The proposals are intended to respond to significant play value shortfalls in fixed play provision in the county, identified in the independent assessments carried out in 2019 and to establish a more sustainable model for future fixed play provision in the county. These proposals also respond to actions identified in the council’s 2019 play sufficiency action plan. In the short term it is intended to initiate a pilot project in Monmouth which will then be evaluated and if necessary refined, before it is rolled out to other communities across the county in the longer term. In Monmouth external grant funding has been accessed to look at the link between play and local nature improvements that should benefit the local community, the local environment and provision for wider community recreation opportunities.
