1. **Does your proposal deliver any of the well-being goals below?** Please explain the impact (positive and negative) you expect, together with suggestions of how to mitigate negative impacts or better contribute to the goal.

Well Being Goal	How does the proposal contribute to this goal? (positive and negative)	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
<p>A prosperous Wales Efficient use of resources, skilled, educated people, generates wealth, provides jobs</p>	<p>Removal of the cabinet function provides clarity and increases efficiency in delivering critical decisions and therefore saves resources and helps the authority to fulfil its legal functions.</p>	<p>none</p>
<p>A resilient Wales Maintain and enhance biodiversity and ecosystems that support resilience and can adapt to change (e.g. climate change)</p>	<p>Not applicable.</p>	

Appendix 1

Well Being Goal	How does the proposal contribute to this goal? (positive and negative)	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
<p>A healthier Wales People's physical and mental wellbeing is maximized and health impacts are understood</p>	<p>Completing orders in a more timely fashion improves residents health and well being as these are often contentious issues which need to be resolved swiftly. If an order is made and confirmed paths will be made available contributing again to peoples active lifestyles.</p>	
<p>A Wales of cohesive communities Communities are attractive, viable, safe and well connected</p>	<p>Assessments show that the current double cabinet and council function adds confusion to the public who often attend council meetings on the case they are interested in. Modification order cases in particular are complex and time consuming. The Council has a backlog of orders many of which have been applied for by community councils. Removing the Cabinet function will assist to provide more timely decisions enabling faster processing of orders. This helps reduce conflict in communities and assists often to a reduction in anti-social behaviour where there is clarity on a routes status and alignment.</p>	
<p>A globally responsible Wales Taking account of impact on global well-being when considering local social, economic and environmental wellbeing</p>	<p>n/a</p>	
<p>A Wales of vibrant culture and thriving Welsh language Culture, heritage and Welsh language are promoted and protected. People are encouraged to do sport, art and recreation</p>	<p>n/a</p>	
<p>A more equal Wales People can fulfil their potential no matter what their background or</p>	<p>n/a</p>

2. How has your proposal embedded and prioritised the sustainable governance principles in its development?

Sustainable Development Principle	How does your proposal demonstrate you have met this principle?	What has been done to better to meet this principle?
 <p>Long-term</p> <p>Balancing short term need with long term and planning for the future</p>	<p>Full consideration has been given to the range of options for delegated powers and some consultation has been carried out with Stakeholders during the rights of way improvement plan review. Stakeholders indicate that there is a need to process modification orders in particular in a more stream lined way and remove the backlog of outstanding applications. This would benefit landowners and Users in the Long term as it provides clarity on what highways exist.</p>	
 <p>Collaboration</p> <p>Working together with other partners to deliver objectives</p>	<p>All orders involve working closely with many different partners including applicants, landowners, users and other Stakeholders.</p>	
 <p>Involvement</p> <p>Involving those with an interest and seeking their views</p>	<p>Monmouthshire Local Access Forum and stakeholders have considered the position with modification orders and legal orders during the rights of way improvement plan assessment proposal. Officers also meet with applicants and other stakeholders during the processing of orders and all state that they are confused with the need for Cabinet as well as Council meetings to make a decision.</p>	

Appendix 1

Sustainable Development Principle	How does your proposal demonstrate you have met this principle?	What has been done to better to meet this principle?
 <p>Putting resources into preventing problems occurring or getting worse</p>	<p>We currently have a backlog of 41 modification orders which will all need a decision on whether or not to make an order, There are two big diversion schemes which will also need to be evaluated and a decision made on how to progress them. We received a direction from Welsh Government Planning Inspectorate last year to deal with one modification order more quickly. Resources are limited for this work as it is a statutory requirement and not something that attracts grant funding. It is important for applicants, users and landowners to deal with processing orders in a more timely fashion in order to provide clarity on whether highways exist or not, therefore reducing impact on the well-being of those involved.</p>	<p>The draft ROWIP has a statement of action to seek more resources to deal with the backlog of rights of way orders.</p>
 <p>Positively impacting on people, economy and environment and trying to benefit all three</p>	<p>The ability for faster decisions provides some clarity on the next part of the process for stakeholders</p>
