can adapt to change (e.g. climate change)		
A healthier Wales People's physical and mental wellbeing is maximized and health impacts are understood	No impact as this relates to the built environment only.	None
A Wales of cohesive communities Communities are attractive, viable, safe and well connected	The property review has considered the need to deliver services locally and from as few buildings as possible to maximize their value to citizens whilst reducing operating costs.	The community hubs will where ever possible be the primary location for delivery of services within a local community. The hubs are being improved to maximize the buildings efficiencies and staff are currently being trained to deliver an integrated service. Community learning where possible will also be delivered through the hubs.
A globally responsible Wales Taking account of impact on global well-being when considering local social, economic and environmental wellbeing	Services are delivered locally and procurement for building adaptaions will be undertaken through approved frameworks. 2. How has your proposal embedded and prioritised the sustainable governance principles in its development?

Sustainable Development Principle	How does your proposal demonstrate you have met this principle?	What has been done to better to meet this principle?
 <p>Long-term</p> <p>Balancing short term need with long term and planning for the future</p>	<p>Rationalising the property estate will ensure that public funds are not being wasted on accommodation that is not needed. The review has had regard to strengthening communities through hubs, and community asset transfer policy as well as future proposals such as the M4 relief road and LDP.</p>	<p>Sustainability has been considered through the implementation of renewable technologies, local community need (CAT) and the impact of buildings and sites by the Local Development Plan. MCC has adopted a Community Asset Transfer policy in advance of the Localism Act 2011 be adopted in Wales.</p>
 <p>Collaboration</p> <p>Working together with other partners to deliver objectives</p>	<p>The proposals impact largely on properties owned and occupied by MCC staff. There are however contractual arrangements in place with agencies such as SEWTA and the proposals have been designed to ensure that response times to severe winter weather will not be impacted.</p>	<p>The CAT mandate identifies the opportunities to utilize our properties to work collaboratively with our local communities.</p>
 <p>Involvement</p> <p>Involving those with an interest and seeking their views</p>	<p>The properties impacted are occupied by MCC only.  <p>Prevention</p> <p>Putting resources into preventing problems occurring or getting worse</p>	<p>The property review is seeking to minimize unnecessary expenditure on property assets.</p>	<p>Property review is evaluating performance of the property estate and how to best use limited and decreasing financial resources without impacting negatively on front line service provision.</p>

Sustainable Development Principle	How does your proposal demonstrate you have met this principle?	What has been done to better to meet this principle?
 <p>Positively impacting on people, economy and environment and trying to benefit all three</p>	<p>The Councils property estate has 2 objectives, support front line service delivery and generate a funding stream to support front line services. This involves the sale of assets to generate a capital receipt which is ring fenced to funding the 21st century schools programme or revenue generation which is used to support service delivery. The property mandate seeks to identify ways of reducing operational property holding costs or generate additional revenue.</p> <p>Where possible we will seek to minimize the impacts of any new development, but acknowledge that this will not always be achievable with the development of greenfield sites included within the LDP. Such sites however have been allocated to provide much needed housing, both private and affordable as well as employment opportunities. Letting the accommodation within Innovation House will also provide employment opportunities with companies seeking to move into the area or expand from existing premises.</p>	<p>The implementation of the Community Asset Transfer policy, the concessionary rental grants scheme subsidies community and third sector occupation of council owned buildings and consultation with local communities when developing the development masterplan on LDP strategic sites.</p>

A property review has been undertaken that considers the holding costs of operational properties, number of users and the location sensitive nature of the services being provided. This has been used to develop a series of recommendations. Those proposals that involve revenue generation have been tested with commercial agents to establish the viability of the proposals. Service need has been determined by those providing the services.

6. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?

The proposals involve the generation of efficiency savings by releasing properties and thereby their holding costs which can be used to offset the budget shortfall in 16/17.
