Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p>Balancing short term need with long term and planning for the future</p> <p>Long Term</p>	The draft framework establishes an integrated business planning, monitoring and evaluation framework across all of MonLife group’s activities to measure performance, evidence impact and drive continuous improvement. The performance and evaluation framework will develop over time as MonLife establishes and progresses new programmes for delivery. In the short term, the framework will reflect MonLife’s initial business plans and programmes, and consolidate the key performance indicators / business matrices already in place across Tourism, Leisure, Culture and Youth Services (TLCY) to ensure measures are maintained. In the longer term, a stronger outcome focus will be put in place as an Outcome Measurement Framework is developed.	So far, best practice has been identified from the wider sector in establishing a bespoke outcome measurement framework, and a cross service project team has been established who have completed an initial scoping of the proposed approach. The principles for this approach have been established (and are set out in the main report) and it is intended to provide a long-term (10yrs +) basis for future impact assessment based on “pillars” reflecting the potential scope of MonLife’s impact and to group measurement & reporting of actions.
 <p>Working together with other partners to deliver objectives</p> <p>Collaboration</p>	The draft framework identifies the partners in measuring and evaluating MonLife’s delivery including external accreditation bodies and embracing specific partnership programme monitoring and evaluation.	Partners will be consulted and involved in the development of the outcome measurement framework

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p>Involving those with an interest and seeking their views</p> <p>Involvement</p>	<p>Customer and user feedback and interaction is at the heart of the draft framework.</p>	<p>The framework will be developed with further input from staff across MonLife, including the project group and from the Council via the Client Liaison Officer and the Performance Manager</p>
 <p>Putting resources into preventing problems occurring or getting worse</p> <p>Prevention</p>	<p>The draft framework embraces strategic risk management as to provide the necessary information to the Board/ directors and the Council to identify risk areas and ensure action can be taken to avoid problems getting worse</p>	<p>The Shadow Board will need to review the approach (along with the rest of the draft framework) and satisfy themselves it provides adequate risk management</p>
 <p>Considering impact on all wellbeing goals together and on other bodies</p> <p>Integration</p>	<p>As indicated above the framework seeks to integrate the well-being goals at each level - table 1 of the main report summaries this approach</p>	<p>As set out above this approach will be refined and developed as work on the outcome measurement framework progresses</p>
