Future Generations Evaluation (includes Equalities and Sustainability Impact Assessments)

<p>Name of the Officer completing the evaluation Mark Hand</p> <p>Phone no: 01633 644803 E-mail: markhand@monmouthshire.gov.uk</p>	<p>Please give a brief description of the aims of the proposal</p> <p>The Local Development Plan (LDP), adopted on 27 February 2014, sets out the Council's vision and objectives for the development and use of land in Monmouthshire, together with the policies and proposals to implement them over the ten year period to 2021. Supplementary Planning Guidance (SPG) sets out detailed guidance on the way in which the policies of the LDP will be interpreted and implemented. The Affordable Housing SPG, adopted in March 2016, was prepared to provide further clarification on the interpretation and implementation of the LDP's affordable housing policies. However, since the SPG was adopted a number of issues have arisen in relation to the viability of affordable housing provision on certain types of development sites which has triggered the need to update the SPG. The SPG has, therefore, been amended to take account of updated evidence and to provide clarity on key elements of the SPG as set out in revised Draft SPG.</p>

2. How has your proposal embedded and prioritised the sustainable governance principles in its development?

Sustainable Development Principle	How does your proposal demonstrate you have met this principle?	What has been done to better to meet this principle?
 <p>Balancing short term need with long term and planning for the future</p>	<p><i>We are required to look beyond the usual short term timescales for financial planning and political cycles and instead plan with the longer term in mind (i.e. 20+ years)</i></p> <p>The LDP covers the period 2011-21. The Draft SPG supports the implementation of the LDP. By its nature, therefore, it cannot look beyond this period but the SA/SEA of the LDP would have ensured consideration of the impact on future generations.</p> <p>The LDP housing policy framework seeks to balance the short term need for housing development and viability issues with the longer term need to create balanced and sustainable communities. Affordable housing makes an important contribution to the sustainability of our towns and villages by providing homes that local people on low incomes can afford to live in. It also a means of providing low cost homes for first time buyers. A commuted sum also has the potential to bring forward additional units of housing to meet the specific housing needs of vulnerable groups.</p>	<p>Ensure that the relevant guidance, as set out in the revised SPG, is accurately interpreted and implemented.</p> <p>The LDP and its policies have been subject to SA/SEA. The replacement LDP will be subject to SA/SEA.</p> <p>LDP AMRs will provide both an annual evaluation of plan performance including affordable housing policies, and year by year comparison from which emerging long term trends may be identified and reported on. This will help inform the evidence base for the replacement LDP.</p>

6. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?

This section should give the key issues arising from the evaluation which will be included in the Committee report template.

Positive: The Revised Draft SPG continues to support the provision of affordable housing in Main Towns, Severnside Settlements, Rural Secondary Settlements, Main and Minor Villages, subject to compliance with the LDP policy framework. Affordable housing makes an important contribution to the sustainability of our towns and villages by providing homes that local people on low incomes can afford to live in. It also a means of providing low cost homes for first time buyers. A commuted sum also has the potential to bring forward additional units of housing to meet the specific housing needs of vulnerable groups. The provision of affordable housing will generate positive impacts on the local economy which is essential to the well-being of local communities and residents throughout Monmouthshire.

Future: Ensure that LDP's affordable housing policies are accurately interpreted and implemented fully through use of this Revised Draft SPG. The effectiveness of the affordable housing policies will be monitored on an annual basis in the LDP AMR.

Negative: Potential for some negative sustainability impacts where affordable housing development is located in main and minor villages where there is limited public transport and subsequent reliance on the private car, resulting in increased car use in these areas, albeit that this is likely to be minimal given the nature of small scale affordable housing development in rural areas. Therefore, the scope for such negative impacts is limited and will be carefully considered against the LDP policy framework.

Future: LDP AMRs will provide both an annual evaluation of plan performance, including affordable housing policies, and year by year comparison from which emerging long term trends may be identified and reported on. This will inform the evidence base for the replacement LDP.
