Mandate 31

ICT Savings (SRS & custom built software solutions)

The mandate's aim was to :- Drive cost efficiencies and income generation opportunities within the Shared Resource Service (SRS). This will subsequently result in MCC benefiting from reduced budget without any significant impact to service. And generate ongoing savings and user benefit from custom built software solutions being generated, then productised and sold commercially.

SRS have made 138k of their proposed 150k saving - still 20k saving to be found on software contracts however further savings of 20k have been found from vacancies.

The 100k savings that were to be achieved through in-house software development and the sale of products will not occur in 2016/17. Work continues to generate commercial returns from the sale or licencing of FLO, the Authority's social care app, though the app will only be marketable from Q1 in 2016/17 based on the most recent updates.

Alternative Delivery Plan (agreed by cabinet 2nd Dec*) – £110k achievable Continue to do work that is required to support the sale/licencing and commercialisation of FLO.

Work continues at month 9. The service is currently reviewing all budget areas and update on savings achievable will be known at Month 11.

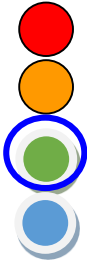

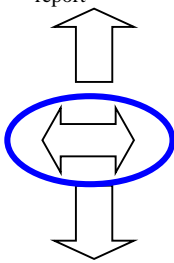

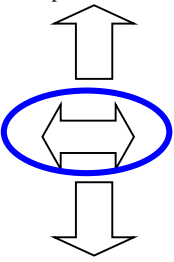

Restriction of non-essential spend across the People and Commercial Development division, together with a further review of ICT capital and revenue budgets, aims to identify scope to mitigate the existing £112k pressure.

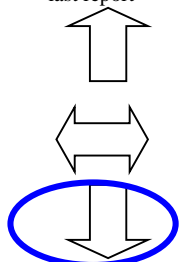

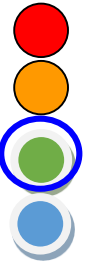

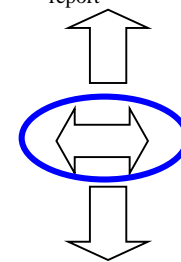

Alternative Delivery Plan – based on variance reported against original mandate at month 6.
