1. Does your proposal deliver any of the well-being goals below? Please explain the impact (positive and negative) you expect, together with suggestions of how to mitigate negative impacts or better contribute to the goal.

Well Being Goal	How does the proposal contribute to this goal? (positive and negative)	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
<p>A prosperous Wales Efficient use of resources, skilled, educated people, generates wealth, provides jobs</p>	<p>Advertising supports local businesses and employment. Increased car parking and better management of existing car parking helps business and retail within the towns.</p>	<p>The new car park order will introduce a change to the current charging regime. New charges will be applied to some car parks within the authority rather than the current free offer. In addition blue badge holders will incur a charge but extra money is being invested into the car parks and blue badge holders will be given extra parking time by way of mitigation and similar to schemes in some other LA's.</p>

Well Being Goal	How does the proposal contribute to this goal? (positive and negative)	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
<p>A resilient Wales Maintain and enhance biodiversity and ecosystems that support resilience and can adapt to change (e.g. climate change)</p>	<p>Greater opportunities to park in local communities will discourage travelling further afield.</p>	
<p>A healthier Wales People's physical and mental wellbeing is maximized and health impacts are understood</p>	<p>By people having access to local parking could result in people socializing within their own community rather than travelling outside of their immediate community.</p>	
<p>A Wales of cohesive communities Communities are attractive, viable, safe and well connected</p>	<p>(+)Advertising helps to support commerce in our town centres. It has been recognized that there is insufficient car parking within Monmouth and this will seek to address this.</p> <p>(-)Car park management has to be reviewed periodically to ensure it remains appropriate for the users, retail, etc.</p>	<p>Free spaces will remain in towns whilst the charging regime is altered for existing car parks. Extra car parking is being created in Monmouth where a demand was recognized through consultation.</p>
<p>A globally responsible Wales Taking account of impact on global well-being when considering local social, economic and environmental wellbeing</p>	<p>Not applicable</p>	
<p>A Wales of vibrant culture and thriving Welsh language Culture, heritage and Welsh language are promoted and protected. People are encouraged to do sport, art and recreation</p>	<p>Not applicable</p>	<p>All current and potential Car park signs are bilingual. (Welsh and English)</p>

circumstances	available to support smaller enterprises.	

2. How has your proposal embedded and prioritised the sustainable governance principles in its development?

Sustainable Development Principle	How does your proposal demonstrate you have met this principle?	What has been done to better to meet this principle?
 <p>Long-term Balancing short term need with long term and planning for the future</p>	<p>Commerce relies upon advertising to grow. The introduction of advertising opportunities helps support local commerce, hence jobs and growth within the economy. Car park charging is an emotive subject and demands vary between towns. However the proposals and new car park order are tailored to meet the needs of each town. It also includes investment to improve parking facilities for coming years</p>	<p>The advertising policy creates opportunities that otherwise don't exist within the public realm and capital is being generated to improve the car parking infrastructure.</p>
 <p>Collaboration Working together with other partners to deliver objectives</p>	<p>We have spoken to other local authorities, commerce and local representatives about the proposal for advertising and car parking. Whilst the proposals will not be universally welcomed they are developed in the awareness of the views of various stakeholders</p>	<p>We will continue to talk with other Local Authorities, Commerce and the community.</p>
 <p>Involvement Involving those with an interest and seeking their views</p>	<p>The development of proposals for advertising has been done in discussion with other providers in the public and private sectors. Car parking proposals have been created in discussion with stakeholder groups and reported to select committee prior to submission to Cabinet</p>	<p>We will continue to consult and carry out our consultation plan for 2016/2017.</p>

Sustainable Development Principle	How does your proposal demonstrate you have met this principle?	What has been done to better to meet this principle?
 <p>Prevention</p> <p>Putting resources into preventing problems occurring or getting worse</p>	<p>The idea of the car park review has been to generate a new regime that better reflects the needs of the communities and addressing the problems highlighted through the review.</p>	
 <p>Integration</p> <p>Positively impacting on people, economy and environment and trying to benefit all three</p>	<p>Advertising will benefit the economy and create or sustain employment to the benefit of employees.</p>	<p>A better focused car parking regime assists the economy and users alike. Better local parking also encourages people to shop locally thereby reducing car travel.</p>

5. What evidence and data has informed the development of your proposal?

6. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?

Advertising supports commerce and employment although there may be some negative feedback from advertising signage where none presently exists.

A new car parking regime will support businesses but the most contentious matter will be the introduction of charges for blue badge holders. However there is precedent elsewhere and adjustments to the proposed scheme (i.e. an extra hour parking allowed when a parking ticket is purchased by a blue badge holder) recognize the mobility issues surrounding blue badge entitlement. The additional hour is proposed as a result of consultation with stakeholders.

7. Actions. As a result of completing this form are there any further actions you will be undertaking? Please detail them below, if applicable.
