3. How has your proposal embedded and prioritised the sustainable governance principles in its development?

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p>Long Term</p> <p>Balancing short term need with long term and planning for the future</p>	<p>Assessments for a revised plan establish the need for long-term planning and management arrangements to ensure that outcomes in the plan if made are sustainable in the future.</p>	<p>The assessments & subsequent draft plan present actions to protect maintain and improve access to the countryside both now and for future generations. The plan recognises the long-term challenges of social, economic and environmental regeneration within Monmouthshire.</p>
 <p>Collaboration</p> <p>Working together with other partners to deliver objectives</p>	<p>The assessments and consultations identified that it is important to work in partnership with others both locally on a community basis and with volunteers, but also regionally and nationally with organisations such as Natural Resources Wales, Cadw and neighbouring authorities. Several new partners were identified.</p>	<p>The assessments have been widely promoted in social media and the press. There has been three consultations, one workshop and a set of questionnaires. The assessments have been prepared in collaboration with partner organisations, the local community and other key stakeholders including the Monmouthshire Local Access Forum. The resulting ROWIP includes the results of the public consultations. Furthermore, the draft plan has been subject to a further 3-month public consultation and will be amended again before being published.</p>
 <p>Involvement</p> <p>Involving those with an interest and seeking their views</p>	<p>The extensive consultations undertaken before and during the writing of the assessments has ensured that the local community and wider partners have been fully involved in the delivery of the assessment reports and the draft ROWIP.</p>	
 <p>Prevention</p> <p>Putting resources into preventing problems occurring or getting worse</p>	<p>Assessment three identifies resources, issues and looks at opportunities to maintain and improve countryside access. The last ROWIP has been instrumental in accessing substantial grant funding and improving the management of rights of way. Rights of way are severely under resourced, but a new ROWIP would give opportunities to work with others and look at ways of addressing resource issues.</p>	

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p>Considering impact on all wellbeing goals together and on other bodies</p>	The primary focus of the assessments is identifying the needs of the people now and in the future, using rights of way to benefit the economy, the environment and to provide the means for which the public can access our rich cultural heritage.	The new ROWIP ensures contribution to all 7 of the national well-being goals.
