## Strategic Tourism Policy

### S11 Visitor Economy

Development proposals that provide and/or enhance sustainable forms of tourism will be permitted subject to detailed planning considerations.

Development proposals that would have an unacceptable adverse impact on features and areas of tourism interest and their settings, or that would result in the unjustified loss of tourism facilities will not be permitted.

## Development Management Tourism Policies

### Policy T1 – Touring Caravan and Tented Camping Sites

New touring caravan and tented camping sites and the expansion of such sites will only be permitted where:

- a) there is no unacceptable impact on the countryside having regard to biodiversity, landscape quality and the visibility from roads, viewpoints and other public places;
- b) there are no permanently sited caravans;
- c) the development can be satisfactorily supervised without the need for additional permanent living accommodation for wardens; and
- d) there are no adverse safety and / or amenity effects arising from the traffic generated and access requirements

### Policy T2 – Visitor Accommodation outside Settlements

New build serviced or self-catering visitor accommodation will be allowed outside town and village development boundaries as ancillary development to established medium or large hotels.

Otherwise, outside town and village development boundaries, the provision of permanent serviced or self-catering visitor accommodation will only be permitted if it consists of the re-use and adaptation of existing buildings and the conversion of buildings for such uses complies with the criteria set out in Policy H4.

As an exception to the above proposals to provide visitor accommodation may be permitted where they involve:

- a) the substantial rebuild of a building within the curtilage of an existing and occupied farm property where it assists in an agricultural diversification scheme in accordance with Policy RE3.
- b) the conversion of buildings of modern construction and materials provided the buildings are appropriate for residential use (e.g. not modern agricultural or factory buildings); not of substandard quality and /or incongruous appearance; and have been used for their intended purpose for a significant period of time. Particularly close scrutiny will be given to proposals

relating to those buildings less than 10 years old, especially where there has been no change in activity on the unit.

c) the conversion of buildings that are too small or are inappropriately located to provide appropriate standards of space and amenity for conversions to permanent residential accommodation but are suitable for tourist accommodation.

Where conversions to tourism accommodation are allowed in the exceptional circumstances set out in criteria a) to c) above then the occupancy of the building will be restricted in perpetuity to short stay tourist accommodation.

All proposals will be considered against other plan policies and should integrate with their surroundings, in terms of design and layout and how the proposal will function.

### **Policy T3 – Golf Courses**

Development proposals for golf courses, golf driving ranges and associated facilities including buildings, will be permitted subject to detailed planning considerations. All proposals must be accompanied by a landscape impact assessment and ecological appraisal. Clubhouses and associated facilities should re-use or adapt existing buildings where possible. If a new building is required it should be limited in scale, suitably located and designed and meet the criteria set out in Policy LC1. Buildings not genuinely ancillary to golf uses will not be permitted, although consideration may be given to proposals to provide visitor accommodation that support the tourist economy, subject to detailed planning considerations

## **Other Key LDP Tourism Related Policies**

### **Policy S8 – Enterprise and Economy**

Development proposals that seek to deliver the Council's vision for sustainable economic growth will be permitted, particularly where they enable:

Development to enable the diversification of the rural economy will be permitted outside settlement development boundaries where it is of a scale and type compatible with the surrounding area and will cause no unacceptable harm to the surrounding landscape, historic and cultural heritage, biodiversity or local amenity value. Development must re-use or adapt existing buildings where possible. The exceptional circumstances in which new buildings may be permitted outside settlement boundaries to assist in the diversification of the rural economy are set out in Policies RE1, RE3, RE6, T2 and T3.

- b) the proposal is supported by an appropriate business case which demonstrates the link to existing business activity and the benefits of the scheme in terms of sustaining employment / the rural economy;
- c) in relation to new build, the applicant must demonstrate that there are no existing buildings suitable for conversion / re-use in preference to new build;
- d) with regard to diversification proposals for visitor accommodation, new build will only be permitted where it consists of the substantial rebuild of a building within the curtilage of an existing and occupied farm property, as specified in Policy T2;
- e) where rebuild is permitted under criteria c) and d) any rebuilding work should respect or be in sympathy with the local and traditional characteristics of the building;
