1. **Are your proposals going to affect any people or groups of people with protected characteristics?** Please explain the impact, the evidence you have used and any action you are taking below.

<u>Protected Characteristics</u>	Describe any positive impacts your proposal has on the protected characteristic	Describe any negative impacts your proposal has on the protected characteristic	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
<p>Age</p> <p><i>Consider the impact on our community in relation to age, e.g. how do we engage with older and younger people about our services, access issues etc. Also consider what issues there are for employment and training.</i></p>	<p>The placemaking plans will support the regeneration of town centres, helping to retain locally accessible services in thriving businesses. Enabling communities to safely access local shops and services will benefit those who are without internet access or who cannot travel far to shop/use amenities: these issues disproportionately affect older people. High Streets can be enhanced with improved public realm and attractive buildings. Placemaking will provide thriving places that are pleasant to dwell in, both supporting local businesses and helping those who are lonely, which may disproportionately affect elderly people who are widowed.</p>	<p>None</p>	<p>Public realm improvements may include additional street seating allowing people with limited mobility, expectant or new parents or young children to rest.</p>

<u>Protected Characteristics</u>	Describe any positive impacts your proposal has on the protected characteristic	Describe any negative impacts your proposal has on the protected characteristic	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
Disability <i>Consider the impact and what issues there are around each of the disability needs groups e.g. access to buildings/services, how we provide services and the way we do this; producing information in alternative formats, employment issues etc.</i>	<p>The placemaking plans will support the regeneration of town centres, helping to retain locally accessible services in thriving businesses. Enabling communities to safely access local shops and services will benefit those who are without internet access or who cannot travel far to shop/use amenities. These issues disproportionately affect people with disabilities.</p>	<p>Changes to the public realm can be disorientating for people with sight difficulties and visual impairment and could be distressing for people with severe autism.</p> <p>New street furniture and other elements introduced through public realm improvements may pose potential obstacles to those with visual impairments or mobility difficulties. Care will therefore be taken with the siting of these elements.</p>	<p>Public realm improvements may include additional street seating allowing people with limited mobility, expectant or new parents or young children to rest.</p> <p>Careful consideration will be given to the needs of people with disabilities before implementing any changes.</p>

Marriage or civil partnership <i>Same-sex couples registered as civil partners have the same rights as married couples and must be provided with the same benefits, such as survivor pensions, flexible working, maternity/paternity pay and healthcare insurance. Consider the impact of your proposal on these rights.</i>	No impact	No impact	-

<u>Protected Characteristics</u>	Describe any positive impacts your proposal has on the protected characteristic	Describe any negative impacts your proposal has on the protected characteristic	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
Pregnancy or maternity <i>A woman is protected from discrimination during her pregnancy, maternity leave and 26 weeks from the day she gives birth. Including the provision of services, goods and facilities and recreational or training facilities. Consider the impact of your proposal on these protections.</i>	Public realm improvements can include additional street seating allowing people to rest and feed children.	New street furniture and other elements introduced through public realm improvements may pose potential obstacles to those with pushchairs or prams. Care will therefore be taken with the siting of these areas.	Public realm improvements may include additional street seating allowing people with limited mobility, expectant or new parents or young children to rest.
Race <i>What will the proposal do to promote race equality with the aim of eliminating unlawful discrimination, promoting equality of opportunity and promoting good relations between different racial groups. <u>Protected Characteristics</u>	Describe any positive impacts your proposal has on the protected characteristic	Describe any negative impacts your proposal has on the protected characteristic	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
Sex <i>Consider what issues there are for men and women. Will this impact disproportionately on one group more than another e.g. equal pay, responsibilities for dependents, issues for carers, access to training, employment issues.</i>	Retail and hospitality businesses provide a significant number of valued job opportunities. Supporting people to shop locally and buy goods and services locally supports the retention of those jobs. Data suggests that these jobs are disproportionately held by females.	No impact	Changes to the public realm will consider matters such as lighting to ensure that everyone is safe and feels safe. Feeling unsafe at night disproportionately affects females.

2. The Socio-economic Duty

The Socio-economic Duty requires public bodies to have due regard to the need to reduce inequalities of outcome which result from socio-economic disadvantage when taking key decisions.

Socio-economic disadvantage can be defined as living in less favorable social and economic circumstances than others in society. It also includes social justice, which is about reducing inequalities by working towards more equal distribution of wealth and opportunities so everyone can achieve their full potential.

Consider how the proposal could affect the following vulnerable groups:

Armed Forces Community (including veterans)

Single parents

Vulnerable families

Single adult households

Carers

Students

People living in the most deprived areas

Pensioners

Homeless People

People misusing substances

People who have experienced the asylum system

People involved in the criminal justice system

<u>Socio-economic Duty</u>	Describe any positive impacts your proposal has in respect of people suffering socio economic disadvantage	Describe any negative impacts your proposal has in respect of people suffering from socio economic disadvantage.	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts in relation to the Socio-economic disadvantage?
<i>Think of what evidence you have about socio-economic disadvantage and inequalities of outcome in relation to this proposal. Will it impact disproportionately on certain groups? Can the proposals be improved to reduce inequalities of outcome?</i>	The placemaking plans will support the regeneration of town centres, including by creating an environment in which businesses can thrive – for example by improving the quality of the environment in the town centre, through investment in key town centre buildings, or by creating meanwhile use and pop-up opportunities for small businesses. An economically thriving town centre may create new employment and training opportunities which could benefit people suffering socio economic disadvantage.	None	The Regeneration team will liaise with colleagues in the Economy, Employment and Skills section to maximise opportunities.

3. Policy making and the Welsh language

What are the effects that the proposals would have on the Welsh language, specifically on opportunities for people to use Welsh and on treating the Welsh language no less favourably than English? How could positive effects be increased, or negative effects be mitigated? Explain how you believe the proposals could be improved so as to have positive effects or increased positive effects on opportunities for people to use the Welsh language and on treating the Welsh language no less favourably than the English language.

How does your proposal impact on the following aspects of the Council's Welsh Language Standards :	Describe the positive impacts of this proposal	Describe the negative impacts of this proposal	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts
Policy Making: <i>Consider what impact this policy decision will have on the Welsh Language. This includes opportunities for people to use the language, opportunities to promote the language and treating the language no less favourably than the English language. Include any data and evidence e.g. WESP, Census Data, Cymraeg 2050, Welsh Language Strategy.</i>	Placemaking Plans will be translated when adopted. Consultation will be bilingual.	No negative impact	-
Operational: Recruitment & Training of workforce <i>Carefully consider whether vacant posts require Welsh language skills as a desirable or essential skill. This is especially pertinent with front line roles as more than 10 % of the population of Monmouthshire speak Welsh. Also, when assessing the need for Welsh language skills keep in mind the existing Welsh language skills within the workforce. In service areas where there is a current lack of Welsh language skills, posts should be advertised as Welsh language essential. Additionally, consider where further training may be needed to increase the number of staff who can speak Welsh and to enhance the skills of current Welsh speakers.</i>	n/a	n/a	-

Creating such an environment will support retail, services, hospitality outlets which in turn attracts businesses and jobs whilst adding to the general prosperity and vitality of a town centre. This in turn supports the infrastructure to enable citizens and communities to thrive and support local businesses.		A marketing campaign is proposed to promote the grant opportunities to local businesses.
A resilient Wales <i>Maintains and enhances a biodiverse natural environment with healthy functioning ecosystems that support social, economic and ecological resilience and the capacity to adapt to change (for example climate change).</i>	Public realm improvements may help to create a safer environment for pedestrians and cyclists and encourage active travel instead of car use.
