Dear Mr. Edwards,

Re: Provisional Local Government Settlement 2019/20

Thank you for the opportunity to comment on the Provisional Settlement announced recently. This response has been endorsed by Monmouthshire County Council's Cabinet and provides the views of members.

This is a disappointing settlement for local government across Wales and follows reductions that Councils have experienced in recent years. The Welsh Government has chosen to use additional money passed to it by the UK government in ways that don't best meet the needs of the people in Wales.

Monmouthshire has yet again received one of the worst settlements in Wales receiving 1% less than the previous year and the settlement continues an eight-year run of real terms reductions to local government funding in Wales. This does not take into account the current inflation rate of 2.7% and therefore represents a 3.7% real term reduction in funding. While the average cut to Welsh councils is 0.5%, Monmouthshire's 1% decrease, shared with five other counties, is the biggest in Wales.

The provisional settlement has done nothing to alleviate our position as the worst funded Council in Wales per head of population. The average per capita funding in Wales is £1,344 compared to Monmouthshire's £995.

The Council is very conscious of the pressures on household budgets and so the Council is doing its utmost to deliver a balanced budget but this will inevitably put pressure on Council Tax rises.

Monmouthshire welcomes the commitment to providing a funding floor to mitigate any volatility. Looking forward to 2020/21 and beyond, the prospect of continuing austerity remains and is set against very real pressures in already stretched services. The provision of indicative revenue settlements for the next three years would help Councils in planning for the future through these very difficult times.

As a rural authority Monmouthshire is confronted by particular challenges in offering services like social care, waste collection, transport and highways across a wide area. Indeed, the council has recognised these difficulties by prioritising the maintenance of locally accessible services to combat rural isolation. Monmouthshire calls on the government to base funding on a fairer system, acknowledging the problems rural counties face when providing services. There are also a range of preventative services that will not survive unless the Welsh Government has a long hard look at the way it allocates money across the totality of public services.

Monmouthshire supports and encourages the transfer of specific grants into the settlement and is disappointed that more progress has not been made in this regard. If there are opportunities to put more grants into the final settlement this would be welcomed providing it continues to be distributed on the same basis as the original grant to prevent large changes at a very late stage in the process.

On capital account, the settlement does not address the previous reductions in capital funding and is still therefore a serious concern, especially as it comes at a time when councils are struggling to raise capital receipts from asset sales. The need to invest in priority areas such as 21st Century Schools, waste management, carbon reduction and infrastructure remains high, with WG support remaining a critical success factor.

Despite the fact that the reasons for the level of the provisional settlement are both known and understood, it is difficult to reconcile the revenue and capital settlements with the increasing expectations and demands on local council services are continuing to grow. Councils will face difficult decisions in reconciling budgets next year and in the medium term and it is important that the WG recognises the need for difficult decisions, is supportive of local authorities facing difficult times and does not promote undeliverable policy expectations. This is a time for us all to work together to minimise the consequences of the downturn in public finances on the most vulnerable in society and to send clear and consistent expectations to the public we exist to serve.

Yours sincerely

Councillor Philip Murphy – Cabinet Member
