## Nodau a Gwerthoedd Cyngor Sir Fynwy

#### **Ein Pwrpas**

• i ddod yn sir ddi-garbon, gan gefnogi lles, iechyd ac urddas i bawb ar bob cam o'u bywydau.

#### Amcanion rydym yn gweithio tuag atynt

- Lle teg i fyw lle mae effeithiau anghydraddoldeb a thlodi wedi'u lleihau;
- Lle gwyrdd i fyw a gweithio gyda llai o allyriadau carbon a gwneud cyfraniad cadarnhaol at fynd i'r afael â'r argyfwng yn yr hinsawdd a natur;
- Lle ffyniannus ac uchelgeisiol, lle mae canol trefi bywiog a lle gall busnesau dyfu a datblygu;
- Lle diogel i fyw lle mae gan bobl gartref maen nhw'n teimlo'n ddiogel ynddo;
- Lle cysylltiedig lle mae pobl yn teimlo'n rhan o gymuned ac yn cael eu gwerthfawrogi;
- Lle dysgu lle mae pawb yn cael cyfle i gyrraedd eu potensial.

#### Ein Gwerthoedd

**Bod yn agored**. Rydym yn agored ac yn onest. Mae pobl yn cael cyfle i gymryd rhan mewn penderfyniadau sy'n effeithio arnynt, dweud beth sy'n bwysig iddynt a gwneud pethau drostynt eu hunain/eu cymunedau. Os na allwn wneud rhywbeth i helpu, byddwn yn dweud hynny; os bydd yn cymryd peth amser i gael yr ateb, byddwn yn esbonio pam; os na allwn ateb yn syth, byddwn yn ceisio eich cysylltu gyda'r bobl a all helpu - mae adeiladu ymddiriedaeth ac ymgysylltu yn sylfaen allweddol.

**Tegwch**. Darparwn gyfleoedd teg, i helpu pobl a chymunedau i ffynnu. Os nad yw rhywbeth yn ymddangos yn deg, byddwn yn gwrando ac yn esbonio pam. Byddwn bob amser yn ceisio trin pawb yn deg ac yn gyson. Ni allwn wneud pawb yn hapus bob amser, ond byddwn yn ymrwymo i wrando ac esbonio pam y gwnaethom weithredu fel y gwnaethom.

**Hyblygrwydd**. Byddwn yn parhau i newid a bod yn hyblyg i alluogi cyflwyno'r gwasanaethau mwyaf effeithlon ac effeithiol. Mae hyn yn golygu ymrwymiad gwirioneddol i weithio gyda phawb i groesawu ffyrdd newydd o weithio.

**Gwaith Tîm**. Byddwn yn gweithio gyda chi a'n partneriaid i gefnogi ac ysbrydoli pawb i gymryd rhan fel y gallwn gyflawni pethau gwych gyda'n gilydd. Nid ydym yn gweld ein hunain fel 'trefnwyr' neu ddatryswyr problemau, ond gwnawn y gorau o syniadau, asedau ac adnoddau sydd ar gael i wneud yn siŵr ein bod yn gwneud y pethau sy'n cael yr effaith mwyaf cadarnhaol ar ein pobl a lleoedd.

**Caredigrwydd** – Byddwn yn dangos caredigrwydd i bawb yr ydym yn gweithio gyda nhw, gan roi pwysigrwydd perthnasoedd a'r cysylltiadau sydd gennym â'n gilydd wrth wraidd pob rhyngweithio.

# Agenda Item 1

#### SUBJECT: SPEED LIMIT PROPOSALS – AMENDMENT ORDER NO. 14

MEETING: INDIVIDUAL CABINET MEMBER DECISION – COUNCILLOR CATRIN MABY

DATE: 12/06/2024

DIVISION/WARDS AFFECTED: Llanelly, Gobion Fawr, Devauden, Crucorney, Llantilio Crossenny, St Arvans, Osbaston, Magor West

#### 1. PURPOSE:

- 1.1 This report seeks Cabinet Member approval to proceed with several Traffic Orders throughout the County.
- 1.2 The Traffic Orders under consideration relate to:
  - 1.2.1 20mph Speed Limit on the A4077, Gilwern
  - 1.2.2 20mph Speed Limit on the B4598, Llancayo
  - 1.2.3 20mph and 30mph Speed Limits on the B4293 and C57-4 (Itton Common Road), Itton Common.
  - 1.2.4 20mph and 30mph Speed Limit on C26-2 (Pit-Wern-Yr-Heolydd Road) and C26-7 (Huntsman Lane), The Pitt, Llanarth
  - 1.2.5 20mph and 30mph Speed Limits on the B4347, Grosmont.
  - 1.2.6 40mph Speed Limit on the B4235, Llangwm.
  - 1.2.7 20mph and 40mph Speed Limits on the R71, Llansoy.
  - 1.2.8 30mph Speed Limits on B4293 and R83 (Devauden Road), Devauden.
  - 1.2.9 20mph Speed limit on C23-2, Maypole and St Maughns.
  - 1.2.10 40mph Speed Limit on the A466, St Arvans to Tintern.
  - 1.2.11 30mph Speed Limit on the A466, Buckholt.
  - 1.2.12 30mph Speed Limit on the B4245, Magor.
- 1.3 The proposed Orders were advertised in accordance with the Local Authorities Traffic Orders (Procedure) (England and Wales) Regulations 1996.
- 1.4 If significant unresolved objections arise from the consultation, a public inquiry can be held to reach a decision. However, in this instance, it is considered that a public inquiry is not required. It is recommended that all the proposals proceed with the Traffic Orders made as set out below.

#### 2. **RECOMMENDATIONS**:

- 2.1 It is recommended to not hold a public inquiry, and to proceed to approve and implement the proposed Orders:
  - 2.1.1 20mph Speed Limit on the A4077, Gilwern
  - 2.1.2 20mph Speed Limit on the B4598, Llancayo
  - 2.1.3 20mph and 30mph Speed Limits on the B4293 and C57-4 (Itton Common Road), Itton Common.
  - 2.1.4 20mph and 30mph Speed Limit on C26-2 (Pit-Wern-Yr-Heolydd Road) and C26-7 (Huntsman Lane), The Pitt, Llanarth

- 2.1.5 20mph and 30mph Speed Limits on the B4347, Grosmont.
- 2.1.6 40mph Speed Limit on the B4235, Llangwm.
- 2.1.7 20mph and 40mph Speed Limits on the R71, Llansoy.
- 2.1.8 30mph Speed Limits on B4293 and R83 (Devauden Road), Devauden.
- 2.1.9 20mph Speed limit on C23-2, Maypole and St Maughns.
- 2.1.10 40mph Speed Limit on the A466, St Arvans to Tintern.
- 2.1.11 30mph Speed Limit on the A466, Buckholt.
- 2.1.12 30mph Speed Limit on the B4245, Magor.

#### 3. KEY ISSUES

- 3.1 Monmouthshire County Council has received various requests and concerns from stakeholders and community representatives in relation to the above named localities to review the existing various speed limits.
- 3.2 A review of the existing speed limits at each location listed above has been undertaken by officers in accordance with current setting local speed limits guidance and regulations and the proposals incorporated within this proposed Amendment Order Number 14 are intended to align the speed limits at each location to current guidance on setting statutory speed limits.
- 3.3 The reduced speed limits are being proposed in the interests of increasing the level of highway safety and to support residents and other highway users by properly aligning speed limits with their respective environments. A summary of the key issues for each location can be found below and these form the reasons for making the Order.

#### 3.3.1 20mph Speed Limit on the A4077, Gilwern

Following representations received by the local community and respective elected representatives, a review of the extents of the 20mph speed limit in Gilwern has taken place. It was subsequently identified that the extents of the Gilwern 20mph speed limit on the A4077 should be extended approximately 80m in a north westerly direction to a more appropriate point leading into the residential environment.

#### 3.3.2 20mph Speed Limit on the B4598, Llancayo

Following representations received by the local community and respective elected representatives, a review of the extents of the 20mph speed limit in Llancayo has been undertaken. It was subsequently identified that the extents of the 20mph speed limit in this location should be amended to ensure that the residential section of the B4598 is adequately covered.

# 3.3.3 **20mph and 30mph Speed Limits on the B4293 and C57-4 (Itton Common Road)**, **Itton Common**

Following representations received from the local community, a review of the extents of the 20mph and 30mph speed limits in Itton Common has been undertaken. It was subsequently identified that it would be appropriate to amend the extents of the 20mph speed limit to ensure that it covers the entire residential area. The extensions of the 30mph speed limit buffer zones aim to incrementally and more effectively reduce approach speeds leading into the 20mph speed limit.

# 3.3.4 **20mph and 30mph Speed Limit on C26-2 (Pit-Wern-Yr-Heolydd Road) and C26-7 (Huntsman Lane), The Pitt, Llanarth**

Following representations received from the local community, a review of the current speed limit through throughout the residential area of The Pitt, Llanarth has taken place. It was subsequently identified that it would be appropriate to introduce a 20mph speed limit in this this area, which aligns with Welsh Government guidance/ criteria. This proposal also includes the introduction of a 30mph buffer zone in order to incrementally reduce traveling speeds leading into the 20mph speed limit where there is a lesser degree of residential development.

#### 3.3.5 20mph and 30mph Speed Limits on the B4347, Grosmont

Following representations from the local community, it has been identified as appropriate to amend the extents of the 20mph speed limit in order to fully encompass the residential area of Grosmont and to extend the 30mph buffer speed limit with the aim of more effectively reduce vehicle speeds leading into the 20mph area.

#### 3.3.6 40mph Speed Limit on the B4235, Llangwm

Following receipt of representations from the local elected ward member and community, a review of the extents of the 40mph leading into the 30mph speed limit in Llangwm has been undertaken. It has been identified, in order to incrementally reduce travelling speeds leading into Llangwm, it would be appropriate to introduce a new 40mph buffer speed limit for the southern section of the B4235 and to extend the 40mph buffer speed limit on the northern section of the B4235.

#### 3.3.7 20mph and 40mph Speed Limits on the R71, Llansoy

Following receipt of representations from the local community, it has been identified that it would be appropriate to amend the extents of 20mph and 40mph speed limits on the R71 through Llansoy. This amendment will ensure that the 20mph speed limit adequately covers the residential area, whilst the amendment to the 40mph speed limit buffer zones aim to incrementally reduce traveling speeds leading into the 20mph speed limit.

#### 3.3.8 30mph Speed Limits on B4293 and R83 (Devauden Road), Devauden

Following receipt of representations from the local elected ward member, it has been deemed appropriate to amend the extents of the 30mph speed limit on two approaches to the Devauden 20mph Speed limit. These amendments aim to enhance the effectiveness of the buffer speed limits and incrementally reduce vehicular speeds leading into the 20mph speed limit.

#### 3.3.9 **20mph Speed limit on C23-2, Maypole and St Maughns**

Following a review of speed limits in residential areas throughout Monmouthshire, it has been identified that the areas of Maypole and St Maughs meet the criteria for a 20mph speed limit in line with Welsh Government guidance. It is therefore considered appropriate to implement a 20mph speed limit that covers the residential section of these areas.

#### 3.3.10 40mph Speed Limit on the A466, St Arvans to Tintern

Following a successful road safety grant bid to Welsh Government to address a recognised road safety/collision history. It has been identified that a reduction in the existing speed limit from 60mph to 40mph is required. This proposal will reduce inappropriate travelling speeds and contribute to making this section of the A466 safer for all highway users.

During the consultation period, there was an error identified in the original plan (2149) included in the consultation for this proposal where the 40mph speed limit

incorrectly encompassed the existing 30mph buffer speed limit leading into St Arvans. The drawing was amended with the extents of the proposed 40mph speed limit being reduced to allow for the existing 30mph buffer speed limit to remain. All affected parties were notified of this change by email and the consultation period was extended by a week to allow for any additional representations to be received regarding this less onerous alteration. Both of these plans (2149 and 2149 REV B) have been included in the appendices for reference.

#### 3.3.11 30mph Speed Limit on the A466, Buckholt

In response to representations received from the local elected ward member and residents, it has been deemed appropriate to introduce an extension of the boundaries of the 30mph Speed Limit on the A466, Buckholt. This amendment aims to fully encompass the residential section of the A466 and address a recognised collision history through the area.

#### 3.3.12 **30mph Speed Limit on the B4245, Magor**

In order to align existing speed limits in this area into accordance with Welsh Government Guidance, it has been deemed appropriate to introduce a 30mph speed limit as an exception to the default 20mph limit on a brief section of restricted road along the B4245, which leads into Magor from the west. This 30mph speed limit will ensure that the 20mph default speed limit on the B4245 Magor starts at a point where there is a clear and obvious transition into the residential environment.

- 3.4 These proposals will contribute to creating a safer, more welcoming highway environment for all highway users and lessen the frequency and severity of road collisions.
- 3.5 A summary of responses to the statutory consultation can be found in Appendices 1 and 2 together with Officer responses. There are no comments received that cannot be overcome or that change the Officer recommendation to proceed with introducing the proposed orders.

# 4. EQUALITY AND FUTURE GENERATIONS EVALUATION (INCLUDES SOCIAL JUSTICE, SAFEGUARDING AND CORPORATE PARENTING):

- 4.1 The proposals aim to support the national policy for reducing speed and improving road safety by creating a safer, more welcoming highway environment for all highway users and lessening the frequency and severity of road traffic collisions.
- 4.2 The proposals will contribute to providing a safer highway environment which will encourage people to walk, cycle and scoot in line with the objectives of the Active Travel Act.
- 4.3 The new lower speed limits will also protect the interest of groups such as those with limited mobility, additional learning needs, dementia, and visual impairment.
- 4.4 The proposals will ensure the speed limit is appropriate for the highway characteristics of each location, maximising travel speeds without having a detrimental effect on road safety.

#### 5. OPTIONS APPRAISAL

5.1 The table below provides an options appraisal of the proposal:

Options Benefits	Risks	Comments/ Mitigation
------------------	-------	-------------------------

No action	<ul> <li>Less demand on officer time and resource/budget</li> </ul>	<ul> <li>Frequency and severity of Road Traffic Collisions remain unchanged.</li> <li>Speed limits not in line with Welsh Government guidance.</li> <li>Inconsistent speed limits on highways of similar characteristics throughout Monmouthshire.</li> <li>Speed limits being unsuitably high for the characteristics of the specific highway.</li> </ul>	The benefits of adopting the proposals outweigh the resource implications.
Adopt the proposals	<ul> <li>A safer highway environment for all users.</li> <li>Lessening of the frequency and severity of Road Traffic Collisions.</li> <li>Speed limits are in line with Welsh Government guidance.</li> <li>Consistent speed limits on highways of a specific characteristic throughout Monmouthshire.</li> <li>High collision rates addressed.</li> </ul>	<ul> <li>Additional cost.</li> <li>Additional signage in rural areas which may be undesirable to local residents.</li> </ul>	This is the preferred option.

#### 6. CONCLUSION AND REASONS:

- 6.1 It is recommended to not hold a public inquiry, and to proceed to approve and implement the proposed Orders:
  - 4.4.1 20mph Speed Limit on the A4077, Gilwern
  - 4.4.2 20mph Speed Limit on the B4598, Llancayo
  - 4.4.3 20mph and 30mph Speed Limits on the B4293 and C57-4 (Itton Common Road), Itton Common.
  - 4.4.4 20mph and 30mph Speed Limit on C26-2 (Pit-Wern-Yr-Heolydd Road) and C26-7 (Huntsman Lane), The Pitt, Llanarth
  - 4.4.5 20mph and 30mph Speed Limits on the B4347, Grosmont.
  - 4.4.6 40mph Speed Limit on the B4235, Llangwm.
  - 4.4.7 20mph and 40mph Speed Limits on the R71, Llansoy.
  - 4.4.8 30mph Speed Limits on B4293 and R83 (Devauden Road), Devauden.
  - 4.4.9 20mph Speed limit on C23-2, Maypole and St Maughns.
  - 4.4.10 40mph Speed Limit on the A466, St Arvans to Tintern.
  - 4.4.11 30mph Speed Limit on the A466, Buckholt.
  - 4.4.12 30mph Speed Limit on the B4245, Magor.

- 6.2 The proposals will support the national policy for reducing speed and improving road safety by creating a safer, more welcoming highway environment for all highway users and lessening the frequency and severity of road traffic collisions.
- 6.3 The proposals will result in speed limits throughout Monmouthshire being in line with Welsh Government guidance and appropriate for the specific characteristics of each location.
- 6.4 The proposals will ultimately have a positive impact on health and wellbeing within the communities and by encouraging modal shift will support the Corporate and Community Plan objectives of being a green place to live and a thriving and ambitious place.

#### 7. **RESOURCE IMPLICATIONS:**

7.1 The proposals will either be funded from Monmouthshire County Council's Road Safety and Traffic Management budget, the Welsh Government 20mph Grant, or from the Welsh Government Road Safety Grant.

#### 8. CONSULTEES:

- Cabinet Member for Climate Change and the Environment
- Communities and Place DMT
- SLT including Monitoring Officer and S151 Finance Officer
- The Traffic Orders were publicised in accordance with the statutory process including notification of County Councillors for the affected wards and the relevant Town/Community Council.

## Appendix 1: Summary of All Consultation Responses

	Number of
Agree/Disagree	Responses
Agree	20
Somewhat Agree	2
Disagree	1

## Appendix 2: Schedule of Consultation Responses

Reference/Details	Representations	Officer's Response
	l agree to the extension of the 20mph throughout	
	the village of Grosmont and to the side streets	
	including those areas already covered by the	
	existing 20mph. For the safety of children and other users of the B4347 and sides streets. There	
	are no pavements and the streets are well used by	
	pedestrians and cyclists including children. I argued	
Online Form	at the tine that the existing 20mph should be	
Response #271	extended and am pleased to see these proposals	
(Agree) (Grosmont)	which better reflect the needs of the village	Your support has been noted.
	I absolutely support this amendment (2135	
	Grosmont). This definitely better reflects the	
Online Form	populated village boundary. Thankyou for listening	
Response #272	to our concerns and making this change to make	
(Agree) (Grosmont)	our village safer.	Your support has been noted.
	At implementation I argued the 20mph should	
	extend for the entire 30mph zone in Grosmont. I	
	am therefore delighted with the current proposal.	
	Cyclists regularly use these sections of road -	
	Cupids Hill is particularly popular. These roads also	
Online Form	lack pavements but are well used by local children,	
Response #273	farm vehicles and HGVs serving local businesses	
(Agree) (Grosmont)	and avoiding the bridges at Llangua.	Your support has been noted.
	Overheight lorries come through this part of	
	Grosmont to bypass the low bridge on the A465, as	
	well as large tractors. There are several houses	
Online Form	here but no footpath; gates from the houses come	
Response #274	straight out onto the road, and have dangerously	
(Agree) (Grosmont)	limited visibility.	Your support has been noted.
	The proposed extension of 20MPH to Chantries	
	and 30MPH to beyond Lawns Farm entrance will	
	calm traffic which currently tends not to decelerate	
	until well into the built up area where residents	
	and walkers are often on the narrowing road.	
	Drivers will reach the bend at Chantries at the	
Online Form	20MPH point which together form an optimal	
Response #275	signal to slow and remain slow, having already	
(Agree) (Grosmont)	been slowed to 30MPH for the preceding straight	Your support has been noted.
	from Lawns Farm entrance. The rationale is clear	

	and should be more effective than the present 20MPH position.	
Online Form		
Response #276 (Agree) (Grosmont)	This will extend the lower limit beyond houses where young children live	Your support has been noted.
Online Form Response #277 (Agree) (The Pitt, Llanarth)	I keep my horses on the road in question and hack along it on a daily basis, we have had many near misses with cars and other vehicles travelling at excessive speeds on this narrow country lane. It amazes me how many areas are now 20mph that but this tiny country lane with many residential dwellings and elderly pedestrians and horses is 30mph. It is even worse as it is so narrow you can't even get out of the way when you hear someone coming along too fast!	Your comments have been noted.
Online Form Response #278 (Agree) (The Pitt, Llanarth)	I live on the stretch of road being considered for 20mph. At busy times of the day I am forced to place a traffic cone in the road in order that I can leave my property without the front of my car being hit by speeding traffic. I believe there should be further traffic calming measures as well as 20mph! There are numerous residential properties along this stretch of road, there is NO pavement and in order to reach the bus stop it means walking along the entire stretch whilst traffic is speeding past and within touching distance. The volume of traffic on this road is considerable compared to other roads in the area as it's used as a cut through by the large number of hospital workers in the Priory Hospital. I find it hard to believe that just up the road in Great Oak there are 20 MPH signs on country lanes with no properties whatsoever yet this stretch has been left at 30mph!	Your support has been noted. Once the speed limit has been implemented in this location, travelling speeds will be monitored to inform whether or not additional traffic calming is warranted.
Online Form Response #279 (Agree) (Grosmont)	Safety of neighbours' children. Prevent vehicles from speeding into and through village. Prevention of animals being harmed or killed.	Your support has been noted.
Online Form Response #280 (Somewhat Agree) (Grosmont)	Slightly confusing as most of "RED" is already 20mph ??? Ignoring that the "Pink" must be "Red" extending the 20mph to the whole village ie beyond the last house not stopping before the last house. Then extending the 20mph to beyond the Lawns Farm entrance as shown.	Thank you for submitting your query. The "RED" 20mph locations within the existing 20mph area were added to amend a legal errors in the extents of the 20mph in Grosmont. This will ensure the 20mph limit is legally enforceable throughout. The "Pink" locations show the area that

		is already part of the 30mph buffer speed limit and will remain as such.
Online Form Response #281 (Agree) (Grosmont)	Twenty is Plenty	Your support has been noted.
Online Form Response #282	Narrow roads and houses along side road after	
(Agree) (Grosmont)	current 20 MPH ends	Your support has been noted.
		Thank you for submitting your representations. This proposal will ensure extents of the 20mph speed limit throughout Magor are in-line with current Welsh Government Guidance on setting 20mph speed limits and that the 20mph area fully encompasses the residential section of the B4245.
		The Welsh Government has recently outlined the next steps for the 20mph speed limit throughout Wales in a recent press release. We are therefore currently collecting feedback on 20mph speed limits in Monmouthshire. If you wish to submit comments relating to this, please do so using the online response form which can be found here: https://forms.office.com/e/LKwg9hy tja
		This survey aims to gather feedback on locations that residents believe should be exempt or kept at 20mph.
Online Form Response #283 (Disagree) (B4245, Magor)	Referencing only the B4245 part, I assume you are taking the mickey? What the B4245 needs is to be restored to 30mph minimum for its entire length, as per Caldicot by-pass.All the built up areas along it have pavements, on both sides for most of it, with multiple traffic light controlled crossing points.	All valid comments relating to roads that form part of Monmouthshire's Public Adopted Highway System will be logged and reviewed once the updated exceptions guidance has been provided by the Welsh Government. We are expecting to receive this in the summer. Please be aware that we will not log

		any general comments about the 20mph National Policy, as this is a matter for the Welsh Government and Welsh Government Ministers. Additionally, if your comments relate to a Trunk Road, as these are not the responsibility of Local Authorities please instead email TrunkRoads20mph@gov.wales.
Online Form Response #284 (Agree) (The Pitt, Llanarth)	Traffic passed our home is always speeding, need 20mph limit	Your support has been noted.
Online Form Response #285 (Agree) (A466, St Arvans to Tintern)	There are no pavements along this stretch of the A466 and speeding traffic is a danger to pedestrians and cyclists.	Your support has been noted.
Online Form Response #286 (Agree) (A466, St Arvans to Tintern)	Important to have consistent and safe speed limits on this stretch of road so that danger is reduced for all users and it is not used as a racetrack.	Your support has been noted.
Online Form Response #287 (Somewhat Agree) (Llangwm)	Whilst the proposals detailed for 2136 Llangwm are intended to improve the transition to the existing 30mph limit through the village, and so are a good idea in principle, it is unlikely these will have much impact on their own. The average speed through the 30mph section is 40-50mph especially northbound down the hill from Chepstow direction, despite the sharp bends, road narrowing over the bridge next to the Mill House and side road junctions, making pedestrian use of the limited and overgrown narrow footpaths from The Duffryn to the Bridge Inn extremely hazardous. Having seen the success of the illuminated red/green speed indicator signs at controlling speeds in Usk, (far more effective than the speed limit signs alone), it would be beneficial if these could also be installed in both directions within the 30mph section in Llangwm.	Thank you for submitting your concerns. Additional electronic signs are scheduled to be installed through Llangwm this financial year.
Online Form Response #288 (Somewhat Agree) (Maypole and St Maughns)	I support the 20 mph limit but am concerned about extra road signs being erected in a relatively uncluttered location. Any discretion should be exercised with the minimum number of signs and no road markings. New signposts should be used	Your support has been noted. The natural aesthetic of this location will be considered and any additional signs and/or posts will be installed

	to fix existing signs e.g. junction warnings or the place name signs "Maypole".	at a minimum whilst ensuring they are legally enforceable.
Online Form Response #289 (Agree) (A466 St Arvans to Tintern)	I support reducing speed limit to 40mph. A466. Because I am unable to visit or walk in this particular as there is no footpath. At present the speed limit is far too fast. Friends living in the area find it is a ' living in fear' situation for them owing to the number of accident and many near misses with cyclists. Please review and reduce the speed for safety reasons.	Your support has been noted.
Online Form Response #290 (Agree) (Either A466 Buckholt or St Arvans to Tintern)	I support the speed limit reduction on A466	Your support has been noted.
Online Form Response #291 (Agree) (The Pitt, Llanarth)	I'm nearly 80 years of age and too worried to walk out of my front gate. How can this stretch of road be 30 MPH when there are other areas of highway that are two cars wide have pavements on both sides and are still 20 mph? On several occasions, I have nearly been hit by traffic whilst trying to put out my recycling etc. Something needs to be done before someone is seriously injured or worse! I believe it needs even more traffic calming measures not just 20mph.	Your support has been noted. Once the speed limit has been implemented in this location, travelling speeds will be monitored to inform whether or not additional traffic calming is warranted.
Online Form Response #292 (Agree) (The Pitt, Llanarth)	I am writing to support the 2134 TRO in The Pitt, Llanarth. My property is within the proposed 30mph zone which is currently National Speed Limit. I have had pets killed by vehicles on the road, and vehicles slowly exiting my driveway have been crashed into by vehicles driving too fast for the lack of visibility. If the TRO is accepted, the road markings should also be repainted as they are no longer visible and do not highlight the risk to drivers coming through the area sufficiently.	Your support has been noted. As part of these works, roadmarkings will be refreshed and additional 30 markings will be installed at the 30mph terminal points.
Written Letter Submission (Agree) (A466 St Arvans to Tintern)	Support A466 40mph. Lived here a very long time. Live between St Arvans and Tintern. Much more traffic and speeding. I am disabled and cannot cross the road for bus stop traffic too fast. Have a lot of accidents along here. Cannot walk down the road no pavement. Noise has got worse plus the pollution we endure. Please help if you can. Thank you for your time.	Your support has been noted. Your concerns regarding crossing points and pavements have been noted and will be considered in any future plans for this location.

#### **ROAD TRAFFIC REGULATION ACT 1984**

#### NOTICE OF INTENTION TO MAKE A PERMANENT ORDER

#### MONMOUTHSHIRE COUNTY COUNCIL MONMOUTHSHIRE COUNTY COUNCIL TRAFFIC REGULATION, SPEED LIMITS AND PARKING REGULATIONS CONSOLIDATION ORDER 2019 (AMENDMENT ORDER NO 14) 2024

#### PROPOSED PROVISION AND AMENDMENTS TO TRAFFIC ORDERS WITHIN VARIOUS COMMUNITIES IN MONMOUTHSHIRE

**NOTICE IS HEREBY GIVEN** that Monmouthshire County Council of County Hall, The Rhadyr, Usk, NP15 1GA ("the Council") propose to make a Road Traffic Regulation Order as follows:

#### EFFECT OF THE ORDER:

- To extend the 20mph Speed Limit on the A4077, Gilwern
- To extend the 20mph Speed Limit on the B4598, Llancayo
- To extend the 20mph and 30mph Speed Limits on the B4293 and C57-4 (Itton Common Road), Itton Common.
- To introduce a 20mph and 30mph Speed Limit on C26-2 (Pit-Wern-Yr-Heolydd Road) and C26-7 (Huntsman Lane), The Pitt, Llanarth
- To extend the 20mph and 30mph Speed Limits on the B4347, Grosmont.
- To introduce a 40mph Speed Limit on the B4235, Llangwm.
- To extend the 20mph and 40mph Speed Limits on the R71, Llansoy.
- To extend the 30mph Speed Limits on B4293 and R83 (Devauden Road), Devauden.
- To introduce a 20mph Speed limit on C23-2, Maypole and St Maughns.
- To introduce a 40mph Speed Limit on the A466, St Arvans to Tintern.
- To introduce a 30mph Speed Limit on the A466, Buckholt.
- To introduce a 30mph Speed Limit on the B4245, Magor.

Within the locations identified on the plans, which are available to view at County Hall, Usk or online via <u>http://www.monmouthshire.gov.uk/public-consultation-traffic</u>

Further details of the proposed Order, comprising a copy of the draft order, plans and a statement of reasons for proposing to make the Order may be examined via pre-arranged appointment at County Hall, Usk NP15 1GA (appointments can be arranged by e-mailing traffic@monmouthshire.gov.uk) or by phoning 01633 644644 or online via http://www.monmouthshire.gov.uk/public-consultation-traffic or the via the below QR code

Any representations in respect of this proposal should be made not later than 5pm on **Wednesday the 8th May 2024** by either:

- Sending a written letter, stating the grounds on which the representation is being made, addressed to: Traffic Section, Monmouthshire County Council, County Hall, Usk NP15 1GA;
- Or by scanning the QR code below and selecting "How to comment on a proposed TRO", where the public Consultation response form can be accessed.

Date: 17th April 2024

Carl Touhig Head of Neighbourhood Services Monmouthshire County Council

#### MONMOUTHSHIRE COUNTY COUNCIL MONMOUTHSHIRE COUNTY COUNCIL TRAFFIC REGULATION, SPEED LIMITS AND PARKING REGULATIONS CONSOLIDATION ORDER 2019 (AMENDMENT ORDER NO 14) 2024

#### PROPOSED PROVISION AND AMENDMENTS TO TRAFFIC ORDERS WITHIN VARIOUS COMMUNITIES IN MONMOUTHSHIRE EFFECT OF THE ORDER:

- To extend the 20mph Speed Limit on the A4077, Gilwern
- To extend the 20mph Speed Limit on the B4598, Llancayo
- To extend the 20mph and 30mph Speed Limits on the B4293 and C57-4 (Itton Common Road), Itton Common.
- To introduce a 20mph and 30mph Speed Limit on C26-2 (Pit-Wern-Yr-Heolydd Road) and C26-7 (Huntsman Lane), The Pitt, Llanarth
- To extend the 20mph and 30mph Speed Limits on the B4347, Grosmont.
- To introduce a 40mph Speed Limit on the B4235, Llangwm.
- To extend the 20mph and 40mph Speed Limits on the R71, Llansoy.
- To extend the 30mph Speed Limits on B4293 and R83 (Devauden Road), Devauden.
- To introduce a 20mph Speed limit on C23-2, Maypole and St Maughns.
- To introduce a 40mph Speed Limit on the A466, St Arvans to Tintern.
- To introduce a 30mph Speed Limit on the A466, Buckholt.
- To introduce a 30mph Speed Limit on the B4245, Magor.

#### STATEMENT OF REASONS

Monmouthshire County Council has received numerous requests and concerns from stakeholders and Community Representatives regarding the current speed limits in the aforementioned localities.

In response, officers have conducted a thorough review of the existing speed limits at each location, adhering to current local speed limits guidance and regulations. The proposals outlined in Amendment Order Number 14 aim to align the speed limits at each location with current guidance for setting appropriate statutory speed limits, while taking into consideration local environmental and residential factors.

The proposed reduction in speed limits is motivated by the desire to enhance highway safety and to promote the adoption of more sustainable modes of travel among residents and other highway users within each location. Ultimately, the proposals will contribute to creating a safer, more welcoming highway environment for all highway users and lessen the frequency and severity of road collisions.

Drawing Number	Associated Road Name(s)	Details
2131	A4077, Gilwern	Following representations received from the local community, MCC propose to extend the 20mph speed limit on A4077, Gilwern to properly align the extents of the 20mph Speed Limit to a point where there is a clear and obvious change to a residential environment.
2132	B4598, Llancayo	After receiving representations from the local community, MCC is proposing to modify the boundaries of the 20mph speed limit on the B4598, Llancayo. This adjustment will ensure that the 20mph speed limit adequately covers the residential section of the B4598.
2133	B4293 and C57-4 (Itton Common Road), Itton Common	After receiving representations from the local community, MCC is proposing to modify the boundaries of the 20mph speed limit and 30mph buffer speed limit in the Itton Common area. This adjustment will ensure that the 20mph speed limit adequately covers the residential area,

<ul> <li>While the alterations to the Jumph speed limit Durier zones aim to gradually and more effectively reduce traveling speeds leading into the 20mph speed limit.</li> <li>2134 C26-2 (Pit-Wern- (Huntsman Lane), The Pitt, Llanarth aligns with the criteria for a 20mph speed limit according to Welsh Government guidelines. Additionally, a 30mph buffer zone is proposed to gradually decrease traveling speeds leading into the 20mph speed limit area where there is a lesser degree of residential development.</li> <li>2135 B4347, Grosmont After there there is a lesser degree of residential development. MCC proposes to adjust the boundaries of the 20mph Speed Limit and 30mph Buffer zones to fully cover the residential area of Grosmont. # monmouthshire Integrated Impact Assessment Including Equality and Future Generations Evaluation

Name of the Officer completing the evaluation	Please give a brief description of the aims of the proposal
Gareth Freeman Phone no: 01633 644012 E-mail: garethfreeman@monmouthshire.gov.uk	To consider the proposed reduction in speed limits through the various residential and rural routes identified.
Name of Service area Traffic	16/05/2024

TD Are your proposals going to affect any people or groups of people with protected characteristics? Please explain the impact, the evidence you have used and any action you are taking below.

N O Protected Characteristics	Describe any positive impacts your proposal has on the protected characteristic	Describe any negative impacts your proposal has on the protected characteristic	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
Age	This proposal will reduce the travelling speeds of all vehicles through the settlements and along the routes identified. Which in turn will contribute to making the streets safer and reduce the severity of collisions. All highway users should feel safer negotiating the highway, due to the reduction in travelling speeds. Particularly those vulnerable members of society, such as older people and children.	None identified at this stage	N/A.

Protected Characteristics	Describe any positive impacts your proposal has on the protected characteristic	Describe any negative impacts your proposal has on the protected characteristic	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
Disability	These proposals will reduce the travelling speeds of all vehicles through the settlements and along the routes identified. Which in turn will contribute to making the streets safer and reduce the severity of collisions. All highway users should feel safer negotiating the highway, due to the reduction in travelling speeds. Particularly those vulnerable members of society, such as people with disabilities.	None identified at this stage	N/A
Gender reassignment	None identified at this stage	None identified at this stage	N/A
Marriage or civil partnership <b>U</b>	None identified at this stage	None identified at this stage	N/A
Bregnancy or Chaternity ω	This proposal will reduce the travelling speeds of all vehicles through the settlements and along the routes identified. Which in turn will contribute to making the streets safer and reduce the severity of collisions. All highway users should feel safer negotiating the highway, due to the reduction in travelling speeds. Particularly those vulnerable members of society, such as pregnant women or new parents and their infants.	None identified at this stage	N/A
Race	None identified at this stage	None identified at this stage	N/A
Religion or Belief	None identified at this stage	None identified at this stage	N/A
Sex	None identified at this stage	None identified at this stage	N/A
Sexual Orientation	None identified at this stage	None identified at this stage	N/A

The Socio-economic Duty and Social Justice

The Socio-economic Duty requires public bodies to have due regard to the need to reduce inequalities of outcome which result from socioeconomic disadvantage when taking key decisions This duty aligns with our commitment as an authority to Social Justice.

	Describe any positive impacts your proposal has in respect of people suffering socio economic disadvantage	Describe any negative impacts your proposal has in respect of people suffering socio economic disadvantage.	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
Socio-economic Duty and Social Justice	Reduced traffic speeds create safer environments for active travel, which benefits those who do not have access to a personal vehicle	None identified at this stage	N/A

## Policy making and the Welsh language.

How does your proposal impact on the following aspects of the Council's Welsh Language Standards?	Describe the positive impacts of this proposal	Describe the negative impacts of this proposal	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts	
Policy Making	Consultation has been bilingual	None identified at this stage	N/A	
Effects on the use of the Welsh language,				
Promoting Welsh language				
Treating the Welsh language, no less favourably				
P				
@perational	There are no recruitment implications from	None identified at this stage	N/A	
Becruitment & Training of	this proposal			
Service delivery	All new highway signs and carriageway	None identified at this stage	N/A	
Use of Welsh language in service delivery	markings will be bi-lingual with Welsh appearing in front of English as per current guidance.			
Promoting use of the language				

2. Does your proposal deliver any of the well-being goals below? Please explain the impact (positive and negative) you expect, together with suggestions of how to mitigate negative impacts or better contribute to the goal. There's no need to put something in every box if it is not relevant!

Well, Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
A prosperous Wales Efficient use of resources, skilled, educated people, generates wealth, provides jobs	Neutral	N/A
A resilient Wales Maintain and enhance biodiversity and ecosystems that support resilience and can adapt to change (e.g., climate change)	Positive: lower travelling speeds should contribute to enhancing biodiversity by reducing dependency on motorised vehicles and encourage more sustainable modes of transport such as walking, cycling and scooting.	N/A
<b>Healthier Wales</b> Beople's physical and mental wellbeing maximized, and health impacts are conderstood	Positive: A safer highway environment will ultimately protect life and improve people's mental wellbeing.	N/A
<b>X Wales of cohesive communities</b> Communities are attractive, viable, safe and well connected	Positive: lower travelling speeds will contribute to making the streets safer and encourage community cohesion.	N/A
A globally responsible Wales Taking account of impact on global well-being when considering local social, economic and environmental wellbeing	Positive: lower travelling speeds should contribute to enhancing general wellbeing and decarbonisation by reducing dependency on motorised vehicles and encourage more sustainable modes of transport such as walking, cycling and scooting.	N/A
A Wales of vibrant culture and thriving Welsh language	Positive: lower travelling speeds will provide a safer highway environment and may contribute to increased cycling/walking/running activities	N/A

Well, Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
Culture, heritage and Welsh language are promoted and protected. People are encouraged to do sport, art and recreation		
A more equal Wales People can fulfil their potential no matter what their background or circumstances	Positive: lower travelling speeds should contribute to encouraging more sustainable modes of transport such as walking, cycling and scooting and thereby less reliance on motorised transport.	N/A

## 3. How has your proposal embedded and prioritised the sustainable governance principles in its development?

-Sustainable Development ພ Principle ອ		Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?	
Long Term	Balancing short term need with long term and planning for the future	Lower travelling speeds should contribute to enhancing long term general wellbeing and decarbonisation by reducing dependency on motorised vehicles.	N/A	
Collaboration	Working together with other partners to deliver objectives	Collaboration with partners in Gwent Police/GoSafe and Welsh Government has taken place in developing this proposal. Ongoing partnership working will be necessary to understand compliance levels. The proposals were subject to early engagement with locally elected representatives to help shape the proposals.	N/A	

Sustainable I Princ	•	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?	
Involvement	Involving those with an interest and seeking their views	Statutory consultation has been undertaken with all necessary stakeholders including the general public. The proposals were subject to early engagement with locally elected representatives to help shape the proposals.	N/A	
Prevention	Putting resources into preventing problems occurring or getting worse	Properly aligning speed limits with the associated highway environment will reduce that the number and severity of road traffic collisions resulting in significant reductions in service demand and costs to the NHS.	None identified at this stage	
a ge 35 Integration bodies	Considering impact on all wellbeing goals together and on other	The proposal should have a positive impact on wellbeing, by providing a more welcoming highway environment for all users.	None identified at this stage	

4. Council has agreed the need to consider the impact its decisions have on the following important responsibilities: Social Justice, Corporate Parenting and Safeguarding. Are your proposals going to affect any of these responsibilities?

	Describe any positive impacts your proposal has	Describe any negative impacts your proposal has	What will you do/ have you done to mitigate any negative impacts or better contribute to positive impacts?
Social Justice	None identified at this stage	None identified at this stage	N/Â
Safeguarding	None identified at this stage	None identified at this stage	N/A
Corporate Parenting	None identified at this stage	None identified at this stage	N/A

#### 5. What evidence and data has informed the development of your proposal?

age 36	<ul> <li>Welsh Government's "Setting local speed limits" Guidance.</li> <li>Representations received and in discussion with the respective local communities.</li> <li>Traffic data.</li> <li>Collision data.</li> </ul>

# 6. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?

**Positive impacts:** The proposed reduction in speed limits will have an overall positive impact on the communities. Lower travelling speeds will encourage the use of alternative travel modes and lessen the severity of road traffic collisions. The proposals will contribute to making the roads safer for all users.

7. ACTIONS: As a result of completing this form are there any further actions you will be undertaking? Please detail them below, if applicable.

What are you going to do	When are you going to do it?	Who is responsible
Implement to speed limit proposals as advertised	Following the making and publication of the traffic regulation orders	Traffic Team (Graham Kinsella, Phaedra Cleary, Gareth Freeman, Georgina Edwards)

8. VERSION CONTROL: The Equality and Future Generations Evaluation should be used at the earliest stage, such as informally within your service, and then further developed throughout the decision-making process. It is important to keep a record of this process to demonstrate how you have considered and built-in equality and future generations considerations wherever possible.

Version No.	Decision making stage	Date considered	Brief description of any amendments made following consideration
