Name of Service: Enterprise	Date completed: 18th May 2018

NB. Key strategies and documents that may help you identify your contribution to the wellbeing goals and sustainable development principles include: Single Integrated Plan, Continuance Agreement, Improvement Plan, Local Development Plan, People Strategy, Asset Management Plan, Green Infrastructure SPG, Welsh Language Standards, etc

1. Does your proposal deliver any of the well-being goals below? Please explain the impact (positive and negative) you expect, together with suggestions of how to mitigate negative impacts or better contribute to the goal.

Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
A prosperous Wales Efficient use of resources, skilled, educated people, generates wealth, provides jobs	Positive - the project will be funded from S106 balances provided by developer of residential housing in Llanvihangel Crucorney, so there is no call on the Council's core capital budget. A skilled and experienced workforce will undertake the installation works	The staff that install the play area meet the installation standards/criteria of the play equipment manufacturers.
A resilient Wales Maintain and enhance biodiversity and ecosystems that support resilience and can adapt to change (e.g. climate change)	Positive – the location is close to other community and recreation facilities, the project will involve landscape improvements and making the most of the natural environment	The Council will seek to use natural materials in the design and layout whilst ensuring that adequate safety measures are built in to the finished play area.

<p>A healthier Wales People's physical and mental wellbeing is maximized and health impacts are understood</p>	<p>Positive - the proposal in this report involves improving peoples' physical and mental well being. The rights of children to play are enshrined in legislation – these are acknowledged and the benefits of children's play are supported by the Council. The play area will help to provide a focal point for a number of family orientated activities.</p>	<p>Limited landscape alterations are proposed to accommodate the new items of play equipment.</p>
<p>A Wales of cohesive communities Communities are attractive, viable, safe and well connected</p>	<p>The proposal will contribute to the safety and cohesiveness of the local community in which it is located.</p>	
<p>A globally responsible Wales Taking account of impact on global well-being when considering local social, economic and environmental wellbeing</p>	<p>For many years there was no fixed play provision in the village, which meant that families had to transport their children to other parks in Abergavenny and in other locations. With the expansion of the relatively new play area, this will reduce the number of car-borne journeys necessary and, as such, it will lead to a reduction in harmful nitrogen dioxide emissions</p>	
<p>A Wales of vibrant culture and thriving Welsh language Culture, heritage and Welsh language are promoted and protected. People are encouraged to do sport, art and recreation</p>	<p>There are no specific proposals in this report to promote and protect the Welsh language but the play area improvements will encourage more participation in outdoor recreational activities.</p>	<p>Encourage the use of the Welsh language in on-site signage – a bilingual noticeboard would promote the Welsh language and encourage Welsh language speakers to use the site.</p>

Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
<p>A more equal Wales People can fulfil their potential no matter what their background or circumstances</p>	<p>The improvements to the play area will encourage improved access for and participation by disabled people and people with other support needs – also by all sections of the community regardless of background or ability</p>	<p>Consultation with the local residents and families will ensure that the new provision meets the needs of people living in the local area.</p>

2. How has your proposal embedded and prioritised the sustainable governance principles in its development?

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p>Balancing short term need with long term and planning for the future</p> <p>Long Term</p>	<p>Funding is in place to ensure that the play area proposals can be achieved. The sustainability of the project has been assessed and officers are confident that a play area in this location will be sustainable in the longer term.</p>	<p>Funding is proposed from existing S106 balances to cover the cost of the works proposed.</p>
 <p>Working together with other partners to deliver objectives</p> <p>Collaboration</p>	<p>The project involves working closely with other parties to deliver a more exciting play offer and to ensure better access for children with disabilities and support needs.</p>	<p>The existing site consists of a limited amount of play equipment – the proposal is to provide a range of modern and exciting equipment with much greater play value.</p>

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p>Involving those with an interest and seeking their views</p> <p>Involvement</p>	<p>The views of Cabinet members, the local county council member and members of the community council and the wider public have been sought.</p>	
 <p>Putting resources into preventing problems occurring or getting worse</p> <p>Prevention</p>	<p>The project involves the enhancement of facilities, as per the intention of the Section 106 Agreement from where the funding has arisen. Problem prevention is not the basis upon which the funding has been given but investing in the improvement of existing facilities will help to prevent problems occurring.</p>	
 <p>Considering impact on all wellbeing goals together and on other bodies</p> <p>Integration</p>	<p>The project will have a positive impact on the health & well being of people living in the area of benefit stipulated in the Section 106 Agreements.</p> <p>In particular children of primary school age will benefit from improved fixed play provision on the play area.</p>	

3. **Are your proposals going to affect any people or groups of people with protected characteristics?** Please explain the impact, the evidence you have used and any action you are taking below.
