

Economy & Development Select Committee Portfolio Position Statement Outturn (2015-16)

APPENDIX 3

DIRECTOR'S COMMENTARY

The service exhibited a £70k underspend prior to consideration of deferred reserve funding and additional contributions made to reserves. The most significant aspect of reserve funding deferred reflects Eisteddfod facilitation. It has always planned to be a multi-year funding consideration with more significant expenditure elements being incurred in the year the Eisteddfod takes place. Also the extent of community fundraising in relation to Eisteddfod is such to allow a review of reserve funding demands and £130,000 previously caveated reserve funding will not be required going forward into 2016/17. Similarly an underspend of £130k reserve funding to support people and organisational development work, has effectively enabled the absorption of the net cost of our contribution to due diligence works required for the Circuit of Wales scheme, without additional pressure on reserve levels.

The Directorate has also responded to significant upheaval during the year with regard to significant mandated saving delivery and re-engineering of services, having incurred and pleasingly absorbed in full the effect of £562,000 redundancy costs without any additional call on reserve funding being necessary. This is especially important given the scale and nature of the demands placed on the service – both in terms of increased cost efficiency and additional income generation – and the implementation of significant service redesign in Community Hubs and Community Learning and introduction of significant legislation in Planning and Housing.

Looking forward, continuing cost pressures remain around markets, leisure, museums and culture, and whilst we are generating more income than ever – it remains insufficient in meeting annually uplifted targets. This reflects some of the issues we're experiencing whereby the current service formats, mean we have saturated the markets available to us and without considerable capital investment - it is not feasible to charge premium rates. This position which will not change as things currently stand, is now of the rationale underpinning exploration of alternative delivery vehicles and the Future Monmouthshire programme.

Achieving this outturn against a very unstable backdrop and increasingly challenging targets is very pleasing. It is entirely down to the exceptional abilities, willingness and efforts of the many brilliant teams and individuals who work so tirelessly and enterprisingly to maintain local services in our county.

Mandate 31

ICT Savings (SRS & custom built software solutions)

Current status

Trend since last report

The mandate's aim was to :-
Drive cost efficiencies and income generation opportunities within the Shared Resource Service (SRS). This will subsequently result in MCC benefiting from reduced budget without any significant impact to service. And generate ongoing savings and user benefit from custom built software solutions being generated, then productised and sold commercially.

SRS have made all of the 150k proposed savings. The 100k savings that were to be achieved through in-house software development and the sale of products will not occur in 2016/17. However, and through other savings being achieved as part of the Enterprise recovery plan, the pressure was managed with the Enterprise Directorate reporting a balanced budget position at year end.

Alternative Delivery Plan (agreed by cabinet 2nd Dec*) – £110k achievable

Continue to do work that is required to support the sale/licencing and commercialisation of FLO.

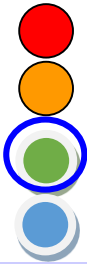

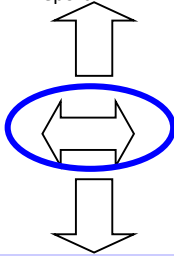

Alternative Delivery Plan – based on variance reported against original mandate at month 6.

Work continues to generate commercial returns from the sale or licencing of FLO, the

Abergavenny Markets

Current status

Trend since last report

The objective was to run additional market stalls on existing market days in Neville street and St Johns Square, Abergavenny. Expansion of flea markets and boot sales and to hold special markets/events in Cross Street Abergavenny.

The service has been unable to generate the additional income. This mainly due to operational, resource and PR challenges.

A new structure has been established from January 2016, and income generation opportunities around events and increased markets activity are being explored.

Alternative Delivery Plan (agreed by cabinet 2nd Dec) – 50k achievable from the variance reported at Month 6

Cease all repair and maintenance work to asset portfolio.

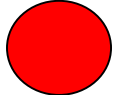

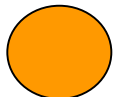

The service achieved £41,855 at outturn.

To build an income generation plan for future years.
