue for so long. They have put additional funding into our Housing Support Grant and Social Housing grant programmes but it is understood that there are resource issues at a local authority level – they do understand our predicament.

Concerning the Process Map, we need to recognise the mental health effect on those around someone waiting to be rehoused, not just the person themselves – as in the recent case of an elderly woman who was sofa surfing. There is also the effect on someone who worries that the process will fail, and they will go back to, for example, living in a car – as in a particular recent case.

We are aware of that recent case, which is complicated, and with a long history – we can update members outside the meeting with recent progress, if needed. Mental health issues aren't just for applicants but the family as well. We do our best to support everyone. In the particular case of the elderly woman, we supported her with self-contained accommodation very close to her family. She should now be well placed to bid for permanent accommodation.

What proportion of large houses that are unused could be used for shared housing? Is that possible?

Twice a year we contact empty property owners to ascertain what is happening with the properties. It is a soft proactive approach whereby we encourage property owners to adopt any of the available options. It is probably quite a challenge. Empty property owners often don't like us contacting them. We have around 15 properties with shared facilities, housing approximately 70 people. We have been doing this for only 3 years; when we started doing so we were offering an additional housing option that many local authorities weren't. We were able to accommodate rough sleepers using it and single people who wouldn't have previously been considered to be in priority need. But it does have disadvantages from the point of view of shared living: we know it's not ideal, but as a team we think that it will be needed in the short to medium term. One complication is that Welsh Government were working towards a self-contained policy, which is the

appropriate direction, but we don't want to stop the shared option for the time being, as there would then be a gap in provision. But because of Welsh Government's view, they will not fund shared housing, so we must do so via our own mechanisms.

You mentioned that there are no boundaries – has this had a big effect on the numbers you are looking after, and the accommodation you seek?

Yes, this is the core of the matter. We've gone from March last year, when someone presenting who wasn't in priority need would have been provided with advice and assistance rather than accommodation, as per our legal duty, but now, for anyone coming through we have to provide accommodation. It has put us on the course to reviewing homeless legislation, which has been on the cards for several years. If everything is relaxed in terms of homelessness, the resource implications are significant. It has flushed out hidden homelessness and hidden issues, which is a good thing – without doubt, we have got a better understanding of the needs and issues in Monmouthshire.

There is no such thing as 'priority need', which we don't expect will change. The Homeless Action Group is also looking at intentionality and local connection, and possible doing away with that in the future as well, which will bring another challenge to us. The other issue we have is that we are under the obligation that nobody is to be outside, so even though we have a fair number of people who struggle in temporary accommodation in antisocial behaviour, substance abuse etc., if they break down that accommodation we have to place them somewhere else. We are therefore in a circle currently of moving people round so that no one is rough sleeping. We have 3 people whom we are unable to accommodate due to the risks they present to others.

With regard to locality, are many more people coming into Monmouthshire?

We could probably count the number on two hands. We've been lucky that the information about people having a choice as to where they can present as homeless isn't out there at the moment, but if that is promoted. It could pose a future challenge to our capacity. Currently, for those who present with no local connection, we take the homeless application and allocate them to the local authority that they are from but if they choose not to go, we have no grounds to make them. It's a great experience that Welsh Government has introduced us to, but the legislation isn't there yet to back us up, in terms of what we can do if people refuse to move on.

The team should be up to full complement in August – are we going to meet that?

Yes, hopefully, depending on the level and quality of applications. There is a shortage now in Wales of homeless workers, particularly around housing support.

Will there be training or apprentice work to learn about the specifics required?

We haven't taken on apprentices as part of this proposal. Training is a key issue for the team. In the last year, they have been exposed to very challenging scenarios, and things are happening at pace, so it is incumbent on us as an authority to ensure that we support the staff as fully as possible. We have pulled back from training recently due to finances but we are looking now at a new programme of training to support our staff. This week we have done training with Mind about how to have conversations with people in need.

Landlord eviction legislation ends in September – what risk will that pose?

Our understanding is that we are beginning to get early signs of some individual landlords who might look to acquire possession. It's probably less about tenant issues than it is them wanting their properties back. We did an exercise a few months ago in which we started contacting letting agencies to identify low-level issues that they might have with their tenants, and ask if we could assist in any way. We got very little back. Any demand at the moment is demand we can do without.

Chair's Summary:

The committee gives great thanks to the team for all of its hard work and dedication. We have considered numerous aspects of Homelessness in Monmouthshire. Additionally, Councillor Brown noted that we shouldn't allow of the loopholes that private developers exploit in order to not provide the amount of affordable housing for which a site's capacity allows. Councillor Powell lamented that planning at Raglan, in which the proportion of low-cost housing was high, was overturned by Welsh Government. Councillor Harris observed that the team works on resources that have been limited for a long time, with Covid only exacerbating those shortages. The Chair wondered if use could be made of the well-placed large blocks at Nevill Hall and, if so, whether the Health Board might help.

The committee agreed to the report's recommendations.

Councillor Groucott made the following further recommendation, which was agreed by members, unanimously: to commission an academic study to determine the best way in which to break the cycle of deprivation and poverty. In addition, he proposed that in

order to meet the statutory duty of homelessness being short-term and non-repeating, Monmouthshire County Council should build its own housing.

6. Adults Select Committee Forward Work Programme

7. Cabinet, Council and ICMD Forward Planner

8. Confirmation of Minutes

The minutes were confirmed and signed as an accurate record.

9. To confirm the date of the next meeting as 22nd June 2021

Councillor Powell would rather the meetings return to a 10.00 start. Councillor Woodhouse noted that it is 10.00 in the diary, though Hazel Ilett observed that this must be an error as the committee previously agreed a 10.30 start. Councillor Brown and Tony Crowhurst noted that traffic and travel times might need consideration for when meetings resume in the chamber.

The Chair moved that the times change to a 09.30 pre-meeting and 10.00 start for the main meeting.

The meeting ended at 12.30 pm.
