Introduction

Adrian Crompton

Auditor General for
Wales

I am pleased to share my 2025 Audit Plan. The Plan sets out how I will undertake your audit.

My audit team has developed the Plan following a structured and risk-based planning process, which will remain ongoing throughout the audit. My [Code of Audit Practice](#) provides further detail on how my audit and certain other functions are to be carried out by my auditors.

At the core of all our work is our commitment to maintaining the highest standards of professional integrity, objectivity, independence and audit quality. Our three

lines of assurance model (page 13) sets out how we will ensure those standards of quality are met. Our latest annual quality report, [Audit Quality Report 2024](#), provides more information about our audit quality arrangements.

My audit team will work constructively with your staff to understand the issues you are facing, ensure the audit process operates as smoothly as possible, and provide valuable insights about any areas for improvement.

Should you have any questions about your audit my audit team will be happy to discuss them with you. They will also keep you regularly updated as work progresses.

Audit work

Audit of financial statements

I am required to issue a report on your financial statements which includes an opinion on their 'truth and fairness' and their proper preparation in accordance with accounting standards and legal requirements.

I will also report by exception on a number of matters which are set out in more detail in our Statement of Responsibilities.

There have been no limitations imposed on me in planning the scope of this audit.

Financial statements materiality

I do not seek to obtain absolute assurance on the truth and fairness of the financial statements and related notes but adopt a concept of materiality. My aim is to identify material and correct misstatements, that is, those that might result in a reader of the accounts being misled. Materiality applies not only to financial misstatements, but also to disclosure requirements and adherence to the applicable accounting framework and law.

I set planning and performance materiality to:

- Determine the level of misstatement that could cause the user of the accounts to be misled;
- Assist in the scoping of our audit approach and resultant audit tests;
- Determine sample sizes;
- Assess the effect of known and likely misstatements in the financial statements; and
- Report to those charged with governance any unadjusted misstatements above a trivial level, our reporting threshold.

The levels at which I judge such misstatements to be material is set out below.

There are some areas of the accounts that may be of more importance to the user of the accounts, and we have set a lower materiality level for these:

Related party disclosures
£5,000

My audit team will assess materiality levels throughout the audit.

Significant financial statements risks

Significant risks are identified risks of material misstatement for which the assessment of inherent risk is close to the upper end of the spectrum of inherent risk or those which are to be treated as a significant risk in accordance with the requirements of other International Standard on Auditing (ISAs). The ISAs require us to focus more attention on these significant risks.

Risk of management override

The risk of management override of controls is present in all entities. Due to the unpredictable way in which such override could occur, it is viewed as a significant risk.

Our planned response

My audit team will:

- test the appropriateness of journal entries and other adjustments made in preparing the financial statements;
- review accounting estimates for bias; and
- evaluate the rationale for any significant transactions outside the normal course of business.

Other areas of focus

I set out below other identified risks of material misstatement which, although not determined to be significant risks as above, I would like to bring to your attention.

Valuation of property assets

The value of property assets reflected in the balance sheet and notes to the accounts are material estimates.

Property assets are required to be held on a valuation basis which is dependent on the nature and use of the assets. This estimate is subject to a high degree of subjectivity, depending on the specialist and management assumptions, and changes in these can result in material changes to valuations.

Assets are required to be formally revalued annually, but values may also change year on year, and there is a risk that the carrying value of assets recognised in the accounts could be materially different to the current value of assets as at 31 March 2025.

Our planned response

My audit team will:

- review the information provided to the valuer to assess for completeness;
- evaluate the competence, capabilities and objectivity of the professional valuer;
- test a sample of assets revalued in the year to ensure the valuation basis, key data and assumptions used in the valuation process are reasonable, and the revaluations have been correctly reflected in the financial statements;

Audit fee

In January 2025 we published our 2025-26 Fee Scheme following approval by the Senedd Finance Committee which details the average increase to fee rates of 1.7%.

The actual fee that any individual audited body will pay depends not just on our fee rates but on the quantum of work and the skill mix required.

Your fee is exclusive of VAT.

Planning will be ongoing, and changes to my programme of audit work, and therefore my fee, may be required if any key new risks emerge. I shall make no changes without my auditors first discussing them with the S151 Officer.

Your estimated audit fee: £8,135 (2023-24 £8,000)

I base my audit fee on the following assumptions:

- The agreed audit deliverables set out the expected working paper requirements to support the financial statements and include timescales and responsibilities.
- No matters of significance, other than as summarised in this plan, are identified during the audit.

Audit team

My audit team will continue to work and engage remotely using technology, but some on-site audit work will occur if appropriate to do so.

Audited bodies have a responsibility to ensure the safety and wellbeing of Audit Wales staff when they are on your premises.

The main members of my team, together with their contact details, are summarised in **Exhibit 2**.

I can confirm that my team members are all independent of Monmouthshire County Council, the Welsh Church Act Fund and your officers.

Audit quality

Our commitment to audit quality in Audit Wales is absolute. We believe that audit quality is about getting things right first time.

We use a three lines of assurance model to demonstrate how we achieve this. We have established an Audit Quality Committee to co-ordinate and oversee those arrangements. We subject our work to independent scrutiny by the Institute of Chartered Accountants in England and Wales and our Chair of the Board, acts as a link to our Board on audit quality.
