

**Appendix 1 - Capital Pressures**

Description of Pressure	Forecast Cost	Responsible Officer / Champion
<b>Current Rights of Way issues (Whitebrook byway)</b> - Engineering assessments have been completed on landslip / collapse of byway at Whitebrook, estimated cost of repairs in the region of £70-£80k.	75,000	Matthew Lewis
<b>Current Rights of Way issues (Wye and Usk Valley Walks)</b> - Engineering assessments have been completed on river erosion / landslips on the Wye and Usk Valley Walks. [Monmouth] (Wye Valley Walk) £23,925, [Clytha] (Usk Valley Walk) £46,725, [Coed Y Prior] (Usk Valley Walk) £9,900, site investigations/design £5,500.	86,000	Matthew Lewis
<b>The major review of the waste Mgt and recycling service</b> is ongoing and will report in the new year to Members. Proposals may include consideration of receptacles rather than bags (anticipated cost of between £0.3-1.3m). Current options are exploring the possibility of using revenue budgets to meet this cost.	1,300,000	R Jowitt/C Touhig
<b>Monmouth Community Amenity site upgrade</b> - indicative costs are £1.5-2m if built and run by the Council. The transfer station and CA capital costs could be avoided if the Council decided it was best value to procure a build, finance, operate contract for its sites in future. The work to evaluate these options will follow on after kerbside collection.	2,000,000	R Jowitt/C Touhig
<b>Property Maintenance requirements for both schools &amp; non-schools</b> as valued by condition surveys carried out some years ago. The existing £2m annual budget mainly targets urgent maintenance e.g. health & safety, maintaining buildings wind & watertight, etc., and is insufficient to address the maintenance backlog. A lack of funding means maintenance costs will rise; that our ability to sell buildings at maximum market rates will be affected ; Our ability to deliver effective services will be affected and a Loss of revenue and poor public image.	22,000,000	R M O'Dwyer
<b>Disabled adaptation works to public buildings</b> required under disability discrimination legislation.	7,200,000	R M O'Dwyer
<b>School Traffic Management Improvements</b> - based on works carried out on similar buildings.	250,000	R M O'Dwyer
<b>Refurbishment of all Public Toilets</b> - Capital investment required to facilitate remaining transfers to Town and Community Councils	95,000	R M O'Dwyer
<b>School fencing improvements</b>	68,000	LEA & Headteacher
<b>Modification works to school kitchens to comply with Environmental Health Standards.</b> Without additional funding school kitchens may have to be closed and additional costs for transporting meals in incurred, possibly causing disruption to the education process.	38,000	R M O'Dwyer
<b>Radon remedial works</b> Following the commissioning of Radon Wales to carry Radon Surveys of public buildings, remedial works will be required at various premises to resolve issues	75,000	R M O'Dwyer

<p><b>Countryside Rights of Way work</b> needed to bring network up to statutorily required and safe standard. This should be taken as a provisional figure as surveys and assessments of bridges and structures are on-going and the rights of way prioritisation system which includes risk assessment will more accurately define and rank the backlog. Bridge management report on 787 bridges completed in October 2013 identifies 254 known bridge issues of which 77 need repair, 31 replacement &amp; 80 are missing. 68 have 'other' issues including 51 bridges which require full inspection to further ascertain requirements/costs. 13 bridges are 10m+ and require replacement or repair. It is not possible to cost all of these currently but a ball park figure of £288k has been identified for the first tranche of issues. Additional ROW allocation (30K) helping, but scale of overall pressure means these figures are still relevant</p>	2,200,000	I Saunders
<p><b>Transportation/safety strategy</b> –Air Quality Management, 20 m.p.h legislation and DDA (car parks)</p>	1,200,000	R Cope
<p><b>Disabled Facilities Grants (DFGs)</b> - The DFG's budget has remained unchanged for the last ten years. Each year the fully committed/spent date falls earlier in the financial year. This year we expect the budget to be fully committed by end October.</p>	500,000	I Bakewell
<p><b>Bringing County highways to the level of a safe road network.</b> This backlog calculation figure has been provided by Welsh Government. The Authorities Capital Programme is not addressing the backlog significantly as the annual level of funding available is not of sufficient magnitude to address this. The annual programme is set in relation to the approved budget and this programme is shared with all members. Routes are selected on the basis of their significance within the overall highway network and their condition. Programmes are reviewed annually around December and then distributed to members.</p>	80,000,000	R Hoggins
<p><b>Investing in infrastructure projects needed to arrest road closures due to whole or partial bank slips.</b> Without additional expenditure there is the potential for deterioration, increased scheme costs, disruption to communities and the travelling public and road closures.</p>	5,000,000	R Hoggins
<p><b>Backlog on highways structures including old culverts, bridges and retaining walls.</b> With existing budget this backlog will take 23 years to cover and there will be increased likelihood of loss of network availability.</p>	12,700,000	R Hoggins
<p><b>Reprovision or repair of Chain Bridge</b> - Cost prediction is indicative at present. Summary quotes updated August 15. The bridge is currently under special management measures and inspection. Repair/ repositioning will remove / minimise the need for these measures. Without remedial work, the structure will continue to deteriorate. The current 40T maximum limit will have to be further reduced restricting access to the Lancayo area especially for heavy vehicles. Options evaluated from repairing sufficiently to maintain 40t limit, to converting to footbridge and repositioning</p>	1,800,000 to 7,500,000. Mid point 4,700,000	R Hoggins
<p><b>Caldicot Castle remedial works</b> - longer term pressures given the condition of the curtain walls / towers etc. The £2-3m estimate is a ball part figure ranging from just the backlog of maintenance to also including improvements to bring the visitor facilities up to modern standards. An RDP grant is paying for a condition survey / outline conservation plan. The current condition of buildings constrains current operations and will impact on future management options including the assessment of viability of potential Cultural Services Trust. Heritage Lottery Funding is possible (but very competitive) Substantial match funding would still be required.</p>	3,000,000	I Saunders
<p><b>Severn View Care Facility renewal</b> - the starting point is that MCC is seeking the re-provision of approximately 30 residential beds for older people living with dementia and a day service 6 days per week supporting 15 people per day. The existing home was built c1979 and although the layout is good, it has a number of significant weaknesses which we will seek to address through detailed work on design to meet identified needs in the area.</p>	?	Julie Boothroyd
<p><b>Band B Schools programme - dependent on WG funding streams</b></p>	?	

<b>Total Pressures</b>	<b>137,787,000</b>	
<b>Capital investment for revenue savings</b>		
<b>Leisure and cultural services</b> - Currently the service is exploring future delivery options including trust status. Part of the work will involve conditions surveys which may lead to capital works being required to expedite handover of assets. Included:- e.g. museums, Shire hall, Abergavenny castle, Old station Tintern, Caldicot castle	1,000,000	
<b>ALN Strategy</b> -review of current ALN service that includes various County facilities. Options could require Capital Spend but this is unknown at the present time	?	
<b>Abergavenny Hub costs</b>	?	
<b>Office accommodation</b> - reflective of J&E block, Usk HQ and car park changes, scheme currently being reviewed	1,130,000
