

SUBJECT:	VARIOUS TRAFFIC REGULATION ORDERS - AMENDMENT ORDER NO. 16 2024
MEETING:	INDIVIDUAL CABINET MEMBER DECISION – COUNCILLOR CATRIN MABY
DATE:	26/02/2025
DIVISION/WARDS AFFECTED:	SEVERN, OVERMONNOW, WYESHAM, MOUNT PLEASANT

1. PURPOSE:

- 1.1 This report seeks Cabinet Member approval to proceed with several Traffic Regulation Orders throughout Monmouthshire. The Traffic Orders under consideration are listed under section 2 of this report.
- 1.2 The proposed Orders were advertised in accordance with the Local Authorities Traffic Orders (Procedure) (England and Wales) Regulations 1996.
- 1.3 If significant unresolved objections arise from the consultation, a public inquiry can be held to reach a decision. However, in this instance, it is considered that a public inquiry is not required. It is recommended that all the proposals proceed with the Traffic Orders made as detailed in section 2.

2. RECOMMENDATIONS:

- 2.1 It is recommended to not hold a public inquiry, and to proceed to approve and implement the proposed orders identified below:
 - 2.1.1 A Prohibition of Waiting at Any Time on Woodstock Way, Caldicot
 - 2.1.2 A 7.5T Weight Restriction on Mill Lane, Caldicot.
 - 2.1.3 A Prohibition of Waiting and Loading at Any Time on Wonastow Road Industrial Estate West, Monmouth.
 - 2.1.4 A Prohibition of Waiting at Any Time on Wyesham Avenue, Monmouth.
 - 2.1.5 A Prohibition of Waiting at Any Time on Wyesham Road and Highmeadow, Monmouth.
 - 2.1.6 A Limited Waiting Disabled Persons Parking Place on Hardwick Terrace B4293, Chepstow.
- 2.2 It is further recommended that the proposed order identified below be approved and implemented, with the extents of the order being subject to an insubstantial modification resulting in a less onerous arrangement than that originally proposed, as detailed in drawing 2205 REV B.
 - 2.2.1 A Prohibition of Waiting at Any Time on Wyesham Avenue, Monmouth.

3. KEY ISSUES

- 3.1 Monmouthshire County Council has received various requests and concerns from stakeholders and community representatives to introduce various Traffic Regulation Orders in the below named localities. A review of the concerns raised at each location listed below has been undertaken by officers and in accordance with government guidance and regulations. The proposals are intended to improve road safety for all highway users and

resolve issues at each location. A summary of the key issues for each location can be found below and these form the basis for the reasons for making the Order.

3.1.1 Prohibition of Waiting at Any Time - Woodstock Way, Caldicot

To enhance pedestrian safety at the high-traffic junction of Woodstock Way and Mill Lane, Caldicot, the Woodstock Way Active Travel Scheme proposes installing controlled pedestrian crossings. These crossings are essential for safe passage, especially with significant pedestrian movements near Caldicot School and the Leisure Centre.

However, parked vehicles near crossings can obstruct sightlines, endangering pedestrians and drivers. Therefore, to eliminate these obstructions and create a safer environment, a prohibition of waiting at any time order is proposed in the vicinity of the new crossings. This will ensure clear visibility and allow both motorists and pedestrians to navigate the area with greater confidence.

3.1.2 7.5T Weight Restriction - Mill Lane, Caldicot

The proposed pedestrian and cycle infrastructure, including the redesigned junction with signalised crossings and shared use paths at the junction of Woodstock Way and Mill Lane, requires careful management of vehicle types and sizes. The new road geometry will make it unsafe for HGVs to turn from Mill Lane onto Woodstock Way where there is a reduced turning radius.

To ensure the safety of pedestrians and cyclists, a 7.5T weight restriction is proposed. This will protect the new infrastructure, reduce hazards, and support the scheme's goal of creating a safer environment for active travel by preventing large vehicles from performing inappropriate turning manoeuvres whilst maintaining clear sightlines.

3.1.3 Prohibition of Waiting and Loading at Any Time - Wonastow Road Industrial Estate West, Monmouth

Residents and local representatives have raised concerns about safety issues on Wonastow Road Industrial Estate West, particularly regarding vehicles, often HGVs, that are frequently double-parked. This practice creates physical and visual obstructions, hindering traffic flow and posing safety risks.

To address these concerns and improve road safety, we propose implementing a Prohibition of Waiting at Any Time and a Prohibition of Loading at Any Time order. These restrictions will prevent vehicles from stopping, parking, or loading on the road, ensuring a clear and unobstructed passageway.

By implementing these restrictions, we aim to enhance road safety, improve traffic flow, and protect vulnerable road users by reducing the risk of accidents and collisions caused by obstructed visibility and limited manoeuvrability.

3.1.4 Prohibition of Waiting at Any Time - Wyesham Avenue, Monmouth

The Council has received a road safety concern from the local elected representative on behalf of residents of Wyesham Avenue. The concern relates to a specific section of the road where the implementation of a 'no waiting at any time' restriction is proposed.

The narrow carriageway width and the road's geometry, combined with the presence of parked vehicles, are causing difficulties for emergency service vehicles and refuse collection vehicles to access properties along this section of Wyesham Avenue. The carriageway is insufficiently wide to accommodate both parked vehicles and the safe and unimpeded passage of these essential vehicles.

Therefore, to ensure the safe and timely access of emergency services and refuse collection vehicles to properties along this section of Wyesham Avenue, a prohibition of waiting at any time is proposed.

However, given the substantial number of objections received from residents residing in the immediate vicinity of the proposed order, it is instead recommended that the extents of this order be reduced to only encompass the narrow access road leading to this location. This modification would effectively address the issue detailed above, while preserving on-street parking availability for residents.

3.1.5 Prohibition of Waiting at Any Time - Wyesham Road and Highmeadow, Monmouth

The Council has received a road safety concern from a local elected representative on behalf of concerned residents. Vehicles parked on Wyesham Road and Highmeadow are forcing other road users, including motorists and pedestrians, to cross into the opposing lane of traffic to circumvent the parked vehicles. This manoeuvre places these users directly in the path of oncoming traffic. The restricted forward visibility for vehicles traveling in both directions, exacerbated by the steep gradients at this bend, significantly increases the risk of head-on collisions involving vehicles and other road users.

Therefore, to mitigate these risks and improve road safety, a prohibition of waiting at any time is proposed for this location.

3.1.6 Limited Waiting Disabled Persons Parking Place - Hardwick Terrace B4293, Chepstow

Currently, a disabled parking bay exists on Hardwick Terrace. However, it has been reported that this bay is frequently misused, with vehicles often left parked for extended periods.

To ensure the bay remains accessible to those who genuinely need it, the authority proposes introducing a limited waiting time restriction. This means that during the hours the restriction is in effect, vehicles can only be parked for a maximum of 3 hours, aligning with the restrictions on other disabled bays in Chepstow Town Centre. This measure aims to prevent misuse and improve accessibility for disabled individuals who rely on these designated spaces.

4. EQUALITY AND FUTURE GENERATIONS EVALUATION (INCLUDES SOCIAL JUSTICE, SAFEGUARDING AND CORPORATE PARENTING):

- 4.1 The Prohibition of Waiting proposals aim to support improvements to the safety of highway users and ensure the free flow of traffic along the highway network. The introduction of waiting restrictions, will encourage more appropriate parking practices and support guidance provided in the Highway Code and Traffic Management Act.
- 4.2 The 7.5T Weight Restriction order will prohibit large vehicles from accessing a location where their size would necessitate dangerous turning manoeuvres within a restricted turning radius, posing a risk to both motorists and pedestrians.
- 4.3 The Disabled Persons Parking Place proposal aims to improve the well-being and quality of life for disabled drivers by providing a convenient and readily available parking space near essential locations in Chepstow Town Centre.

5. OPTIONS APPRAISAL

- 5.1 Table One below provides an options appraisal of the proposal:

Options	Benefits	Risks	Comments/ Mitigation
No action	Less demand on officer time and resource/budget	- Communities remain at risk from existing inconsiderate, unsafe and obstructive parking practices. - Motorists continue abuse available disabled parking spaces and leave vehicles for extended periods of time. - Unsafe maneuverers for larger vehicles remain available.	The benefits outweigh the resource implications.
Adopt the proposals as proposed	- A safer highway environment for all users with the free flow of traffic maintained. - Obstructive parking practices legally restricted. - Parking provisions ensured for residents and disabled motorists. - Larger vehicles restricted in ability to perform unsafe turning manoeuvres.	- Vehicles may be displaced, causing parking stress elsewhere, - The removal of available on-street parking locations.	This is the preferred option.

6. REASONS:

- 6.1 The proposals will support the national policy for improving road safety by creating a safer, highway environment for all highway users and lessening the frequency and severity of road traffic collisions and ensuring the free flow of traffic through the highway network.
- 6.2 The proposals are ultimately expected to benefit the health and well-being of residents in the affected communities, while also enhancing pedestrian and motorist safety.

7. RESOURCE IMPLICATIONS:

- 7.1 The proposals will be funded from the Council's Road Safety and Traffic Management budget and Active Travel Budget as part of the Caldicot Active Travel Scheme. If necessary, the implementation of some measures may be delayed until the new financial year.

8. CONSULTEES:

- Cabinet Member for Climate Change and the Environment
- Cabinet
- Communities and Place DMT
- SLT including Monitoring Officer and S151 Finance Officer
- The Traffic Orders were publicised in accordance with the statutory process including notification of County Councillors for the affected wards and the relevant Town/Community Council.

9. BACKGROUND PAPERS:

Appendix 1: Schedule of Consultation Responses

Ref.	Agree/Disagree and Location	Comments	Officers Response
374	Disagree - Wyesham Road and Highmeadow Proposed Prohibition of Waiting	i would request the double yellow lines are brought all the way down to wyesham road jnc not stopping at chestnut court. the lines will displace the vehicles that park in the outlined area closer to the formal junction with wyesham road causing a more serious safety issue.	Your comments have been duly noted. While your additional suggestions may be warranted, at this time we are unable to extend the scope of this proposal within the confines of this order. Subsequent to the implementation of this order, the matter will be subject to ongoing monitoring. Should an extension prove necessary, its inclusion in a future amendment order will be considered.
376	Agree - Wyesham Road and Highmeadow Proposed Prohibition of Waiting	Please extend the double yellow lines down towards the junction as cars often park there too and if you only prohibit parking on the higher areas of this road, cars will simply move lower down towards the junction, which is a blind corner if turning left and will cause accidents. The whole of the high meadow road up towards the start of the homes, needs to be double yellow lines on both sides of the road to prevent accidents	Your comments have been duly noted. While your additional suggestions may be warranted, at this time we are unable to extend the scope of this proposal within the confines of this order. Subsequent to the implementation of this order, the matter will be subject to ongoing monitoring. Should an extension prove necessary, its inclusion in a future amendment order will be considered.
377	Disagree - Wyesham Avenue Proposed Prohibition of Waiting	Vehicles have parked in the area proposed for the prohibition of waiting for at least the last 54 years that I have lived here. It is totally unreasonable to stop people parking here when there is no alternative area being provided in the vicinity, and I am concerned that the displaced vehicles will end up taking places in the main part of the Avenue, causing more congestion, and making access to the properties there more difficult.	Along this stretch of Wyesham Avenue, the narrow carriageway width and the road's geometry, compounded by the presence of parked vehicles, pose significant challenges to the access of emergency service vehicles and refuse collection vehicles to properties. The carriageway width is inadequate to accommodate both parked vehicles and the safe and unhindered passage of these essential services.

		I understand that this order is being sought following complaints about the one verge getting cut up by vehicles mounting the kerb to get past parked cars. The vehicles causing the damage are mostly the councils own bin lorries, so the simplest answer would be to get the bins in this part of the Avenue picked up by the narrower lorry that collects the bins in the lower part of Wyesham Avenue/Claypatch Road, which would cost nothing, other than the cost of sending letters to ten properties changing the collection day. Alternatively, the other way to alleviate the problem permanently would be to move the kerb where the verge is damaged back about 300mm, and infill with concrete. To loose this small amount of grass would have a negligible effect on the environment, especially as this area is now often cut up, and this would be my preferred solution.	Furthermore, local residents have expressed concerns regarding damage to the grass verge resulting from inconsiderate parking practices. While it is acknowledged that the implementation of this order may necessitate the relocation of parked vehicles, the benefits of its implementation in addressing the aforementioned issues are deemed to outweigh any potential drawbacks. Consequently, to ensure the safe and timely access of emergency services and refuse collection vehicles to properties along this section of Wyesham Avenue, the implementation of a prohibition of waiting at any time order is considered necessary to mitigate the disruption caused by the aforementioned issues.
378	Disagree - Wyesham Avenue Proposed Prohibition of Waiting	As a resident of the culdesac I understand why this is being proposed, due to vehicles blocking the entrance road. However, this proposal seems extreme in that it does not allow for even minimal visitor parking (I only have space for 1 car in front of my property), or for moving the car in the event of deliveries etc. This will cause huge issues and will also only serve to move parking to the front of the properties themselves, which will cause problems. The issues are being caused by a small number of properties (not in the culdesac) who have several cars, permanently parked here. In the absence of dealing with the relevant households I would therefore suggest either (a) a resident/ visitor parking permit system, or (b) consider removing	Your comments have been duly noted. In light of the substantial number of objections received from residents directly impacted by the proposed order, the scope has been amended to encompass solely the narrow access road. This amendment will still effectively address the issue of obstructed access by parked vehicles, while preserving on-street parking availability for the immediate residences. The ability for visitors and yourself to park on the highway immediately outside the residential properties will therefore remain unaffected.

		one of the paths in the entrance (double yellows) to continue enabling parking without blocking access. I am strongly against the proposal in its current form and would appreciate the opportunity to discuss. Thank you.	
379	Disagree - Wyesham Avenue Proposed Prohibition of Waiting	Double yellow lines do not need to be all the way around the circle, i opposed this in the beginning, where do you think residents visitors are going to park, at the original meeting, the double yellow lines were only to be put on the straight, the ideal solution would be small 'laybys' on the straight in between the trees, your idea is not a solution as people will park on the grass out side peoples windows, this will not be acceptable.	Your comments have been duly noted. In light of the substantial number of objections received from residents directly impacted by the proposed order, the scope has been amended to encompass solely the narrow access road. This modification will still effectively address the issue of obstructed access by parked vehicles, while preserving on-street parking availability for the immediate residences. Your ability to park on the highway immediately outside the residential properties will therefore remain unaffected.
380	Agree - Wyesham Avenue Proposed Prohibition of Waiting	I fully support it as I feel people using the road to permanently park their cars, who live elsewhere, are causing obstructions to both our access for services such as deliveries and council collections and also emergency services. It is also very dangerous to pull out of tge junction into the circle due to limited visibility due to cars parking on tge corner to the junction. I would be open to the yellow lines ending just before the roundabout area for visitors amd deliveries to be able to pull up for short visits.	Your comments have been duly noted. In light of the substantial number of objections received from residents directly impacted by the proposed order, the scope has been amended to encompass solely the narrow access road. This modification will still effectively address the issue of obstructed access by parked vehicles, while preserving on-street parking availability for the immediate residences.
381	Agree - Wyesham Avenue Proposed Prohibition of Waiting	YELLOW LINES ARE DEFINITELY NEEDED so that council and delivery vehicles can enter our cul de sac without any difficulties. We DO NOT want our kerbs or grass verges dug up so that a selfish few can park their cars there. (Incidentally the cars parked there do not live in the cul de sac) Also in the past emergency vehicles have	Your comments have been duly noted. In light of the substantial number of objections received from residents directly impacted by the proposed order, the scope has been amended to encompass solely the narrow access road. This modification

		struggled to enter the cul de sac . Thank you	will still effectively address the issue of obstructed access by parked vehicles, while preserving on-street parking availability for the immediate residences.
382	Disagree - Wyesham Avenue Proposed Prohibition of Waiting	I am 80 years of age, this is going to stop my children and grandchildren visiting me, this is not needed around the circle, i have lived here 55 years and it is only new neighbours that have caused this over bins not being collected, this has now been sorted out and our bins are getting collected, so no need for any double yellow lines at all	Your comments have been duly noted. In light of the substantial number of objections received from residents directly impacted by the proposed order, the scope has been amended to encompass solely the narrow access road. This modification will still effectively address the issue of obstructed access by parked vehicles, while preserving on-street parking availability for the immediate residences. Your ability to park on the highway immediately outside the residential properties will therefore remain unaffected.
383	Agree - Wyesham Avenue Proposed Prohibition of Waiting	I think it will be safer for children and also for emergency services. Yellow lines along the main road in and out onto the main road corners. They don't need to go around the roundabout as this impedes deliveries.	Your comments have been duly noted. In light of the substantial number of objections received from residents directly impacted by the proposed order, the scope has been amended to encompass solely the narrow access road. This modification will still effectively address the issue of obstructed access by parked vehicles, while preserving on-street parking availability for the immediate residences.
387	Disagree - Wyesham Avenue Proposed Prohibition of Waiting	Very little parking available for the properties along Wyesham Avenue. Very little disruption caused by current parking. Why fix something that isn't broken	Along this stretch of Wyesham Avenue, the narrow carriageway width and the road's geometry, coupled with the presence of parked vehicles, are creating significant challenges for emergency service vehicles and refuse collection vehicles

			to access properties. The carriageway is insufficiently wide to allow for both parked vehicles and the safe and unhindered passage of these essential services. Furthermore, local residents have reported concerns regarding damage to the grass verge caused by inconsiderate parking practices. Consequently, to ensure the safe and timely access of emergency services and refuse collection vehicles to properties along this section of Wyesham Avenue, the implementation of a prohibition of waiting at any time order is considered necessary to address the disruption caused by the aforementioned issues. However, In light of the substantial number of objections received from residents directly impacted by the proposed order, the scope has been amended to encompass solely the narrow access road. This modification will still effectively address the issue of obstructed access by parked vehicles, while preserving on-street parking availability for the immediate residences.
388	Disagree - Wyesham Road and Highmeadow Proposed Prohibition of Waiting	Why? Hardly any vehicles park there and when they do they cause little disruption. MCC money could be spent better elsewhere. Feels like spending money before end of financial year.	The Council has received a road safety concern from the local elected representative on behalf of concerned residents. Vehicles parked on Wyesham Road and Highmeadow are forcing other road users, including motorists and pedestrians, to cross into the opposing lane of traffic to circumvent the parked

			vehicles. This manoeuvre places these users directly in the path of oncoming traffic. The restricted forward visibility for vehicles traveling in both directions, exacerbated by the steep gradients at this bend, significantly increases the risk of head-on collisions involving vehicles and other road users. Therefore, to mitigate these risks and improve road safety, a prohibition of waiting at any time is considered necessary at this location.
389	Disagree - Wyesham Avenue Proposed Prohibition of Waiting	I currently park here as I live in the house on the corner of this street. Where will I be able to park if I cannot park here ? There is no where else!?!?! Cars have always parked here and been fine. I believe the best resolution is to set back the curb on the opposite to where people park by a couple of feet to widen the road. There has never been an issue with regard to cars being damaged. Ultimately I need to be able to park in the same neighbourhood as my house!	Your comments have been duly noted. In light of the substantial number of objections received from residents directly impacted by the proposed order, the scope has been amended to encompass solely the narrow access road. This modification will still effectively address the issue of obstructed access by parked vehicles, while preserving on-street parking availability for the immediate residences. Your ability to park on the highway immediately outside the residential properties will therefore remain unaffected.
385 (Elected Ward Member)	Agree - Wyesham Road and Highmeadow Proposed Prohibition of Waiting	I have received a great many comments from residents concerned that cars being left along this road are causing a hazard as drivers coming up the hill are forced into the opposite lane on a blind bend. I have received reports of a number of near misses due to the careless positioning of cars near the bend on this road. It is particularly hazardous at night I understand. Many residents feel that double yellows placed here would clarify that it is not safe to leave cars parked here at any time.	Your comments have been noted.

386 (Elected Ward Member)	Agree - Wyesham Avenue Proposed Prohibition of Waiting	I have received a number of complaints from residents living at the end of this cul-de-sac saying that a great many vehicles are being left along the narrow access road and are preventing bin lorries etc from accessing the area. Delivery vehicles are forced to mount the kerb to access the end, digging into the grass bank, causing an eyesore and spreading mud across the road. The residents are unhappy seeing the area churned up in this manner consistently, they tidy it up only for the grass to be churned up again. Sometimes the bin lorry is unable to access the area at all. Residents are concerned that one day an emergency vehicle might not be able to gain access. I understand that none of the vehicles being left here belong to the residents of the cul-de-sac. Most houses on Wyesham Avenue have a drive or private parking for at least 1 vehicle, a great many have private parking for at least 2.	Your comments have been duly noted. In light of the substantial number of objections received from residents directly impacted by the proposed order, the scope has been amended to encompass solely the narrow access road. This modification will still effectively address the issue of obstructed access by parked vehicles, while preserving on-street parking availability for the immediate residences.
390	Agree - Wonastow Road Industrial Estate Proposed Prohibition of Waiting	Residents are concerned about pedestrian safety when large vehicles are waiting to drop off deliveries. The implementation will ensure clearer visibility on the road and a safer environment for all road users.	Your comments have been noted.

Appendix 3: Notice of Intention

**ROAD TRAFFIC REGULATION ACT 1984
NOTICE OF INTENTION TO MAKE A PERMANENT ORDER**

**MONMOUTHSHIRE COUNTY COUNCIL
MONMOUTHSHIRE COUNTY COUNCIL TRAFFIC REGULATION, SPEED LIMITS AND PARKING
REGULATIONS CONSOLIDATION ORDER 2019
(AMENDMENT ORDER NO 16) 2025**

**PROPOSED PROVISION AND AMENDMENTS TO TRAFFIC
ORDERS WITHIN VARIOUS COMMUNITIES IN MONMOUTHSHIRE**

NOTICE IS HEREBY GIVEN that Monmouthshire County Council of County Hall, The Rhadry, Usk, NP15 1GA ("the Council") propose to make a Road Traffic Regulation Order as follows:

EFFECT OF THE ORDER:

- To introduce a Prohibition of Waiting at Any Time on Woodstock Way, Caldicot
- To introduce a 7.5T Weight Restriction on Mill Lane, Caldicot.
- To introduce a Prohibition of Waiting and Loading at Any Time on Wonastow Road Industrial Estate West, Monmouth.
- To introduce a Prohibition of Waiting at Any Time on Wyesham Avenue, Monmouth.
- To introduce a Prohibition of Waiting at Any Time on Wyesham Road and Highmeadow, Monmouth.
- To introduce a Limited Waiting Disabled Persons Parking Place on Hardwick Terrace B4293, Chepstow.

Within the locations identified on the plans, which are available to view at County Hall, Usk or online via <http://www.monmouthshire.gov.uk/public-consultation-traffic>

Further details of the proposed Order, comprising a copy of the draft order, plans and a statement of reasons for proposing to make the Order may be examined via pre-arranged appointment at County Hall, Usk NP15 1GA (appointments can be arranged by e-mailing traffic@monmouthshire.gov.uk) or by phoning 01633 644644 or online via <http://www.monmouthshire.gov.uk/public-consultation-traffic> or the via the below QR code.

Any representations in respect of this proposal should be made not later than 5pm on **Wednesday the 15th January 2025** by either:

- Sending a written letter, stating the grounds on which the representation is being made, addressed to: Traffic Section, Monmouthshire County Council, County Hall, Usk NP15 1GA;
- Or by scanning the QR code below and selecting "How to comment on a proposed TRO", where the public Consultation response form can be accessed.

Date: 18th December 2024

**Carl Touhig
Head of Neighbourhood Services
Monmouthshire County Council**

Appendix 4: Statement of Reasons

**MONMOUTHSHIRE COUNTY COUNCIL
MONMOUTHSHIRE COUNTY COUNCIL TRAFFIC REGULATION, SPEED LIMITS AND
PARKING REGULATIONS CONSOLIDATION ORDER 2019
(AMENDMENT ORDER NO 16) 2025**

**PROPOSED PROVISION AND AMENDMENTS TO TRAFFIC
ORDERS WITHIN VARIOUS COMMUNITIES IN MONMOUTHSHIRE**

EFFECT OF THE ORDER:

- To introduce a Prohibition of Waiting at Any Time on Woodstock Way, Caldicot
- To introduce a 7.5T Weight Restriction on Mill Lane, Caldicot.
- To introduce a Prohibition of Waiting and Loading at Any Time on Wonastow Road Industrial Estate West, Monmouth.
- To introduce a Prohibition of Waiting at Any Time on Wyesham Avenue, Monmouth.
- To introduce a Prohibition of Waiting at Any Time on Wyesham Road and Highmeadow, Monmouth.
- To introduce a Limited Waiting Disabled Persons Parking Place on Hardwick Terrace B4293, Chepstow.

STATEMENT OF REASONS

Drawing Number	Associated Road Name(s)	Details
2202	Woodstock Way, Caldicot	Proposed Prohibition of Waiting at Any Time To enhance pedestrian safety at the high-traffic junction of Woodstock Way and Mill Lane, Caldicot, the Woodstock Way Active Travel Scheme proposes installing controlled pedestrian crossings. These crossings are essential for safe passage, especially with significant movements near Caldicot School and the Leisure Centre. However, parked vehicles near crossings can obstruct sightlines, endangering pedestrians and drivers. Therefore, to eliminate these obstructions and create a safer environment, a prohibition of waiting at any time order is proposed in the vicinity of the new crossings. This will ensure clear visibility and allow both motorists and pedestrians to navigate the area with greater confidence.
2203	Mill Lane, Caldicot	Proposed 7.5T Weight Restriction (Except Buses) for west-bound traffic only and 7.5T Weight Restriction for west-bound traffic only The proposed pedestrian and cycle infrastructure, including the redesigned junction with signalised crossings and shared use paths at the junction of Woodstock Way and Mill Lane, requires careful management of vehicle types and sizes. The new road geometry will make it unsafe for HGVs to turn from Mill Lane onto Woodstock Way. To ensure the safety of pedestrians and cyclists, a 7.5T weight restriction is proposed. This will protect the new infrastructure, reduce hazards, and support the scheme's goal of creating a safer environment for active travel by preventing large vehicles from performing dangerous turning manoeuvres and maintaining clear sightlines.

2204	Wonastow Road Industrial Estate West, Monmouth	Proposed Prohibition of Waiting and Loading at Any Time Residents and local representatives have raised concerns about safety issues on Wonastow Road Industrial Estate West, particularly regarding vehicles, often HGVs, that are frequently double-parked. This practice creates physical and visual obstructions, hindering traffic flow and posing safety risks. To address these concerns and improve road safety, we propose implementing a Prohibition of Waiting at Any Time and a Prohibition of Loading at Any Time order. These restrictions will prevent vehicles from stopping, parking, or loading on the road, ensuring a clear and unobstructed passageway. By implementing these restrictions, we aim to enhance road safety, improve traffic flow, and protect vulnerable road users by reducing the risk of accidents and collisions caused by obstructed visibility and limited manoeuvrability.
2205	Wyesham Avenue, Monmouth	Proposed Prohibition of Waiting at Any Time The Council has received a road safety concern from the local elected representative on behalf of residents of Wyesham Avenue. The concern relates to a specific section of the road where the implementation of a 'no waiting at any time' restriction is proposed. The narrow carriageway width and the road's geometry, combined with the presence of parked vehicles, are causing difficulties for emergency service vehicles and refuse collection vehicles to access properties along this section of Wyesham Avenue. The carriageway is insufficiently wide to accommodate both parked vehicles and the safe and unimpeded passage of these essential vehicles. Therefore, to ensure the safe and timely access of emergency services and refuse collection vehicles to properties along this section of Wyesham Avenue, a prohibition of waiting at any time is proposed.
2206	Wyesham Road and Highmeadow, Monmouth	Proposed Prohibition of Waiting at Any Time The Council has received a road safety concern from a local elected representative on behalf of concerned residents. Vehicles parked at the location in question are forcing other road users, including motorists and pedestrians, to cross into the opposing lane of traffic to circumvent the parked vehicles. This manoeuvre places these users directly in the path of oncoming traffic. The restricted forward visibility for vehicles traveling in both directions, exacerbated by the steep gradients at this bend, significantly increases the risk of head-on collisions involving vehicles and other road users.

		Therefore, to mitigate these risks and improve road safety, a prohibition of waiting at any time is proposed for this location.
2207	Hardwick Terrace B4293, Chepstow	Disabled Persons Parking Place (Monday to Saturday, 9am to 5pm), 3 hour limited waiting period, no return within 1 hour. Currently, a disabled parking bay exists on Hardwick Terrace. However, it has been reported that this bay is frequently misused, with vehicles often left parked for extended periods. To ensure the bay remains accessible to those who genuinely need it, we propose introducing a limited waiting time restriction. This means that during the hours the restriction is in effect, vehicles can only be parked for a maximum of 3 hours, aligning with the restrictions on other disabled bays in Chepstow Town Centre. This measure aims to prevent misuse and improve accessibility for disabled individuals who rely on these designated spaces.

Service delivery Use of Welsh language in service delivery Promoting use of the language	Any new highway signs and carriageway markings will be bi-lingual with Welsh appearing in front of English as per current guidance.	None identified at this stage	N/A

4. Does your proposal deliver any of the well-being goals below? Please explain the impact (positive and negative) you expect, together with suggestions of how to mitigate negative impacts or better contribute to the goal. There's no need to put something in every box if it is not relevant!

Well, Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
A prosperous Wales Efficient use of resources, skilled, educated people, generates wealth, provides jobs	Neutral.	N/A
A resilient Wales Maintain and enhance biodiversity and ecosystems that support resilience and can adapt to change (e.g., climate change)	Neutral.	N/A
A Healthier Wales People's physical and mental wellbeing is maximized, and health impacts are understood	Positive: Safer highway environments will be more attractive for alternate transport modes such as cycling, walking, and scooting by the development of Active Travel Routes.	N/A
A Wales of cohesive communities Communities are attractive, viable, safe, and well connected	Positive: Development of Active Travel Routes facilitated.	N/A
A globally responsible Wales Taking account of impact on global well-being when considering local social, economic, and environmental wellbeing	Positive: Improved accessibility for residents will improve local social wellbeing.	N/A
A Wales of vibrant culture and thriving Welsh language Culture, heritage, and Welsh language are promoted and protected. People are encouraged to do sport, art, and recreation	Positive: All street signs and road markings will be bilingual with Welsh above English.	N/A

Well, Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
A more equal Wales People can fulfil their potential no matter what their background or circumstances	Positive: Easier travelling routes for those without access to a motor vehicle.	N/A

3. How has your proposal embedded and prioritised the sustainable governance principles in its development?

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 Long Term Balancing short term need with long term and planning for the future	N/A	N/A
 Collaboration Working together with other partners to deliver objectives	N/A	N/A
 Involvement Involving those with an interest and seeking their views	Statutory consultation has been undertaken with all necessary stakeholders including the general public.	N/A

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 Prevention Putting resources into preventing problems occurring or getting worse	Proposals will be enforced by Monmouthshire County Council's Civil Enforcement Team and/or Gwent Police.	None
 Integration Considering impact on all wellbeing goals together and on other bodies	The proposal will have a positive impact on wellbeing by allowing safer streets, improved disabled parking provisions and motorists being restricted in their ability unable to park in an obstructive manner.	None

4. Council has agreed the need to consider the impact its decisions have on the following important responsibilities: Social Justice, Corporate Parenting and Safeguarding. Are your proposals going to affect any of these responsibilities?

	Describe any positive impacts your proposal has	Describe any negative impacts your proposal has	What will you do/ have you done to mitigate any negative impacts or better contribute to positive impacts?
Social Justice	None identified at this stage	None identified at this stage	N/A
Safeguarding	None identified at this stage	None identified at this stage	N/A
Corporate Parenting	None identified at this stage	None identified at this stage	N/A

5. What evidence and data has informed the development of your proposal?

Officer observations and correspondence from the respective communities and their elected representatives.
Prior consultation and data recorded as part of the planning of the Caldicot Active Travel Scheme.

6. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?

- 1.1 **Positive impacts:** The proposed waiting restrictions will contribute to providing a safer highway network for all users. It will also ensure the free flow of traffic through the network, especially for refuse collection and emergency service vehicles. Improved pedestrian and cyclist facilities in communities.

7. ACTIONS: As a result of completing this form are there any further actions you will be undertaking? Please detail them below, if applicable.

What are you going to do	When are you going to do it?	Who is responsible
Implement the proposals as advertised	Following the making and publication of the traffic regulation orders	Traffic Team (Graham Kinsella, Phaedra Cleary, Gareth Freeman, Georgina Edwards)

8. VERSION CONTROL: The Equality and Future Generations Evaluation should be used at the earliest stage, such as informally within your service, and then further developed throughout the decision-making process. It is important to keep a record of this process to demonstrate how you have considered and built-in equality and future generations considerations wherever possible.
