Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
A prosperous Wales Efficient use of resources, skilled, educated people, generates wealth, provides jobs	<p>Positive: The APR seeks to shape an efficient and engaging development management process providing support and guidance for customers to ensure the best development possible for the benefit of local communities and to protect the character and appearance of Monmouthshire. Planning can provide economic investment and growth, and can protect acknowledged interests such as local amenity and townscape. Identifying areas for improvement and learning what works well elsewhere can ensure that customers are getting effective advice early in the process which is critical in securing positive outcomes and appropriate forms of development.</p> <p>Negative: Some areas for improvement may necessitate customers having to pay for elements of</p>	<p>Better contribute to positive impacts: The APR identifies areas for improvement to make the development management process more responsive and efficient for our customers' applications for developments that are of a high standard.</p> <p>Mitigate any negative impacts: Care will be taken to improve the planning process via interventions set out in the associated report. The team will focus on positive outcomes rather than being process driven. We will continue to monitor performance through the actions we take, relevant performance measures and 1:1s with case officers.</p>

	the service which can be considered to be costly by some customers.	
A resilient Wales Maintain and enhance biodiversity and ecosystems that support resilience and can adapt to change (e.g. climate change)	<p>Positive: An effective and efficient DM service allows case officers to consider the implications of any development on biodiversity and ecosystems at an early stage in the application process. Officers who are the decision-makers are able to consider the impacts of decisions on ecological interests. This system would not deteriorate as a result of the proposed revisions to the DM process and indeed may provide a more effective system.</p> <p>Negative: None identified.</p>	<p>Better contribute to positive impacts: The actions identified should speed up the delivery of sustainable development.</p> <p>Mitigate any negative impacts: None</p>
A healthier Wales People's physical and mental wellbeing is maximized and health impacts are understood	<p>Positive: Actions to improve the DM process would enhance support and guidance for customers when submitting a planning application and provide the opportunity for officers to add value to development proposals and provide acceptable forms of the development, which should improve Monmouthshire citizens' access to local services, such as shops, health and recreational/ play facilities, or prevent inappropriate development from harming the amenity of an area, or indeed the health of local people. Development should promote active travel to ensure it is sustainable.</p> <p>Negative: None identified.</p>	<p>Better contribute to positive impacts: The approval and delivery of development proposals can have a positive impact on health and well-being and foster social and community pride in their communities.</p> <p>Mitigate any negative impacts: None</p>
A Wales of cohesive communities Communities are attractive, viable, safe and well connected	<p>Positive: The area of work undertaken by the Planning Team directly and indirectly influences the</p>	<p>Better contribute to positive impacts: The timely approval and delivery of sustainable development</p>

	<p>appearance, viability, safety and connectivity of communities via planning policy and land use planning decisions. Providing clear and effective guidance and support to customers at an early stage in the planning process is more likely to lead to positive outcomes that enable the best forms of development possible. This is critical in providing sustainable communities. Taking timely and reasonable enforcement action against inappropriate development can reduce impact on local amenity and health.</p> <p>Negative: None identified.</p>	<p>proposals can have a positive impact on the character and appearance of an area, promote well-being and foster social and community pride.</p> <p>Mitigate any negative impacts: None</p>

The approval of renewable energy proposals will allow Wales to play its part in tackling the effects of climate change.</p> <p>Negative: none.</p>	<p>Better contribute to positive impacts: None</p> <p>Mitigate any negative impacts: None</p>
<p>A Wales of vibrant culture and thriving Welsh language Culture, heritage and Welsh language are promoted and protected. People are encouraged to do sport, art and recreation</p>	<p>Positive: Planning decisions promote the value and significance of the historic built environment by ensuring that it is a direct consideration in planning policy and land use planning decisions. Planning decisions generally facilitate the provision of tourist and recreation development, including playing fields</p>	<p>Better contribute to positive impacts: Timely planning decisions will ensure that proposals foster civic pride through well-designed development in historic areas or through the removal of development that has a negative impact on a heritage designation via enforcement action.</p> <p>Mitigate any negative impacts: None</p>

<p>A more equal Wales People can fulfil their potential no matter what their background or circumstances</p>	<p>Positive: Appropriate and timely development management decisions should bring positive benefits to all members of Monmouthshire's population through policies that seek to achieve the five main aims of the Wales Spatial Plan, namely Building Sustainable Communities, Promoting a Sustainable Economy, Valuing our Environment, Achieving Sustainable Accessibility and Respecting Our Environment</p> <p>Negative: none.</p>	None.

3. How has your proposal embedded and prioritised the sustainable governance principles in its development?

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p>Long Term</p> <p>Balancing short term need with long term and planning for the future</p>	<p><i>We are required to look beyond the usual short term timescales for financial planning and political cycles and instead plan with the longer term in mind (i.e. 20+ years)</i></p> <p>The LDP covers the period 2011-21. The Council's Development Management function which makes planning decisions seeks to implement the policies of the LDP which promotes sustainable development. By its nature, therefore, it cannot look beyond the next five-year period but the SA/SEA of the LDP would have ensured consideration of the impact on future generations. The revision to the LDP will seek to adopt land use planning policies up until 2033 taking into account the county's socio-economic challenges.</p>	<p>Ensure that the LDP and its policies have been subject to an appropriate level of scrutiny. This also applies to the current revision of the LDP.</p>
 <p>Collaboration</p> <p>Working together with other partners to deliver objectives</p>	<p>Monmouthshire's Planning Service believes in working with its customers (which include not just applicants but the public, other Council departments, other local authorities, third sector agencies and businesses) to improve its offer to its customers to meet their needs. This APR identifies areas for improvement to achieve this aim. It is subject to scrutiny and endorsement by Members of both the Council's Performance & Overview Select Committee and Planning Committee. Members and officers of the Council have a specific interest in the subject to ensure that sustainable forms of development are carried out in Monmouthshire.</p>	<p>Any observations offered by Committee will be taken into account as part of the submission process to Welsh Government.</p>

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p>Involvement</p> <p>Involving those with an interest and seeking their views</p>	<p><i>Who are the stakeholders who will be affected by your proposal? Have they been involved?</i></p> <p>The APR is subject to consultation with Members of the Performance and Overview Select Committee and Planning Committee whose Members have a specific interest in the subject, as well as senior officers of the Council.</p>	<p>As above.</p>
 <p>Prevention</p> <p>Putting resources into preventing problems occurring or getting worse</p>	<p>The APR's aim is to identify areas for improvement in the Planning Service and to initiate actions for meaningful improvement. This would provide the basis for timelier decisions to secure much needed sustainable development. Taking timely and reasonable enforcement action against inappropriate development can reduce impact on local amenity and health.</p>	<p>N/A</p>
 <p>Integration</p> <p>Considering impact on all wellbeing goals together and on other bodies</p>	<p><i>There is space to describe impacts on people, economy and environment under the Wellbeing Goals above, so instead focus here on how you will better integrate them and balance any competing impacts</i></p> <p>The work undertaken by the Planning Service directly relates to promoting and ensuring sustainable development and its three areas: environment, economy and society.</p>	<p>Improvements to the DM process would facilitate the implementation of the LDP which has been subject to a Sustainability Assessment that balances the impacts on Social, Economic and Environmental factors.</p>

The work undertaken by the Council's Planning Service, and in particular the Development Management function, directly relates to promoting and ensuring sustainable development. The planning process promotes sustainable forms of development, helping to create jobs and investment, while protecting material interests such as amenity, public safety and biodiversity.
