Well Being Goal	How does the proposal contribute to this goal? (positive and negative)	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
Culture, heritage and Welsh language are promoted and protected. People are encouraged to do sport, art and recreation	package of tourism, leisure and culture is at the heart of this model.	active more often or regularly participating in art and culture there are many positive benefits.
<p>A more equal Wales People can fulfil their potential no matter what their background or circumstances</p>	A trust model of provision offers the potential to put services on a more sustainable financial footing. This would maintain a service offer to a much broader section of the population that if left to the private market alone which would be likely to result in higher prices which would exclude those on lower income groups which proportionately contain more older people and people with disabilities	All people will have opportunities to progress have access to services and thrive.

2. How has your proposal embedded and prioritised the sustainable governance principles in its development?

Sustainable Development Principle	How does your proposal demonstrate you have met this principle?	What has been done to better to meet this principle?
 <p>Balancing short term need with long term and planning for the future</p>	Short term need is maintaining quality services and looking to develop sustainable business models that have long term viability. Long term business plans, investment plans and capital investment plans would all ensure the future generations are considered in this process.	The development of the trust will include the need for decisions to be made with the long term needs of the business/service. A board of trustees would help guide the process to ensure the correct balance is delivered.

Sustainable Development Principle	How does your proposal demonstrate you have met this principle?	What has been done to better to meet this principle?
 <p>Collaboration</p> <p>Working together with other partners to deliver objectives</p>	<p>The services in tourism leisure and culture have key stakeholders and partners that they currently work with. Internal MCC departments, Sport Wales and Art Wales, CADW, Public Health Wales and Town & Community Councils all factor heavily in working together.</p>	<p>The work around partners and delivering key programs are critical for the trust. There would be work on governance and business plans to ensure collaboration is in the centre of the model.</p>
 <p>Involvement</p> <p>Involving those with an interest and seeking their views</p>	<p>The services in tourism leisure and culture have key stakeholders and partners that they currently work with. Internal MCC departments, CYP, Sport Wales and Art Wales, CADW, Public Health Wales and Town & Community Councils all factor heavily in this work and consultation is planned going forwards</p>	<p>The community and users groups will be included as in the cultural services review. Also our key stakeholders.</p>
 <p>Prevention</p> <p>Putting resources into preventing problems occurring or getting worse</p>	<p>The need to explore options and invest in resources to ensure this work moves forward at pace is recognized.</p> <p>The current budgets for maintenance and investment across MCC is extremely limited.</p>	<p>The trust would develop business plans and investment strategies to help improve</p>
 <p>Integration</p> <p>Positively impacting on people, economy and environment and trying to benefit all three</p>	<p>If the trust model is viable then the end product will be a vehicle which provides the community, economy and environment benefits. Improved people led services with improvements to buildings and improved management of environment and outdoor spaces.</p>	<p>Some initial work completed in the review of cultural services and the need to commit to widespread consultation and delivering the model.</p>

3. Are your proposals going to affect any people or groups of people with protected characteristics? Please explain the impact, the evidence you have used and any action you are taking below.

Protected Characteristics	Describe any positive impacts your proposal has on the protected characteristic	Describe any negative impacts your proposal has on the protected characteristic	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
Age	Access to services impacts all ages. If the new trust provides better quality facilities and keeps them open this is positive. A trust model of provision offers the potential to put services on a more sustainable financial footing. This would maintain a service offer to a much broader section of the population that if left to the private market alone which would be likely to result in higher prices which would exclude those on lower income groups which proportionately contain more older people and people with disabilities		Sustainable delivery models
Disability	Trust will continue to work with key partners and organisations to support. A trust model would maintain a service offer which is affordable to a much broader section of the population than if left to private provision. Lower income groups tend to include a higher proportion of people with disabilities		Any agreement to transfer services to a new organisation, there needs to be a requirement to adhere to the Council's policies on Equality. This includes access to goods and services, recruitment and retention of staff. The service will undertake a profile of it's users and monitor service use 24 months after the transfer to any new organisation to ensure that should any unforeseen negative impact materialize then it is identified and addressed.

4. Council has agreed the need to consider the impact its decisions has on important responsibilities of Corporate Parenting and safeguarding. Are your proposals going to affect either of these responsibilities? For more information please see the guidance note <http://hub/corporatedocs/Democratic%20Services/Equality%20impact%20assessment%20and%20safeguarding.docx> and for more on Monmouthshire's Corporate Parenting Strategy see <http://hub/corporatedocs/SitePages/Corporate%20Parenting%20Strategy.aspx>

	Describe any positive impacts your proposal has on safeguarding and corporate parenting	Describe any negative impacts your proposal has on safeguarding and corporate parenting	What will you do/ have you done to mitigate any negative impacts or better contribute to positive impacts?
Safeguarding	The new trust will ensure levels of safeguarding are at the same levels as they currently stand inside the local authority.		
Corporate Parenting	It is essential that responsibilities currently undertaking by the various departments inside TLC are built into future plans for the trust. Certainly passport to leisure schemes and various schemes give access to LAC's and other vulnerable groups. Services such as youth, outdoor education and leisure all contribute to this area.		Links/governance to MCC must be maintained in the new delivery model to ensure these responsibilities are maintained/considered.

5. What evidence and data has informed the development of your proposal?

Over the last few financial periods the services have had around 30% efficiencies and an increased expectation to drive enhanced levels of income. With the continued pressure of the MTFP the services are at a stage where some of them will close if a new model is not developed. Each site needs significant investment to maintain levels of income and to increase commercial output.

The various services have undertaken reviews – the most recent being the cultural services review and interpretation of the recommendations are currently underway. The review of outdoor education service is also near to completion.

Welsh Government have completed the expert museums review which has given some recommendations around coordinating leadership to deliver local services, local authority to consider all models of deliver and also development of collections and skills – Welsh Government that museums directly provided by authorities should be give relief from NNDR on the same basis as museums that are operated by charities.

Neighbouring authorities have moved their leisure services into a trust model and have seen some positive investments leading to enhanced income opportunities. Initial project work has identified that a new trust model (currently looking at several options) would give some immediate benefits in particular around NNDR whilst looking at a timetable to work through the necessary governance, consultation necessary.

6. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?

The new model trust would look to develop its existing offer across MCC. The need for clear vision and purpose and close working with stakeholder and community groups/user groups. The opportunity to create and deliver a clear business plan for each service with investment strategy and move forward with commercial opportunities as they present themselves.

Current budgets inside property maintenance and capital programs have been diminished and prioritized for the 21st Century schools program.

The trust would be in a position to move quickly and make decisions at a faster pace than current local government legislation – this too would be critical to ensure the trust is a success.

To introduce a commercial trading arm which will help to generate income into the trust and also ensure the specialized skills are available to drive this area of the business.

Grants and some programs are not available to local authority so opportunities to increase this area.

Work is underway to put a project group together which includes staff/union liaison, governance, communications – senior officers will be seconded to the project to ensure this work moves at the pace necessary for implementation.
