2. The Socio-economic Duty and Social Justice

The Socio-economic Duty requires public bodies to have due regard to the need to reduce inequalities of outcome which result from socio-economic disadvantage when taking key decisions This duty aligns with our commitment as an authority to Social Justice.

	Describe any positive impacts your proposal has in respect of people suffering socio economic disadvantage	Describe any negative impacts your proposal has in respect of people suffering socio economic disadvantage.	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?

Socio-economic Duty and Social Justice	The business case seeks to increase the sufficiency of appropriate placements closer to home for care experienced children and supports the repatriation of Monmouthshire children back into the county. The provision will enable care experienced young people to develop their life skills and support their pathway to independence so that their future life chances and economic mobility are improved. The provision is designed for care experienced young people who have medium to high support needs, which is currently a gap in provision. This additional stepping stone approach will help vulnerable young people sustain future stable accommodation and tenancies. Bringing young people closer to their families and support networks will ensure there are reduced socio-economic barriers for parents and guardians to engage with their children. The development of accommodation close to community resources will reduce the economic impact on the young people when accessing EET, with transport infrastructure becoming more accessible.	There is no evidence to suggest that the proposal will have a negative impact on people who are socio-economically disadvantaged.	Placement of young people closer to home and communities to improve social and economic mobility where appropriate. Ensuring the project is close to schools, employment opportunities, youth and health services to enhance the opportunities for supporting our young people to achieve their personal wellbeing outcomes and become more independent.

5. What evidence and data has informed the development of your proposal?

Commissioning Data

As at 17.06.2026 the authority had 71 children/ young people who are currently being accommodated in residential care homes or with foster carers who are 14 + (i.e. those who are already 16+ or who will be turning 16 in the next 2 years). Based on an understanding of their current care and support needs, many of these young people will require a step-down provision with medium to high support (such as the current project) to support them with their transition out of a care environment.

This table shows the placement types for the current 14 plus cohort of young people.

Placement Type	Children and Young People Placed in County	Children and Young People Placed Out of County	Total Number of Children and Young People
Monmouthshire Foster Carer	5	4	9
Independent Foster Carer	1	11	12
Monmouthshire Kinship Carer	15 (Includes PWP)	6 (Includes PWP)	21
Residential Care	6	4	10
Semi-independent/Transitional Accommodation (all 3rd party)	4	15	19
Total	31	40	71

Out of the above numbers 43 young people are already aged 16 or over.

These young people are currently being accommodated in various placements type.

- 11 young people in UASC accommodation provisions
- 9 young people in supported type accommodation provisions
- 5 young people in residential accommodation
- 2 young people accommodated by an IFA.
- 5 young people are with LA foster carers.
- 3 young people are living connected carers
- 7 placed with own parents
- 1 is living independently

Financial Data - including the costs associated with a representative group of young people; revenue costs of running the scheme and borrowing costs to undertake the proposed renovations to the property. This has allowed us to undertake financial modelling on both 100% and 80% occupancy levels.

6. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?

This section should summarise the key issues arising from the evaluation. This summary must be included in the Committee report template

Positives

Our project proposes to repatriate Monmouthshire children. Bringing our children back into our communities where they can access local education, employment opportunities and youth services that will support their social development and increase their social and economic mobility.

The ability to create a bespoke provision that meets the needs of the young people, moving them forward in their development in a supportive environment, until they are ready to transition into more independent accommodation.

Safeguarding for our young people will be improved with increased oversight of the support being delivered. MCC will have the opportunity to have full design of the support delivery specification.

Bringing young people closer to their families and support networks will see reduced socio-economic barriers.

This proposal will represent a financial saving, with the redistribution of revenue currently being spent in the private sector and out of county being redirected to our service. This proposal will also provide new jobs in the community with the procurement of a service provider to manage the home.

The proposal will contribute to the improved emotional wellbeing of young people, having greater access to local services and maintaining links to their family and community.

Negatives

Preparation is required in order to ensure the Welsh language is present and encouraged within the home. Welsh language and culture development may be needed for both young people and staff.

Community engagement will need to be at the forefront of the development moving forward as this may represent a barrier if not managed correctly and communities are not well informed.
