4. Public Open Forum

The Chairman invited members of the public present to put questions to the Area Committee, or to raise issues of concern:

Sprinklers and Cladding - New Schools

A representative of Abergavenny Town Council and Team Abergavenny asked whether there will be sprinklers located within new schools within the County and also whether the cladding has been checked and is safe in both new and existing schools.

A representative of the Area Committee responded by stating that all new schools must be fitted with sprinklers. However, with regard to the question relating to cladding, this matter would need to be addressed via the Chief Officer for Children and Young People.

It was also noted that the proposed development of the new comprehensive schools in Chepstow and Abergavenny fell within tranche B of the Welsh Government's 21st Century Schools Programme, which had yet to be confirmed by Welsh Government. When the development is confirmed, Monmouthshire County Council will provide 50% match funding towards the building costs of the schools.

We resolved that the Democratic Services Officer writes to the Chief Officer for Children and Young People requesting the position regarding the cladding being used in the construction of new schools in Monmouthshire and whether it has been tested and passed a safety inspection. Also, whether the cladding for existing schools been tested.

- Both plans should sit comfortably alongside each other.

8. Community Governance in Monmouthshire - Bryn y Cwm Pilot

We received a report outlining the principles of the Bryn y Cwm Area Committee pilot and associated measures to determine its success.

In March 2017, the Authority was presented with seven options which had been discussed as part of a cross party member working group to consider the

recommendations of the 2015 review and decide upon a structure for community governance. The group was asked to follow the following principles when making a decision:

- Provide a forum for local councillors to engage with residents about local issues.
- Give local communities a stronger and more direct voice in decision making in their local area.
- Enable members to have influence over decisions that are specific to their local area.
- Develop and oversee the delivery of localised plans.
- Engage with representatives of town and community councils.
- Harness and channel community energy to deliver improved outcomes for the local area and its communities.
- Bring together partner agencies to focus on locally specific issues.

Following a wide ranging debate, Members had agreed that Option 2, detailed below, had been their preferred option with the addition that an invitation could be extended to include a single representative from each of the Town and Community Councils in the proposed pilot area.

Option 2 – Area Committees are retained as the sole structure with an increase in co-opted members.

Having received the report, the following points were noted:

- Future Area Committee meetings needed to be located at locations that were DDA compliant.
- More community involvement was being investigated with regard to the spending of Section 106 Funding and Area Committee Grants.
- The new Area Committee Chairs representing the other Area Committees had shown an interest in attending future Bryn y Cwm Area Committee meetings during the pilot.
- Debate ensued regarding each of the nine Town and Community Councils and whether each representative should have voting rights during the pilot.

We resolved:

- (i) to note the findings of the Community Engagement review to date;

- (iii) to act as the Area Cluster representative forum for the Bryn y Cwm Area thus reducing any potential for duplication;
- (iv) that an invitation is extended to include a single representative from each of the Town and Community Councils in the proposed pilot area and that each representative will have voting rights during the pilot. Also an open invitation will be extended to other Area Committees during the pilot phase;
