

**SUBJECT: GWENT REGIONAL PARTNERSHIP BOARD (RPB) AREA PLAN AND  
RPB ANNUAL REPORT 23/24**

**MEETING:** Council meeting

**DATE:** 23<sup>rd</sup> January 2025

**DIVISION/WARDS AFFECTED:** Regional Report (Monmouthshire, Torfaen, Newport, Blaenau Gwent, Caerphilly)

**1. PURPOSE:**

To update Members on the work of the Gwent Regional Partnership Board (RPB) in fulfilling local authority statutory duties required under the Social Services and Wellbeing (Wales) Act 2014, presenting the:

- Regional Area Plan 2023-2027, and
- RPB Annual report 2023/2024

**2. RECOMMENDATIONS:**

- 2.1.** Council to consider the joint commitments within the Area Plan.
- 2.2.** Ensure that Members have the opportunity to review the RPB Annual Report and progress made against the objectives; and provide any feedback/comments.

**3. KEY ISSUES:**

The Social Services and Wellbeing Act (2014) places a statutory duty on local authorities and health boards to prepare a regional Area Plan, following the publication of the region's population needs assessment (PNA) and Market Stability Report (MSR). The Gwent PNA was previously signed off by MCC members during Autumn 2022 and a commitment was made to share the Gwent Area Plan with MCC members, to set out how regional priorities are to be delivered in partnership.

3.1 The ***Gwent Area Plan 2023-2027 (appendix 1)*** has been completed and signed off by the Gwent Regional Partnership Board. An Area Plan summary has also been included as ***appendix 2***. The plan has been developed in partnership with Blaenau Gwent, Caerphilly, Monmouthshire, Newport, and Torfaen local authorities, and Aneurin Bevan University Health Board, Third Sector partners and the Regional Partnership Team. The Area Plan sets out the actions required to achieve the priorities identified in the PNA, by our partners and citizens, and closely aligns and share similar principles of working to the Public Service Board (PSB) and Well-being Plan. The Area Plan is reviewed annually to ensure we are meeting the needs of our communities.

3.2 The progress against delivery of key objectives in the Area Plan, is monitored through the **RPB Annual Report (Appendix 3)** which considers specifically the priority groups set out in the PNA and cross cutting themes. Key developments have also been set out in **appendix 4**.

Following the publication of the regional Population Needs Assessment (PNA) report each local authority and health board are required to prepare and publish an Area Plan setting out the range and level of services they propose to provide in response to the PNA core themes, which are:

- Children & Young People
- Older People, including People with Dementia
- Health & Physical Disabilities including Sensory Loss & Impairment
- Emotional Wellbeing and Mental Health
- Learning Disabilities
- Autism and Neurodevelopmental Conditions
- Unpaid Carers
- Violence Against Women, Domestic Abuse & Sexual Violence

3.1 Core themes are not addressed in isolation and there is an element of cross cutting working, in addition to the above including:

- A resilient skilled and integrated health and social care workforce
- Housing needs
- Rebalancing health and social care including social value
- Substance misuse
- Adult protection, child protection and safeguarding
- Transforming children's services and removing profit from the care of looked after children
- Tackling loneliness and isolation

3.2 Area plans must include the specific services planned in response to each core theme identified in the population assessment. As part of this, area plans must include:

- The actions partners will take in relation to the priority areas of integration for Regional Partnership Board
- Administer and monitor Welsh Government grant funding e.g. Integrated Care Fund.
- The instances and details of pooled funds to be established in response to the population assessment.
- How services will be procured or arranged to be delivered, including by alternative delivery models.
- Details of the preventative services that will be provided or arranged.
- Actions being taken in relation to the provision of information, advice, and assistance services
- Actions required to deliver services through the medium of Welsh

A section of the Area Plan is monitored at each Strategic Partnership that sits within the RPB governance structure, to monitor progress; with an annual review report by the RPB via an Annual Report which is submitted to Welsh Government. (**Appendix 2**)

The regional Area Plan has been developed with ABUHB and Integrated Service Partnership Board (ISPB) leads to ensure alignment with the Monmouthshire ISPB Plan. The RPB will work closely with the 5 ISPBs across the region to ensure plans are delivered in collaboration, resources maximised, and duplication is avoided. ISPB plans have to demonstrate alignment to the RPB population needs assessment, and the regional strategic partnerships will define integrated models of care, and work with the ISPBs to make an

assessment of how close they are to delivering those models, identify gaps and what can be addressed through the local Neighbourhood Care Networks. The RPB and Strategic Partnerships will identify specific actions within the Area Plan that are best delivered at the ISPB level and form part of a place-based care model. A copy of the Monmouthshire ISPB plan is published alongside the Area Plan <https://www.gwentrpb.wales/area-plan>

### **3.3 Conclusion**

This is the second Area Plan for Gwent (following the inaugural plan in 2017) where we will continue to develop on work already underway and address the care and support needs reflected in the most recent PNA. The Area Plan also links to Monmouthshire County Councils Improvement Plan and will align and complement other strategic plans such as the Public Service Board (PSB) Wellbeing Plans to avoid duplication and ensure national cross cutting priorities can be delivered.

The Area Plan will also set out high level actions to support winter planning and use of Welsh Government grants such as Regional Integration Fund; and members are asked to take note of any future implications to winter planning arrangements and tapering of funding.

## **4. EQUALITY AND FUTURE GENERATIONS EVALUATION**

Promoting equalities is a fundamental requirement of the Social Services and (Wales) Wellbeing Act 2014 and integral to the development of the Area Plan. An equality impact assessment was developed under the Population Needs Assessment and linked to the Public Service Boards (PSB) Wellbeing Assessment. Further monitoring and review will be ensured, during the lifetime of the Area Plan.

## **5. EVALUATION CRITERIA**

The Area Plan progress is evaluated annually via the RPB annual report to highlight key milestones and achievements made.

## **6. REASONS:**

The Regional Partnership Board complies to the Social Services and Wellbeing Wales Act to improve the wellbeing of the population and improve how health and social care services are delivered.

## **7. RESOURCE IMPLICATIONS:**

There are no direct financial implications related to this report. However, there are considerable Welsh Government grant funding streams supporting projects and staff across health and social care in Monmouthshire; and grant requirements and implications will need to be monitored closely.

## **8. PERSONNEL IMPLICATIONS**

8.1 No implications. Officers from the Gwent Regional Partnership Team have been working closely with Council's Corporate Policy Unit who have played a key part in ensuring the

alignment of both the regional Area Plan and Well-being Plan required under the Social Services and Wellbeing Act and Well-being of Future Generations Act respectively.

## 8. CONSULTEES:

Cllr Ian Chandler – Cabinet member for Social Care, Safeguarding and Accessible Health Services.
