Hysbysiad o gyfarfod

Pwyllgor Cynllunio

Dydd Mawrth, 4ydd Mehefin, 2024, 2.00 pm
Neuadd Y Sir, Y Rhadyr, Brynbuga, NP15 1GA

AGENDA

Eitem Ddim	Eitem	Tudallennau
1.	Ethol Cadeirydd.	
2.	Penodi Is-gadeirydd.	
3.	Ymddiheuriadau am absenoldeb	
4.	Datganiadau o Fuddiant	
5.	Cadarnhau cofnodion y cyfarfod blaenorol	1 - 4
6.	Ystyried yr adroddiadau dilynol gan y Prif Swyddog, Cymunedau a Lleoedd ar y Ceisiadau Cynllunio dilynol (atodir copiâu):	
6.1.	Cais DM/2020/01438 – Datblygu 15 annedd (9 fforddiadwy a 6 marchnad agored) a datblygiad arall cysylltiedig a seilwaith. Tir ger Heol Tŷ Gwyn, Felinfach, NP4 0HU.	5 - 26
6.2.	Cais DM/2024/00384 - Newid defnydd tir amaethyddol I hwyluso lleoli arae solar wedi'i osod ar y ddaear l'w ddefnyddio gan Woodfield House. Woodfield House, Moor Lane, Pen y Fan, The Narth.	27 - 36

Paul Matthews

Prif Weithredwr

CYNGOR SIR FYNWY

MAE CYFANSODDIAD Y PWYLLGOR FEL SY'N DILYN:

Cynghorwyr Sir:

Jill Bond
Fay Bromfield
Emma Bryn
Sara Burch
Jan Butler
John Crook
Tony Easson
Steven Garratt
Meirion Howells
Su McConnel
Jayne McKenna
Phil Murphy
Maureen Powell
Sue Riley
Dale Rooke
Ann Webb

Gwybodaeth Gyhoeddus

Bydd rhaid i unrhyw person sydd eisiau siarad yn Y Pwyllgor Cynllunio cofrestru gyda Gwasanaethau Democrataidd erbyn hanner dydd ar diwrnod cyn y cyfarfod. Mae manylion ynglŷn a siarad yn cyhoeddus ar gael tu fewn i'r agenda neu yma [Protocol ar gyfraniadau gan y cyhoedd mewn Pwyllgorau Cynllunio](#)

Mynediad i gopiâu papur o agendâu ac adroddiadau

Gellir darparu copi o'r agenda hwn ac adroddiadau perthnasol i aelodau'r cyhoedd sy'n mynychu cyfarfod drwy ofyn am gopi gan Gwasanaethau Democrataidd ar 01633 644219. Dylid nodi fod yn rhaid i ni dderbyn 24 awr o hysbysiad cyn y cyfarfod er mwyn darparu copi caled o'r agenda hwn i chi.

Edrych ar y cyfarfod ar-lein

Gellir gweld y cyfarfod ar-lein yn fyw neu'n dilyn y cyfarfod drwy fynd i www.monmouthshire.gov.uk neu drwy ymweld â'n tudalen Youtube drwy chwilio am MonmouthshireCC. Drwy fynd i mewn i'r ystafell gyfarfod, fel aelod o'r cyhoedd neu i gymryd rhan yn y cyfarfod, rydych yn caniatáu i gael eich ffilmio ac i ddefnydd posibl y delweddau a'r recordiadau sain hynny gan y Cyngor.

Y Gymraeg

Mae'r Cyngor yn croesawu cyfraniadau gan aelodau'r cyhoedd drwy gyfrwng y Gymraeg neu'r Saesneg. Gofynnwn gyda dyledus barch i chi roi 5 diwrnod o hysbysiad cyn y cyfarfod os dymunwch siarad yn Gymraeg fel y gallwn ddarparu ar gyfer eich anghenion.

Nodau a Gwerthoedd Cyngor Sir Fynwy

Ein Pwrpas

- i ddod yn sir ddi-garbon, gan gefnogi lles, iechyd ac urddas i bawb ar bob cam o'u bywydau.

Amcanion rydym yn gweithio tuag atynt

- Lle teg i fyw lle mae effeithiau anghydraddoldeb a thlodi wedi'u lleihau;
- Lle gwyrdd i fyw a gweithio gyda llai o allyriadau carbon a gwneud cyfraniad cadarnhaol at fynd i'r afael â'r argyfwng yn yr hinsawdd a natur;
- Lle ffyniannus ac uchelgeisiol, lle mae canol trefi bywiog a lle gall busnesau dyfu a datblygu;
- Lle diogel i fyw lle mae gan bobl gartref maen nhw'n teimlo'n ddiogel ynddo;
- Lle cysylltiedig lle mae pobl yn teimlo'n rhan o gymuned ac yn cael eu gwerthfawrogi;
- Lle dysgu lle mae pawb yn cael cyfle i gyrraedd eu potensial.

Ein gwerthoedd

- **Bod yn agored:** anelwn fod yn agored ac onest i ddatblygu perthnasoedd ymddiriedus
- **Tegwch:** anelwn ddarparu dewis teg, cyfleoedd a phrofiadau a dod yn sefydliad a adeiladwyd ar barch un at y llall.
- **Hyblygrwydd:** anelwn fod yn hyblyg yn ein syniadau a'n gweithredoedd i ddod yn sefydliad effeithlon ac effeithiol.
- **Gwaith tîm:** anelwn gydweithio i rannu ein llwyddiannau a'n methiannau drwy adeiladu ar ein cryfderau a chefnogi ein gilydd i gyflawni ein nodau.
- **Caredigrwydd** – Byddwn yn dangos caredigrwydd i bawb yr ydym yn gweithio gyda nhw, gan roi pwysigrwydd perthnasoedd a'r cysylltiadau sydd gennym â'n gilydd wrth wraidd pob rhyngweithio.

Diben

Diben yr adroddiadau a atodir a'r cyflwyniad cysylltiedig gan swyddogion i'r Pwyllgor yw galluogi'r Pwyllgor Cynllunio i wneud penderfyniad ar bob cais yn y rhestr a atodir, ar ôl pwysu a mesur y gwahanol ystyriaethau cynllunio perthnasol.

Dirprwywyd pwerau i'r Pwyllgor Cynllunio wneud penderfyniadau ar geisiadau cynllunio. Mae'r adroddiadau a gynhwysir yn yr atodlen yma'n asesu'r datblygiad arfaethedig yn erbyn polisi cynllunio perthnasol ac ystyriaethau cynllunio eraill perthnasol, a rhoi ystyriaeth i'r holl ymatebion ymgynghori a dderbyniwyd. Daw pob adroddiad i ben gydag argymhelliad swyddog i'r Pwyllgor Cynllunio ar p'un ai yw swyddogion yn ystyried y dylid rhoi caniatâd cynllunio (gydag awgrym am amodau cynllunio lle'n briodol) neu ei wrthod (gydag awgrymiadau am resymau dros wrthod).

Dan Adran 38(6) Deddf Cynllunio a Phrynu Gorfodol 2004, mae'n rhaid i bob cais cynllunio gael eu penderfynu yn unol â Chynllun Datblygu Lleol Sir Fynwy 2011-2021 (a fabwysiadwyd yn Chwefror 2014), os nad yw ystyriaethau cynllunio perthnasol yn awgrymu fel arall.

Disgwylir i'r holl benderfyniadau a wneir fod o fudd i'r Sir a'n cymunedau drwy ganiatáu datblygu ansawdd da yn y lleoliadau cywir, ac ymwrthod â datblygiad amhriodol, ansawdd gwael neu yn y lleoliad anghywir. Mae cysylltiad uniongyrchol i amcan y Cyngor o adeiladu cymunedau cryf a chynaliadwy.

Gwneud penderfyniadau

Gellir cytuno ar geisiadau yn rhwym ar amodau cynllunio. Mae'n rhaid i amodau gyflawni'r holl feini prawf dilynol:

- Angenrheidiol i wneud y datblygiad arfaethedig yn dderbyniol;
- Perthnasol i ddeddfwriaeth cynllunio (h.y. ystyriaeth cynllunio);
- Perthnasol i'r datblygiad arfaethedig dan sylw;
- Manwl;
- Gorfodadwy; a
- Rhesymol ym mhob cyswllt arall.

Gellir cytuno i geisiadau yn amodol ar gyntundeb cyfreithiol dan Adran 106 Deddf Cynllunio Tref a Gwlad 1990 (fel y'i diwygiwyd). Mae hyn yn sicrhau goblygiadau cynllunio i wrthbwysu effeithiau'r datblygiad arfaethedig. Fodd bynnag, mae'n rhaid i'r goblygiadau cynllunio hyn gyflawni'r holl feini prawf dilynol er mwyn iddynt fod yn gyfreithlon:

- Angenrheidiol i wneud y datblygiad yn dderbyniol mewn termau cynllunio;
- Uniongyrchol gysylltiedig â'r datblygiad; ac
- Wedi cysylltu'n deg ac yn rhesymol mewn maint a math i'r datblygiad.

Mae gan yr ymgeisydd hawl apelio statudol yn erbyn gwrthod caniatâd yn y rhan fwyaf o achosion, neu yn erbyn gosod amodau cynllunio, neu yn erbyn methiant y Cyngor i benderfynu ar gais o fewn y cyfnod statudol. Nid oes unrhyw hawl apelio trydydd parti yn erbyn penderfyniad.

Gall y Pwyllgor Cynllunio wneud argymhellion sy'n groes i argymhelliad y swyddog. Fodd bynnag, mae'n rhaid rhoi rhesymau am benderfyniadau o'r fath ac mae'n rhaid i'r penderfyniad fod yn seiliedig ar y Cynllun Datblygu Lleol (LDP) a/neu ystyriaethau cynllunio perthnasol. Pe byddai penderfyniad o'r fath yn cael ei herio mewn apêl, bydd yn ofynnol i Aelodau Pwyllgor amddiffyn eu penderfyniad drwy'r broses apêl.

Prif gyd-destun polisi

Mae'r LDP yn cynnwys y prif bolisiâu datblygu a dylunio. Yn hytrach nag ail-adrodd y rhain ar gyfer pob cais, caiff y geiriad llawn ei osod islaw er cymorth Aelodau.

Polisi EP1 - Gwarchod Amwynderau a'r Amgylchedd

Dylai datblygiad, yn cynnwys cynigion ar gyfer adeiladau newydd, estyniadau i adeiladau presennol a hysbysebion roi ystyriaeth i breifatrwydd, amwynder ac iechyd defnyddwyr adeiladau cyfagos. Ni chaniateir cynigion datblygu a fyddai'n achosi neu'n arwain at risg/niwed annerbyniol i amwynder lleol, iechyd, cymeriad/ansawdd cefn gwlad neu fuddiannau cadwraeth natur, tirlun neu bwysigrwydd treftadaeth adeiledig oherwydd y dilynol, os na fedrir dangos y gellir cymryd mesurau i oresgyn unrhyw risg sylweddol:

- Llygredd aer;
- Llygredd golau neu sŵn;
- Llygredd dŵr;
- Halogiad;
- Ansefydlogrwydd tir; neu
- Unrhyw risg a ddynodwyd i iechyd neu ddiogelwch y cyhoedd.

Polisi DES1 – Ystyriaethau Dylunio Cyffredinol

Dylai pob datblygiad fod o ddyluniad cynaliadwy ansawdd uchel a pharchu cymeriad lleol a nodweddion neilltuoel amgylchedd adeiledig, hanesyddol a naturiol Sir Fynwy. Bydd yn ofynnol i gynigion datblygu:

- a) Sicrhau amgylchedd diogel, dymunol a chyfleus sy'n hygyrch i bob aelod o'r gymuned, yn cefnogi egwyddorion diogelwch y gymuned ac yn annog cerdded a seiclo;
- b) Cyfrannu tuag at naws o le wrth sicrhau fod maint y datblygiad a'i ddwyyster yn gydnaws gyda defnyddiau presennol;
- c) Parchu ffurf, maint, lleoliad, casglu, deunyddiau a gweddllun ei osodiad ac unrhyw adeiladau cyfagos o ansawdd;
- d) Cynnal lefelau rhesymol o breifatrwydd ac amwynder defnyddwyr adeiladau cyfagos, lle'n berthnasol;
- e) Parchu'r golygfeydd adeiledig a naturiol lle maent yn cynnwys nodweddion hanesyddol a/neu amgylchedd adeiledig neu dirlun deniadol neu neilltuoel;
- f) Defnyddio technegau adeiladu, addurniad, arddulliau a golau i wella ymddangosiad y cynnig gan roi ystyriaeth i wead, lliw, patrwm, cadernid a saerniaeth mewn defnyddio deunyddiau;
- g) Ymgorffori a, lle'n bosibl, wella nodweddion presennol sydd o werth hanesyddol, gweledol neu gadwraeth natur a defnyddio'r traddodiad brodorol lle'n briodol;
- h) Cynnwys cynigion tirlun ar gyfer adeiladau newydd a defnyddiau tir fel eu bod yn integreiddio i'w hamgylchiadau, gan roi ystyriaeth i ymddangosiad y tirlun presennol a'i gymeriad cynhenid, fel y'i diffinnir drwy broses LANDMAP. Dylai tirlunio roi ystyriaeth i, a lle'n briodol gadw, coed a gwrychoedd presennol;
- i) Gwneud y defnydd mwyaf effeithiol o dir sy'n gydnaws gyda'r meini prawf uchod, yn cynnwys y dylai isafswm dwysedd net datblygiad preswyl fod yn 30 annedd fesul hectar, yn amodol ar faen prawf l) islaw;
- j) Sicrhau dyluniad sy'n ymateb i'r hinsawdd ac effeithiol o ran adnoddau. Dylid rhoi ystyriaeth i leoliad, cyfeiriadu, dwysedd, gweddllun, ffurf adeiledig a thirlunio ac i effeithiolrwydd ynni a defnyddio ynni adnewyddadwy, yn cynnwys deunyddiau a thechnoleg;
- k) Meithrin dylunio cynhwysol;
- l) Sicrhau y caiff ardaloedd preswyl presennol a nodweddir gan safonau uchel o breifatrwydd ac ehangder eu gwarchod rhag gor-ddatblygu a mewnlenni ansensitif neu amhriodol.

Cyfeirir at bolisiau perthnasol allweddol eraill yr LDP yn adroddiad y swyddog.

Canllawiau Cynllunio Atodol (SPG):

Gall y Canllawiau Cynllunio Atodol dilynol hefyd fod yn berthnasol i wneud penderfyniadau fel ystyriaeth cynllunio perthnasol:

- Seilwaith Gwyrdd (mabwysiadwyd Ebrill 2015)
- Canllawiau Dylunio Trosi Adeiladau Amaethyddol (mabwysiadwyd Ebrill 2015)
- Polisi H4(g) LDP Trosi/Adfer Adeiladau yng Nghefn Gwlad i Ddefnydd Preswyl - Asesu Ail-dddefnydd ar gyfer Dibenion Busnes (mabwysiadwyd Ebrill 2015)
- Polisiâu H5 a H6 LDP Anheddau yn Lle ac Ymestyn Anheddau Gwledig yng Nghefn Gwlad (mabwysiadwyd Ebrill 2015)

- Arfarniad Ardal Cadwraeth Trellech (Ebrill 2012)
- Garejys Domestig (mabwysiadwyd Ionawr 2013)
- Safonau Parcio Sir Fynwy (mabwysiadwyd Ionawr 2013)
- Ymagwedd at Oblygiadau Cynllunio (Mawrth 2013)
- Drafft Tai Fforddiadwy (Gorffennaf 2015)
- Drafft Ynni Adnewyddadwy ac Effeithiolrwydd Ynni (Rhagfyr 2014)
- Drafft Nodyn Cyngor Cynllunio ar Asesu Tirlun Datblygu ac Effaith Gweledol Tyrbinau Gwynt
- Drafft Prif Wynebau Siopau (Mehafin 2015)

Polisi Cynllunio Cyhoeddus

Gall y polisi cynllunio cenedlaethol dilynol hefyd fod yn berthnasol i wneud penderfyniadau fel ystyriaeth cynllunio berthnasol:

- Polisi Cynllunio Cymru (PPW) 12
- Nodiadau Cyngor Technegol (TAN) PPW:
- TAN 1: Cydastudiaethau Argaeledd Tir Tai (2014)
- TAN 2: Cynllunio a Thai Fforddiadwy (2006)
- TAN 3: Symleiddio Parthau Cynllunio (1996)
- TAN 4: Manwerthu a Chanol Trefi (1996)
- TAN 5: Cadwraeth Natur a Chynllunio (2009)
- TAN 6: Cynllunio ar gyfer Cymunedau Gwledig Cynaliadwy (2010)
- TAN 7: Rheoli Hysbysebion Awyr Agored (1996)
- TAN 8: Ynni Adnewyddadwy (2005)
- TAN 9: Gorfodaeth Rheoli Adeiladu (1997)
- TAN 10: Gorchmynion Cadwraeth Coed (1997)
- TAN 11: Sŵn (1997)
- TAN 12: Dylunio (2014)
- TAN 13: Twristiaeth (1997)
- TAN 14: Cynllunio Arfordirol (1998)
- TAN 15: Datblygu a Risg Llifogydd (2004)
- TAN 16: Chwaraeon, Hamdden a Gofodau Agored (2009)
- TAN 18: Trafnidiaeth (2007)
- TAN 19: Telathrebu (2002)
- TAN 20: Y Gymraeg (2013)
- TAN 21: Gwastraff (2014)
- TAN 23: Datblygu Economaidd (2014)
- TAN 24: Yr Amgylchedd Hanesyddol (2017)
- Nodyn Cyngor Technegol Mwynol (MTAN) Cymru 1: Agregau (30 Mawrth 2004)
- Nodyn Cyngor Technegol Mwynol (MTAN) Cymru 2: Glo (20 Ionawr 2009)
- Cylchlythyr Llywodraeth Cymru 016/2014 ar amodau cynllunio

Materion eraill

Gall y ddeddfwriaeth ddilynol arall fod yn berthnasol wrth wneud penderfyniadau

Deddf Cynllunio (Cymru) 2016

Daeth Adranau 11 a 31 y Ddeddf Cynllunio i rym yn Ionawr 2016 yn golygu fod y Gymraeg yn ystyriaeth cynllunio berthnasol. Mae Adran 11 yn ei gwneud yn ofynnol i'r gwerthusiad cynaliadwyedd, a gymerir wrth baratoi LDP, gynnwys asesiad o effeithiau tebygol y cynllun ar ddefnydd y Gymraeg yn y gymuned. Lle mae cynllun integredig sengl yr awdurdod wedi dynodi bod y Gymraeg yn flaenoriaeth, dylai'r asesiad fedru dangos y cysylltiad rhwng yr ystyriaeth ar gyfer y Gymraeg a'r prif arfarniad cynaliadwyedd ar gyfer yr LDP, fel y'i nodir yn TAN 20.

Mae Adran 31 y Ddeddf Cynllunio yn egluro y gall awdurdodau cynllunio gynnwys ystyriaethau yn ymwneud â'r defnydd o'r Gymraeg wrth wneud penderfyniadau ar geisiadau am ganiatâd cynllunio, cyn belled ag mae'n berthnasol i'r Gymraeg. Nid yw'r darpariaethau yn rhoi unrhyw bwysiad ychwanegol i'r Gymraeg o gymharu ag ystyriaethau perthnasol eraill. Mater i'r awdurdod cynllunio lleol yn llwyr yw p'un ai yw'r Gymraeg yn ystyriaeth berthnasol mewn unrhyw gais cynllunio, a

dylai'r penderfyniad p'un ai i roi ystyriaeth i faterion y Gymraeg gael ei seilio ar yr ystyriaeth a roddwyd i'r Gymraeg fel rhan o broses paratoi'r LDP.

Cynhaliwyd gwerthusiad cynaliadwyedd ar Gynllun Datblygu Lleol (LDP) Sir Fynwy a fabwysiadwyd yn 2014, gan roi ystyriaeth i'r ystod lawn o ystyriaethau cymdeithasol, amgylcheddol ac economaidd, yn cynnwys y Gymraeg. Cyfran cymharol fach o boblogaeth Sir Fynwy sy'n siarad, darllen neu ysgrifennu Cymraeg o gymharu gydag awdurdodau lleol eraill yng Nghymru ac ni ystyriwyd fod angen i'r LDP gynnwys polisi penodol ar y Gymraeg. Roedd casgliad yr asesiad am effeithiau tebygol y cynllun ar y defnydd o'r Gymraeg yn y gymuned yn fach iawn.

Rheoliadau Asesiad Effaith ar yr Amgylchedd 1999

Mae Rheoliadau Cynllunio Tref a Gwlad (Asesiad Effaith ar yr Amgylchedd) (Lloegr a Chymru) 1999 fel y'i diwygiwyd gan Reoliadau Cynllunio Tref a Gwlad (Asesiad Effaith ar yr Amgylchedd) (Diwygiad) 2008 yn berthnasol i'r argymhellion a wnaed. Bydd y swyddog yn tynnu sylw at hynny pan gyflwynwyd Datganiad Amgylcheddol gyda chais.

Rheoliadau Cadwraeth Rhywogaethau a Chynefinoedd 2017

Lle aseswyd bod safe cais yn safle bridio neu glwydo ar gyfer rhywogaethau Ewropeaidd a warchodir, bydd angen fel arfer i'r datblygydd wneud cais am "randdirymiad" (trwydded datblygu) gan Cyfoeth Naturiol Cymrau. Mae pob rhywogaeth o ystlumod, pathwod a madfallod cribog mawr yn enghreifftiau o'r rhywogaethau gwarchodedig hyn. Wrth ystyried ceisiadau cynllunio mae'n ofynnol i Gyngor Sir Fynwy fel awdurdod cynllunio lleol roi ystyriaeth i Reoliadau Cadwraeth Rhywogaethau a Chynefinoedd 20120 (y Rheoliadau Cynefinoedd) ac i'r ffaith mai dim ond lle cyflawnir tri phrawf a nodir yn Erthygl 16 y Gyfarwyddeb Cynefinoedd y caniateir rhanddirymiaid. Caiff y tri phrawf eu nodi islaw.

(i) Mae'r rhanddirymiad er budd iechyd a diogelwch y cyhoedd, neu am resymau hanfodol eraill o ddiddordeb pennaf i'r cyhoedd, yn cynnwys rhai o natur economaidd a chanlyniadau buddiol o bwysigrwydd sylfaenol i'r amgylchedd.

(ii) Nad oes dewis arall boddhaol.

(iii) Nad yw'r rhanddirymiad yn niweidiol i gynnal y boblogaeth o'r rhywogaeth dan sylw drwy statws cadwraeth ffafriol yn eu hardal naturiol.

Deddf Llesiant Cenedlaethau'r Dyfodol (Cymru) 2015

Nod y Ddeddf yw gwella llesiant cymdeithasol, economaidd, amgylcheddol a diwylliannol Cymru. Mae'r Ddeddf yn gosod nifer o amcanion llesiant

- **Cymru lewyrchus;** defnydd effeithiol o adnoddau, pobl fedrus ac addysgedig, cynhyrchu cyfoeth, darparu swyddi;
- **Cymru gref;** cynnal a chyfoethogi bioamrywiaeth ac ecosystemau sy'n cefnogi hynny ac a all addasu i newid (e.e. newid yn yr hinsawdd);
- **Cymru iachach;** cynyddu llesiant corfforol a meddyliol pobl i'r eithaf a deall effeithiau iechyd;
- **Cymru o gymunedau cydlynol:** cymunedau yn ddeniadol, hyfyw, diogel a gyda chysylltiadau da.
- **Cymru sy'n gyfrifol yn fyd-eang:** rhoi ystyriaeth i effaith ar lesiant byd-eang wrth ystyried llesiant cymdeithasol, economaidd ac amgylcheddol lleol;
- **Cymru gyda diwylliant egniïol a'r iaith Gymraeg yn ffynnu:** caiff diwylliant, treftadaeth a'r Gymraeg eu hyrwyddo a'u diogelu. Caiff pobl eu hannog i gymryd rhan mewn chwaraeon, celf a hamdden;
- **Cymru fwy cyfartal:** gall pobl gyflawni eu potensial beth bynnag yw eu cefndir neu amgylchiadau.

Caiff nifer o egwyddorion datblygu cynaliadwy hefyd eu hamlinellu:

- **Hirdymor:** cydbwyso angen tymor byr gyda'r hirdymor a chynllunio ar gyfer y dyfodol;
- **Cydweithio:** cydweithio gyda phartneriaid eraill i gyflawni amcanion;
- **Ymggyfraniad:** cynnwys y rhai sydd â diddordeb a gofyn am eu barn;
- **Atal:** rhoi adnoddau i ateb problemau rhag digwydd neu waethygu;
- **Integreiddio:** cael effaith gadarnhaol ar bobl, yr economi a'r amgylchedd a cheisio bod o fudd i bob un o'r tri.

Mae'r gwaith a wneir gan awdurdod cynllunio lleol yn cysylltu'n uniongyrchol â hyrwyddo a sicrhau datblygu cynaliadwy ac yn anelu i sicrhau cydbwysedd rhwng y tri maes: amgylchedd, economi a chymdeithas.

Trefn Troseddu ac Anrhefn 1998

Mae Adran 17(1) Deddf Troseddu ac Anrhefn 1998 yn gosod dyletswydd ar awdurdod lleol i weithredu ei wahanol swyddogaethau gan roi ystyriaeth ddyledus i effaith debygol gweithredu'r swyddogaethau hynny ar, a'r angen i wneud popeth y gall ei wneud yn rhesymol i atal troseddu ac anrhefn yn ei ardal. Gall troseddu ac ofn troseddu fod yn ystyriaeth cynllunio berthnasol. Tynnir sylw at y pwnc hwn yn adroddiad y swyddog lle mae'n ffurfio ystyriaeth sylweddol ar gyfer cynnig.

Deddf Cydraddoldeb 2010

Mae Deddf Cydraddoldeb 2010 yn cynnwys dyletswydd cydraddoldeb sector cyhoeddus i integreiddio ystyriaeth cydraddoldeb a chysylltiadau da ym musnes rheolaidd awdurdodau cyhoeddus. Mae'r Ddeddf yn dynodi nifer o 'nodweddion gwarchoddedig': oedran, anabledd, aillbennu rhywedd; priodas a phartneriaeth sifil; hil; crefydd neu gredo; rhyw; a chyfeiriadedd rhywiol. Bwriedir i gydymffurfiaeth arwain at benderfyniadau a wnaed ar sail gwybodaeth well a datblygu polisi a gwasanaethau sy'n fwy effeithlon ar gyfer defnyddwyr. Wrth weithredu ei swyddogaethau, mae'n rhaid i'r Cyngor roi ystyriaeth ddyledus i'r angen i: ddileu gwahaniaethu anghyfreithlon, aflonyddu, erledigaeth ac ymddygiad arall a gaiff ei wahardd gan y Ddeddf; hybu cyfle cyfartal rhwng pobl sy'n rhannu nodwedd warchoddedig a'r rhai nad ydynt; a meithrin cysylltiadau da rhwng pobl sy'n rhannu nodwedd warchoddedig a'r rhai nad ydynt. Mae rhoi ystyriaeth ddyledus i hyrwyddo cydraddoldeb yn cynnwys: dileu neu leihau anfanteision a ddioddefir gan bobl oherwydd eu nodweddion gwarchoddedig; cymryd camau i ddiwallu anghenion o grwpiau gwarchoddedig lle mae'r rhain yn wahanol i anghenion pobl eraill; ac annog pobl o grwpiau gwarchoddedig i gymryd rhan mewn bywyd cyhoeddus neu mewn gweithgareddau eraill lle mae eu cyfranogiad yn anghymesur o isel.

Mesur Plant a Theuluoedd (Cymru)

Mae ymgynghoriad ar geisiadau cynllunio yn agored i'n holl ddinasyddion faint bynnag eu hoed; ni chynhelir unrhyw ymgynghoriad wedi'i dargedu a anelwyd yn benodol at blant a phobl ifanc. Yn dibynnu ar faint y datblygiad arfaethedig, rhoddir cyhoeddusrwydd i geisiadau drwy lythyrau i feddianwyr cyfagos, hysbysiadau safle, hysbysiadau yn y wasg a/neu gyfryngau cymdeithasol. Nid yw'n rhaid i bobl sy'n ymateb i ymgynghoriadau roi eu hoedran nac unrhyw ddata personol arall, ac felly ni chaiff y data yma ei gadw na'i gofnodi mewn unrhyw ffordd, ac ni chaiff ymatebion eu gwahanu yn ôl oedran.

Protocol ar gyfraniadau gan y cyhoedd mewn Pwyllgorau Cynllunio

Dim ond yn llwyr yn unol â'r protocol hwn y caniateir cyfraniadau gan y cyhoedd mewn Pwyllgorau Cynllunio. Ni allwch fynnu siarad mewn Pwyllgor fel hawl. Mae'r gwahoddiad i siarad a'r ffordd y cynhelir y cyfarfod ar ddisgresiwn Cadeirydd y Pwyllgor Cynllunio ac yn amodol ar y pwyntiau a nodir islaw.

Pwy all siarad

Cynghorau Cymuned a Thref

Gall cynghorau cymuned a thref annerch y Pwyllgor Cynllunio. Dim ond aelodau etholedig cynghorau cymuned a thref gaiff siarad. Disgwylir i gynrychiolwyr gydymffurfio â'r egwyddorion dilynol: -

(i) Cydymffurfio â Chod Cenedlaethol Ymddygiad Llywodraeth Leol. (ii) Peidio cyflwyno gwybodaeth nad yw'n:

- gyson gyda sylwadau ysgrifenedig eu cyngor, neu
 - yn rhan o gais, neu
 - wedi ei gynnwys yn yr adroddiad neu ffeil cynllunio.

Aelodau'r Cyhoedd

Cyfyngir siarad i un aelod o'r cyhoedd yn gwrthwynebu datblygiad ac un aelod o'r cyhoedd yn cefnogi datblygiad. Lle mae mwy nag un person yn gwrthwynebu neu'n cefnogi, dylai'r unigolion neu grwpiau gydweithio i sefydlu llefarydd. Gall Cadeirydd y Pwyllgor weithredu disgresiwn i ganiatáu ail siaradwr ond dim ond mewn amgylchiadau eithriadol lle mae cais sylweddol yn ysgogi gwahanol safbwyntiau o fewn un 'ochr' y ddadl (e.e. cais archfarchnad lle mae un llefarydd yn cynrychioli preswylwyr ac un arall yn cynrychioli manwerthwyr lleol). Gall aelodau'r cyhoedd benodi cynrychiolwyr i siarad ar eu rhan.

Lle na ddeuir i gytundeb, bydd yr hawl i siarad yn mynd i'r person/sefydliad cyntaf i gofrestru eu cais. Lle mae'r gwrthwynebydd wedi cofrestru i siarad caiff yr ymgeisydd neu asiant yr hawl i ymateb.

Cyfyngir siarad i geisiadau lle cyflwynwyd llythyrau gwrthwynebu/cefnogaeth neu lofnodion ar ddeiseb i'r Cyngor gan 5 neu fwy o aelwydydd/sefydliadau gwahanol. Gall y Cadeirydd weithredu disgresiwn i ganiatáu siarad gan aelodau o'r cyhoedd lle gallai cais effeithio'n sylweddol ar ardal wledig prin ei phoblogaeth ond y derbyniwyd llai na 5 o lythyr yn gwrthwynebu/cefnogi.

Ymgeiswyr

Bydd gan ymgeiswyr neu eu hasiantau a benodwyd hawl ymateb lle mae aelodau'r cyhoedd neu gyngor cymuned/tref yn annerch pwyllgor. Fel arfer dim ond ar un achlysur y caniateir i'r cyhoedd siarad pan gaiff ceisiadau eu hystyried gan Bwyllgor Cynllunio. Pan ohirir ceisiadau ac yn arbennig pan gânt eu hailgyflwyno yn dilyn penderfyniad pwyllgor i benderfynu ar gais yn groes i gyngor swyddog, ni chaniateir i'r cyhoedd siarad fel arfer. Fodd bynnag bydd yn rhaid ystyried amgylchiadau arbennig ar geisiadau a all gyfiawnhau eithriad.

Cofrestru Cais i Siarad

I gofrestru cais i siarad, mae'n rhaid i wrthwynebwyr/cefnogwyr yn gyntaf fod wedi gwneud sylwadau ysgrifenedig ar y cais. Mae'n rhaid iddynt gynnwys eu cais i siarad gyda'u sylwadau neu ei gofrestru wedyn gyda'r Cyngor.

Caiff ymgeiswyr, asiantau a gwrthwynebwyr eu cynghori i aros mewn cysylltiad gyda'r swyddog achos am ddatblygiadau ar y cais. Cyfrifoldeb y rhai sy'n dymuno siarad yw gwirio os yw'r cais i gael ei ystyried gan y Pwyllgor Cynllunio drwy gysylltu â'r Swyddog Cynllunio, a all roi manylion o'r dyddiad tebygol ar gyfer clywed y cais. Caiff y drefn ar gyfer cofrestru'r cais i siarad ei nodi islaw.

Mae'n rhaid i unrhyw un sy'n dymuno siarad hysbysu Swyddogion Gwasanaethau Democraidd y Cyngor drwy ffonio 01633 644219 neu drwy e-bost i registertospeak@monmouthshire.gov.uk. Caiff unrhyw geisiadau i siarad a gaiff eu e-bostio eu cydnabod cyn y dyddiad cau ar gyfer cofrestru i

siarad. Os nad ydych yn derbyn cydnabyddiaeth cyn y dyddiad cau, cysylltwch â Gwasanaethau Democrataidd ar 01633 644219 i wirio y cafodd eich cais ei dderbyn.

Mae'n rhaid i siaradwyr wneud hyn cyn gynted ag sydd modd, rhwng 12 canol dydd ar y dydd Mercher a 12 canol dydd ar y dydd Llun cyn y Pwyllgor. Gofynnir i chi adael rhif ffôn y gellir cysylltu â chi yn ystod y dydd.

Bydd y Cyngor yn cadw rhestr o bobl sy'n dymuno siarad yn y Pwyllgor Cynllunio.

Gweithdrefn yng Nghyfarfod y Pwyllgor Cynllunio

Dylai pobl sydd wedi cofrestru i siarad gyrraedd ddim hwyrach na 15 munud cyn dechrau'r cyfarfod. Bydd swyddog yn cynghori ar drefniadau seddi ac yn ateb ymholiadau. Caiff y weithdrefn ar gyfer delio gyda siarad gan y cyhoedd ei osod islaw:

- Bydd y Cadeirydd yn nodi'r cais i'w ystyried.
- Bydd swyddog yn cyflwyno crynodeb o'r cais a materion yn ymwneud â'r argymhelliad
- Os nad yw'r aelod lleol ar y Pwyllgor Cynllunio, bydd y Cadeirydd yn ei (g)wahodd i siarad am ddim mwy na 6 munud
- Yna bydd y Cadeirydd yn gwahodd cynrychiolydd y cyngor cymuned neu dref i siarad am ddim mwy na 4 munud.
- Bydd y Cadeirydd wedyn yn gwahodd yr ymgeisydd neu asiant a benodwyd (os yn berthnasol) i siarad am ddim mwy na 4 munud. Lle mae mwy na un person neu sefydliad yn siarad yn erbyn cais, ar ddisgresiwn y Cadeirydd bydd gan yr ymgeisydd neu'r asiant a benodwyd hawl i siarad am ddim mwy na 5 munud.
- Fel arfer cydymffurfir yn gaeth â chyfyngiadau amser, fodd bynnag bydd gan y Cadeirydd ddisgresiwn i addasu'r amser gan roi ystyriaeth i amgylchiadau'r cais neu'r rhai sy'n siarad.
- Dim ond unwaith y gall siaradwyr siarad.
- Bydd aelodau'r Pwyllgor Cynllunio wedyn yn trafod y cais, gan ddechrau gydag aelod lleol o'r Pwyllgor Cynllunio.
- Bydd y swyddogion yn ymateb i'r pwyntiau a godir os oes angen.
- Yn union cyn i'r mater gael ei roi i'r bleidlais, gwahoddir yr aelod lleol i grynhoi, gan siarad am ddim mwy na 2 funud.
- Ni all cynrychiolydd y cyngor cymuned neu dref neu wrthwynebydd/cefnogwyr neu'r ymgeisydd/asiant gymryd rhan yn ystyriaeth aelodau o'r cais ac ni allant ofyn cwestiynau os nad yw'r cadeirydd yn eu gwahodd i wneud hynny.
- Lle mae gwrthwynebydd/cefnogwr, ymgeisydd/asiant neu gyngor cymuned/tref wedi siarad ar gais, ni chaniateir unrhyw siarad pellach gan neu ar ran y grŵp hwnnw pe byddai'r cais yn cael ei ystyried eto mewn cyfarfod o'r pwyllgor yn y dyfodol heblaw y bu newid sylweddol yn y cais.
- Ar ddisgresiwn y Cadeirydd, gall y Cadeirydd neu aelod o'r Pwyllgor yn achlysurol geisio eglurhad ar bwynt a wnaed.
- Mae penderfyniad y Cadeirydd yn derfynol.
- Wrth gynnig p'un ai i dderbyn argymhelliad y swyddog neu i wneud diwygiad, bydd yr aelod sy'n gwneud y cynnig yn nodi'r cynnig yn glir.
- Pan gafodd y cynnig ei eilio, bydd y Cadeirydd yn dweud pa aelodau a gynigiodd ac a eiliodd y cynnig ac yn ailadrodd y cynnig a gynigwyd. Caiff enwau'r cynigydd a'r eilydd eu cofnodi.
- Bydd aelod yn peidio pleidleisio yng nghyswllt unrhyw gais cynllunio os na fu'n bresennol drwy gydol cyfarfod y Pwyllgor Cynllunio, y cyflwyniad llawn ac ystyriaeth y cais neilltuol hwnnw.
- Bydd unrhyw aelod sy'n ymatal rhag pleidleisio yn ystyried p'un ai i roi rheswm dros ei (h)ymatal.
- Bydd swyddog yn cyfrif y pleidleisiau ac yn cyhoeddi'r penderfyniad.

Cynnwys yr Arweithiau

Dylai sylwadau gan gynrychiolydd y cyngor tref/cymuned neu wrthwynebydd, cefnogwr neu ymgeisydd/asiant gael eu cyfyngu i faterion a godwyd yn eu sylwadau gwreiddiol a bod yn faterion cynllunio perthnasol. Mae hyn yn cynnwys:

- Polisiâu cynllunio cenedlaethol a lleol perthnasol
- Ymddangosiad a chymeriad y datblygiad, gweddllun a dwysedd

- Cynhyrchu traffig, diogelwch priffordd a pharcio/gwasanaethu;
- Cysgodi, edrych dros, ymyriad sŵn, aroglau neu golled arall amwynder.

Dylai siaradwyr osgoi cyfeirio at faterion y tu allan i gylch gorchwyl y Pwyllgor Cynllunio, megis:

- Anghydfod ffiniau, cyfamodau a hawliau eraill eiddo
- Sylwadau personol (e.e. cymhellion neu gamau gweithredu'r ymgeisydd hyd yma neu am aelodau neu swyddogion)
- Hawliau i olygfeydd neu ddibrisiant eiddo.

Public Document Pack Agenda Item 5

MONMOUTHSHIRE COUNTY COUNCIL

**Minutes of the meeting of Planning Committee held
In the Council Chamber, County Hall, The Rhadyr, Usk, NP15 1GA with remote
attendance on Wednesday, 8th May, 2024 at 2.00 pm**

PRESENT: County Councillor Phil Murphy (Chair)
County Councillor Dale Rooke (Vice Chair)

County Councillors: Jill Bond, Fay Bromfield, Emma Bryn,
Sara Burch, Jan Butler, Tony Easson, Steven Garratt, Su McConnel,
Jayne McKenna, Maureen Powell, Sue Riley and Ann Webb

OFFICERS IN ATTENDANCE:

Craig O'Connor	Head of Placemaking
Philip Thomas	Development Services Manager
Andrew Jones	Development Management Area Team Manager
Amy Longford	Development Management Area Team Manager
Julian Sanders	Solicitor
Anna Hawker	Trainee Solicitor
Richard Williams	Democratic Services Officer

APOLOGIES:

County Councillors John Crook and Meirion Howells

1. Declarations of Interest

None received.

2. Confirmation of Minutes

The minutes of the Planning Committee meeting dated 5th March 2024 were confirmed and signed by the Chair.

3. Application DM/2020/01438 - Development of 15 dwellings (9 affordable and 6 open market) and other associated development and infrastructure. Land off Ty Gwyn Road, Little Mill, NP4 0HU

Consideration of Application DM/2020/01438 had been deferred to enable all up-to-date information to be in the public domain online and to allow for a re-consultation process to be undertaken with neighbours. The report of the application will be re-presented to the June 2024 Planning Committee meeting for consideration.

MONMOUTHSHIRE COUNTY COUNCIL

Minutes of the meeting of Planning Committee held
In the Council Chamber, County Hall, The Rhadyr, Usk, NP15 1GA with remote
attendance on Wednesday, 8th May, 2024 at 2.00 pm

4. Application DM/2024/00206 - A lawful development certificate for the proposed use of the property as a Supported Living home for 5no. elderly persons (C3 use class). 28 Jasper Tudor Crescent, Llanfoist, Monmouthshire, NP7 9AZ

We considered the report of the application and late correspondence which was recommended for approval as outlined in the report.

The application is for a Lawful Development Certificate (LDC) for a Proposed Use or Development, the purpose of which is to ascertain if planning permission is required for the proposed use. An LDC would provide certainty over the need, or not, for planning permission.

https://www.youtube.com/live/B19BQBemGKw?si=J-R0hEHMI7p99_T-&t=180

In noting the detail of the application and the views expressed, it was proposed by County Councillor Maureen Powell and seconded by County Councillor Emma Bryn that a Certificate of Lawfulness for C3 b) use be agreed in respect of application DM/2024/00206.

Upon being put to the vote, the following votes were recorded:

In favour of the proposal	-	14
Against the proposal	-	0
Abstentions	-	0

The proposition was carried.

We resolved that a Certificate of Lawfulness for C3 b) use be agreed in respect of application DM/2024/00206.

5. FOR INFORMATION - The Planning Inspectorate - Appeals Decisions Received:

https://www.youtube.com/live/B19BQBemGKw?si=z_JRML-VmrhGrw8g&t=2757

5.1. Rose Cottage, Grange Wood, Knollbury, Magor

We received the Planning Inspectorate report which related to an appeal decision following site visits that had been held at Rose Cottage, Grange Wood, Knollbury, Magor on 18th March 2024.

We noted that the appeal had been dismissed.

5.2. Wisteria Lodge, Sandy Lane, Caerwent Brook, Caerwent

We received the Planning Inspectorate report which related to an appeal decision following site visits that had been held at Wisteria Lodge, Sandy Lane, Caerwent Brook, Caerwent on 16th January 2024.

MONMOUTHSHIRE COUNTY COUNCIL

**Minutes of the meeting of Planning Committee held
In the Council Chamber, County Hall, The Rhadyr, Usk, NP15 1GA with remote
attendance on Wednesday, 8th May, 2024 at 2.00 pm**

We noted that the appeal had been dismissed.

6. Planning Appeals received - 1st January to 31st March 2024

We noted the planning appeals received by the Planning Department for the period 1st January to 31st March 2024.

The meeting ended at 2.49 pm.

Application Number: DM/2020/01438

Proposal: Development of 15 dwellings (9 affordable and 6 open market) and other associated development and infrastructure

Address: Land off Ty Gwyn Road, Little Mill, NP4 0HU

Applicant: Jones Bros c/o Agent

Plans: Landscaping Plan DETAILED SOFT LANDSCAPE PROPOSALS - Rev C, Other SITE SURVEY - , Site Layout 2414 00 (02)101 REV J - , Floor Plans - Proposed 2418 (03)-202 REV B - , Floor Plans - Proposed 2418-(03)-200 REV C - , Floor Plans - Proposed 2418-(03)-201 REV B - , Floor Plans - Proposed 2418-(03)-204 REV A- , Elevations - Proposed 2418-(03)-300 REV D - , Elevations - Proposed 2418-(03)-301 REV D - , Elevations - Proposed 2418-(03)-302 REV D - , Elevations - Proposed 2418-(03)-304 REV C, Site Sections 2418-630 - Rev A, Site Layout 418 00 (02)101 REV J

RECOMMENDATION: APPROVED SUBJECT TO SECTION 106 AGREEMENT

Case Officer: Ms Kate Bingham
Date Valid: 09.10.2020

This application is presented to Planning Committee due to 5 or more objections being received

1.0 APPLICATION DETAILS

1.1 Site Description

The application site is a parcel of land adjacent to the village of Little Mill, accessed off Ty Gwyn Road. Little Mill is a village largely comprising of dwellings with some local facilities situated in the south of the village on Berthin Road, including a public house, a church, village hall, multi-use games area, equipped play area and recreation ground. In addition, there are bus stops providing services to Cwmbran/Pontypool and Chepstow.

There are residential properties to the south of the site, a railway line to the north-west and open grazing land to the north and east. This grazing land forms the remainder of the field parcel of which the site forms a part, and is also within the control of the applicant.

The site as existing is open grazing land that slopes gently downwards from the railway line, in a north-west to south-east direction. The site's boundary with the railway line comprises mature trees and hedgerows, while the boundary with residential properties to the south comprises of their rear boundaries.

The site is allocated for the development of up to 15 dwellings in the LDP, 60% of which are to be delivered as affordable housing units. The application site is relatively small, extending to 1.84 acres (0.74 ha). However, the applicant has secured an interest in the wider field parcel situated between Ty Gwyn Road and Ty Draw Lane. This additional land is proposed to be used to accommodate a drainage basin, pumping station, electricity sub-station and strategic landscaping.

1.2 Value Added

Extensive pre-application consultation and engagement has been undertaken to ensure the acceptability of the proposed development. This has included two meetings with the Council and

the carrying out of the statutory pre-application consultation (PAC) process with the local community. Through pre-application dialogue, Planning Officers confirmed that certain supporting infrastructure and associated development could be included outside of the allocated site's boundary. This includes drainage infrastructure, a substation and strategic landscaping. All 15 dwellings and 'usable' aspects of the development are included within the site allocation boundary.

Concerns raised at pre-application stage related to biodiversity gain, the inclusion of SuDS within the streetscape as well as how the swale links to the proposed basin and the landscape proposals around the pumping station and substation. In response to this the layout was revised to include a strategic landscaping buffer to screen the proposed pumping station and substation, and the buffer was also extended around plots 4 – 11, thus creating a defensible boundary.

1.3 Proposal Description

The application seeks permission for 9 no. affordable dwellings and 6 no. open market dwellings comprising the following house types:

- 6 x 4-bedroom detached houses (open market) labelled as Humberstone on the drawings
- 4 x 3-bedroom semi-detached houses (affordable)
- 3 x 2-bedroom semi-detached houses (affordable)
- 2 x 2-bedroom walk-up flats (affordable)

Access will be via a continuation of Ty Gwyn Road, with residential development either side. A turning head is proposed to allow residents and refuse vehicles to enter and exit the site. Off road parking is proposed for all properties. Overhead power lines cross the site and a grounding solution is therefore proposed.

Landscaping buffers are proposed around the residential dwellings and adjacent drainage infrastructure. A substation is also proposed on the periphery of the allocated site within the landscape buffer. Agricultural fencing will bound these areas to ensure the continued agricultural use of the remainder of the field.

The land owner has entered into an agreement with Pobl Group to deliver the scheme. The open market units will be marketed for sale by Pobl Living and the social rented units will be owned and managed by Pobl.

The application has been held in abeyance since February 2021 due to the River Usk failing Phosphate targets.

2.0 RELEVANT PLANNING HISTORY (if any)

Reference Number	Description	Decision	Decision Date
DM/2020/01438	Development of 15 dwellings (including 9 affordable and 6 open market) and other associated development and infrastructure.	Pending Decision

4.0 NATIONAL PLANNING POLICY

Planning Policy Wales (PPW) Edition 12

The primary objective of PPW is to ensure that the planning system contributes towards the delivery of sustainable development and improves the social, economic, environmental and cultural well-being as required by the Planning (Wales) Act 2015, the Well-being of Future Generations (Wales) Act 2015 and other key legislation. A well-functioning planning system is fundamental for sustainable development and achieving sustainable places.

The planning system should create sustainable places which are attractive, sociable, accessible, active, secure, welcoming, healthy and friendly. Development proposals should create the conditions to bring people together, making them want to live, work and play in areas with a sense of place and well-being, creating prosperity for all.

5.0 REPRESENTATIONS

5.1 Consultation Replies

Goytre Fawr Community Council - Concerns raised:

On review of the PAC in May 2020, the following comments were submitted to the developer:

- a) On plot car parking mostly consists of in tandem parking which is likely to result in more on road parking to avoid frequent car swapping on drives. A side by side parking arrangement in front of properties would work better. The inclusion of layby(s) for visitors would also improve the development and minimise congestion / obstruction.
- b) If not included, provision should be made for the later easy installation of e-vehicle charging points.
- c) The proposal should consider the inclusion of climate change mitigation measures such as heating assisted by ground / air heat pump, solar panels, etc. technologies, thus limiting the use of fuels such as gas, oil, bio-fuels etc.
- d) The SuDS surface water management plan was well taken by the review group, and praised.
- e) The site boundary should be extended to allow the inclusion of communal green spaces, play area, allotments / orchard etc. and to allow integration with existing play area at the end of Melyn Bach Avenue.
- f) There appears to be an overhead power line crossing the development site, this should be rerouted or otherwise run underground. No overhead services should be used on the site.
- g) Houses at the entrance to the development should follow the building line of existing residences.
- h) During construction temporary solid fencing should be used to shield adjacent residential properties. The movement of vehicles delivering construction materials should be restricted to after 09.30. The usual site working day should not start before 08.00.

On review of the current Planning Permission Application, DM2020/01438, the following points were concluded:

- i) The Pre-Application PAC Report, document reference 19.8140, does not adequately address points raised by the Community Council. Although mentioned in the PAC report it is not clear that the points have been properly considered. Evidence of proper consideration should be submitted before any permission is granted.
- j) It is recommended that allocation of 'Affordable Dwelling' units should be weighted in favour of existing local community members.
- k) With regard to County Council adoption of the street(s) after completion of the development, the criteria and timeline for adoption should be clearly defined as a condition of planning permission approval.

Natural Resources Wales – No objections subject to conditions.

Foul Drainage: Since our previous consultation response, dated 09/11/2020 (our ref: CAS-128586-N4X2), we note the application site is now within the catchment of the River Usk Special Area of Conservation (SAC). This application for the erection of fifteen dwellings proposes connection of foul water to the mains public sewer.

There appears to be no information or assurance from DCWW on whether the sewer network and associated WwTW has the hydraulic capacity to accommodate the additional wastewater, without contributing to an increase in frequencies or duration of storm overflows. Prior to determining this application, we advise you seek this final piece of information from DCWW, to enable you to conclude your HRA following our Planning Advice under the above referenced section.

European Protected Species: A European Protected Species (EPS) Licence is required for this development. We recommend you should only grant planning permission if you attach the following conditions to the permission:

- Condition 1: European Protected Species - Secure implementation of measures set out in section 5.2 (Bats) of the submitted Reptile and Bat Surveys.
- Condition 2: European Protected Species - Lighting Plan is submitted and approved to ensure lighting details are agreed prior to installation.

Flood Risk: We note the 'Flood Risk Assessment & Drainage Strategy Report', prepared by Spring Design, dated March 2020 has identified that the development site is not at risk of flooding, therefore we have no comments to make in relation to flood risk.

Land Contamination: Natural Resources Wales considers that the controlled waters at this site are not of the highest environmental sensitivity, therefore we will not be providing detailed site-specific advice or comments with regards to land contamination issues for this site.

National Park Landscape: The proposal is approximately 1.9km from the Brecon Beacons National Park boundary at the Monmouthshire & Brecon Canal, but is unlikely to be visible from this lower ground. Visibility is most likely from elevated land in the National Park to the west approximately 2.4-2.6km away and from this distance the site would have no adverse visual effects on the National Park, due to the intervening vegetation and distance involved.

Dwr Cymru Welsh Water (DCWW) – No objections.

We can confirm that Little Mill Wastewater Treatment Works into which the proposed development would eventually drain has been issued with a phosphate permit and we are content that there is sufficient headroom to accommodate the foul water generated.

Network Rail - Further housing developments in this area would increase risk at the nearby Whitehouse FP Crossing through increased pedestrian use. There have already been a number of Near Miss Incidents reported at this location. Network Rail proposes that the Developer should seek to work with us and the Local Authority to find a suitable means of addressing this matter by covering costs to improve the level crossing or its closure should a suitable diversionary route be identified.

Without significant consultation with Network Rail and, approved mitigation measures, Network Rail would be extremely concerned if any future development impacts on the safety and operation

of the level crossing. The developer should also contact the ORR regarding this application. As Network Rail is a publicly funded organisation with a regulated remit, it would not be reasonable to require Network Rail to fund rail improvements necessitated by commercial development. It is therefore appropriate to require developer contributions to fund such improvements.

MCC Landscape/Green Infrastructure (GI) - No objection to the principle of the proposal of development on the allocated site from a Landscape and GI perspective based on the amended information provided.

Request further clarification / amendments to be conditioned to address the following points:-

1. It is not clear from the revised plans provided if there is intended to be a formalised link from the proposed site via POS to Ty Draw Lane and PROW 86. The proposed maintenance access point to the POS is not clearly indicated as to whether it is to be gated and / or accessible to the Public. Public access should be created to link to the PROW and to play area on Brynteg place if possible.
2. The GI management plan needs to include a clear spreadsheet of aftercare actions for 20 years. Some of the written prescriptions do not currently have defined visits / intervals per year.
3. Cross section details of the rain garden construction need to be provided for approval along with cross sections of the basin swale with outfall.

Should the application progress and be approved it is anticipated that the conditions should apply if the information is not satisfactorily provided during the application process (see end of report).

MCC Biodiversity - No objection subject to conditions.

MCC Highways - The highway authority does not object to the proposed development, the proposal would not lead to a deterioration in highway safety or capacity and the highway authority recommend conditions are applied to any future decision to ensure that the site is developed to the satisfaction of the highway authority (see end of report).

The site is an allocated site in the LDP and the principles of the development and the suitability of the site's location were widely consulted upon. The application is a full application proposing the development of 15 dwellings comprising 9 affordable and 6 open market dwellings.

The proposal has been the subject of extensive pre-application discussions and PAC and the general principles of the means of access and the impact of the development in terms of highway standards, highway safety and capacity of the immediate local highway network was considered and the details submitted in support of the application generally reflect the highway authority's requirements.

The highway authority have reviewed the Council's accident data and concur with the Transport Statement's conclusion that there are no specific road safety issues that warrant further investigation or assessment.

The internal layout as detailed on Drawing Ref: 2418-(02)-101 Rev: F Site Layout is acceptable in principle and the highway authority actively encourage and promote the Welsh Government guidance where streets or shared drives serving more than 5 residential dwellings shall be built to adoption standards and adopted by the highway authority. The highway authority expect the landowner / developer to enter discussion and negotiate with the highway authority to secure an adoption agreement pursuant to Section 38 of the Highways Act 1980 following a planning decision.

MCC Rights of Way - The applicant's attention should be drawn to Public Footpaths nos. 86, 85A & 87 in the community of Goetre Fawr which run close to and bound the site of the proposed development.

The Active Travel (Wales) Act requires local authorities to continuously improve facilities and routes for pedestrians and requires new road schemes to consider the needs of pedestrians and cyclists at design stage. The Act aims to make active travel the most attractive option for shorter

everyday journeys (journeys to work, school, to access shops or services, etc. i.e. not purely recreational).

Public Rights of Way believes that the proposed scheme falls short of these requirements and therefore objects to the development until such time that it looks to provide high quality multiuser connections to existing road and public path network surrounding it. The proposal should at least provide links to the adopted Brynteg Place via the adjacent play area and to Ty Draw Lane which bounds the site and carries Public Footpath no. 86. Additionally, any access provision should be protected and maintained through some mechanism such as being adopted or managed under contract.

Environmental Health (noise) – No objection subject to conditions.

I have appraised the reports and advise that I have no objection to this application subject to the conditions (Construction Environmental Management Plan, Solid 1.8 metre height boundary fence to Plots 1-4 as shown in Site Layout Plan Rev J, to be provided prior to first occupation of the residential accommodation of Plots 1-4, external construction to meet requirements of Acoustic Consultants Ltd Noise & vibration Assessment ref 8204/BL Rev B and overheating risk mitigation measures to meet recommendations in GreenBuild Consult Thermal Comfort Analysis).

Environmental Health (contaminated land) – No objection subject to conditions.

This application is to build 15 properties on Parcel A (south-west corner of the site). From Parcel A, it appears that 3 samples were taken (TP1, TP4 and TP8). The results of sampling were compared to a generic assessment criteria. Two samples showed elevated concentrations of a PAH (Dibenzo(ah)anthracene), and one sample was at the assessment level for the same PAH (0.24mg/kg). Of these three sample one exceedance was in Parcel A TP4 and one exceedance and the sample at the assessment criteria level was in Parcel B (TP18 and TP20).

As a result, it is recommended that additional sampling should be undertaken to determine the extent of the contamination, by increasing samples around the identified contamination, and then a remediation strategy should be submitted, followed by a validation report. Any imported material must be sourced and tested to ensure they are suitable for the end use, and the results submitted to the Planning Authority.

Finally any unforeseen/unidentified contamination encountered during construction must be further assessed with site investigation and (if necessary) remediated. Should Members consider it appropriate to grant planning approval prior to a completed contaminated land site investigation and remediation strategy it is recommend that conditions be attached to ensure that the site is fully investigated and remediated to ensure the protection of public health. N.B. These are found at the end of this report.

MCC Housing - This is one of MCC's rural 60/40 sites and the affordable homes will help meet the housing need in the area. Housing have worked with a partner RSL to agree a preferred mix and ensure WDQR compliance and are in support of this application.

SEWBRc Search Results - No significant ecological record identified.

5.2 Neighbour Notification

Eight representations received. Object on the following grounds:

- Unacceptable excess noise, traffic and pollution whilst being built. The access roads Millbrook Court and Ty Gwyn Road are not able to cope with the increase in traffic that this development will produce and is definitely not suitable for heavy vehicles such as HGV and plant.
- Over-development of the area as a new estate is to be built locally in Mamhilad and therefore this proposal is not necessary and will result in a loss of green space.

- If the plan goes ahead, Ty Draw Lane should be open to traffic to and from the extension of Ty Gwyn Road, and therefore not all the increased traffic would not need to go through Millbrook Court.
- Loss another greenfield site and the impact upon the environment.
- Loss of view over open fields
The site is slightly elevated and would look directly into our bedroom and lounge.
- No facilities for families at all.
- This development would not be advantageous to anyone.
- Added volume of traffic through the estate and joining onto the A472 (especially mornings and evenings) which would be brought on by developing this site.
- The vision of an earlier Local Development Plan implies that people should live in a more inclusive environment with better access to local services, facilities and employment and a good public transport system, which all contributes to reduced usage and emissions from private vehicles. Little Mill has few such facilities.
- The times of the public transport through the village towards the major towns, employment and rail links of Pontypool, Cwmbran, Newport etc. do not cater for a normal working day.
- If permission is granted for 15 homes on half of the site and with the precedent set, then how much easier would it be to develop the rest of the site in future.
- The proposed development includes a mix that responds to 'local need'. What exactly is the local need within the village that requires another housing development?
- A housing development on the land off Ty Gwyn Road has been considered a number of times over the last thirty years. Each time it has been proposed it has met with local opposition. Many of the objections raised in the past are still relevant today.
- Ty Gwyn Road and Millbrook Court are narrow residential streets which already support a considerable amount of traffic. They are unsuited to providing access for construction traffic or the increased volume of traffic which would result from the proposed fifteen houses.
- Post-Covid if more people do work from home, on current evidence, there will be considerably more commercial vehicles making home deliveries thus adding to the traffic problem.
- MCC stress the importance of 'quality of life' and how the Covid-19 situation highlights the need for 'green spaces to health, well-being and recreation'. The proposed development would have a negative impact on the health and well-being of many village residents depriving them of open, green space and a site of significant biodiversity; and, exposing them to additional air and noise pollution.
- House sales on Ty Gwyn Road and Millbrook Court, especially of family-sized properties, are difficult to sell because of their proximity to the railway line. Lack of public transport, lack of facilities, lack of local employment opportunities etc. contribute to the difficulties of selling properties. Such points suggest that additional housing within the village is not needed.

Two general comments received:

We live at 30 Ty Gwyn Rd, Little Mill and wish the following to be taken into consideration when deciding the above planning application

- 1) Re-align our driveway to enable easier and safer access and egress for vehicles.
- 2) We would prefer a 1.2m metre fence boundary with our property rather than the 1.8m proposed, this will still give privacy to plot 15 owners because our garden, lawn and drive is a good metre below plot 15 ground level.
- 3) During site development existing access road to be cleaned daily and, during dry weather, ground to be sprayed with water to reduce dust nuisance.
- 3) All vehicles associated with site development to be parked on site at all times.
- 4) Dwellings on plots 1, 2, 3 and 4 to be moved back to a similar building line to better coalesce with existing houses in Ty Gwyn Road this will also enable laybys to be provided for visitor parking and avoid parking on existing roadways.
- 5) All existing overhead power lines to be buried or re-routed
- 6) During construction temporary solid fencing to be used to shield adjacent properties and, as we live next to the site, delivery of materials to restricted to after 9.30am and site working to start after 8.00am

7) Arrange residents' parking in new development to avoid a tandem arrangement which will lead to parking on road due to residents differing working hours.

Boundary hedgerow is cut and layered by a neighbouring resident and is managed from the field side with the landowner's verbal permission for access. Within the proposed plans, it seems apparent that the developer is utilising this hedge line as the boundary preventing maintenance. Written confirmation that this hedgerow is the responsibility of the neighbour and therefore a part of that property. Adequate space would therefore be required to allow future maintenance of the hedgerow.

6.0 EVALUATION

6.1 Strategic & Spatial Choices

6.1.1 Principle of Development

The principle of residential development at the site is established through the allocation in the adopted LDP. Policy SAH11 allocates sites within the Main Villages for up to 15 units. Allocation reference SAH11(v) includes land subject to this application, known as 'land north of Little Mill.'

In respect of sites allocated in the main villages under LDP Policy SAH11, the Affordable Housing Supplementary Planning Guidance (2019) confirms:

- The mix and tenure of the 60% affordable provision should be based on local housing need on a site-by-site basis.
- While the provision of open market units is facilitated by the policy, the sole purposes of allocating these sites is to deliver affordable housing.
- The normal approach of 'pepper-potting' affordable throughout a development is not required for these sites. Grouping the market housing to allow them to achieve their full potential is the best way to ensure financial subsidy for the affordable units is achieved.

The proposed development is for 15 units in line with LDP Policy SAH11 and includes 60% affordable provision in accordance with Policy S4. As such, the proposed development is considered policy compliant.

Policy S4 provides for planning obligations to be sought if required to make the development acceptable. Supplementary Planning Guidance supporting Policy S4 confirms that such contributions are not sought on the allocated 60:40 sites due to their economic viability.

6.1.2 Good Design/ Place making

The proposed development includes nine affordable dwellings and six open market dwellings, in line with the site allocation requirements (60% affordable). The allocated site forms the net developable area and net density therefore equates to approximately 29 dwellings per hectare.

The layout has been designed to have an active frontage to replicate the dwellings along the A472 and the recent housing development in the south-east of the village. Plot 15 in particular has been orientated on a corner so the front elevation is visible on approach to the site rather than a less interesting side elevation. The dwellings themselves are traditional in design with simple front elevations with conventionally proportioned windows and front door designs. The palette of materials proposed for the development reflects the materials of the local area. The proposed dwellings are all to be finished in a smooth painted render. Plots 7 - 8 have a projecting front porch which will be finished in stone. The proposed fascias, soffits and bargeboards are uPVC and will be finished in white. The proposed windows on all dwellings will be uPVC finished in white. The window cills are proposed to be reconstituted stone. The roofs would be finished in fibre cement slates coloured blue/grey. The proposed rainwater goods are black uPVC. It is considered these proposed finishes are in keeping with the existing area and the dwellings will not appear incongruous within the village setting.

The principles of place making provide that design goes beyond architecture and extends to the relationship between people, spaces and buildings. In terms of the site, it is small in size and the best way to achieve place making aspirations is to integrate it with the existing village as best as possible. In this case a logical continuation of Ty Gwyn Road is proposed, along with a similar character of property including traditionally proportioned semi-detached and detached houses.

In terms of open space, as a small, allocated site, there is not a significant amount of public realm included within the development, as there is not capacity. However, the inclusion of street trees and a footway adjacent to swales on the southern side of the highway will help to create a sense of place. Unfortunately, although the applicant has secured some control over the adjacent field, this area will continue to be grazed as agricultural land and it is not therefore possible to open up this land for use by the public or provide any footpath links.

A mixture of parking to the front and side of properties is used, while on street parking for visitors is deemed appropriate in this location. Detached garages are also provided with the open market units. This follows the existing pattern of parking arrangements in the rest of the village.

The supporting drainage infrastructure is proposed in the south-east corner of the wider field. This is relatively small in area and will be well landscaped to ensure it will not lead to any urbanisation of the rural character of the village edge.

Other than a Grade II Listed Building 400m north-east of the application site, the site and surrounding locality is free from heritage constraints; thus there will be no detrimental impact on heritage as a result of the proposed development.

The proposed design is considered acceptable in terms of layout, form, scale and materials and will not adversely affect wider visual amenity. As such, the development accords with the requirements of LDP Policy DES1 and PPW12.

6.1.3 Impact on Amenity/ Promoting Healthier Places

The dwellings have been sited to ensure that there are no overbearing or overlooking issues within the new development or upon existing dwellings. Overlooking distances meet the standard 21 metres distance between habitable rooms and are therefore sufficient to prevent any adverse residential impact. Plot 15 has been orientated so that the side elevation with no habitable room windows faces the nearest existing neighbouring dwelling.

The site is adjacent to the main railway line and therefore an Environmental Noise Assessment has been submitted with the application. This report demonstrates an acceptable impact from the railway on the proposed development where appropriate mitigation measures, including façade information and ventilation provision, are provided. The noise from the railway (50dB LAeq 16hrs) is considered the onset of moderate annoyance over the day and evening; this is the limit level which the Authority seeks to achieve. It is noted that this is considered achievable for all gardens with a solid 1.8 metre boundary fence to the rail side boundary of Plots 1- 4. The inclusion of this should be conditioned provided Members are minded to approve the application.

The habitable rooms falling in the Blue and Yellow Zones (as shown in the acoustic report) will have non-openable bedroom windows and therefore will be ventilated via attenuated means. With the mitigation measures installed to habitable rooms of the dwellings in the rooms noted above, the predicted internal noise levels are below British Standard 8233:2014 and WHO (1999) criteria and, on this basis noise ingress from the adjacent railway line is considered to be suitably controlled.

Further detailed consideration of noise is set out in paragraph 6.1.4 below.

In terms of vibration, the measured Vibration Dose Values at the boundary of the site are below the BS6472 range for a low probability of adverse comment. Therefore, vibration is not considered to be of an adverse level at this site and vibration mitigation measures do not need to be considered further.

The development proposals are therefore considered to comply with LDP Policy EP1 in terms of residential amenity and from an acoustic perspective as well as the guidance in TAN11.

6.1.4 Noise and Vibration

The site is directly adjacent to the railway line running between Abergavenny and Pontypool & New Inn stations. The railway runs along the north west side of the site and is the dominant source of noise in the area. In terms of equivalent noise levels, the proposed site falls into category Noise Exposure Category (NEC) B in the night only as the worst-case plot (Plot 1) is exposed to noise levels of 48 dB LAeq,T during both the daytime and night-time periods. TAN11 (Noise) advises that within NEC B areas, noise should be taken into account when determining planning applications and where appropriate, conditions imposed to ensure an adequate level of protection.

In order to achieve acceptable internal acoustic condition in accordance with British Standard 8233:2014 and WHO 1999 at the site, the applicants have provided noise mitigation measures in terms of façade insulation and ventilation provisions in the areas most exposed to railway noise.

Specific mitigation measures are required to bedrooms only located on the façades shown below in yellow and blue on drawing no. The night-time habitable rooms falling in the blue and yellow zones will need to be ventilated via attenuated means. As per the AVO guide and EHO comments overheating has been considered. The applicant has submitted an overheating assessment (Thermal Comfort Analysis, by Greenbuild Consult, GBC Job No 6206) which worked closely with the acoustic requirements of attenuated ventilation to bedrooms. As per the AVO guide and EHO comments overheating has been considered. Section 6.3 states “all the assessed habitable rooms are shown to meet the CIBSE TM59 criteria. Therefore, it can be envisaged that the combination of the natural ventilation strategy and solar control glazing utilised within the proposed scheme will enable the mitigation of overheating risks within the dwellings under these conditions.

Thus, it is considered that it has been demonstrated there is no adverse noise impact under overheating conditions as with a suitably designed building the overheating risk can be controlled without opening the windows of the affected plots. With the mitigation measures installed to habitable rooms of the dwellings in the rooms noted above, the predicted internal noise levels are below British Standard 8233:2014 and WHO (1999) criteria and, on this basis, it is considered that noise ingress will be suitably controlled under both normal and overheating conditions. Noise levels within amenity spaces are also easily controlled without mitigation to within the WHO moderate limit and Monmouthshire guidelines for amenity spaces.

In terms of vibration, the measured Vibration Dose Values at the boundary of the site are below the BS6472 range for a low probability of adverse comment. Therefore, vibration is not considered to be of an adverse level at this site and vibration mitigation measures do not need to be considered.

6.1.5 Sustainable Management of Natural Resources

As a registered social landlord, construction of a Pobl scheme is required to be WDQR (Welsh Development Quality Requirements) compliant. This high standard for construction of affordable housing and the system of Building Regulations in Wales will ensure the development is energy and resource efficient. In addition to this, amended plans received detail both solar PV panels and air source heat pumps to serve each of the dwellings on site. Policy SD2 of the adopted LDP states that “new development proposals will be required to incorporate efficient resource use during construction, operation and maintenance”. The inclusion of these two technologies at each of the new dwellings is considered to be an appropriate response to this and will help reduce the carbon footprint of the dwellings once occupied.

6.2 Active and Social Places

6.2.1 Sustainable Transport Issues

The site, and Little Mill as a settlement, has few employment opportunities and amenities such as a school or doctor's surgery, and the area is reliant on transport to commute to facilities and amenities located in areas such as Usk, Pontypool, Cwmbran and further afield. However, in the County's context the village does benefit from public amenities and being relatively sustainable, the site was allocated for this form of development in the adopted LDP.

The area is reasonably well served by footways and residential streets providing pedestrian and cycling access to the area and public transport bus stops located on the A472 with a controlled crossing on the A472 providing access to westbound bus stops and community facilities on the southern side of the A472. Through direct connection to the highway network, public transport stops, public rights of way and future connection proposals to formal active travel routes, the proposed development is considered to encourage both sustainable and active travel. The location of the site therefore meets the requirements of PPW's Sustainable Transport Hierarchy.

6.2.2 Access / Highway Safety

Vehicular and pedestrian access to the site is proposed through the extension to Ty Gwyn Road. Safe pedestrian access to the local facilities and public transport connections in Little Mill is proposed via the existing lit footways along Ty Gwyn Road, Millbrook Close and Berthin Road.

The proposed means of access (the extension of Ty Gwyn Road) has been designed to create a gateway and traffic calming feature that clearly demarcates the entry to the new houses, avoids conflict with existing properties' drives / means of access and promotes slow entry and exit traffic speeds.

Bus services 61, 63 and 66 serve Berthin Road (250m walk from the site) which connect Little Mill with locations throughout Monmouthshire and Torfaen. However, it is acknowledged in national planning policy that the private car is important for accessibility in more rural areas and that this is likely to remain the case for the foreseeable future. Despite the site's relatively sustainable location in Monmouthshire's context, it is an edge of village allocation and the private car will be an important transport option for residents. As such, policy compliant car and cycle parking is proposed to be provided. Sufficient car parking is provided in accordance with the appropriate maximum standards of 3 spaces per dwelling. Cycle parking is provided through the garages for the open market units and will be provided in accordance with WDQR for the affordable units.

The proposed development is modest in scale, involving just 15 dwellings. The submitted Transport Statement indicates that this would generate one additional vehicle movement once every 8-10 minutes during peak times, therefore having a negligible impact on the local road network.

The internal highway layout comprises a 5.5m wide carriageway with 1.8m wide footways along both sides. This internal highway arrangement is considered suitable for the scale of the proposed development and likely vehicle speeds and MCC Highways offer no objection. A turning head at the termination of the development is also proposed to ensure refuse and emergency vehicles can enter and exit the site in a forward gear.

As such, it is considered that there will be no detrimental impact on the local highway network or trunk roads in accordance with LDP Policy MV1.

6.2.3 Recreational Spaces

Although the site is not large enough area to provide the houses and public open space within the site itself, it is located within the settlement boundary of a Main Village (as defined in LDP Policy S1) which has a number of local facilities and amenities along Berthin Road, including a village hall, multi-use games area, equipped play area and recreation ground. All these facilities are within

400m walk of the proposed development. An additional equipped play area is situated off Cae Melin.

6.3 Productive and Enterprising Places

6.3.1 Economic Development

The introduction of additional residents to the area could have a limited, albeit positive effect on the longevity of local facilities in Little Mill.

6.4 Distinctive & Natural Places

6.4.1 Landscape/ Visual Impact

The application site is not covered by any national or local landscape designations. A full suite of landscape and green infrastructure information has been prepared by TDA and submitted as part of the application. The Landscape Character and Visual Impact Assessment (LVIA) notes that due 'to the natural topography of the area combined with intervening woodland, field boundary hedgerows and hedgerow trees, the visual envelope of the site is generally restricted and the proposed development would be well screened from the majority of surrounding public viewpoints'.

Only one of the viewpoints identified in the LVIA (excluding viewpoints immediately adjacent to the site's boundary) is identified as having small glimpses of the site. This viewpoint (no. 7) already possesses the visual context of residential development and the development would be in keeping with the wider landscape character of Little Mill.

Landscape mitigation and enhancement is proposed in the Soft Landscape Proposals which will soften the edges of the development, increase biodiversity and create a strong arboricultural character. In accordance with Policies S13 and GI1 of the adopted LDP and relevant SPG, GI assets and opportunities plans have been submitted with the application. These plans demonstrate the retention and integration of GI into the development, along with the provision of new and enhanced GI, in line with the above policies and the GI SPG (2015).

6.4.2 Green Infrastructure

Green Infrastructure SPG (2015) sets out what green infrastructure (GI) is and the approach to GI in Monmouthshire. The SPG establishes a three-step approach considering on and offsite GI and embedding this within development proposals. In designing development, this process is summarised as follows:

- Identifying and mapping existing GI assets in proximity of the site.
- Considering opportunities for the development to contribute to local GI needs.
- Incorporate proposals into development design to: maintain and enhance GI and ensure connectivity to the surrounding GI network

A comprehensive approach to green infrastructure, biodiversity enhancement and sustainable drainage has been presented as part of this planning application including permeable paving, planted rain gardens, swales and an infiltration basin. These features represent some of the key hard and soft landscape proposals within the development. In addition, wildlife friendly planting and a variety of native and ornamental tree planting is proposed to be used to enhance the street scene. Native tree and understorey planting will be used to create a landscape buffer around the residential development and the offsite drainage features. Existing boundary hedgerows and trees are to be retained.

A detailed GI management plan should be secured as part of the consent that takes into consideration the Ecology and Landscape requirements and provides clear aims and objectives with detailed work schedules and management information. It is recommended that this is secured by condition should Members be minded to grant consent. Subject to the inclusion of this condition, the development is considered to meet the requirements of LDP Policy GI1.

6.4.3 Biodiversity

A Preliminary Ecological Appraisal (PEA) and bat/reptile survey reports have been prepared by Acer Ecology and submitted as part of the application. Mitigation is included for bats, reptiles, nesting birds and other species. In accordance with Policy NE1 of the LDP and PPW12, various features and assets which encourage biodiversity will be incorporated into the development. This includes hedgerow protection and management, wildlife friendly planting, provision of bird boxes and provision bat boxes/bricks.

The existing hedgerows to the western and southern perimeters are to be retained and enhanced which is welcomed in accordance with LDP Policy NE1 and the Environment (Wales) Act 2016 duty. Revisions to the site layout that provide a buffer to the existing green infrastructure are also welcomed. The buffers are narrow but will facilitate access for initial maintenance and establishment. Details of the future management of these boundaries, including measures to deal with potential future issues such as garden waste will need to be covered by the GI management plan referred to in Paragraph 6.4.2 above. The approved Landscape Plan will also need to show details of the access points to these areas as well as the SuDs area to the east.

In terms of Protected Species, the report refers to low potential for dormice. The submission of a Construction Environmental Management Plan is proposed to be conditioned should Members be minded to approve the application.

A reptile mitigation strategy condition and landscape plan condition are also proposed if Members are minded to grant consent in advance of this detail.

The mature tree to the north-west of the site is assessed as having moderate potential for bats, activity surveys were undertaken in accordance with best practice guidelines and identified a day roost for common pipistrelle bats. It is noted and welcomed that this feature is to be retained as per the Tree Protection Plan but it will be important to ensure it is protected from light spill and as such it is considered that a lighting plan needs to be submitted in the event of any grant of consent. The soft landscaping and tree planting in this area will help to buffer this feature from the development.

Finally, Planning Policy Wales (PPW) 12 sets out that "planning authorities must seek to maintain and enhance biodiversity in the exercise of their functions. This means that development should not cause any significant loss of habitats or populations of species, locally or nationally and must provide a net benefit for biodiversity" (para 6.4.5 refers). This policy and subsequent policies in Chapter 6 of PPW 12 respond to the Section 6 Duty of the Environment (Wales) Act 2016.

The broad net benefit measures (integrated provision on the buildings) provided on Plans 6 and 7 of the Ecology report will need to be detailed on drawings. A condition securing these details is provided at the end of this report should Members be minded to grant consent in advance of this revised detail.

6.4.4 Flooding

The development advice map provided by Natural Resources Wales website confirms that the site is in 'Flood Zone A'. Areas of land located within Flood Zone A are classified as being at little or no risk of fluvial or coastal / tidal flooding.

In terms of surface water flooding within the site, information from NRW indicates that surface water flooding does occur along Ty Draw Lane to the immediate east of the site. However, the surveyed levels along Ty Draw Lane are approximately 300mm below the eastern site boundary and a minimum 6m below the area where houses are proposed to be situated. It is therefore considered that development on the site itself would not be at risk from surface water flooding. In relation to run-off, infiltration tests have been undertaken and the results indicate that ground conditions in the eastern part of the site are suitable for the use of infiltration for discharging surface water run-off. It is therefore proposed to discharge all surface water run-off to ground.

Infiltration measures proposed include permeable paving, bio-retention areas (rain gardens) and an infiltration basin situated in an area of open space. It has been calculated that these proposals will significantly reduce the rate and volume of run-off from the site in comparison to the existing situation and reduce the level of surface water flooding along Ty Draw Lane.

6.4.5 Water (including foul drainage / SuDS)

The scheme will require a sustainable drainage system designed in accordance with the attached Welsh Government Standards for sustainable drainage. The scheme will require approval by the SuDS Approving Body (SAB) prior to any construction work commencing. It is understood that this application has already been submitted.

Notwithstanding the need for further SAB approval, permeable paving, planted rain gardens, swales and an infiltration basin are proposed within the scheme to facilitate as much infiltration as possible. These features represent some of the key hard and soft landscape proposals within the development.

The surface water drainage solution proposed includes swales / a pond feature in the south eastern corner of the field which the site sits within. Topographically this is the optimal location and the solution accords with the SuDS hierarchy, meaning the scheme is compliant with Policy SD4 of the LDP.

No specific details for the management of the highway drainage have been indicated but the highway authority acknowledge that the prospectively adoptable highway forms part of the wider surface water / SuDS drainage strategy and will consider those measures for adoption if the SuDS Approving Body consider it to be the only suitable option available, does not prejudice highway adoption and imposes unreasonable maintenance liabilities.

In terms of foul drainage, a connection is proposed to the existing public foul sewer in Ty Gwyn Road (via the proposed pumping station for certain plots). The site is within the Phosphorous Sensitive Catchment Area of the River Usk SAC. As such, NRW's Interim Guidance applies. This application site is within the DCWW catchment for the Little Mill Wastewater Treatment Works. The NRW permit for these works has been reviewed against revised phosphorus targets and it has been concluded that the existing permit is adequate and that there is sufficient headroom capacity to accommodate flows from the proposed development.

New developments connecting to the associated public sewer within Phosphorous Sensitive Catchment Areas are still subject to the Habitats Regulations. Phosphorus impacts of new connections are considered on a case-by-case basis, and a conclusion of 'no likely significant effect' (on the SAC) can be drawn in cases in the context of water quality impacts where the following apply:

- the environmental permit for the associated wastewater treatment works has been reviewed against revised conservation objectives for water quality;
- there is capacity in place to accommodate the additional wastewater in compliance with revised permit limits; and
- the sewer network and associated WwTW has the hydraulic capacity for new connections without leading to an increase in the environmental impact of storm overflows.

As such, DCWW as statutory consultee, have been consulted on the potential for a development to connect to a public sewer and have confirmed that there is capacity to treat additional wastewater within revised environmental permit limits and the sewer network has the hydraulic capacity to accommodate additional wastewater without contributing to an increase in frequency or duration of storm overflows.

NRW have noted that in their response, DCWW have not referred to Storm Water Overflows. However, DCWW have advised on other applications where the same issue has been raised, that their assessment includes all elements of the public sewerage system including storm overflows. DCWW's source apportionment sampling has found that CSOs account for less than 2% of the

contribution towards river water quality in the Wye and Usk rivers. They have monitoring on all CSOs and a dedicated team reviewing their performance along with investment to improve the impact on the water quality.

On the basis of the advice from NRW and DCWW, the Council has undertaken a Test of Likely Significant Effect (TOLSE) under the Habitats Regulations. The TOLSE considers that the project is unlikely to have a Significant Effect on the phosphate sensitive River SAC alone. No applications approved in the last 12 months result in an increase phosphorus in the river and therefore there is unlikely to be an in-combination effect as a result of the project. With regards to impacts from phosphates there is unlikely to be a significant effect on the River SAC and a full Appropriate Assessment is not required.

6.5 Response to the Representations of Third Parties and/or Community Council

6.5.1 Concern was raised in relation to the tandem parking proposed for some of the dwellings. The Council's Highways Authority were consulted on the application and have not objected, nor raised any concerns regarding the parking layout. The proposed parking arrangement is therefore considered to be satisfactory in planning terms. Comments have been raised in respect of the lack of provision of visitor parking. Adopted Supplementary Planning Guidance (SPG) 2013 sets out that residential developments should provide 1 space per 5 units. However, it is noted that no objection has been received from the Council's Highway Engineer on this matter and that the provision of further parking would be contrary to the aspirations of PPW12 which seeks to reduce dependency on private motor vehicles.

6.5.2 The Community Council suggested that if not included, provision should be made for the later easy installation of e-vehicle charging points. Unfortunately, the applicant is not intending to provide electric vehicle charging points for the development and there is currently no planning policy requirement to provide this facility.

6.5.3 In relation to the inclusion of climate change mitigation measures such as heating assisted by ground / air heat pump, solar panels, etc., the development intends to promote energy efficiency on site by adhering to the appropriate Building Regulations and Development Quality Requirements (DQR).

6.5.4 The size of the allocation precludes the provision of any designated open space as part of this application and it would not be appropriate to intrude further into the adjoining countryside to provide this. The applicant explored the opportunity for footpath connections across this area of land east of the proposed housing, but a path would not provide any meaningful links and further urbanisation of the countryside is not considered appropriate.

6.5.5 The overhead lines will be grounded at the southern boundary of the site and routed westward to the site entrance. From here they will follow the proposed internal highway and reconnect to the overhead lines to the north.

6.5.6 The movement of vehicles delivering construction materials will be dealt with as part of a Construction Traffic Management Plan (CTMP), which would be submitted following the granting of any permission and agreed prior to construction. An advisory Note

6.5.7 The site's allocation for housing means that it will contribute to the Council's overall housing land requirement. Given that it is predominantly for affordable homes, this will ensure that local residents will get the opportunity to live in Little Mill. In terms of the allocation of the affordable dwelling units, it is standard practice for housing associations and priority arrangements to be agreed with the local housing authority.

6.5.8 The transport statement which has been agreed by the MCC Highways indicates that the proposed development will generate 8 vehicle movements during the am peak hour and 6 during the pm peak hour. The increase in traffic movements associated with the development is not considered to be significant and would not be detrimental to the capacity and operation of the

immediate local highway network, particularly Ty Gwyn Road, Millbrook Court and Millbrook Court / A472 Berthin Road junction.

6.5.9 With regard to the maintenance of the hedgerows, it is proposed that further discussions are held between the applicant/developer and the affected residents in order to reach agreement regarding access.

6.5.10 Network Rail are seeking a financial contribution to pay for an improved railway line crossing. Due to the scale of the development and the fact that no new footpaths are being provided that would provide an additional link to this crossing, it is considered that such a contribution is not considered to meet the tests for a valid planning obligation (Section 106 Agreement).

6.5.11 Public Rights of Way believes that the proposed scheme falls short of the requirements of the Active Travel (Wales) Act requirements and therefore objects to the development until such time that the developer looks to provide high quality multiuser connections to existing road and public path network surrounding it. The proposal connects to the existing road and footway. The applicant has not been able to secure permission from the adjoining landowners to provide any additional footpath links. Given the relatively small scale of the site and its existing connectivity to the rest of the village and facilities, it is not considered necessary to require any further footpath links to be provided to make the development acceptable.

6.6 Well-Being of Future Generations (Wales) Act 2015

6.6.1 The duty to improve the economic, social, environmental and cultural well-being of Wales has been considered, in accordance with the sustainable development principle, under section 3 of the Well-Being of Future Generations (Wales) Act 2015 (the WBFG Act). In reaching this recommendation, the ways of working set out at section 5 of the WBFG Act have been taken into account and it is considered that this recommendation is in accordance with the sustainable development principle through its contribution towards one or more of the Welsh Ministers' well-being objectives set out in section 8 of the WBFG Act.

6.7 Conclusion

6.7.1 The scheme comprises of six open market and nine affordable dwellings (60% affordable), in accordance with the provisions of Monmouthshire County Council's adopted LDP, in which the site is allocated for development under Policy SAH11(v).

6.7.2 There is safe pedestrian access to the village centre and bus stops, a proposed active travel route south of Little Mill and policy-compliant cycle storage provision. In addition, suitable vehicular access and car parking are also provided.

6.7.3 A comprehensive approach to green infrastructure, biodiversity enhancement and sustainable drainage is inherent within the scheme's design. This includes a number of features such as swales, planted rain gardens, ornamental and native planting, wildlife friendly planting, retention of existing trees, bat/bird boxes and other landscaping.

6.7.4 In accordance with the LDP, the scheme has been designed to maximise the value of the open market units to facilitate the cross-subsidisation of the proposed affordable dwellings.

6.7.5 The continuation of Ty Gwyn Road is proposed to integrate the development with this existing village, whilst also allowing the scheme to harness its own unique character. A visually interesting street scene with simple architectural design bridges the adjacent countryside with the urban area. Landscape buffers assist in achieving this and ensuring the rural character and continued agricultural use of the wider field.

6.7.6 The proposals will result in the delivery of an allocated site and provide much needed market and affordable housing in this part of Monmouthshire.

7.0 RECOMMENDATION: APPROVE

Subject to a S106 Legal Agreement requiring the following:

S106 Heads of Terms

9 units shown on the approved plan shall remain affordable in perpetuity.

If the S106 Agreement is not signed within 6 months of the Planning Committee's resolution then delegated powers be granted to officers to refuse the application.

Conditions:

1 This development shall be begun within 5 years from the date of this permission.

REASON: To comply with Section 91 of the Town and Country Planning Act 1990.

2 The development shall be carried out in accordance with the list of approved plans set out in the table below.

REASON: To ensure the development is carried out in accordance with the approved drawings, for the avoidance of doubt.

3 Prior to the commencement of development, to include demolition, a Construction Environmental Management Plan shall be submitted to and approved in writing by the Local Planning Authority. The Construction Environmental Management Plan shall identify the following biodiversity considerations:

- a) Risk assessment of potentially damaging construction activities.
- b) Identification of "protection zones".
- c) Practical measures (both physical measures and sensitive working practices) to avoid or reduce impacts during construction
- d) The location and timing of sensitive works to avoid harm to biodiversity features
- e) The times during construction when specialist ecologists need to be present on site to oversee works.
- f) Responsible persons and lines of communication.
- g) The role and responsibilities on site of an ecological clerk of works (ECoW) or similarly competent person.
- h) Use of protective fences, exclusion barriers and warning signs.
- i) General site management: details of the construction programme including site clearance, method statements, surface water management and measures, site waste management and disposal, sustainable drainage (pre- and post-construction), maintenance and monitoring programmes;
- j) Pollution prevention: demonstrate how relevant Guidelines for Pollution Prevention and best practice will be implemented, including details of emergency spill procedures and an incident response plan;
- k) Details of the persons and bodies responsible for activities associated with the CEMP and emergency contact details;

The CEMP shall include the following as a minimum:

- a) Risk assessment of potentially damaging construction activities.
- b) Identification of "protection zones".
- c) Practical measures (both physical measures and sensitive working practices) to avoid or reduce impacts during construction
- d) The location and timing of sensitive works to avoid harm to biodiversity features
- e) The times during construction when specialist ecologists need to be present on site to oversee works.
- f) Responsible persons and lines of communication.
- g) The role and responsibilities on site of an ecological clerk of works (ECoW) or similarly competent person.
- h) Use of protective fences, exclusion barriers and warning signs.

- i) General site management: details of the construction programme including site clearance, method statements, surface water management and measures, site waste management and disposal, sustainable drainage (pre- and post-construction), maintenance and monitoring programmes;
- j) Pollution prevention: demonstrate how relevant Guidelines for Pollution Prevention and best practice will be implemented, including details of emergency spill procedures and an incident response plan;
- k) Details of the persons and bodies responsible for activities associated with the CEMP and emergency contact details;

The approved CEMP shall be adhered to and implemented throughout the construction period strictly in accordance with the approved details.

REASON: In the interests of local residential amenity and to safeguard species protected under the Conservation of Habitats and Species Regulations 2017 and the Wildlife and Countryside Act 1981 (as amended).

4 Prior to any works commencing on site a Construction Traffic Management Plan (CTMP) shall be submitted to and approved by the local planning authority, the CTMP shall take into account the specific environmental and physical constraints of Ty Gwyn Road and the adjoining highway network. The CTMP shall include traffic management measures, hours of working, measures to control dust, noise and related nuisances, measures to protect adjoining users from construction works, provision for the unloading and loading of construction materials and waste within the curtilage of the site, the parking of all associated construction vehicles. The development shall be carried out in accordance with the approved CTMP.

REASON: To ensure the development is constructed in the interests of highway safety and to ensure compliance with LDP Policy MV1.

5 No development shall take place until there has been submitted to and approved in writing by the Local Planning Authority a scheme of landscaping, which shall include indications of all existing trees and hedgerows on the land, and details of any to be retained, together with measures for their protection in the course of the development.

REASON: To safeguard the landscape amenities of the area and to ensure compliance with LDP Policy G11.

6 All planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in the first planting and seeding season following the occupation of the buildings or the completion of the development, whichever is the sooner, and any trees or plants which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species.

REASON: To safeguard the landscape amenities of the area and to ensure compliance with LDP Policy G11.

7 No development, demolition, earth moving or vegetation clearance shall take place or material or machinery brought onto the site until a reptile mitigation strategy has been submitted to and approved in writing by the local planning authority. The content of the strategy shall include, as a minimum the:

- a. Purpose and objectives in relation to protection of reptiles;
- b. Details of a revised receptor site detailed on plan demonstrating that the area can be protected throughout the development of the site and means of protection (fences) shown on plan.
- c. Detailed working methods necessary to achieve stated objectives;
- d. Thresholds and actions to be taken if the number of reptiles cannot be accommodated within the receptor habitat;
- e. Clear and enforceable timetable for implementation, demonstrating that works are aligned with the proposed phasing of construction; and

f. Persons responsible for implementing the works.
The Reptile Mitigation Strategy shall thereafter be implemented in full.

REASON: Safeguarding of species protected by the Wildlife and Countryside Act 1981 (as amended).

8 A proportionate Green Infrastructure Management Plan shall be submitted to, and be approved in writing by, the local planning authority prior to the commencement of the development. The content of the Management Plan shall include the following;

- a) Description and evaluation of Green Infrastructure assets to be identified, protected and managed in the GI management plan including those that are to be privately managed and those that are to be part of strategic landscaping.
 - a. Trees and hedgerows
 - b. Green corridors
 - c. Rain gardens and swales
 - d. POS
- b) Opportunities for enhancement to be incorporated
 - a. Management of Grassland for botanical species diversity and / or protected species including reptiles
 - b. Management of tree and hedge buffer strips to increase and maintain diversity, connectivity and screening
 - c. Maintain habitat connectivity through and or around the perimeter of the site for species
 - c) Trends and constraints on site that might influence management of above features.
 - d) Aims and objectives of management.
 - e) Appropriate management options for achieving aims and objectives.
 - f) Prescriptions for management actions.
 - g) Preparation of a work schedule (including an annual work plan capable of being rolled forward over a twenty-year period).
 - h) Details of the body or organization responsible for implementation of the plan.
 - i) Ongoing monitoring and remedial measures.

The Management Plan shall also include details of the legal and funding mechanism(s) by which the long-term implementation of the plan will be secured by the developer with the management body(ies) responsible for its delivery as appropriate. The plan shall also set out (where the results from monitoring show that conservation aims and objectives of the Green Infrastructure Management Plan are not being met) how contingencies and/or remedial action will be identified, agreed and implemented so that the development still delivers the fully functioning Green Infrastructure objectives of the originally approved scheme. The approved plan will be implemented in accordance with the approved details.

REASON: To maintain and enhance Green Infrastructure Assets in accordance with LDP policies, DES1, S13, GI1, NE1, EP1 and SD4. (Legislative background - Well Being of Future Generations Act 2015, Planning (Wales) Act 2015 Environment (Wales) Act 2016)

9 Prior to import to site, soil material or aggregate used as clean fill or capping material, shall be chemically tested to demonstrate that it meets the relevant screening requirements for the proposed end use. This information shall be submitted to and approved in writing by the Local Authority. No other fill material shall be imported onto the site.

REASON: To ensure that any potential risks to human health or the wider environment which may arise as a result of potential land contamination are satisfactorily addressed.

10 Prior to commencement of any construction works (not including ground clearance and infrastructure provision) a detailed plan illustrating the biodiversity "net benefit features" to be integrated within the dwellings, based upon recommendations of "Land North of Little Mill Monmouth Reptile and Bat Surveys produced by Acer Ecology dated December 2020" shall be submitted. The plan must identify location, positioning and specification of the provision on elevation plans. The scheme shall provide for the future management and an implementation

timetable and shall be submitted to an approved in writing by the Local Planning Authority. The development shall only proceed in accordance with the approved plans and shall be retained as such thereafter.

REASON: To provide biodiversity net benefit and ensure compliance with PPW 12, the Environment (Wales) Act 2016 and LDP policy NE1.

11 Prior to installation of any lighting, a "lighting design strategy for biodiversity" for the development shall be submitted to and approved in writing by the local planning authority. The strategy shall: a) identify those areas/features on site that are particularly sensitive for wildlife and that are likely to cause disturbance in or around their breeding sites and resting places or along important routes used to access key areas of their territory, for example, for foraging; and b) show how and where external lighting will be installed (through the provision of appropriate lighting contour plans and technical specifications) so that it can be clearly demonstrated that areas to be lit will not disturb or prevent the above species using their territory or having access to their breeding sites and resting places. All external lighting shall be installed in accordance with the specifications and locations set out in the strategy, and these shall be maintained thereafter in accordance with the strategy.

REASON: To safeguard protected species in accordance with Environment (Wales) Act 2016 and Conservation of Habitats and Species Regulations 2017 and in accordance with Policy NE1 of the Local Development Plan.

12 A solid 1.8 metre height boundary fence to the rail side boundary of Plots 1-4 as shown in Drawing no. 2418-00(02)101J shall be provided prior to first occupation of the residential accommodation and retained as such in perpetuity.

REASON: In the interests of residential amenity in accordance with LDP Policy EP1.

13 The external wall, roof, window constructions and ventilation provisions for each dwelling in the scheme shall meet the requirements provided in Acoustic Consultants Ltd Noise and Vibration Assessment, Reference: 8204/BL, Revision B, dated 28th January 2021; or otherwise alternative mitigation measures submitted and approved as satisfactory by the Planning Authority. Compliance shall be certified in writing to the Planning authority by the developer before residential use commences.

REASON: In the interests of local residential amenity, in accordance with LDP Policy EP1.

14 The overheating risk mitigation measures for each dwelling in the scheme shall meet the recommendations provided in Table 1 of the GreenBuild Consult Thermal Comfort Analysis, dated 27th January 2021; or otherwise alternative mitigation measures shall be submitted to and approved by the Planning Authority before any dwellings are occupied. Compliance shall be certified in writing to the Planning Authority by the developer before residential use commences.

REASON: In the interests of local residential amenity, in accordance with LDP Policy EP1.

INFORMATIVES

1 Due to the minor nature of the proposed development (including any demolition) and the location of the proposed development, it is considered that the proposals did not need to be screened under the Environmental Impact Assessment Regulations.

2 It should be brought to the attention of the applicant that in the event of a new or altered vehicular access being formed, the requirements of Section 184 of the Highways Act 1980 must be acknowledged and satisfied. In this respect the applicant shall apply for permission pursuant to Section 184 of the Highways Act 1980 prior to commencement of access works via MCC Highways.

3 It should be brought to the attention of the applicant that A Section 38 agreement (or S38) is a section of the Highways Act 1980 that allows a developer to build a new road and offer it to the highways authority for adoption as a public highway

4 Any person carrying out the development to which this planning permission relates must display at or near the place where the development is being carried out, at all times when it is being carried out, a copy of any notice of the decision to grant it, in accordance with Schedule 5B to the Town and Country Planning (Development Management Procedure) (Wales) Order 2012 as amended and Section 71ZB of the Town and Country Planning Act 1990 as amended by Section 34 of the Planning (Wales) Act 2015.

5 The Naming & Numbering of streets and properties in Monmouthshire is controlled by Monmouthshire County Council under the Public Health Act 1925 - Sections 17 to 19, the purpose of which is to ensure that any new or converted properties are allocated names or numbers logically and in a consistent manner. To register a new or converted property please view Monmouthshire Street Naming and Numbering Policy and complete the application form which can be viewed on the Street Naming & Numbering page at www.monmouthshire.gov.uk This facilitates a registered address with the Royal Mail and effective service delivery from both Public and Private Sector bodies and in particular ensures that Emergency Services are able to locate any address to which they may be summoned. It cannot be guaranteed that the name you specify in the planning application documents for the address of the site will be the name that would be formally agreed by the Council's Street Naming and Numbering Officer because it could conflict with the name of a property within the locality of the site that is already in use.

6 Please be advised that we believe your proposed scheme will require a sustainable drainage system designed in accordance with the attached Welsh Government Standards for sustainable drainage. The scheme will require approval by the SuDS Approving Body (SAB) prior to any construction work commencing. Details and application forms can be found at <https://www.monmouthshire.gov.uk/sustainable-drainage-approving-bodysab>. The SAB is granted a period of at least seven weeks to determine applications.

7 Please note that Bats are protected under The Conservation of Habitats and Species (Amendment) Regulations 2017 and the Wildlife and Countryside Act 1981 (as amended). This protection includes bats and places used as bat roosts, whether a bat is present at the time or not. If bats are found during the course of works, all works must cease and Natural Resources Wales contacted immediately. Natural Resources Wales (NRW) (0300 065 3000).

8 All birds are protected by the Wildlife and Countryside Act 1981. The protection also covers their nests and eggs. To avoid breaking the law, do not carry out work on trees, hedgerows or buildings where birds are nesting. The nesting season for most birds is between March and September

9 Please note that the hazel dormouse is protected under The Conservation of Habitats and Species Regulations 2017 and the Wildlife and Countryside Act 1981 (as amended). This includes protection for individual dormice from killing, injury, capture or disturbance. It is also an offence to damage or destroying breeding sites or resting places even if the animal is not present. If dormice are found during the course of works, all works must cease and the Natural Resources Wales contacted immediately.

10 Please note that the hedgehog is protected under schedule 6 of the Wildlife and Countryside Act 1981 (as amended). This makes it illegal to kill or capture wild hedgehogs, with certain methods listed. They are also listed under the Wild Mammals Protection Act (1996), which prohibits cruel treatment of hedgehogs. The Hedgehog is a Priority Species under Section 7 of the Environment (Wales) Act 2016 identified as being of principal importance for the purpose of maintaining and enhancing biodiversity in relation to Wales. The hedgehog has also recently been listed on the IUCN red list as vulnerable (2020).

Application Number: DM/2024/00384

Proposal: The change of use of agricultural land to facilitate the siting of a ground mounted solar array for use by Woodfield House

Address: Woodfield House, Moor Lane, Pen Y Fan, The Narth

Applicant: Mrs A Williams

Plans: Elevations - Proposed Solar Panels - Revised, Location Plan - , Other RENUSOL-CONSOLE-MANUAL-OLD - , Other SOLAR PANELS - , Other SPECIFICATION OF THE SOLAR PANELS - , Other Cable Routing Information - GWC Electrical, Site Plan Contour Plan - , Other Statement - Solar Array Purpose - , Other Solar Panel Output details - , Photography Example array - , Green Infrastructure Framework Plan, Green Infrastructure Statement - Revised

RECOMMENDATION: APPROVE

Case Officer: Mrs Helen Etherington
Date Valid: 04.04.2024

This application is presented to Planning Committee due to 5 or more objections being received

1.0 APPLICATION DETAILS

1.1 Site Description

The field is adjacent to the property known as Woodfield House, Moor Lane in the hamlet of Pen Y Fan. The land does not form part of the curtilage of a listed building and is not in a Conservation Area. It is within the Wye Valley National Landscape (AONB).

1.2 Value Added

Additional landscaping has been added to the boundary between the field and neighbour. Amended solar panel details were received as there had been contrary information previously submitted. Cable routing information has also been submitted.

1.3 Proposal Description

The proposal is to site 72 solar panels in the north-eastern corner of the field. The array is proposed to provide all the power for the residential property, Woodfield House, which is located 52m south east of the proposed array.

The panels would be arranged in four rows of 18 panels with 2m between the rows and 50mm between panels. Each panel would measure 1.72m by 1.13m and be 0.03m thick. This will make the total area of the array approximately 335 sq.m. Each panel will be positioned on a mount which is 0.5m high, 1.74m long and 0.97m wide. Some levelling will be required but it will not cause a change in levels of more than 30cm.

2.0 RELEVANT PLANNING HISTORY (if any)

Reference Number	Description	Decision	Decision Date
-------------------------	--------------------	-----------------	----------------------

DM/2019/01226	Single storey lean-to kitchen extension on north elevation	Approved	27.08.2019
DM/2024/00384	The change of use of agricultural land to facilitate the siting of a ground mounted solar array for use by Woodfield House	Pending Consideration	
DC/2009/00903	Front and rear extensions	Approved	20.01.2010
DC/2006/00111	Replacement of existing wood/UPVC conservatory with an oak framed garden room with fully tiled roof to match existing property	Approved	13.07.2006

4.0 NATIONAL PLANNING POLICY

Future Wales - the national plan 2040

Future Wales is the national development framework, setting the direction for development in Wales to 2040. It is a development plan with a strategy for addressing key national priorities through the planning system, including sustaining and developing a vibrant economy, achieving decarbonisation and climate-resilience, developing strong ecosystems and improving the health and well-being of our communities. Future Wales - the national plan 2040 is the national development framework and it is the highest tier plan, setting the direction for development in Wales to 2040. It is a framework which will be built on by Strategic Development Plans at a regional level and Local Development Plans. Planning decisions at every level of the planning system in Wales must be taken in accordance with the development plan as a whole.

Planning Policy Wales (PPW) Edition 12

The primary objective of PPW is to ensure that the planning system contributes towards the delivery of sustainable development and improves the social, economic, environmental and cultural well-being of Wales, as required by the Planning (Wales) Act 2015, the Well-being of Future Generations (Wales) Act 2015 and other key legislation and resultant duties such as the Socio-economic Duty.

A well-functioning planning system is fundamental for sustainable development and achieving sustainable places. PPW promotes action at all levels of the planning process which is conducive to maximising its contribution to the well-being of Wales and its communities.

Technical Advice Notes

Technical advice note (TAN) 6: Planning for sustainable rural communities.

5.0 REPRESENTATIONS

5.1 Consultation Replies

Trellech Community Council - no objection to solar panels per se, but would like to highlight some concerns over the visual impact, the proximity of the development to the neighbours, and the potential to set a precedent for future similar developments.

MCC Landscape and Urban Design Officer - holding objection; on re-consultation offers no objection subject to conditions.

AONB Manager - Objection - visual impact on the Wye Valley National Landscape.

Natural Resources Wales - no objection to the proposed development as submitted.

SEWBRc Search Results - Red alerts for bluebells and butterflies.

5.2 Neighbour Notification

Three Objections received covering the following:

- Greenfield site within the AONB with presumption against development
- Scale of the installation in comparison with other nearby residential installations
- Detrimental impact of the character of the AONB
- Visible from the road and Wye Valley Walk
- Insufficient justification submitted covering alternatives
- Adverse biodiversity impact.

5.3 Other Representations

Seven objections received covering the following:

- size of the array
- visual impact on the AONB and local area
- sets an unacceptable precedent
- negative impact of neighbouring property
- justification and alternative locations.

5.4 Local Member Representations

Cllr Jayne McKenna - Due to being a member of the Planning Committee, I have no comments to make at this time

Please note all representations can be read in full on the Council's website:
<https://planningonline.monmouthshire.gov.uk/online-applications/?lang=EN>

6.0 EVALUATION

6.1 Principle of Development

6.1.1 The application site is outside of any settlement boundaries as identified by the Proposals Map of the Monmouthshire LDP, therefore, for the purposes of planning, the site is within the open countryside where development is strictly controlled and only acceptable uses within the open countryside will be considered favourably.

6.1.2 National planning policy provides a strong basis of support for proposals for renewable energy forms with various references in both PPW12 and Future Wales. Future Wales Policy 17 - Renewable and Low Carbon Energy and Associated Infrastructure specifically is applicable to this application and in part states, "The Welsh Government strongly supports the principle of developing renewable and low carbon energy from all technologies and at all scales to meet our future energy needs". PPW12 states, (5.71) "The Welsh Government's highest priority is to reduce demand wherever possible and affordable. Low carbon electricity must become the main source of energy in Wales. Renewable electricity will be used to provide both heating and transport in addition to power" and (5.9.1), "Local authorities should facilitate all forms of renewable and low carbon energy development".

6.1.3 TAN6 provides the following references to renewable energy production within the countryside, "the planning system must respond to the challenges posed by climate change, for example by accommodating the need for renewable energy generation".

"Planning authorities should seek to strengthen rural communities by helping to ensure that existing residents can work and access services locally using low carbon travel and obtain a higher proportion of their energy needs from local renewable sources".

Given the nature of the development, LDP Policy SD1 is applicable in establishing the principle of the development. SD1 provides the following criteria for proposals to be considered against; Renewable energy schemes will be permitted where:

- (1) There are no unacceptable adverse impacts upon the landscape, townscape and historic features and there is compliance with Policy LC5, with regard to protection and enhancement of landscape character;
- (2) There are no unacceptable adverse impacts on biodiversity;
- (3) There are no unacceptable adverse impacts on the amenities of nearby residents by way of noise, dust, odour or increases in traffic;
- (4) The wider environmental, economic, social and community benefits directly related to the scheme outweigh any potentially adverse impacts; and
- (5) The distinct identity of Monmouthshire will not be compromised.

Each of these points will be explored in greater detail in the following sections of this report however it is not considered that the proposal represents a conflict that would result in an in-principle concern or objection to the proposed development.

6.1.3 The development proposed is for an array of 72 panels for domestic use. The array will allow for the main dwelling Woodfield House to become an 'off-grid' property. The principle of renewable energy installations is supported by policy and therefore the proposal is deemed acceptable subject to consideration of visual impact. It is considered necessary to attach a condition requiring the land to be reinstated to its current form when the technology is no longer operational in the interest of protecting the special character of the countryside and National Landscape.

6.2 Best and Most Versatile (BMV) Agricultural Land

6.2.1 Para. 3.58 of PPW12 sets out that "Agricultural land of grades 1, 2 and 3a of the Agricultural Land Classification system (ALC)¹⁶ is the best and most versatile, and should be conserved as a finite resource for the future". It goes on to state that, "Land in grades 1, 2 and 3a should only be developed if there is an overriding need for the development, and either previously developed land or land in lower agricultural grades is unavailable, or available lower grade land has an environmental value recognised by a landscape, wildlife, historic or archaeological designation which outweighs the agricultural considerations".

6.2.2 This position was taken further in March 2022 via a Dear Chief Planning Officer (CPO) Letter from the Minister for Climate Change which stated in “accordance with Welsh Government policy outlined above, where BMV land is identified within a proposed solar PV array development, considerable weight should be given to protecting such land from development, because of its special importance, and unless other significant material considerations indicate otherwise it will be necessary to refuse permission”.

6.2.3 In this instance, review of the Predictive Agricultural Land Classification (ALC) Maps shows the site covering grades 3b and 4, and as such the site is not considered to qualify as BMV land. Therefore the use of the land for the siting of the proposed PV panels is compliant with the requirements of PPW12 in respect of safeguarding BMV agricultural land.

6.3 Sustainability

6.3.1 Due to the nature, scale, siting and reversibility of the proposed development no objection is raised in respect of sustainability. The sustainability benefits of solar energy are well documented, an array of this scale would provide a significant reduction in the carbon footprint of the host dwelling in this instance.

6.4 Place Making/Good Design

6.4.1 The application site is within the open countryside and within the Wye Valley National Landscape and the proposed development has potential to impact the special character of the area. Planning authorities have a statutory duty to have regard to National Landscape purposes. This duty applies in relation to all activities affecting National Landscapes, whether those activities lie within, or in the setting of, the designated areas. Planning authorities should give great weight to conserving and enhancing the natural beauty of National Landscapes, and should have regard to the wildlife, cultural heritage and social and economic well-being of the area.

6.4.2 In this instance, although the proposal is larger than other domestic array in scale and the panels will be in supports which are 50cm from the ground, the array would be sited along an existing field boundary on an incline which slopes away from the road. While the proposed array may be visible from the road that runs to the west of the field, given the low profile of the panels and slope of the field, it has not been possible to identify an unacceptable level of harm to the amenity or character of the surroundings as a result of the proposal. The alternative location of the array on the house or within the residential curtilage would not have been viable due its position within a wooded area. Siting the array within the residential curtilage may have resulted in a loss of trees in order for the array to gain sufficient sunlight.

6.4.3 The Wye Valley National Landscape's officer has provided comments on this proposal suggesting an amended scheme or siting, as they deem it will be visible in the wider area. These comments have been considered, however the location is at the crest of the hill behind a wood of existing trees so will not be visible either from the public right of way to the east or from the other side of the River Wye in England. Given this, it is considered that the array should not result in an adverse visual impact that would have an unacceptable effect upon the character of the wider area or landscape or display a level of harm that would warrant the refusal of this application.

6.4.4 To safeguard the special character of the countryside and National Landscape it is considered necessary to attach a condition that the proposed array will be removed from site in the event it is no longer needed or operational.

6.5 Biodiversity/Green Infrastructure

6.5.1 The site is located in the open countryside in the Wye Valley National Landscape and currently consists of semi-improved grassland bounded by trees, hedge and residential properties. The site has a gradient falling from south to the north of the site. The field is currently grazed pasture and the woodland to the south of the site is a classified Site of Interest for Nature Conservation (SINC).

6.5.2 It is considered from a Landscape and GI perspective that the proposal would be acceptable subject to further appropriate landscaping being provided and maintained to mitigate for localised visual impacts. Visual impact is likely more prominent as viewed from the slightly higher nearby highway and the two gateways adjacent to the site as viewing over the site from the public realm. The site is likely to be more visible from private realm in paddocks to the west of the site and an adjacent residential curtilage to the north. The applicant has indicated that 70m of native species hedge is proposed on the northern boundary and native species tree group planting is to be provided adjacent to the north-west adjacent gateway which is welcome and includes an establishment and aftercare programme in the GI statement and Landscaping plan.

6.5.3 The low profile of the proposal i.e. 500-600mm above ground level set within the slope of the hill, would have less of a visual impact than a higher typical solar array structure. The information provided also indicates that the proposed solar array site would have a stock fence enclosing an area of 36m x 15m. The provision of a stock fence will help to break up the visual form of the low-lying structure. The alignment of transmission cables and methodology for excavation and installation is acceptable and should have limited to no impact on trees and roots.

6.5.4 The applicant has provided a GI Statement which indicates the planting of 50m² of native species trees to reduce the visual impact as viewed from the north-east of the site and an additional 70 linear metres of native species hedge on the northern boundary. The document also details that the hedge to the western boundary of the field adjacent to the public highway will be maintained at a height of 2.4m to limit the visibility of the array from the public thoroughfare.

6.5.5 With the addition of suitable landscaping conditions it is considered that the array would not cause an unacceptable ecological or landscape impact and would comply with LDP policies LC4, LC5, DES1, GI1 and NE1.

6.5.6 Biodiversity enhancement has been secured in the form of a tawny owl nest box and WoodStone Nest Box to be installed in appropriate locations on surrounding trees. A condition can be added to any consent requiring their installation, in accordance with the Green Infrastructure Statement & Landscaping Plan, and their retention.

6.6 Impact on Residential Amenity

6.6.1 The site is located close to the boundary of the northern neighbour and approximately 47m from the dwelling. The slope of the land and intervening trees and hedgerows means that the array should not be directly visible from the dwelling, although it would be visible from the surrounding residential curtilage.

6.6.2 A scheme of hedge planting is proposed along the length of boundary between the field and the neighbouring property which should mitigate the visual impact of the development. The array will be close to the ground and so would not appear overbearing and would not cause any noise nuisance.

6.6.3 Given the above it is considered that the development will not have an unacceptable impact on the amenity of local residents or that of the wider area and complies with policies DES1 and EP1.

6.7 Drainage (Surface Water)

6.7.1 Given that the development is over 100sqm a separate application to the Sustainable Drainage Authority will be required to ensure that the proposed development will not increase surface water flooding in the area.

6.8 Wye River and Usk River catchment area

6.8.1 No foul drainage works are proposed as part of the development. Given this there should be no adverse impact on phosphate levels as a result of the development.

6.9 Response to the Representations of Third Parties and the Community Council

6.9.1 The Community Council had no objection but did express 'concerns over the visual impact (on the character of the environment), the proximity of the development to the neighbours, and the potential to set a precedent for future similar developments.' - the visual impact of the development is assessed in the paragraphs above. In relation to the setting of a precedent every application submitted is assessed on its own merits and an undesirable precedent would not be set. The approval of this array would not mean that other similarly large arrays would get approved.

6.9.2 The Wye Valley National Landscape Officer objected to the proposal because 'by virtue of its siting and considering that the proposed landscaping put forward would not be able to mitigate the development to an acceptable degree, the proposed visual effects would be to the detriment of the scenic beauty of the AONB designation hereabouts'. These issues are addressed in paragraphs 6.4 and 6.5 above.

6.9.3 The other objections covered the issues which have been addressed as follows:

- Greenfield site within the AONB with presumption against development - see paragraph 6.1 above in relation to the Principle of the Development.
- Scale of the installation in comparison with other nearby residential installations - the array is proposed to replace the total electricity requirements for the main dwelling so 30kW is what is required.
- visual impact on the AONB and local area - see Paragraphs 6.4 and 6.5 above.
- Insufficient justification submitted covering alternatives - see Paragraph 6.4 above.
- Adverse biodiversity impact - see Paragraph 6.5 above.
- Sets an unacceptable precedent - see paragraph 6.9.1 above.
- Negative impact of neighbouring property - see Paragraph 6.6 above.

6.10 Well-Being of Future Generations (Wales) Act 2015

6.10.1 The duty to improve the economic, social, environmental and cultural well-being of Wales has been considered, in accordance with the sustainable development principle, under section 3 of the Well-Being of Future Generations (Wales) Act 2015 (the WBFG Act). In reaching this recommendation, the ways of working set out at section 5 of the WBFG Act have been taken into account and it is considered that this recommendation is in accordance with the sustainable development principle through its contribution towards one or more of the Welsh Ministers' well-being objectives set out in section 8 of the WBFG Act.

6.11 Conclusion

6.11.1 In May 2019 Monmouthshire County Council declared a Climate Emergency, with unanimous support from Councillors. The proposed development is considered an appropriate form of development in response to that declaration by providing the property with access to a renewable form of energy. Whilst it is noted the site is located within the Wye Valley National Landscape, Officers consider that the development, subject to the conditions set out in Section 7 below, would be subservient to the primary purpose to conserve and enhance the natural beauty of the area. In addition the development is considered acceptable having regard to all other material planning consideration and relevant planning policy.

7.0 RECOMMENDATION: APPROVE

Conditions:

1 This development shall be begun within 5 years from the date of this permission.
REASON: To comply with Section 91 of the Town and Country Planning Act 1990.

2 The development shall be carried out in accordance with the list of approved plans set out in the table below.

REASON: To ensure the development is carried out in accordance with the approved drawings, for the avoidance of doubt.

3 Prior to the commencement of development full and comprehensive details of soft landscape works shall be submitted to and approved in writing by the Local Planning Authority. Details shall include planting plans, specifications including species, size, density, number and location, cultivation and other operations associated with planting and seeding establishment, inclusive of SUDS green engineering.

Reason: In the interests of visual and landscape amenity; in accordance with Policies DES1 and LC5 of the Local Development Plan.

4 All planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in the first planting and seeding season following the completion of the development. The works shall be carried out in accordance with the approved details and to a reasonable standard in accordance with the relevant recommendations of appropriate British Standards or other recognised Codes of Good Practice. Planting of Trees shall be in accordance with BS8545:2014 Trees: from nursery to independence in the landscape. Any trees or plants which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species.

Reason: To ensure the provision, establishment and maintenance of a reasonable standard of landscape in accordance with the approved designs and ensure the provision afforded by appropriate Landscape Design and Green Infrastructure LC5, DES 1, and GI1 and NE1.

5 Within 3 months of the solar array hereby approved being brought into beneficial use a restoration plan (including timetable) for the removal of all equipment and details of how the land shall be restored to its former condition shall be submitted to and approved in writing by the local planning authority. Within 3 months of the cessation of electricity generation by the facility, all associated works/equipment shall be removed from the site and the land restored to its previous condition in accordance with the approved restoration plan and timetable.

REASON: In the interests of visual amenity and to ensure compliance with LDP Policy DES1 and LC4.

6 Within 3 months of the solar array hereby approved being brought into beneficial use the biodiversity enhancements as detailed in the approved "Green Infrastructure Statement & Landscaping Plan" shall be implemented in full. The enhancements shall then be retained in perpetuity.

REASON: In the interests of biodiversity in accordance with PPW12 and Future Wales.

INFORMATIVES

1 Due to the minor nature of the proposed development (including any demolition) and the location of the proposed development, it is considered that the proposals did not need to be screened under the Environmental Impact Assessment Regulations.

2 As of 7th January 2019, all construction work in Wales with drainage implications, of 100m² or more, is now required to have Sustainable Drainage Systems (SuDS) to manage on-site surface water (whether they require planning permission or not). These SuDS must be designed and constructed in accordance with the Welsh Government Standards for Sustainable Drainage.

The SuDS Approving Body (SAB) is a service delivered by the Local Authority to ensure that drainage proposals for all new developments of at least 2 properties OR over 100m² of construction area are fit for purpose, designed and built in accordance with the National Standards for Sustainable Drainage published by Welsh Ministers.

If you are in any doubt as to whether you require SAB approval, please contact:

For advice regarding the application process and general enquiries - 01495 768306

For technical advice regarding your SuDS design and meeting the National Standards - 01633 644730

3 All birds are protected by the Wildlife and Countryside Act 1981. The protection also covers their nests and eggs. To avoid breaking the law, do not carry out work on trees, hedgerows or buildings where birds are nesting. The nesting season for most birds is between March and September.
