8. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?

The enclosed “ Socially Responsible Procurement Strategy 2023-27 ” and Delivery Plan has been developed after a number of external influences such as Brexit, the climate emergency response and the consequent supply chain vulnerabilities, and economic impact on our communities and associated cost pressures which have escalated since the Covid 19 pandemic and exacerbated further with the tensions in Ukraine.

UK government has drafted its response to the legislative framework that will govern the procurement processes in England and Wales for the coming years “ Transforming Public Procurement”, which is due to become law in 2023. Within a Welsh context this will be complimented by the “ Social Partnership and Public Procurement (Wales) Bill.

These influences helped to a large degree to help frame the strategic objectives of the pending strategy, whilst a host of interested stakeholders across Monmouthshire and Cardiff provided input into their areas of expertise. We anticipate that the seven key strategic objectives that have been agreed upon, along with a comprehensive set of actions, will go some way to face up to challenges that are upon us for the foreseeable future.

We do not envisage any negative impacts of the strategy and delivery plan.
