1. Does your proposal deliver any of the well-being goals below?

Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
A prosperous Wales Efficient use of resources, skilled, educated people, generates wealth, provides jobs	To ensure much valued local services are maintained and by their nature provide employment, growth and an increasingly skilled workforce. Developing economic opportunities for ourselves and our users.	We have undertaken positive engagement and coordination with community focused organisations and local businesses.
A resilient Wales Maintain and enhance biodiversity and ecosystems that support resilience and can adapt to change (e.g. climate change)	Close working with countryside and planning and ensuring our green spaces and cultural heritage is supported.	We have considered ecological issues in the design and use of the events pavilion.

Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
<p>A healthier Wales People's physical and mental wellbeing is maximized and health impacts are understood</p>	<p>Positive impact by ensuring quality services are provided by offering events and opportunities to encourage a fit and healthy lifestyle through cultural access.</p> <p>The new offer will ensure that events and activities are also well signposted and the benefits of such activities demonstrated.</p>	<p>Working with key partners will ensure that physical and mental health through activity is widely available and that the service is central to this by working directly with its communities.</p>
<p>A Wales of cohesive communities Communities are attractive, viable, safe and well connected</p>	<p>Our feasibility study worked with our local communities to devise an events programme that is beneficial to us, local communities and businesses.</p>	<p>Community groups have been consulted as part of this process and will have opportunities to get involved with future events programmes.</p>
<p>A globally responsible Wales Taking account of impact on global well-being when considering local social, economic and environmental wellbeing</p>	<p>The service will work to ensure high standards are met and maintained that do not conflict with the global drivers.</p>	<p>Any decisions taken will take into account global and well-being issues as part of its day to day processes.</p>
<p>A Wales of vibrant culture and thriving Welsh language Culture, heritage and Welsh language are promoted and protected. People are encouraged to do sport, art and recreation</p>	<p>Monmouthshire Museums contributes greatly to the local culture, heritage and art including the promotion and protection of the Welsh language which will remain part of the core values going forward.</p>	<p>The proposed events programme will be wide ranging in its scope. The Museum Service has experience in working bilingually through its exhibitions and has hosted events through the Welsh language. We will continue with this bilingual approach in our programming.</p>
<p>A more equal Wales People can fulfil their potential no matter what their background or circumstances</p>	<p>The events pavilion and associated exhibition programme will be available for diverse audiences and all its communities.</p>	<p>The feasibility identified programmes for 2 under represented audiences – one targeting youths and young adults (16 -25) and one targeting older adults (aged 70+). However our event will be open to all and we will refer to MCC equal opportunities policies in our planning.</p> <p>The structure will be DDA compliant and we have spoken to CAIR (the Monmouthshire based Disability Support group) during the design process to ensure practical needs are taken into account.</p>

2. How has your proposal embedded and prioritised the sustainable governance principles in its development?

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p>Balancing short term need with long term and planning for the future</p> <p>Long Term</p>	<p>The feasibility was concerned with; identifying useful links across council service delivery, building shared capacity to deliver events, and realising new income generating opportunities in order to improve financial viability and service sustainability. The provision of an Events Pavilion will improve and ease the delivery of an events programme.</p>	<p>The appointment of a dedicated part time events co-ordinator will help to ensure the delivery of a successful events programme.</p>
 <p>Working together with other partners to deliver objectives</p> <p>Collaboration</p>	<p>A wide variety of organisations, local businesses, stakeholders and internal Monmouthshire staff will be further involved in the delivery of the programme.</p>	<p>The building will be used and the programme will be a balance of events by the museum service and local organisations and will meet both community needs and generate income.</p>
 <p>Involving those with an interest and seeking their views</p> <p>Involvement</p>	<p>A wide variety of organisations, local businesses, stakeholders and internal Monmouthshire staff have been consulted on both the Events Pavilion and the Events Feasibility Study.</p>	<p>Local organisations will be further involved in the development of the events programme. Both the programme and the structure will be available to community groups and local businesses.</p>
 <p>Putting resources into preventing problems occurring or getting worse</p> <p>Prevention</p>	<p>The Museum Service budget has been reduced in recent years. This project will provide opportunities for us to meet increased income targets.</p>	<p>We will monitor and evaluate the use of the structure and the events programme so we can ensure we are meeting the needs of our audiences and stakeholders.</p>
 <p>Considering impact on all wellbeing goals together and on other bodies</p> <p>Integration</p>	<p>The opportunity to develop a new way of delivering the service and sustaining its long term future will give the opportunity to better connect wellbeing outcomes to other partners and bodies.</p>	<p>One of the key drivers of the offer is the promotion of culture and arts and this programme will reflect that.</p>

6. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?

The 'Events Project' has been initiated in order to more fully realise the full potential of Abergavenny Museum and Castle to act as an events venue. Events and related activities are well recognised as being central to service delivery. The work has identified useful links across council service delivery, looked to build shared capacity to deliver events, and realised new income generating opportunities in order to improve financial viability and service sustainability. Events provide an excellent vehicle for active engagement of both existing and new target audiences, and are a proactive way to be 'inspiring' and to 'bring alive' museums, heritage, arts and culture – central tenets of the vision and mission of the Monmouthshire Museums Service.
