2. How has your proposal embedded and prioritised the sustainable governance principles in its development?

Sustainable Development Principle	How does your proposal demonstrate you have met this principle?	What has been done to better to meet this principle?
 <p>Balancing short term need with long term and planning for the future</p>	<p>The Social Housing Grant Programme is a 3 year rolling programme for the delivery of affordable housing. This allows delivery to meet short term need together with the ability to plan for the longer term. It is difficult to look beyond the 3 year period as the Council does not know what its Welsh Government grant allocation will be in the future.</p>	<p>A Local Housing Market Assessment has been undertaken to show likely housing need over the next five years. This will be updated every two years.</p>
 <p>Working together with other partners to deliver objectives</p>	<p>Housing and Communities Officers work closely with other departments of the Council such as Planning, Estates, Legal and Social Care to ensure timely delivery of all types and tenures of affordable housing. They also work closely with RSLs (delivery partners), the Rural Housing Enabler (RHE) and Community Councils.</p>	<p>Regular meetings with delivery partners are held to ensure that our working relationships stay strong thus enabling successful delivery of affordable housing.</p>
 <p>Involving those with an interest and seeking their views</p>	<p>When new sites in rural areas are planned consultation meetings are held locally to give people the opportunity to air their views and to contribute to the type, tenure and design of the affordable housing. These meetings also give people an opportunity to register for housing and give Council staff the opportunity to find out if there are concerns in the Community Council area, other than housing, that residents wish to raise.</p>	<p>Through the RHE a closer working relationship with Community Councils has been developed. This helps to ensure that communities are able to have their say on type, tenure and design of the affordable housing to be delivered in their areas.</p>

6. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?

The positive impact of this proposal is that affordable housing makes an important contribution to the sustainability and cohesiveness of our towns and villages by providing homes that local people on low incomes can afford to live in.

Potentially there may be some negative sustainability impacts particularly in rural areas, where there will be increased car use and effects on landscape etc. but in terms of achieving a balance between social, economic and environmental sustainability objectives these impacts are considered to be justified because the primary aim of the SHG programme is to help deliver affordable housing to address housing need in Monmouthshire.
