

REPORT TO STRONG COMMUNITIES SELECT COMMITTEE
PUBLIC PROTECTION 2018/19, FIRST SIX MONTHS, PERFORMANCE REPORT

1. INTRODUCTION

- 1.1 In 2015 Cabinet requested that Strong Communities Select Committee receive six monthly performance reports on Public Protection services. Members wished to review the impact on performance of budget reductions implemented since April 2014. Annual performance is also reported through Licensing & Regulatory committee.
- 1.2 The Public Protection division comprises four distinct teams -
- (i) Environmental Health, Commercial
 - (ii) Environmental Health, Public Health
 - (iii) Licensing
 - (iv) Trading Standards & Animal Health

2. PURPOSE

- 2.1 The purpose of Public Protection services can be summarised as follows –
- a. Protect people from harm and promote health improvement.
 - b. Promote a fair and just trading environment for the public and businesses.
 - c. Improve the local environment to positively influence quality of life and promote sustainability.
 - d. Ensure the safety and quality of the food chain to minimise risk to human and animal health.
- 2.2 These four outcomes contribute to Wales' seven well-being goals. They directly help achieve a more prosperous, resilient, healthier and more equal county. It also resonates with this Council's Corporate Business Plan 2017/22, approved in February 2018, which sets out our priorities under the current administration to 2022.

3. RESOURCES

3.1 Staff resource

(i) Environmental Health – Commercial:-

- 6 Environmental Health Officers, 5.4 FTE's (Full Time Equivalents)
- 3 Commercial Services Officers, 2.1 FTE's
- 1 Systems Administrator, 1 FTE

(ii) Environmental Health – Public Health:-

- 5 Environmental Health Officers, 5 FTE's
- 2 Enforcement Officers, 1.6 FTE's

(iii) Licensing:-

- 5 Licensing Officers, 4 FTE's

(iv) Trading Standards & Animal Health:-

- 3 Trading Standards Officers, 3 FTE's
- 1 Senior Fair Trading Officer, 1 FTE
- 1 Fair Trading Officer, 1 FTE
- 1 Senior Animal Health Officer, 0.45 FTE (Other 0.55 FTE Regional Co-ordination role funded by WHoTS)
- 1 Animal Health Officer, 1 FTE
- 1 Feed/Animal Health Officer, 1 FTE (Temporary to 31st March 2020)

(v) Support team:-

- 5 Support Officers, 4.1 FTE's

Above staff resource adds up to a total of 35 staff, 30.65 Full Time Equivalents. The Public Protection division also comprises the Authority's Registrar and Corporate Health & Safety services, but this report covers 1.2 services only, as directed by Members in January 2015.

3.2. Financial resource

The total budget for 2018/19 across the four services, with Support team costs spread across the professional teams, was just over £1.3 million. This can be broken down as follows –

Budget (net, after income)	
Environmental Health – Commercial	£448,564
Environmental Health – General public health	£391,080
Trading Standards & Animal Health	£337,704
Licensing	£23,056
Management & generic costs (eg software)	£112,596
Total	£1,326,476

The reported budget position at the half way period of 2018/19, was a predicted underspend for 2018/19 of £8,300, which represents less than 1% of the total annual budget.

4. PERFORMANCE

- 4.1 Internal performance monitoring – the four teams within Public Protection each complete an annual Business Service Plan. These outline annual targets, specific projects etc. and progress is reviewed regularly both by the teams themselves and Departmental Management Team.
- 4.2 External reporting – regular returns are made to the Food Standards Agency, Health & Safety Executive, Chartered Institute of Environmental Health, Drinking Water Inspectorate, Welsh Government and other organisations.
- 4.3 The Licensing section contributed to the Wales Audit Office’s (WAO) review of the Authority’s ‘safeguarding’ arrangements. WAO commented on our Taxi Driver Policy and a ‘home to school’ recommendation was referred to our Passenger Transport Unit.

4.4 2018/19 performance, first 6 months (and comparison to previous years)

The right hand columns summarises performance during the first six months of 2018/19 year. The left hand columns cover the previous 3 years, to enable comparisons to be made.

The following table summarises performance data from the four service teams.

Figure One

<u>Service</u>	<u>2014/15 performance</u>	<u>2015/16 performance</u>	<u>2016/17 performance</u>	<u>2017/18 performance</u>	<u>2018/19 Performance First 6 Months</u>

5. ANALYSIS AND ACTIVITY IN FIRST 6 MONTHS OF 2018/19

5.1 Environmental Health – Commercial

5.1.1 Food safety (food hygiene and food standards)

The Commercial team has a strong commitment to balancing our statutory work with our innovative income generating work. We are maintaining our record of inspections within target times with minor fluctuations depending on pull on the team's resources. As a result of our interventions, there has been a year on year increase in the number of high scoring premises under the Food Hygiene Rating scheme. We also promote top scoring food businesses on social media. Anecdotal evidence shows a top food hygiene score can increase a small food business income by up to £300 a week. Much work is being done with other LA's to preserve the integrity of the mandatory Welsh Food hygiene rating scheme with the proposals by the FSA on Regulating our Future.

We have had a prosecution with regards food hygiene so far this year receiving costs. Prosecution is a 'last resort' but sends out a useful signal to all other businesses that action will be taken when advice is not heeded.

Access - this innovative scheme is now in its 5th year, whereby a charge is made for supplementary advisory visits. Feedback from business shows that the service is very effective in increasing confidence and having a beneficial effect on the food hygiene rating. The service is particularly effective for new businesses whose owners may not have encountered enforcement Officers before. It establishes a better relationship and, through better compliance, the county gets safer food businesses. We have expanded it to any function of advice that a business may require or request.

Food standards - Officers continue to provide legal advice on allergen declarations in food, protecting affected persons and are currently co-ordinating a Gwent wide speciation survey looking at miss described meat.

Food sampling- the food team carries out regular sampling surveys of food made and sold in Monmouthshire, in line with national guidance and topical issues.

Food Hygiene Rating Scheme Ratings in MCC Sept 2018

Primary Authority- Officers carry out work as contacts for primary authority companies. The legal requirements relating to allergen declarations etc continues to result in more contact with the Officers, including the investigation of reported incidents. The team have sought to increase partnerships and have done so with Stonegate Pubs, now approved by the Secretary of State, and with the Nationwide Caterers Association.

5.1.2 Communicable disease control

The majority of cases for investigation are Campylobacter and Salmonella and are individual, sporadic cases. Cases of Cryptosporidium and E. Coli have also been notified. The team has investigated a number of viral outbreaks in schools, care homes and a hospital, thus protecting the most vulnerable groups in Monmouthshire. It is necessary to investigate the cause, spread and duration of viral illnesses in order to eliminate other sources of illness such as foodborne illness.

The investigation of three cases of hospitalised typhoid by Officers of the team found them to be connected via travel from a local school. Salmonella Typhi is contracted via ingestion of the pathogen via infected water and food. Our involvement and advice has led to improvements to hygiene and potable water supplies to travelling groups hiking in the outdoors, in this case the Himalayas.

5.1.3 Health and Safety at Work

Beverage Gas Safety was a national priority for intervention in 17/18 (HSE). It continues with enforcement actions being taken in premises where there has been found to be safety breaches that could lead to personal injury.

Fisheries (7) - following last year's fatality in Monmouthshire, all fisheries have been visited. Focus on protection of children and vulnerable people in these settings.

We are assisting the public health team with enforcement of Private water supplies and actively capturing information on the database for more efficient use of time.

5.1.4 Income generation

Although a regulatory function, the EH Commercial team are leading the field in Wales for innovative income generation. Further ideas are being developed and implemented, for example our MAPP (Monmouthshire Alternative to Prosecution Policy). We continue to try and think 'outside the box' and seek new income opportunities.

5.2 Environmental Health – Public Health

5.2.1 Housing

In 18/19 the team have continued to provide an effective and early response to complaints and requests for advice in the private rented sector. A total of 79 enquiries have been received with 66 of these responded to within 3 working days (83.5%). Enquiries can be regarding a range of concerns including threat of landlord harassment / unlawful eviction but generally relate to concerns with the condition of the rented property. Out of these enquiries a total of 34 dwellings were inspected with 35 category 1 hazards (most serious) and 61 category 2 hazards identified. Of the total of 96 hazards a high percentage relate to damp, cold, falls between levels and fire safety issues.

In the 34 inspections, 53 adults and 26 children were exposed to significant hazards, with 17 of those adults and 3 children protected by landlords undertaking remedial works by 30/9/18. Officers engage with landlords, make clear their responsibilities under the Housing legislation and seek their cooperation to undertake the required works to remove the hazards identified. A range of enforcement actions are available and used where landlords do not cooperate such as the service of Improvement Notices.

The team is being active in fulfilling the Council's responsibilities in promoting and supporting Rent Smart Wales (RSW) with regard to the registration and licensing of landlords, which has been a requirement in Wales since 23rd November 2016. At the end of Q2 there were 4381 registered rental properties in the County, (social landlords not included).

5.2.2 Noise

The complaint level in the first 2 quarters of 18/19 increased substantially by 20.6% compared to the same period in 17/18, with a total of 251 complaints received compared to 208 previously. This may be linked to the long hot summer period. Dog barking and loud music continue to be the greatest source of annoyance to our residents.

Despite the substantial increase in complaints, our initial response times remain high at 81.7% within 3 working days and the case closure rates within 3 months remains at around 50%.

The team is also involved in a lot of proactive work with organisers of the various concerts / music events held throughout the County and also the ongoing A465 dual carriageway construction scheme. This proactive work helps ensure that music events can progress, to the enjoyment of the many who attend, with hopefully minimal impact on the residents living nearby.

5.2.3 Environmental Protection

The high number of complaints received in the last couple of years has continued to be sustained in 18/19 particularly the number of abandoned vehicles with 106 received reflecting the low value of scrap metal.

Initial response times are very high at 92.4% and case closure rates within 3 months remain at between 60 to 70%.

The 'Give Dog Fouling the Red Card' scheme led by the team together with the Waste and Street Cleaning section, designed to empower local communities to deal with local fouling problems, has progressed into its fourth year with the number of participating Town and Community councils increasing to 22. Members report that dog fouling has generally reduced in their areas, although 'hot spots' persist, and complaints to the team have shown some reduction since commencement of the scheme:

13/14 – 169 complaints

14/15 – 147 complaints

15/16 – 92 complaints

16/17 – 121 complaints

17/18 – 106 complaints

18/19 – 40 complaints Q1 +Q2.

One fixed penalty notice served, with payment received, for a littering offence from a vehicle.

5.2.4 Private Water Supplies

The team has the responsibility for fulfilling the Council's duty of risk assessing all 'large' and 'small' private water supplies (PWS), where water is intended for human consumption. Improvements are undertaken where necessary to ensure a wholesome and sufficient water supply is provided. We currently have 128 'small' and 55 'large' supplies, the vast majority of which have received an initial risk assessment, although because of a change in Regulations at the end of 2017 approximately 20 'new' supplies require an initial assessment. Of those supplies that have been previously assessed 54 require follow up action to ensure required works have been undertaken and 31 are waiting a further risk assessment which the legislation requires to be done every 5 years. Progress in dealing with these is very slow:

- Supplies awaiting first inspection - 26. Of these 1 undertaken.
- Supplies awaiting follow up visit to check required works - 54. Of these 7 undertaken.
- Supplies awaiting a 2nd Risk Assessment - 31. Of these 3 undertaken.

The team is not currently fulfilling its inspection duties. This work is targeted as a priority in Q3+Q4 where, hopefully, the typical seasonal reduction in general complaints received by the team will enable time to be spent on this very important area of proactive work.

5.2.5 Pest Control

Complaint levels remain very similar with 53 received to date compared with 71 in 17/18.

5.2.6 Construction

Engagement with the developers of the A465 dual carriageway and electrification of the South Wales main rail line has continued, and also in progress with the proposed M4 development. Our interest is to ensure that the contractors do all that can be reasonably expected to control noise, dust and air pollution levels. A substantial work commitment is needed in these areas which is generally not reflected in the Service Request statistics, with successful engagement hopefully resulting in low complaint numbers.

5.2.7 Air Quality

The team is on target to complete the 36 visits planned for 18/19 of the industrial permitted sites and petroleum certified sites which we have responsibility for from a pollution legislation perspective.

We continue to monitor traffic related pollution (nitrogen dioxide) in our 4 major towns and provide advice in regular meetings of the steering groups in the Chepstow and Usk Air Quality Management areas. There is just 1 location in the County, on Hardwick Hill, Chepstow, where nitrogen dioxide levels continue to exceed the objective level set by legislation.

In the summer holiday of 2018 Environmental Health installed a continuous air quality sensor at Chepstow Comprehensive and Usk Schools. The sensor can continuously monitor nitrogen dioxide, sulphur dioxide, carbon monoxide, ozone, air temperature, humidity, and pressure and both the schools and Environmental Health can view the live data via a website.

It is the team's hope that the schools will use the data to help in their classes to educate the pupils about air quality, and that this message will also reach parents, and hopefully improve air quality during the school run. To this end a number of educational packages have also been made available to the schools.

Two further monitors will shortly be installed in the Caldicot and Monmouth 21st Century schools.

5.2.8 Total Enquiries

The total number of service requests dealt with by the team across the range of functions has seen a significant increase in the first 2 quarters of 18/19 compared with the same period the previous year. A total of 1133 complaints received compared with 880 in 17/18 is a 28.7% increase.

5.3 Licensing

5.3.1 General

The Licensing team deals with a variety of licences, dealing with pubs, restaurants, off-licences and takeaways, taxis, street trading (e.g. burger vans), street/house to house collections, (e.g. charity collections in the street or bag drops at homes), gambling (e.g. betting shops, racecourse, one armed bandits in pubs/clubs, raffles etc.), scrap metal collectors and sites. The team are also authorised to deal with sex establishments, boats and hypnotism.

452 requests for service were processed by the Licensing between April – September 2018, an increase of 53 for the same period of the previous year. A breakdown of the 452 requests are shown below:-

888 applications were processed in between April-September 2018 (an increase of 80 for the same period of the previous year). Some of the work carried out by Licensing in during this period includes:-

5.3.2 Pubs, Restaurants, Off-licences, Clubs and Takeaways

Night Time Economy and Joint Enforcement

Some of the statutory enforcement officers under the Licensing Act 2003 meet monthly, namely Licensing, Police, Environmental Health, Trading Standards, Social Services and Public Health. These meetings raise issues regarding premises that are causing problems and all receive follow up visits by Licensing. During these three quarters, Licensing had to deal with reported incidents of noise issues, violence, anti-social behaviour, drug usage and reports of underage drinking. 90 premises received an inspection during this period. Licensing had to deal incidents ranging from noise, drug related issues and dealing

Immigration

A joint operation was conducted in May between Licensing, the Police and Immigration in Abergavenny at a takeaway on 12th May 2018. It was found that all persons had the right to work in the United Kingdom. The visit was as a result of information received that persons who worked there were living above the takeaway and the employer was receiving their benefits, which had modern day slavery implications. Police made a number of arrests at that time but the case was dropped, as no one was willing to testify. Monitoring of this venue will continue.

On 9th August 2018 Licensing, Immigration and Fire Officers visited 3 takeaways in Abergavenny. There were no immigration concerns. However, the Fire Service are dealing with one premises that had no means of escape for those living above the venue other than through the shop itself and this is being followed up accordingly. Another venue did not have CCTV working despite this being a licencing condition. The CCTV would be essential at this venue as late night takeaways can be a hotspot for violence and anti-social behaviour. A warning letter was issued by Licensing.

On 29th August 2018 Licensing and Immigration visited 2 premises in Abergavenny. At a store one male found working without right to work. Immigration Officers made arrest on this occasion and Premises Licence being considered for review. At a kebab house two males found working without the right to work. Premises was therefore closed on the night. Premises Licence being considered for licence review.

Safeguarding

In September 2018, Licensing, the Police and Social Services received a report about a store owner in the North of the County, which may have possible safeguarding issues. Police are currently investigating complaints. Licensing and the Police, along with an interpreter visited the venue to request measures are put in place to avoid the person being alone with children until the investigation is complete. A change of condition has also been requested for CCTV to be present. Monmouthshire's Multi-Agency Sexual Exploitation (MASE) group - which includes the Police, Social Services and other counselling agencies - were informed of the possible safeguarding implications.

5.3.3 Taxis

During this period, 12 drivers had spot checks, along with 17 vehicles, 1 vehicle had a faulty bulb on headlight and incorrect roof light and was issued a warning.

Joint Operations

On 7th September 2018 a joint operation took place between Licensing and the Passenger Transport Unit at an Abergavenny school. One vehicle inspected was found to have a broken rear window and driven by a person who did not have the licence to drive over 8 seater vehicles, potentially putting children in danger. This person did hold a licence for under 8 seats with this Authority and as such was referred to Committee to assess if he was fit and proper to continue to hold a licence. The driver also received a fixed penalty notice for the unroadworthy vehicle. The owner of the vehicle was also referred to the Licensing and Regulatory Committee. Both driver and owner had their licences suspended for 4 months until they conduct a knowledge test.

Safeguarding

Taxi and Private Hire Policy was updated and adopted at the Licensing and Regulatory Committee on 12th June 2018. The policy now includes an updated suitability test for applicants and existing licence holders in the taxi trade, in line with those recommended by the Institute of Licensing.

5.3.4 Gambling

During this period extensive work has been carried out to implement a revised Gambling Policy. This policy has to legally be revised every 3 years. This involves wide consultation working closely with other Authorities, Public Health, the Police and the Gambling Commission. It also refers to the Chief Medical Officer for Wales Annual Report 2016-17. This report referred to the potential harms caused by gambling for the individual include anxiety, stress, depression and alcohol and substance misuse. These factors are likely to have a wider impact on family and friends. Further family problems can include 'money troubles' and family breakdown, as well as neglect and violence towards any partner or children. There are higher rates of separation and divorce among problem gamblers compared to the general population. Further impacts of gambling include the inability to function at work, and financial problems which can lead to homelessness. The potential harms from gambling to wider society include fraud, theft, loss of productivity in the workforce, and the cost of treating this addiction. Gambling harm not only affects the individual, but the family and wider society. The new policy will take all these matters into consideration.

5.4 Trading Standards & Animal Health

5.4.1 Feed

Following the three successful years of the regional approach to Feed Law enforcement, 2018/19 continues the same approach albeit with lower inspection targets. With over two thirds of the region's inspections falling in Monmouthshire, this has allowed us to retain the additional Officer with vital knowledge and skills (not just in feed) and without any cost to the Authority. Unexpectedly though that Officer had to resign due to personal circumstances and that has had a direct effect on the delivery of this year's programme in quarters 1 and 2. Upskilling of other Officers has proven vital to enable this work to be continued while an emergency replacement was sort, this does have a significant impact on the wider trading standards remit.

5.4.2 Animal Health

As previously reported, since the loss of the additional funding animal health is now over 90% reactive. As strategic lead for Wales Heads of Trading Standards in relation to animal health, the Trading Standards team leader has been heavily involved in working with Welsh Government to develop a Partnership Delivery Plan with associated additional funding. This is based on a regional approach and mirrors the footprint of the Cardiff Capital Region City Deal. Monmouthshire has approximately 50% of the critical control points and animal related premises within this region, but current capacity, at 1.5 FTE's, limits this opportunity. A vacancy has been combined with a wider regional resource to create a new post which has now been filled with an experienced, qualified animal health officer. This role has a Regional Coordination element for Animal Health across Wales.

The remaining fulltime officer unfortunately has suffered a serious illness and has currently been on long term sickness absence for just over 5 months. Clearly this has created significant pressures on the service and is being closely monitored. This has also coincided with a noticeable rise in the number of animal licences and enquiries relating to Home Boarders.

5.4.3 Fair Trading

There are ongoing investigations into further supplies of illicit tobacco and a further pending prosecution.

From 1 April 2018, landlords of buildings within the scope of the Minimum Energy Efficiency Standard (MEES) must not renew existing tenancies or grant new tenancies if the building has less than the minimum energy performance certificate (EPC) rating of E, it applies to non-domestic and domestic properties. Presentations were made to Monmouthshire and Torfaen Landlords Forum. Primary Authority related enquiries has led to a couple of more time consuming pieces of work.

A Local trader started to generate a number of complaints particularly in relation to vulnerable adults which has led to a joint investigation with another South Wales Authority, this continues to progress with open dialogue and guidance on future practices. A Rogue Trader incident in January where a vulnerable resident was being asked for £8,000 for some tarmacking has led to a number of visits and advice being offered to the resident in conjunction with Police support for the victim.

5.4.4 Consumer Protection

A priority for the service has been dealing with a variety of scams and bringing them to the attention of both the public and businesses whenever possible. We're all potential victims and by reaching out and working alongside adult safeguarding vulnerable victims can be kept out of overburdened local care systems.

The key focus has continued to be working with vulnerable victims through priority referrals and ensuring they are given the advice and assistance required and/or referred as appropriate. Call Blockers have been distributed to the vulnerable who have been targeted by scam calls, and support given to WASP (Wales Against Scams Partnership) on behalf of the Authority, including initiatives such as Friends Against Scams and Mail Marshalls.

There have been a few multi-agency approaches undertaken targeting rogue traders, doorstep callers, poachers and itinerant businesses.

5.4.5 Weights & Measures

Participation in a nationwide survey looking at national and local supermarkets scales, initiated following intelligence that where inspections are no longer able to be carried out proactively there is evidence that equipment is not legal and/or accurate. Local manufacturers and packers continue to be supported as much as possible.

5.4.6 Underage Sales

Additional resource has been agreed to develop the local intelligence picture and has identified a number of concerns, this work will continue with associated advice and further investigative undertaken as determined appropriate.

5.4.7 Air Quality – Lorry Watch

Vehicle spotter reports continue to be followed up with checks that the vehicles are legitimately travelling through the two restricted areas in Usk, as these vehicles contribute significantly to the levels of air pollution.

5.4.8 Income Generation

In 2017/18 Feed funding generated in excess of £21,000 allowing us to retain additional capacity. Animal Health PDP regional co-ordination and additional project work, Primary Authority and other regional initiatives brought in around £12,000.

5.5 **Event Safety Advisory Group**

A number of Public Protection staff are involved in Monmouthshire's Event Safety Advisory Group, (ESAG). This is a partnership designed to help organisers run safe and successful events. It is recognised a proactive advisory stance is preferable to reacting to problems after events have occurred. Events held in the last 6 months included food festivals, music concerts, agricultural shows, cycling events etc. and safety/noise/licensing/other advice was provided. As per Figure One, events that ESAG monitor

and review have increased each year. 79 were reviewed in the first six months of 18/19, a 36% increase from the same period last year.

6 PERFORMANCE SUMMARY 2018/19 year to date

- 6.1 Public Protection teams, with only a small number of exceptions, continue to meet the Authority's legal obligations. However, Officers are typically operating at maximum level and are put under increased pressure when colleagues have any long term absence. Where pressures are found, for example regarding our private water supply (PWS) duties, managers have collaborated to find workable solutions. There will be increased attention to address PWS activity (5.2.4) for the remainder of 18/19.
- 6.2 There have been some significant increases in service requests across the teams, so there has been a need to prioritise this reactive work over our proactive activities. For example (5.2.8) the Public Health team have seen a 29% increase in complaints received when comparing this 6 month period with same last year.
- 6.3 The performance data in Figure One illustrates the Commercial team and Licensing are maintaining proactive and reactive services well. As outlined in the analyses in Section 5, the Public Health and Trading Standards/Animal Health teams have some pressures, due to work volumes and limited Officer capacity. Joint working such as event support has increased, eg. a 36% increase in ESAG notifications requiring interventions.
- 6.4 Members can gain some assurance that performance is in line with other Authorities via regular monitoring by the external governing bodies referred to in section 4.2, for example, the Food Standards Agency.

7 2019/20 AND BEYOND

- 7.1 A 2018/19 annual performance report will be presented to a future Strong Communities Committee, preferably in May 2019. Infographics will be introduced to highlight the key achievements over the year.
- 7.2 Public Protection services will continue to seek more capacity to deal with more air quality activity, private housing interventions and consumer protection issues. Our 2018/21 Business Plans are seeking to better reflect our longer term vision and future planning. This tallies with the Well Being of Future Generations expectations, with Public Protection services contributing directly to a more prosperous, resilient, healthier and more equal county.

- 7.3 When new legislative requirements are introduced, via Welsh Government or Westminster, our professional bodies will seek proper funding to implement. Provisions of the Public Health (Wales) Act 2017 are now being implemented, to include licensing of intimate piercing and new age restrictions. The Chief Medical Officer's Annual Report for 16/17 was released in February 2018, with a big focus on 'gambling and health'. Public Protection services will link with other partners, eg. Gambling Commission, to seek to protect 'problem gamblers' noting the public health impacts on individuals, families and communities. New Minimum Unit Pricing legislation will be implemented with funding to ensure Trading Standards can work with business to ensure compliance with the new requirements.
- 7.4 Collaborative opportunities are being considered at regional and national level, and this Authority will play a part in developing future service models. Further income generation opportunities will continue to be pursued.
- 7.5 Our services, together with delivering statutory responsibilities, acts on local intelligence and welcomes input from local Councillors, other stakeholders, etc. to improve outcomes for our citizens. The services enjoy an excellent reputation, due to the commitment of the Officers, and will continue to contribute to the wider agendas and our core purposes, as provided in 2.1. To protect existing budgets, other routes will be sought to improve the profile of these services, both locally and nationally.
