Upon being put to a vote Council resolved to accept the recommendations:

• That the self-assessment for 2022/23 be approved.

County Councillor Alistair Neill joined the meeting at 15:15pm.

8. REPLACEMENT LOCAL DEVELOPMENT PLAN (RLDP) PREFERRED STRATEGY

The Vice Chair read out the following question from Mr David Cummings, which had been received under public questions, in relation to the agenda item. The Chair explained that the Cabinet Member for Planning and Economic Development would respond within his presentation to Council.

In reviewing the RLDP documents presented today and heard at recent scrutiny committee meetings many questions remain as to the achievability and the detail of the contents of the report.

For example, the document states that 6,240 jobs are planned to be created but provide no indication of how these will be created and where within the county they will be.

The report fails to address the lack of infrastructure, particularly in Monmouth's case where there is no spare capacity at schools, GP surgeries or to treat sewage and poor public transport to other settlements.

Additionally, 50% of the proposed development within the plan be social housing. There are 3,953 open applications for housing in the county. If you create social housing where there is no infrastructure and no public transport, you will create a pool of people disillusioned with life who wish they lived somewhere else.

So with these headline statements in mind, is the September 2023 version of the Revised Local Development Plan fit for purpose?

The Cabinet Member for Planning and Economic Development presented the Replacement Local Development Plan (RLDP) Preferred Strategy. Post-consultation updates to the Preferred Strategy were summarised in paragraph 3.9 in the report, as the basis for the ongoing preparation of the Deposit Plan.

https://www.youtube.com/live/WXW4tpnPFZ0?feature=shared&t=7730

Upon being put to a recorded vote, Council resolved to accept the recommendations:

 That Council endorses the updates to the Replacement Local Development Plan Preferred Strategy summarised in paragraph 3.9 as the basis for the ongoing preparation of the Deposit Plan

Votes For: 23 Votes Against: 22 Abstentions: 1

Recorded Vote: Replacement Local Development Plan (RLDP) Preferred Strategy

9. <u>IN CASE OF NEED ARISING - CALL-IN OF GYPSY, ROMA AND TRAVELLER PITCH NEEDS - LAND IDENTIFICATION</u>

The Chair of the Place Scrutiny Committee presented a report of the Committee on the Call-In of Meeting Gypsy, Roma and Traveller Pitch Needs – Land Identification.

Full Council were provided with the opportunity to consider the decision taken by Cabinet on the 4th October 2023, concerning meeting Gypsy, Roma and Traveller Pitch Needs – Land Identification. This follows the call-in of the decision and the subsequent recommendation of the Place Scrutiny Committee to refer the matter to full Council.

The Vice Chair read out the following questions from Mrs Aileen Wallen and Mrs Sandy Lloyd received under public questions, in relation to the agenda item.

It is understood that the place scrutiny committee meeting of 23rd October 2023 referred the decision call-in to council on the basis that the financial implications of including sites which have so many constraints is unknown.

The below questions refer to the information imparted by the cabinet member (Cllr Griffiths) and estates officer at the place scrutiny meeting and clarifications are sought.

The Cabinet Member stated that high level assessments will be conducted on the Langley Close site with regards to noise, air pollution and land contamination during the public consultation period:

• For the Langley Close site, will the Cabinet Member please define what is meant by high level assessments, i.e. what specific tests will be undertaken and will these be newly commissioned studies involving physical receptors to collect current air and noise pollution levels and boreholes for land contamination or will existing historic and irrelevant reports that are based on out of date data be used. E.g. From the Rockfield Farm and Vinegar Hill developments which are from a different location with different geographic attributes and issues?

Question 2

The estates officer stated that quotes had been secured for air, noise and land surveys which equates to around £14k per site for these high level assessments but that that cost is not consistent across all sites and depends on the findings. Some sites will require further surveys so this is not the final cost. The residents at the scrutiny committee meeting provided evidence that on the Langley Close site, noise and air pollution exceed safe levels and there is potential land contamination and so those further surveys will have to be conducted.

 For the Langley Close site, will the Cabinet Member please state the breakdown of costs for each initial assessment and costs for the further more detailed assessments?

The Chair asked that the Cabinet Member for Planning and Economic Development address the questions in his response.

12. Submitted by County Councillor Catherine Fookes

Council notes with concern

 The increased use of vaping products by children in the UK with the associated risk of addiction to nicotine based products and the increased burden on local authorities taking enforcement action against the illegal sale of vaping products to children, as well as the environmental impact of single-use vapes which end up littering our public spaces.

Council calls on the Leader to write to the UK government to express Council's demand for the greater regulation of vaping products including:

- Vaping products to be in plain packaging and kept out of sight behind the counter
- Mandatory age-of-sale signage on vaping products (as this is currently voluntary)
- A ban on free samples of vaping products being given out to people of any age
- A ban on single use vape
